DIRECTOR. If, during the performance of authorized Work, it becomes apparent that the maximum authorized compensation of a particular work order will not be sufficient to cover the cost of the authorized Work, the CONSULTANT shall immediately notify the DIRECTOR, prior to exceeding the maximum authorized compensation, and submit a detailed estimate of anticipated additional costs. The DIRECTOR may, at his discretion, increase the maximum compensation amount of the work order or elect another course of action, including reassignment of the site to another CONSULTANT, if the anticipated additional costs submitted are deemed, at the discretion of the DIRECTOR, to be unacceptable. In the event of site reassignment, the original CONSULTANT will be compensated only for the completed portions of the authorized Work.

It is further agreed that said compensation shall be adjusted to exclude any significant sums by which the COUNTY shall determine that such costs were increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such agreement adjustments shall be made within three (3) years from the date of final billing or acceptance of the Work by the COUNTY, whichever is later.
- 3.9 The CONSULTANT shall prepare and submit invoices as detailed below:

- 23.2 According to Section 2-1076 of the Code of Miami-Dade County, Miami-Dade County has established the Office of the Inspector General (OIG) which may, on a random basis, perform audits, inspections, and reviews of all County/Trust contracts. This random audit is separate and distinct from any other audit by the COUNTY. To pay for the functions of the Office of the Inspector General, any and all payments to be made to the Contractor under this contract will be assessed one quarter (1/4) of one (1) percent of the total amount of the payment, to be deducted from each progress payment as the same becomes due unless, as stated in the Special Conditions, this Contract is federally or state funded where federal or state law or regulations preclude such a charge. **The Contractor shall in stating its agreed process be mindful of this assessment, which will not be separately identified, calculated or adjusted in the proposal or bid form.** The audit cost shall also be included in all change orders and all contract renewals and extensions.

The Miami-Dade Office of Inspector General is authorized to investigate County affairs and empowered to review past, present and proposed County and Public Health Trust programs, accounts, records, contracts and transactions. In addition, the Inspector General has the power to subpoena witnesses, administer oaths, require the production of witnesses and monitor existing projects and programs. Monitoring of an existing project or program may include a report concerning whether the project is on time, within budget and in conformance with plans, specifications and applicable law. The Inspector General shall have the power to audit, investigate, monitor, oversee, inspect and review operations, activities, performance and procurement process including but not limited to project design, bid specifications, (bid/proposal) submittals, activities of the (Contractor/ Vendor/ Consultant), its officers, agents and employees, lobbyists, County and Public Health Trust staff and elected officials to ensure compliance with contract specifications and to detect fraud and corruption.

Upon ten (10) days written notice to the Contractor shall make all requested records and documents available to the Inspector General for inspection and copying. The Inspector

General shall have the right to inspect and copy all documents and records in the (Contractor/Vendor/Consultant's) possession, custody or control which in the Inspector General's sole judgment, pertain to performance of the contract, including, but not limited to original estimate files, change order estimate files, worksheets, proposals and agreements from and with successful subcontractors and suppliers, all project-related correspondence, memoranda, instructions, financial documents, construction documents, (bid/proposal) and contract documents, back-change documents, all documents and records which involve cash, trade or volume discounts, insurance proceeds, rebates, or dividends received, payroll and personnel records and supporting documentation for the aforesaid documents and records.

The Contractor shall make available at its office at all reasonable times the records, materials, and other evidence regarding the acquisition (bid preparation) and performance of this contract, for examination, audit, or reproduction, until three (3) years after final payment under this contract or for any longer period required by statute or by other clauses of this contract. In addition:

1. If this contract is completely or partially terminated, the Contractor shall make available records relating to the work terminated until three (3) years after any resulting final termination settlement; and
2. The Contractor shall make available records relating to appeals or to litigation or the settlement of claims arising under or relating to this contract until such appeals, litigation, or claims are finally resolved.

The provisions in this section shall apply to the (Contractor/Vendor/Consultant), its officers, agents, employees, subcontractors and suppliers. The (Contractor/Vendor/Consultant) shall incorporate the provisions in this section in all subcontracts and all other agreements executed by the (Contractor/Vendor/Consultant) in connection with the performance of this contract.

Nothing in this section shall impair any independent right to the COUNTY to conduct audits or investigative activities. The provisions of this section are neither intended nor shall they be construed to impose any liability on the COUNTY by the (Contractor/Vendor/Consultant) or third parties.

