Memorandum

Date: January 19, 2022

To: Honorable Chairman Jose “Pepe” Diaz
and Members, Board of County Commissioners

From: Daniella Levine Cava *Daniella Levine Cava*
Mayor

Subject: Approval and Ratification of 2020-2023 Collective Bargaining Agreement
Between Miami-Dade County and the Transport Workers Union (TWU) Local
291 Union

Recommendation

It is recommended that the Board of County Commissioners (Board) approve and ratify the attached 2020-2023 Collective Bargaining Agreement (Agreement) between Miami-Dade County (County) and the Transport Workers Union (TWU) Local 291 (Union).

The attached Agreement was ratified by the bargaining unit on November 30, 2021. The attached Agreement is submitted for your approval and ratification because the Board’s ratification is necessary to make the Agreement binding on the parties under state law.

The requirements of Resolution R-130-06, requiring that any contract between the County and third parties be executed and finalized prior to their placement on a Board agenda, may be waived by the Board upon a recommendation by the County Mayor that it is in the best interest of the County to do so. It is recommended that these requirements be waived for this Agreement because the collective bargaining agreement is not effective until it is ratified by the Union and the Board. Accordingly, this Agreement will be executed by the parties subsequent to its approval and ratification by the Board and the Union.

Scope

The impact of this agenda item is countywide.

Delegation of Authority

The resolution delegates authority to the Mayor to execute, implement and administer the 2020-2023 Collective Bargaining Agreement between the County and the Union.

Fiscal Impact/Funding Source

The fiscal impact associated with the various provisions included in this agreement, from FY 2020-21 through FY 2022-23, is estimated at \$31,873,770. Approximately fifty percent of these concessions were contemplated in the FY 2021-22 Adopted Budget and the Five-Year forecast. The remaining balance are programmed in the reserves of the General Fund and departmental reserves and carryover and are funded primarily with one-time revenues. If approved, any adjustments to the budget and Five-Year forecast would be included in a mid-year and/or end-of-year budget amendment that would include the Transportation Smart Plan. In order to remain competitive in the marketplace, these CBA adjustments are required to retain and attract individuals to the Transit workforce. The Board’s action in adopting the Better Bus Network will increase the Department’s need to retain and attract Bus Operators. Vacancies in this classification may result in missed service or increased overtime expenses.

Track Record/Monitor

Tyrone W. Williams, HR Division Director for the Human Resources Department, monitors and oversees the administration of this collective bargaining agreement.

WHEREAS, Miami-Dade County is obligated to operate its transit facilities economically and efficiently for the convenience and safety of the public; and

WHEREAS, harmonious and stable labor relations between the County and its employees are essential to efficient and economical operations; and in the considered judgment of the County, harmonious and stable labor relations may be achieved and maintained by permitting the employees to organize, to bargain collectively, and present their grievances through representatives of their own choosing, to the extent permissible and available under the law; and

WHEREAS, the County recognizes the Union as the representative for the purpose of collective bargaining of those employees of the Department of Transportation and Public Works, formerly known as Miami-Dade Transit and hereinafter referred to as "DTPW," whose classifications fall within the bargaining unit as set forth herein; and

WHEREAS, the County has met with the officers and representatives of the duly designated Union, and the parties have fully considered and discussed the wage rates, the hours of work, the sick pay benefits, vacation benefits, and other conditions of work and employment applicable to the employees in said bargaining unit to the extent permissible and available under the law, and with primary concern for the public interest; and

WHEREAS, in consideration of the foregoing and of the agreement of the Union;

- a) To cooperate with the County in the maintenance of efficient, economical, safe and dependable transportation service;
- b) To process employee grievances exclusively through the machinery provided in this Agreement without limitation or infringement on any employee's rights under the Civil Service or other law, and to exercise responsible discretion in the submission of grievances so that the grievance machinery may function effectively and promptly to the end that the maximum of fairness and equity may be achieved in the treatment of employees; and
- c) Not to request further changes in wages or working conditions for the period of three (3) years beginning October 1, 2017 20 through September 30, 2020 23, except as provided herein.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, the parties hereto have agreed as follows:

ARTICLE I - BASIC PROVISIONS

ARTICLE I.1 DECLARATION OF PURPOSE AND INTENT

The County and the Union in signing this Agreement are governed by their mutual desires and obligation:

- a) To assure to the people of Miami-Dade County, efficient, economical, safe and dependable transportation service.
- b) To provide employees of the County with wages, hours, safe working conditions and grievance procedures.
- c) To protect the interest of the public through a definite understanding of the respective rights, duties, privileges, responsibilities and obligations of the County, the employees and the Union.

It is the intention of the Agreement to provide for salaries, fringe benefits and other terms and conditions of employment.

It is further the intention of this Agreement to prevent interruption of work and interference with the efficient operations of the County and to provide an orderly, prompt, peaceful, and equitable procedure for the resolution of grievances and the promotion of harmonious relations between the County and the Union.

Upon ratification, the provisions of this Agreement will supersede Personnel Rules, Administrative Orders and other rules and regulations in conflict herewith.

ARTICLE I.2 BARGAINING UNIT

The County recognizes the Union as the exclusive representative of the employees within the Bargaining Unit covered by this Agreement in accordance with PERC Certificate No. 359.

The Bargaining Unit covered by this Agreement is described as all non-supervisory employees in positions defined in general as "transit operating employees" including the classifications listed on Attachment A.

It is further agreed by both parties that as new or modified position classifications for "transit operating employees" for DTPW are created by action of the Board of County Commissioners, the question of inclusion or exclusion if any within the Bargaining Unit shall be discussed by the parties and, if agreement cannot be reached, shall be resolved in accordance with Florida Collective Bargaining Law. The same procedure shall apply to new positions created by Miami-Dade County as a result of additions to the Transportation System to be implemented by Miami-Dade County.

Probationary and non-permanent employees shall continue to be governed by rules and regulations in effect prior to the execution of this Agreement and there shall be no change in any of the wages, hours, or terms and conditions of employment of such employees as a result of this Agreement unless such changes are specifically stated in this Agreement.

Employees of DTPW are not prohibited from holding membership in any association or union provided such association or union is operating in compliance with the laws of the State of Florida and does not assert a right to strike against the County. DTPW or any of its officers or supervisors may not differentiate amongst, discriminate against, interfere with, restrain, or coerce employees because of membership or participation in the affairs of any association or union of their choosing.

It is agreed that there shall be no discrimination against an employee covered by this agreement by the Union or the County because of race, color, sex, creed, national origin, marital status, age, disability, sexual orientation, political affiliation, religion, membership in the Union, or for engaging in any lawful Union activities.

