

Memorandum

Date: July 6, 2016
To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners
From: Carlos A. Gimenez
Mayor
Subject: Request for Additional Expenditure Authority to Contract No. 43220000-WSCA-14-ACS, Data Communications Products and Services

Agenda Item No. 8(F)(11)

Resolution No. R-623-16

Recommendation

It is recommended that the Board of County Commissioners authorize increased expenditure authority of \$8,209,000 to *Contract No. 43220000-WSCA-14-ACS, Data Communications Products and Services*, for the Information Technology Department. The County originally accessed this WSCA-NASPO competitively-established contract through the State of Florida in August 2015 under the delegated authority of the County Mayor. The County utilizes the contract to purchase critical hardware and software from Original Equipment Manufacturers (OEMs) to support the County's vast information technology network infrastructure.

The requested increase in spending authority will be applied to purchase network infrastructure equipment and related services, such as optical network switches, wireless networking, device logging and monitoring, and associated maintenance and technical support services from OEMs or their authorized resellers. Network and optical data switches will be purchased through this contract for the continued modernization of the countywide network, providing improved reliability and capacity, and ensuring uninterrupted access to the County's intranet and internet.

Specific projects covered under this request include (1) necessary upgrades to outdated network components for the water plant supervisory control and data acquisition systems used by the Water and Sewer Department, and (2) replacement of obsolete wireless networking equipment for the Aviation Department, providing secure wireless services for employees, public safety personnel, tenants, concession vendors and the general public.

This request for increased spending authority will cover the consolidation of purchases for equipment and services previously procured through multiple contracts through Fiscal Year 2017-18, allowing the Information Technology Department to closely manage and track spending. Upon approval of the modification, this contract will serve as the primary vehicle for the purchase of network hardware from OEMs.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

The contract was established with an original allocation of \$500,000 and expires on May 31, 2019. The contract was modified under delegated authority for \$495,000, resulting in the current \$995,000 allocation. The requested modification will authorize additional expenditure authority of \$8,209,000, increasing the total contract value to \$9,204,000. The requested allocation is based on projected needs for identified projects. These projects were compiled by the Information Technology Department over the last year following a countywide assessment of departmental needs for OEM hardware, software and associated support services. Additional modifications may be requested as future projects are identified.

Department	Existing Allocation	Additional Allocation Requested	Modified Allocation	Funding Source	Contract Manager
Information Technology	\$995,000	\$8,209,000	\$9,204,000	Internal Service Funds	Julian Manduley
Total:	\$995,000	\$8,209,000	\$9,204,000		

Track Record/Monitor

Sherry Y. Crockett of the Internal Services Department is the Procurement Contracting Officer.

Delegated Authority

The County Mayor or County Mayor's designee will have the authority to exercise all provisions of the contract pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.