Exception: The above application of one quarter (1/4) of one percent fee assessment shall not apply to the following contracts: (a) IPSIG contracts; (b) contracts for legal services; (c) contracts for financial advisory services; (d) auditing contracts; (e) facility rentals and lease agreements; (f) concessions and other rental agreements; (g) insurance contracts; (h) revenue-generating contracts; (i) contracts where an IPSIG is assigned at the time the contract is approved by the Trust; (j) professional service agreements under \$1,000; (k) management agreements; (l) small purchase orders as defined in Miami-Dade County Administrative Order 3-2; (m) federal, state and local government-funded grants; and (n) interlocal agreements. Notwithstanding the foregoing, the Trust may authorize the inclusion of the fee assessment of one-quarter (1/4) of one percent in any exempted contract at the time of award. The one-quarter (1/4) of one percent shall not apply to any work order where the funding source prohibits its application, and shall not apply to any work order issued under this contract for work

to be performed for any facility owned or operated by the Miami-Dade County Aviation Department.

Nothing contained above shall in any way limit the powers of the Inspector General to perform audits on all Trust contracts including, but not limited to, those contracts specifically exempted above.

The attention of the CONSULTANT is hereby directed to the requirements of AO 3-20 and R-516-96; the COUNTY shall have the right but not the obligation to retain the services of an **INDEPENDENT PRIVATE-SECTOR INSPECTOR GENERAL (IPSIG)** who may be engaged to audit, investigate, monitor, oversee, inspect and review the operations, activities and performance of the CONSULTANT and County in connection with this contract. The scope of services performed by an IPSIG may include, but are not limited to, monitoring and investigating compliance with Contract Specifications; project costs; and investigating and preventing corruption and fraud.

The IPSIG may perform its services at all levels of the contracting and procurement process including but not limited to project design, establishment of bid specifications, bid submittals, activities of CONSULTANT, its officers, agents and employees, lobbyists, county staff and elected officials.

Upon (10) ten days written notice to CONSULTANT from an IPSIG, the CONSULTANT shall make all requested records and documents available to the IPSIG for inspection and copying. The IPSIG shall have the right to examine all documents and records in the CONSULTANT's possession, custody or control which in the IPSIG's sole judgment pertain to performance of the Contract, including but not limited to original estimate files, bid and change order estimates, worksheets, proposals and agreements from and with successful and unsuccessful subcontractors and suppliers, all project-related correspondence, memoranda, instructions, financial documents, construction documents, bid and contract documents, back-charge document, all documents and records which involve cash, trade or volume discounts, insurance proceeds, rebates, or dividends received, payroll and personnel records, and supporting documentation for the aforesaid documents and records.

Labor Rate Schedule

The listed "May 2012" rates were derived from the "February 2008" rate by increasing by 9.11%. The listed "May 2012" rate is the maximum allowable rate. The other rates are for reference only. Personnel should be billed according to the appropriate classification for the task being performed even if actual personnel used belong to a different category. However, personnel cannot be billed to a classification for which they do not meet the minimum qualifications as described in the "Labor Categories" table. The burden for ensuring that personnel meet the minimum requirements is placed on the Contractor. Site Managers should not request documentation to support the Contractor's claims. Verification of qualifications will be a component of all audits performed under preapproval and cost recovery will be pursued if personnel have been billed to a category for which they do not meet the minimum qualifications. Please see the following pages for additional notes concerning this table.

Labor Rate Schedule

Footnotes to "Labor Rates" Table:

¹ The rate for 'Principal' is provided for reference only. This category is not directly billable under preapproval.

² March 2000 Labor Rate Adjustments for the Petroleum Preapproval Program Maximum Compensation Schedule.