Written requests for cancellation of payroll deductions for Union dues will be honored by Miami-Dade County in accordance with legal requirements.

ARTICLE I.4 STRIKES AND LOCKOUTS

- a) It is agreed that during the term of this Agreement, there shall be no strike, slow down, cessation, or stoppage of any part of the County operation on the part of the Union, and no lockout on the part of the County for any cause whatsoever in accordance with this Agreement and the provisions of Florida Collective Bargaining Law (FS 447).
- b) The County agrees not to attempt to hold Local 291 or International Transport Workers Union financially responsible or bring suit for damages against either or both, for a work stoppage;
 - (1) Provided the Union immediately after learning of such work stoppage, notifies the County in writing and posts on the Union bulletin board, a notice that such work stoppage is not authorized, encouraged, supported, sanctioned, or condoned by the Union.
 - (2) Provided further that such work stoppage is not in fact authorized, encouraged, supported, sanctioned, or condoned by the Union.
 - (3) Provided further that the Union has used every reasonable means to prevent or terminate such action
- c) It is expressly agreed by the parties hereto that nothing contained in this Agreement shall be construed or used to form the basis for a claimed breach of the Agreement to support any action for damages against the other party unless and until the party claiming the breach of this Agreement has notified the other party hereto in writing of the existence of such contention and the latter party has failed or refused to take immediate steps to correct the same.

ARTICLE I.5 CHECK OFF

During the life of this Agreement there shall be no obligation on the County or the Union to negotiate with respect to alteration, modification, or addition to this Agreement except as stated herein.

ARTICLE I.9 SEVERABILITY

Should any part of this Agreement or any provision herein contained be rendered or declared invalid by reason of any existing or subsequently enacted legislation, governmental regulations or order, or by a decree of a court of competent jurisdiction, such invalidation of such part or portion of this Agreement shall not invalidate the remaining portions thereof and the same shall remain in full force and effect.

In the event a portion of this Agreement is declared invalid, the parties agree to meet immediately, and if possible, to negotiate substitute provisions for such parts or portions rendered or declared illegal or invalid. Negotiations would be limited to the portion(s) declared invalid.

ARTICLE I.10 OUTSIDE CONTRACTS

The County shall have the right to contract for outside work or services which in its sole judgment cannot be accomplished economically or effectively with its regular work force.

Except in emergencies or other situations of immediate need, whenever DTPW is considering contracting out work of any kind it shall first discuss the intended contract with the Union in a regular or special Labor Management Committee meeting in which DTPW shall discuss its

reasons for the intended subcontracting. The Union may, within twenty (20) days or less if possible, propose an alternative plan by which the work may be done economically and efficiently by appropriate members of the Bargaining Unit. If the County agrees, it may accept the Union proposal on a trial basis, the length of which the County shall have the sole discretion to determine. Thereafter, if not satisfied with the results of the trial period, DTPW shall have the sole discretion to modify or carry out its original intended contracting out. The intent of this provision is to enable the parties to discuss and attempt to agree upon a substitute plan for subcontracting without altering the County's discretion. The County agrees that the time set for a trial basis of an agreed proposal shall be adhered to except under emergency circumstances. DTPW will advise the Union of requests for bids which contain major labor elements relative to the maintenance of buses. A copy of such requisitions will be furnished to the Union.

Nothing in this article shall prevent the County from receiving the benefits of work or service available to it through and under warranty agreements and this article shall not apply to such warranty work and all claims thereunder or any extension thereof.

Nothing in this article shall limit the discretion of the County and DTPW to take emergency action in accordance with ARTICLE III.10.

ARTICLE I.11 TERM OF AGREEMENT AND REOPENING

This Agreement shall be effective October 1, ~~2020~~ 2017, and shall remain in force through September 30, ~~2023~~ 2020, upon ratification by the parties.

All malfunctions shall be reported in writing on the forms provided.

A secured storage space will be provided by DTPW for storage of personal tools and equipment belonging to employees on vacation or extended leave periods. Management also maintains the right to hold tool box, locker, and other inspections on DTPW property with a Union representative present in order to insure the security and safety of tools and equipment belonging to both the employees and DTPW. No unreasonable or arbitrary inspection will be made.

ARTICLE V.19 ISSUANCE AND RETURN OF TOOLS

Whenever an employee checks out an item or tool from the stockroom he shall sign a "Tool Receipt" or submit a tool check and shall, when no longer required or no later than the end of his/her shift, whichever occurs first, return said tools so that they will be available for use by another employee. It shall also be the duty of the employee returning equipment to the stockroom to have it in a clean condition. Employees shall be held responsible for loss or damage to tools through negligence or misuse by the employee.

Whenever a stores employee issues an item or tool from the stock room he shall issue a "Tool Receipt" or equivalent form to the maintenance employee. This receipt shall contain the name and/or description of the item(s) issued and the quantity.

ARTICLE V.22 UNIFORMS AND SAFETY SHOES

The employees' regulation uniform furnished by the County shall be worn and changed in the manner prescribed by DTPW regulations. Employees shall at all times, while on duty, wear the prescribed uniform. The uniform shall be kept in a reasonably neat and clean condition. DTPW will provide one pair of safety shoes per year and a jacket for cold weather once every two years to employees who work in areas deemed to require same. At least sixty (60) days prior to the expiration of the current vendor contract, DTPW and the union will meet and mutually agree as to all jacket specifications which will be let out for bid.

ARTICLE V.23 WORK ASSIGNMENT SENIORITY ORDER

Seniority order for the purpose of employee work assignments shall be determined solely upon continuous length of employment with DTPW within the particular classification. Service shall be computed from date of employment in that classification and a roster shall be kept which shall list the name of each employee in each classification in order of his/her date of employment and his/her number on that list.

ARTICLE V.24 LINE-UPS

There shall be at least two (2) line-ups annually. One of these will be a general line-up in December and one will be a divisional line-up in June, with such additional line-ups as DTPW deems necessary to meet current work requirements. If at any time after twenty-one (21) calendar days an employee's work is judged unsatisfactory by DTPW such employee may be reassigned within classification and shift. Each pick assignment shall remain in effect for the duration of the line-up. Before any line-up shall be posted, the union shall be granted the opportunity to review same up to ten (10) days prior to posting and to make pertinent comments and suggestions. After the posting of the line-up for fifteen (15) days, the picking will then be started by classification seniority in groups. A maximum of three (3) days shall be allowed for picking. Picking shall be finished at least three (3) weeks prior to effective date of line-up. The

effective date shall be included on the posted line-up. The new line-up will go into effect on that date.

In the event there is disagreement between the Union and management concerning all, or any part, of said line-up the dispute shall not prevent the line-up from becoming effective as scheduled but shall be treated as a grievance and settled accordingly.

DTPW shall post a list of all available picks as to primary assignment, facility location, working hours and days off, except that "Relief Assignments" may be posted on line-ups for all classifications. The number will be limited to a maximum of 10% of all positions for Bus Maintenance, Facilities, and Stores. DTPW reserves the right to have employees perform duties other than the primary assignment based on operational needs, the availability of work, and the availability of experienced employees to do the work, as determined solely by DTPW management, provided this determination is not exercised in an unreasonable and arbitrary manner.

Movement between divisions, if needed for relief on an extended basis, will be as in ARTICLE V, 26 or on a voluntary basis and in reverse order of seniority if no volunteers are available. Employees shall be notified as to the time and place they are scheduled and expected to appear.

However, if an employee cannot attend he will be expected to leave with his/her supervisor a list of at least five (5) choices in order of preference. Any employee who fails to provide a list of choices will be assigned duty as similar as possible to the one chosen at the last previous line-up. If an employee cannot pick in person because of an emergency, such employee shall be allowed to advise the office of his/her preferences by telephone.

Employees who are absent on the day a line-up is posted and have not returned by the third day after posting, shall be sent a notice of the date picking of the line-up will begin. This will be done by certified mail. Employees in a non-pay status on indefinite absence or leave at the time of a line-up will be allowed to pick.

Transfer Between Locations - Employees may be transferred from one facility to another between line-ups and thereafter shall work on a regular basis at the new facility. Volunteers will first be requested from employees in the classification involved. Existing vacancies, after using volunteers, will be filled by assigning employees in that classification in reverse seniority order. First preference for open jobs between line-ups will be given to the most senior employee within the classification, who requests the opening. An employee may make only one such change between line-ups.

DTPW shall be able to post for bidding a maximum of 50% of all positions as four day work weeks at 10 hours per day. Employees assigned to this schedule will receive at least two (2) consecutive days off.

ARTICLE V.25 VACATION SELECTION

Vacation schedules shall be selected at each facility by classification seniority between November 15 and January 15. All vacations are subject to approval by DTPW.

ARTICLE V.26 REASSIGNMENTS AND OPEN WORK

- A. **Emergency Assignment** — In the event of an emergency, as determined by the Superintendent, employees may be reassigned for up to seven (7) calendar days. If during the above seven days the Superintendent determines that a temporary adjustment is needed in work assignments, and then temporary reassignment procedures shall apply. An emergency shall be as defined in ARTICLE II.

- B. **Temporary Reassignment** — In the event a temporary reassignment of work is necessary as determined by the Superintendent, employee may be reassigned for up to fourteen (14) calendar days. Temporary reassignments, after using volunteers, will be filled by assigning employees in that classification in reverse seniority order. After consultation with the shop steward, temporary reassignments may be continued for a length of time mutually agreed upon. If during this time DTPW determines that a permanent adjustment is needed in work assignments, DTPW will post the open work for bids. The temporary reassignments shall be continued until the new bid is effective.

- C. **Open Work** — When DTPW decides that open work shall be posted for bids, any employee in the classification will have the right to exercise his/her seniority to bid on such open work. If at any time after twenty-one (21) days an employee's work is judged unsatisfactory by DTPW, such employee may be reassigned within classification and shift.

ARTICLE V.27 BUS MAINTENANCE, FACILITIES, AND STORES TRAINING PROGRAM

DTPW and the union agree that the training and development of employees within this bargaining unit is mutually beneficial, and that the DTPW will encourage and assist employees in upgrading themselves and qualifying for a promotion.

To achieve the mutual objective of qualifying bargaining unit employees for upward mobility within the transportation field, the parties agree to meet at the request of either party for the purpose of exchanging information concerning the overall training of employee within the unit. The union will make recommendations to the County relative to the training program(s) and the County will consider the same.

ARTICLE V.28 TRANSIT RADIOS

The Operating Instructions for the Transit Mobile Radio System are a part of the rules and regulations of DTPW. Any employee violating these rules or other misuse of the radio system will be subject to disciplinary action.

ARTICLE V.29 OVERTIME EQUALIZATION

Giving consideration to classification, shift, and work area, DTPW shall offer any overtime work deemed necessary as equally as possible to all employees.

Overtime shall be distributed on a rotating basis, beginning with the senior employee with the lowest cumulative total hours. Cumulative totals will be reset each line-up. Regular work schedules will not be changed solely to avoid the payment of overtime.

ARTICLE V.30 SUPERVISORS

Supervisors and non-bargaining unit employees shall not perform any duties that are duties normally assigned to bargaining unit employees except in case of an emergency as defined in Article II (d).

ARTICLE VI - BUS OPERATORS - WORKING PROCEDURES

ARTICLE VI.1 OPERATOR'S RESPONSIBILITY

It shall be the responsibility of the operator to devote full attention to the safe, smooth, and efficient operation of equipment and to avoid discomfort or inconvenience to the passengers. Subject to orders of persons of higher authority, the operator has charge of the bus and shall be responsible for:

- (a) Adherence to route, schedules, and time points.
- (b) Knowledge and observance of traffic laws and safety regulations.
- (c) The safety of boarding and alighting passengers.
- (d) The collection, registration, and proper accounting of all fares as required.
- (e) Proper display of all required signs and identifications.
- (f) The adjustment of lighting, heating, ventilation, and cooling for the comfort of passengers.
- (g) Distribution of route finders and other transit informational publications on buses as directed by DTPW.
- (h) Performance of such other duties as may from time to time be prescribed by DTPW.

An operator may grieve any unreasonable order by a higher authority under these provisions.

ARTICLE VI.2 LINE-UPS AND RUNS

Line-ups and Runs shall be governed in accordance with the following procedures:

- (a) DTPW will provide for at least one (1) general line-up each year. This line-up shall be effective in November. DTPW will provide for at least ~~one (1)~~ two (2) more line-ups per year. The date of the second and third line-up will be ~~June~~ March and July. Unless necessitated by service adjustments and/or other operational requirements, the ~~June second and third~~ line-ups shall be a divisional line-ups. Additional line-ups may be scheduled as deemed necessary by DTPW.

The November pick shall determine facility locations and vacation schedules as well as work assignments. Management and labor will develop an efficiency initiative to reduce the total time of line-ups.

- (b) **Transfer Between Locations** - Operators may be transferred from one facility to another between line-ups and thereafter shall work on a regular basis at the new facility. Volunteers will first be requested. Existing vacancies, after using volunteers, will be filled by assigning extra board men in reverse seniority order. Employees being permanently transferred will be given 48 hours prior notice.