In order to avoid the necessity of having to perform routine surveys of labor rate information, the preapproval labor rates have been "aged" by applying the U.S. Department of Labor, Bureau of Labor Statistics (BLS), Employment Cost Index (ECI) to the survey data. The preapproval maximum compensation schedule labor rates are based upon a survey conducted in 1997 by the Florida Department of Labor and Employment Security, Bureau of Labor Market Information. These data reflect actual bare labor rates for the pay period that contained July 12, 1997. The method recommend by DLES to age our survey data is to determine the ECI for the survey period and divide it into the ECI for the current period. Using the data for September 1997 and December 1999 this yields the following adjustment to the labor rates:

$$\text{Dec-99 ECI} / \text{Sep-97 ECI} = 142.2 / 131.0 = 1.0855$$

Therefore the preapproval maximum compensation schedule median labor rates were increased by 8.55% to reflect the changes in labor rates. These revised rates were then used to recalculate the template amounts. This procedure can be repeated to further age the data as necessary. Note that the adjustment is calculated by dividing the ECI for the recent period by the ECI from 1997 and not by cumulatively incrementing the index by the percent change. Ordinarily this method is only used to age data for two years or less and has been shown to be acceptably accurate for that time period.

The ECI from September 1997 was used as the base index because the existing data are from early in the preceding quarter (July 12, 1997) and therefore the September index should capture the changes during the July-September quarter. The ECI is released quarterly about 6 weeks after the end of each quarter.

The ECI used was that for *wages and salaries of private industry* (Table 6 of the BLS news release for the ECI that can be found at <http://www.bls.gov/ecthome.htm>)

The ECI only reflects changes in the labor market and therefore should not be used to age any other type of rate data.

For more information regarding the ECI you can visit the U.S. Department of Labor, Bureau of Labor Statistics web site at www.bls.gov.

³ November 2002 adjustments to the labor rates were performed by increasing the March 2000 rates by 2.5%

⁴ March 2004 adjustments to the labor rates were performed by increasing the November 2002 rates by 5%

⁵ December 2005 adjustments to the labor rates were performed by increasing the March 2004 rates by 4.98% based on the change in the U.S. Department of Labor's Consumer Price Index for all urban users in the Southern region since the prior adjustment.

⁶ February 2007 adjustments to the labor rates were performed by increasing the December 2005 rates by 3.98% based on the change in the U.S. Department of Labor's Consumer Price Index for all urban users in the Southern region since the prior adjustment.

⁷ February 2008 adjustments to the labor rates were performed by increasing the February 2007 rates by 2.91% based on the change in the U.S Department of Labor's Consumer Price Index for all urban users in the Southern region since the prior adjustment.

⁸ May 2012 adjustments to the labor rates were performed by increasing the February 2008 rates by 9.11% based the change in the annual average U.S Department of Labor's Consumer Price Index for all urban users in the Southern region since the prior adjustment.

Additional Notes Regarding the "Labor Rates" Table:

The "Original Survey" wages listed are from the 1997 Environmental Services Occupational Wage Survey Report prepared by the Florida Department of Labor and Employment Security, Bureau of Labor Market Information in cooperation with the Florida Department of Environmental Protection. This report was produced from a voluntary statewide occupational wage survey and was conducted between July 1 and September 30, 1997. The survey was designed to obtain information for 28 occupations common to firms engaged in environmental services activities (see the "Labor Categories" table for a detailed listing of these occupations). These occupations were arranged by occupational groupings into upper, middle and lower level job categories based on job duties, skills, education, and experience levels. Questionnaires were mailed to 4,488 employers with five or more employees who were selected based on the Standard Industrial Classification (SIC) code assigned to these businesses. Responses were submitted by 403 employers.

The firms included in this survey were coded in the SIC major group 87 that covers engineering, accounting, research, management, and related services companies. The data presented here are for the Engineering and Architectural firms only (SIC codes 8711 and 8712, respectively) (Table 2a of the survey report). For a complete copy of the survey results, please contact the Florida Department of Environmental Protection, Petroleum Cleanup Section 1 at (850) 245-8863.

Labor Categories

This table contains the Occupational Groups, Occupational Titles, Position Definitions, Minimum Qualification and Typical Job Duties that were used in the 1997 Environmental Services Occupational Wage Survey and Report as performed by the Department of Labor and Employment Security, Bureau of Labor Market Information. Personnel that are to be billed according to a specified Occupational Group must meet the minimum qualifications for that group, regardless of occupational title. Personnel that do not meet the minimum qualifications for a specified occupational group cannot be billed in that group, regardless of job title. The contractor is responsible for ensuring that their personnel are billed appropriately. Site Managers could not request documentation to support the contractor's claims. The verification of qualifications will be an audit component and misrepresentation of qualifications or occupational group will be considered cause for cost recovery. For a complete copy of the survey and report, please contact the Florida Department of Environmental Protection, Petroleum Cleanup section 2 at (850) 245-8839.