Temporary transfers of extra board men can be implemented by DTPW between facilities in one week increments.

Operators may volunteer to be assigned work at any location on a daily basis if there is a shortage of operators at another location.

If voluntary assignment to another location is made after an employee reports for work at his/her normal location, reasonable travel time will be paid if applicable.

Transfer Work - Operators shall be required to work any work that is normally assigned to another division subject to the following procedures: Volunteers will be requested first from among extra board and extra list operators. Failing this, reverse seniority assignments will be made from the extra board for that operating day.

- (c) **Unfilled Work Assignments** - Unfilled work assignments or emergency relieves will be assigned first to any available extra board operator during his/her normal work hours, next to an extra list operator, then to any available operator.
- (d) **Special Services** - With regard to special services or events (Park-Ride), DTPW will post a notice requesting operators to sign up for these services for a period of time as stated on the notice. Each division will then post this list in seniority order, which will apply for the first event. After the first event the list will rotate on an established basis. The Charter Service for these events will also be operated from this list.

DTPW shall attempt to secure sufficient operators to fill such needs on a voluntary basis, however back-to-back events (events occurring on consecutive days) will be treated as a single event and the list rotated after the last event involved. If, within 48 hours of the event, the DTPW has not secured sufficient operators, DTPW shall have the right to call in operators scheduled to be off duty on that day in reverse seniority order.

- (e) **Charter** - The assignment of charter work shall be governed by the following procedures: (Except as indicated in ARTICLE VI.2 (d)).
 - (1) Charters of a short duration (four hours or less) when determined by the Dispatcher shall be tied in with other work so as to coordinate the starting time and location of charters with the availability of operators and buses.
 - (2) Charter work may be assigned to Regular Operators on their regular work days only when Extra Board Operators are not available. On their days off, Regular and Extra Board Operators will be treated equally as to charter assignments on a first come first served basis.
- (f) **Seniority Roster** - Seniority order for purpose of line-up within the classification bus operator shall be determined solely upon length of continuous employment with DTPW in that classification. Such service shall be computed from date of employment and roster shall be kept which shall list the name of each operator in order of this date of employment and his/her line-up number assigned in accordance with his/her position on the roster. The number so assigned shall be used to determine the order in which he shall be accorded an opportunity to select the assignment of his/her choice.

Nothing in this rule shall be inferred, considered, or construed as granting seniority rights to former employees of any predecessor companies which may in the future be acquired by DTPW nor shall it change the line-up seniority list then in effect upon adoption of this procedure.

(g) **Union Review of Line-up Prior to Posting** - Before any line-up shall be posted, the executive committee of the Union shall be granted the opportunity to review same at least fourteen (14) calendar days prior to posting. Such line-up shall be complete and include the following per division:

- Preliminary Schedule Cards for Trippers and Express Routes.
- Manpower hours.
- Split runs.
- Straight runs.
- Open work.
- Estimated extra board list (including A.M. report times & P.M. time slots).
- Estimated number of part-timers.
- Travel time sheets.
- Rotary

When the computer is in full operation preliminary dispatch sheets and run sheets will be furnished. Any pertinent comments or suggestions by the Union for changes in the next line-up should be made thirty (30) days after the effective date of the existing line-up (15 days for unscheduled line-up). Between 30-45 days after input from the Union, another meeting with the Union and Planning and Scheduling personnel will be held. In the event there is disagreement between the union and management concerning all, or any part, of said line-up, the dispute shall not prevent the line-up from becoming effective as scheduled but shall be treated as a grievance and settled accordingly. If an error by management occurs in the Operator line-up that could not be detected by the union, from such line-up, which necessitates a second pick by an Operator, such Operator shall be paid for actual time lost as a result of being relieved from this run.

(h) **Posting of Runs** - DTPW shall post a list of the runs which shall include the amount of daily fringe time for each run, (except for swing-runs which will be shown as a total fringe for the week). All Operators shall be notified as to the time and place of a line-up and shall be expected to appear as scheduled; provided, however, that in the event an operator cannot attend, he shall be permitted to leave with the dispatcher on duty a list of choices in order of preference. Employees who are absent on the day a line-up is posted and have not returned by the fifth day after posting, shall be sent a notice of the date picking of the line-up will begin. This will be done by certified mail, within seven days of posting.

Buses will be assigned to runs after the line-up is picked. Rotation of buses for equalization of mileage and other considerations deemed necessary by DTPW will be done at their discretion. The Union will be notified of major rotations; however, buses held in to be serviced will not be included in such notification.

(i) **Operator's Responsibility** - At line-ups it shall be the responsibility of each operator to thoroughly study the line-up particularly just prior to his/her group's designated picking time, and narrow down his/her choice of runs and off days.

The object is to facilitate the pick. Each operator will be allowed a maximum of ten (10) minutes to make his/her selection. After ten (10) minutes the next operator will be called. The operator who required more than ten (10) minutes will still be able to pick when he makes his/her choice, however, his/her seniority position will have been relinquished for that pick.

- (j) **Operator to Provide a List of Choices** - Any operator who fails to provide a list of choices will be assigned a run as nearly similar as possible to the one chosen at the last previous line-up.

Any operator who has missed the last half of a current line-up for medical reasons or leave of absence shall not be allowed to pick. If there is a projection of a return to work (by the doctor in the case of medical leave) prior to the expiration of the first one third of the new line-up, the operator will be allowed to pick or will be assigned. Operators returning to duty who were not allowed to pick pursuant to the conditions set forth above shall make a temporary pick from the open runs or take his/her position on the Extra Board until the next line-up. In this instance, payment will be based on the highest run the operator could have picked during the line-up. In the case of the returning operator who works the Extra Board, payment will be based on the highest run the operator could have picked or the actual hours worked, whichever is higher.

- (k) **Line-up Assignments to Remain Posted** - The new line-up assignment shall remain posted for the duration of said line-up, protected by a clear covering.

- (l) **Procedure For Changing Selection and Exceptions** - Any run or piece of work that is selected in the proper manner shall not be changed after it has been selected unless there is prior discussion with a least two Union officials. If either side suggests, this should include a check of the running time by representation of DTPW and the Union, in an effort to reach agreement. If adversely affected, the operator shall also be consulted prior to the change. However, adjustments may be made in schedule to improve service or operating conditions for the operator with prior notice to the operator and the Union. The following exceptions to this procedure are hereby established:

- (1) A list of up to thirty-five (35) A.M. and thirty five (35) P.M. trippers and open pieces may be offered to regular operators in addition to their regular run selection.
- (2) Such trippers and open pieces may be changed, eliminated, or discontinued by DTPW
- (3) In the event the A.M. or P.M. tripper or open piece of work selected by the regular operator is no longer available, an alternate tripper or open piece of work, which approximates the original selection in terms of pay time, will be offered as a substitute.
- (4) In the event an operator picks an open piece of work which precedes or follows the run he has picked and he is "relieving himself/herself," the run and open piece will be combined and no travel time will be paid to or from the garage so long as he works the run and open piece, except as provided herein. If he no longer works the open piece or if the open piece is returned to the extra board for any reason, travel time will be paid whenever the two pieces are worked separately. If the operator does not bring the bus to the garage at the end of his/her second piece of work, applicable travel time will be paid. A bus operator picking a tripper or open piece of work, in addition to his/her run, on which the wait and travel times exceed the intervening time between the two pieces of work, such operator will be paid the actual wait and travel time between the two relief points based on the last available bus taking him/her to the point where he picks up the second piece of work.

- (5) Bus operators shall not be paid for the tripper or open piece when on any type of leave or when the tripper or open piece is not worked. Except when such bus operators are assigned by DTPW or a breakdown occurs, which in either case causes the bus operator to be unable to complete this tripper assignment, he will still be paid for said tripper. If tripper is not run because of an equipment shortage, the bus operator will be paid for the tripper or two hours at applicable rate of pay (whichever is less).
- (6) Being late for the tripper or open piece will not cause the operator to lose his/her regular run.
- (7) If the operator is late for the tripper or open piece more than three (3) times during the line-up, the tripper may be taken from him/her. No other penalty will be assessed for lateness on these trippers.
- (m) **Restroom Facilities** - Wherever possible DTPW shall make arrangements for restroom facilities for operators at the end of each route.
- (n) **Regular Runs** - A regular run shall be defined as regular work chosen at line-up or assigned as provided in these rules. Regular runs shall include straight runs and split runs. A **straight run** includes continuous work from the time the operator reports until he is relieved or returns to the garage.

A **split run** consists of two parts and each part may be on a different route. On split runs, intervening time in excess of 90 minutes will be paid at straight time. The minimum unpaid intervening time will be 30 minutes.

Wait and travel on a split run where each part is on a different route will be based on last available bus plus wait time at relief point for next bus.

Eighty (80) per cent of the regular runs shall be straight runs and twenty (20) per cent may be splits.

- (o) **Combination Runs** -- It is the expressed intend of the parties to develop additional work schedule procedures which will result in pre-assigning as much work as practical on a daily or weekly basis.

DTPW will develop, in addition to the regular runs heretofore described, a group of Combination Runs. These runs shall be scheduled and paid as follows:

Runs shall include fifteen (15) minutes bus preparation time for each piece of work comprising the combination plus a maximum of eight and one-half (8 ½) platform hours within a total elapsed time of twelve hours.

Work beyond the twelfth hour will be at overtime in all cases.

When platform time within the 12 hour spread exceeds 8 hours, daily overtime guarantee applies. Pay for combination runs will be a minimum of 45 hours of pay at straight time rate.

For example, the pay for a week could be made up of the following:

- (1) 41.25 Hours of work time
2.50 Hours of report time
1.25 Hours overtime premium pay
45.00 Hours at straight time rate
- (2) 37.00 Hours of work time
2.50 Hours of report time
5.50 Hours of paid unassigned time
45.00 Hours of straight time rate

Should an operator with paid unassigned time in his/her daily work schedule desire to work during the intervening period of his/her combination run, overtime or added pay will begin after paid unassigned time for that day is made up by work time. Any work performed at either end of the combination run will come under the daily overtime provision of this Agreement.

If an operator with a combination run, which has paid unassigned time, works an assignment which is authorized by the Dispatcher, a Supervisor or Starter during his/her intervening period, payment for such work will be above his/her run pay at the applicable rate of pay. If an operator is late returning to the garage at the end of his/her combination, he shall be paid above his/her run pay at the applicable rate of pay.

(p) **Run Cancellation** - Any operator holding a regular run who reports as scheduled in proper attire and condition to work but whose work has been canceled shall be paid no less than full pay for the assigned run and shall hold himself/herself available for other assignments during the time for which is paid unless such operator:

- (1) Has been notified that the emergency procedures prescribed in ARTICLE III.10 are in effect.
- (2) Is being held off for investigation.
- (3) Is under penalty suspension.
- (4) Does not hold himself/herself ready for other work which may be assigned by the Dispatcher and which terminates prior to or at the time his/her regular assignment would have terminated. Any time worked beyond such termination will be compensated at one and one-half times the base hourly rate.

In case of permanent cancellation of a run, such employee(s) shall have equal priority with employees covered by ARTICLE III.21.

DTPW may cancel some trippers consistent with ridership decreases on the following holidays and days prior to or subsequent to major holidays: Martin Luther King's Birthday, Washington's Birthday, Veteran's Day, Columbus Day, Friday after Thanksgiving, Christmas Eve, December 26th and New Year's Eve. In such an event, affected operators may be reassigned to a tripper on routes where additional service would be beneficial. There may be a thirty (30) minute variation in check-off times on these reassignments; however there will be no loss in pay and pay shall be at the applicable rate.

(q) **Error in Assignment** - In case of error in assignment, the operator may be held until all work is covered (A.M. operators until A.M. work is covered, and P.M. operators until P.M.

work is covered). He will be used only after all extra board operators are assigned work. Work extended beyond his/her normal relief time will be paid at the applicable rate.

If the dispatcher makes an error in assignment, and the regular operator is not late, DTPW may provide transportation of the regular operator to his/her run at the closest relief point or an agreed upon point whereupon the Extra Board Operator is relieved.

The Extra Board Operator will return to the garage and will be guaranteed the compensation of the previous run if the operator reports to the Dispatcher for further assignment.

If the regular driver is late but begins the assignment and an Extra Board man has been assigned by the Dispatcher, then the regular driver will be relieved and the Extra Board man will carry out the assignment. In this instance the regular driver will not be guaranteed compensation for that run but will be paid for work done after reporting to the Dispatcher.

- (r) **Pass-up of Runs** - Any operator who so desires may pass up regular runs at line-up time and choose to work the extra board. Regular runs remaining open after all operators have had a chance to pick will be assigned to operators in reverse seniority order by the Division Superintendents.
- (s) **Open Runs** - The following procedures shall govern the assignment of open runs, non-rotating board slots and combination runs:
 - (1) Whenever these assignments become permanently open between line-ups or any new run is created, it will be offered and may be selected by operators on a system-wide seniority basis. An operator may make only one such change between line-ups.
 - (2) Any operator selecting the extra board may also bid for open runs or runs created. Bids shall be on the basis of seniority.
- (t) **Duty of Operator** - Selected Run - It shall be duty and obligation of any operator after selecting a regular run of his/her choice to familiarize himself/herself with the route, schedule, transfer arrangements, zone fares or any other special characteristics of that run. An operator's error resulting from lack of such knowledge may be deemed cause for disciplinary action.
- (u) DTPW will incorporate paid **recovery time**, in an amount approximately ten percent but not less than eight percent round trip running time, into each run. The Labor Management Committee as provided for in Article III.1 of this Agreement will study runs considered to have insufficient recovery time. After runs have been checked, and it is agreed that some adjustment is needed, a period of ten days will be allowed for the schedule to be adjusted and made up. The effective date of the revised schedule will depend upon the type of line-up or procedure necessary to institute the said schedules in accordance with the contract.

Within ninety (90) days of ratification of this Agreement, the County will complete a schedule analysis of all bus routes and meet and confer with the Union to discuss recovery time. Any changes to recovery time must be mutually agreed to by the parties.

- (v) **Distribution of Work Between Operating Divisions** - DTPW will make a reasonable effort to equitably distribute extra work such as Charter, Park-Ride, and Picked Trippers among the bus operators of each Operating Division.
- (w) The parties recognize that only employees classified as Bus Operators will operate buses in a passenger carrying capacity. This includes special projects and demonstrations which involves passengers. This is not to preclude Instructors and maintenance employees from performing their tasks, which include test demonstration of new equipment and retrofit modification. DTPW reserves the right to use supervisor personnel for special emergency requests (as determined by the General Superintendent of Transportation) when a bus operator is not available. The Union will be notified of such action as soon as possible.
- (x) **New Operators** - Part-time operators changed to full-time, or newly hired full-time operators shall be assigned to divisions as needed until the next regular line-up.

ARTICLE VI.3 WORKING PROCEDURES – OPERATORS

The following working procedures shall apply to operators:

- (a) **Reporting for Work - Operators** - Each operator, both A.M. and P.M. assigned a run or piece of work shall report to the Transit Operations Supervisor at the place and at the time specified and if bus leaves the garage shall be ready to depart as scheduled.
- (b) **Failure to be Relieved** - It shall be the duty of each operator when a relief operator has failed to make a "relief" to immediately report the matter to the Rail Yard Master/Bus Traffic Controller. If the relief operator has not checked on, or if the Rail Yard Master/Bus Traffic Controller is experiencing manpower problems which may cause a relief to be made late the Rail Yard Master/Bus Traffic Controller shall notify the operator who is scheduled to be relieved.
The operator shall then be required to continue the run until relieved, provided, however, that Rail Yard Master/Bus Traffic Controller shall cause such relief to be made within not more than three hours. Failure of any operator to notify the Rail Yard Master/Bus Traffic Controller or to continue as required will be considered cause for disciplinary action.
- (c) **Excuse From Work** - The Rail Yard Master/Transit Operations Supervisor may excuse an operator from his/her run or report when, in his/her judgment, it will not adversely affect operations and all pieces of work are covered. The Dispatcher/Rail Yard Master will excuse operators in order of request provided that a request shall not be made later than forty-five (45) minutes prior to the operator's report time. Operators who are excused must be paid holiday leave for such excused time from their holiday bank accrual. Operators who are excused and have no holiday bank accrual will be paid annual leave for such excused time, provided the request for annual leave pay is made to the Rail Yard Master/Transit Operations Supervisor or his/her Division Superintendent in advance. Operators requesting annual leave pay for such excused time must sign the required request form, preferably at the time the request is made. If this is not possible, the form must be signed prior to the end of the affected pay period. Once the operator has called in and is not excused, paid leave will not be granted. In any case, an operator may be excused for an emergency situation at the discretion of the Rail Yard Master/Transit Operations Supervisor. Emergency situations may be appealed to the Division Superintendent.

- (a) **Line-ups** - Those operators not picking a regular run or combination at line-up shall be the extra board operators. The extra board shall be divided into two categories: the Time Slot Extra Board and the A.M. Report Extra Board. - (c) **Extra Board Line-ups - Both Boards** - Extra board line-ups shall be held in conjunction with the line-up for regular runs. All additional line-ups may be held as deemed necessary by DTPW. At each such line-up extra board operators will be allowed to select, by seniority numbers, their days off and board of their choice. After consulting with T.W.U., DTPW may restrict additional line-ups to a specific division, specific board, or a specific board and division.
- (d) **Transfer Between Boards** - Any transfer between boards shall be on a seniority basis only. After the opportunity has passed all operators with no takers, then the transfer will be made by the Dispatcher in reverse seniority order. Notice will be posted in advance of any transfers which are to take place not later than Wednesday noon prior to the change on Sunday.

Such preassignments shall be restricted to work whose report time is prior to next picked report and shall not exceed ten (10) platform hours in a spread time of fourteen (14) hours. A.M. Report Extra Board Operators making a second report will be assigned work on a time-in basis, and will be scheduled in the garage within fourteen (14) hours of their picked report. Spread time in excess of twelve (12) hours shall be paid at one and one-half times the hourly rate (Article VII.8 - Item 5).  - (2) P.M. trippers or open pieces of work shall be assigned to A.M. Report Board Operators by 9:00 A.M. Any run of eight hours or more for which a Time Slot board operator is not available and which would require an A.M. Report Board Operator to arrive in the garage beyond fourteen (14) hours of his/her picked report will be assigned to an operator on the extra list when present. Only after these procedures are followed, will it be assigned to an A.M. Report Board Operator. If so assigned, he will be required to finish the run. These assignments will be made on a time-out basis according to position on the A.M. Report Board. Any operator working such an assignment may request that his/her report for the next day be changed to ten (10) hours from time in garage.
 - (3) Trippers and open pieces of work remaining uncovered will fall to the unassigned Time Slot extra board operators with P.M. time slot after the A.M. Report Board has been exhausted.

Time Slot extra board operators will have priority on the following work:

Time slot extra board operators will be assigned in the following manner:

Reports: Operators will pick report periods spanning thirty (30) minutes: Example: 4:00 thru 4:29, 4:30 thru 4:59, etc.).

Assignments: All "pieces of work" coming open by 10:30 A.M. the day prior to the work day will be assigned to Time Slot operators within their respective time slots. These operators will report at the time stated (within their slot) for the assigned work.

Unassigned Operators: Operators not assigned work on the day prior to the work day will report at a time, within their half-hour time slot, designated by the Dispatcher. These operators will be on paid standby and assigned work in the order in which they report. A Time Slot extra board operator may refuse an assignment which results in a spread time of more than 12 hours. Such operator may be given another assignment within the spread.

Duration: Operators selecting the Time Slot board will do so for the duration of the line-up. These operators may, however, pick off of the board to take runs or time slots which become permanently open between line-ups.

Adjustment Line-ups: After notifying and consulting with the Union, DTPW may have a line-up of Time Slot board operators as often as deemed necessary to adjust time slots to fit work assignments. These line-ups will become effective at the beginning of a work week.

Late Reports: Should an operator on the Time Slot board make a late report and reports to the Dispatcher within two hours he may be placed on the bottom of the report extra board and shall be required to take any piece of work assigned by the Dispatcher. This may include two reports. His/Her guarantee for the week will be adjusted by 20% for each day of the week he is late. He shall be paid above the reduced guarantee for any work performed on the day he is late.

- (n) **Hold Down** - Any regular run or combination which is listed on the current line-up may be available on a seniority basis as a hold down provided it can be determined that the regular

operator will be absent for a minimum of one (1) calendar week. All operators working such assignments will be considered regular operators for the duration of the hold down, subject to the days off, work hours, and work rules applicable to that run. The vacation hold-downs will be posted every three (3) weeks on Monday of the week preceding the vacation cycle. Hold downs for other types of absences will be posted each Monday. Bidding for all hold downs will close at 5:00 p.m. on Thursday following the posting period. Successful bidders shall be notified by posting by the Dispatcher after noon on Friday. The effective date of the hold down will be the following Sunday. Successful bidders shall be notified by the Dispatcher after noon on Friday.

- (1) These hold down assignments will be effective for the duration of the vacation or absence and will be effective in full work week increments only. Odd days of less than one (1) week will revert to the extra board.
- (2) Operators picking hold downs shall not have scheduled leave which will conflict with the hold down. In such cases, these operators shall be ineligible to pick the hold down.
- (3) If an operator is late or misses the hold down more than three (3) occasions, such operator shall lose the hold down and be prohibited from bidding on future hold downs for the duration of the line-up.

ARTICLE VI.11 BUS OPERATORS - PART-TIME OPERATORS

- (i) Any regular operator desiring to become a part-time operator may be transferred to such status to attend an accredited school or college on a full-time basis provided the course work is transportation related and would enhance his/her career opportunities at DTPW; and providing such operator has completed at least one year as a regular operator immediately preceding such request. Such transfers will be subjected to the following conditions:

Except in an emergency or in a declared emergency, as defined in Article II of the collective bargaining agreement, or unforeseen operational circumstances, part-time Currency Processors shall not work in excess of twenty-four (24) hours per week. The daily overtime provisions of the collective bargaining agreement shall not apply to part-time Currency Processors.

ARTICLE X RAIL ADDENDUM

Except as specifically modified herein, the rights and benefits afforded employees in Article I through Article VII shall apply to employees covered by this Addendum. This Rail Addendum

provides provisions applicable to Bargaining Unit employees hired for the Metrorail and Metromover Systems except as specified herein.

SAFETY

There shall be a Safety Committee established to review and study working procedures and make recommendations to DTPW on working procedures. The committee's recommendations shall include suggested written procedures for each division which will maximize safety and minimize risk to the employee and DTPW property. Included in the committee's report will be itemizations of safety equipment and/or equipment which will allow a job to be performed in a safe manner. All recommendations shall be in writing to DTPW. DTPW may accept, modify or reject specific recommendations but will endeavor to take appropriate action to improve conditions reported by the Safety Committee. The committee will meet on a monthly basis. Minutes will be kept of each meeting.

The Union and Management will mutually agree on the number of members to serve and will name their designees. Committee members shall serve without loss of pay. Time spent on committee business shall be considered work time and paid as such.

In the event DTPW does not adopt the report in full or modifies the recommendations, the changes will be an agenda item at the next scheduled Labor-management meeting.

UNAUTHORIZED LEAVE

Any employee (excluding Bus Operators, Train Operators) who fails to report for work at his/her scheduled time and place and within two (2) hours of that time has not properly notified his/her immediate supervisor in the prescribed manner, shall be deemed to be on unauthorized leave from the beginning of his/her work day, and may be subject to disciplinary action.

Such disciplinary action may be waived at the discretion of the Division Superintendent or equivalent if in his/her judgment the employee's failure resulted from circumstances beyond the control of the employee.

INABILITY TO WORK - ILLNESS AND RETURN TO WORK AFTER ILLNESS

This Article pertains to all TWU employees other than Bus Operators and Train Operators.

It shall be the duty of an employee who, because of illness, is unable to report for work at his/her scheduled time and place to so notify DTPW in the prescribed manner at the earliest practical time but no later than forty-five minutes before scheduled reporting time. It shall further be the duty of the employee to notify DTPW in the prescribed manner as to the anticipated duration of the illness and expected return to regular duties.

Any employee returning to work after an illness shall be in fit condition to carry on his/her regular duties. His or her Division Superintendent or appropriate supervisor may require a doctor's certificate when in their judgment the employee appears unfit for return to duty or is an excessive absentee.

LATE TO WORK

An employee (excluding Bus Operators and Train Operators) who reports late for duty shall be paid only for time worked. An employee who does not report within two hours shall be considered on unauthorized leave. An employee who reports to work late has the option of making up the time at the end of his/her normal shift, up to two (2) hours, with the concurrence of the appropriate supervisor. Habitual lateness is cause for disciplinary action.

PHYSICAL EXAMINATION

Physical examinations shall be required for all Bus Operators and Train Operators every two years.

RETURN TO FORMER CLASSIFICATION

The following provisions shall apply to Rail employees who elect to return to their former bus classifications:

- 1) Rail employees may return to their former classification within their rail classification probationary period or not later than sixty (60) days after the commencement of rail revenue operations, whichever is later, without losing seniority in their bus classifications.
- 2) A written request must be made to their immediate supervisor stating the desire to return.
- 3) The employee will remain in the Rail employee classification until it is operationally convenient for rail operations to release him/her, however, the employees' name will be officially reinstated to its former position on the bus seniority list for their classification effective on the date of memo requesting to return.
- 4) Such employees shall fall under the provisions of Article III.7 Work out of Classification. Pay for Train Operators returning to bus shall be a minimum of the highest paid run he/she could have picked in bus or the actual hours worked in rail, whichever is higher.
- 5) Request to return as a Train Operator at a future date will be subject to all the following conditions:
 - (a) A Train Operator vacancy would have to exist.
 - (b) The existing Train Operator eligibility list would have to be exhausted.
 - (c) The employee would fall to the bottom of the Train Operator seniority list, unless the provisions of paragraph (a), "Work Assignment Seniority Order," and paragraph (f), "Line-ups and Runs," contained herein, provide otherwise.

MAINTENANCE EMPLOYEES

TIME CARDS

Each employee must punch his/her own time card at the start of his/her work day, at the end of his/her shift, and on every occasion the employee leaves and returns to DTPW property (except on official DTPW business). Also, at the beginning of each weekly time card, each employee must sign in the space provided for his/her signature. An employee who punches a time card other than his/her own is subject to disciplinary action up to and including dismissal. An employee who requests another employee to punch the first employee's time card shall be, upon proof, subject to disciplinary action up to and including dismissal. Daily time cards may be substituted for weekly time cards at the discretion of the DTPW.

Track and Guideway maintenance employees and Systems maintenance employees may call in rather than punch time cards at the discretion of their appropriate supervisors.

LUNCH PERIOD

It is understood and agreed that a paid thirty (30) minutes lunch period shall be included within the eight (8) hour regular work day of rail maintenance employees. The procedure covering the lunch period may vary within rail maintenance classifications. DTPW shall issue an order establishing the procedure. There is no preparatory time for lunch provided for employment; therefore, any preparation for lunch made by employees shall be made after the lunch period begins.

TOOLS, EQUIPMENT, AND PARTS

DTPW will provide all necessary tools, equipment, and parts. Each shop employee shall be responsible for the proper care, use, and/or maintenance of all tools, equipment, or parts, which are issued to him/her and are the property of DTPW. Loss, damage, or malfunctions of tools and equipment shall be reported immediately. No employee shall under any circumstances remove or borrow DTPW tools, equipment or parts for his/her personal convenience or business. All malfunctions shall be reported in writing on the forms provided.

A secured space will be provided by DTPW for storage of tools and equipment assigned to employees on vacation or extended leave periods. Management also maintains the right to hold tool box, locker, and other inspections on DTPW property with a union representative present in order to insure the security and safety of tools and equipment belonging to both the employee and DTPW. No unreasonable or arbitrary inspection will be made.

UNIFORMS AND SAFETY SHOES

The employee's regulation uniform furnished by the County shall be worn and changed in the manner prescribed by DTPW's regulations. Employees shall at all times while on duty wear the prescribed uniform. The uniform shall be kept in a reasonably neat and clean condition; DTPW shall provide a minimum of one pair of safety shoes per year and a jacket for cold weather once every two years to employees who work in areas deemed to require same. Employees classified as Guideway Inspection Specialists (8054) shall be provided with one pair of safety shoes every four months or at least three times per calendar year. Employees classified as Rail Maintenance Workers (8063), Rail Structural Repairers (8065), Track Equipment Operators (8066), Track Repairers (8064), and Transit Welder (8022) shall be provided with one (1) pair of safety shoes every six (6) months or at least two pair per calendar year.

WORK ASSIGNMENTS – SENIORITY ORDER

All such time that maintenance line-ups begin, seniority for picking work shall be determined as follows:

- (a) For employees hired into rail classifications from inception up to and including two years after South line revenue service begins, seniority order shall be determined solely upon length of continuous employment with DTPW in any TWU bargaining unit job classification.
- (b) For employees hired into rail classifications after two years South line service begins, seniority order shall be determined solely upon length of continuous employment with DTPW within the particular classification.

VACATION SELECTION

Vacation schedules shall be selected by seniority in December for the following calendar year. Seniority for picking vacations shall be as established in "Work Assignment Seniority Order" above. All vacations are subject to approval by DTPW.

MAINTENANCE EMPLOYEES – LINE-UPS

Line-ups shall commence not later than one year after South line revenue service begins. Until such time, management shall assign work. After such time, there shall be at least two line-ups annually, one in December and one in June, with such additional line-ups as DTPW deems necessary to meet current work requirements. If at any time after twenty-one (21) calendar days an employee's work is judged unsatisfactory by DTPW, such employee may be reassigned within classification and shift. Before any line-up shall be posted, the Union shall be granted the opportunity to review same up to ten (10) days prior to posting and to make pertinent comments and suggestions. After the posting of the line-up for fifteen (15) days, the picking will then be started by classification seniority in groups. A maximum of three (3) days shall be allowed for picking. Picking shall be finished at least three (3) weeks prior to effective date of line-up. The effective date shall be included on the posted line-up. The new line-up will go into effect on that date. In the event there is disagreement between the Union and management concerning all, or any part of said line-up, the dispute shall not prevent the line-up from becoming effective as scheduled but shall be treated as a grievance and settled accordingly.

DTPW shall post lists of all available picks as to facility location, working hours and days off, except that "Relief Assignments" may be posted on line-ups for all shop and garage classifications. The number will be limited to a maximum of 10% of all positions for the shop and garage combined. Employees shall be notified as to the time and place they are scheduled and expected to appear. However, if a maintenance employee cannot attend, he/she will be expected to leave with his/her supervisor a list of at least five (5) choices in order of preference. Any maintenance employee who fails to provide a list of choices will be assigned duty as similar as possible to the one chosen at the last previous line-up. If an employee cannot pick in person because of an emergency, such employee shall be allowed to advise the shop office of his/her preferences by telephone.

Employees who are absent on the day of a line-up is posted and have not returned by the third day after posting, shall be sent a notice of the date picking of the line-up will begin. This will be done by certified mail.

Employees in a non-pay status or indefinite absence or leave at the time of a line-up will not be allowed to pick.

DTPW shall be able to post for bidding a maximum of 50% of all positions as four (4) day work weeks at 10 hours per day. Employees assigned to this schedule will receive at least two (2) consecutive days off.

TRANSFER BETWEEN LOCATIONS

At such time that line-ups are conducted, Maintenance employees may be transferred from one facility to another between line-ups and thereafter shall work on a regular basis at the new facility. Volunteers will first be requested from employees in the classification involved. Existing

vacancies, after using volunteers, will be filled by assigned employees in the classification in reverse seniority order. First preference for open jobs between line-ups will be given to the most senior employee within the classification, who requests the opening. A shop and garage employee may make only one such change between line-ups.

MAINTENANCE EMPLOYEES - BUS RADIOS AND TRAINING MANUAL

The Operating Instructions for the Transit Mobile Radio System and the procedures contained in the Rail Training Manual and Metromover System Operation Manual are a part of the rules and regulations of DTPW. Any employees violating these rules or other misuse of the radio system will be subject to disciplinary action.

TRANSPORTATION EMPLOYEES

OPERATOR'S RESPONSIBILITY

It shall be the responsibility of the Operator to devote full attention to the safe, smooth, and efficient operation of equipment and to avoid discomfort or inconvenience to passengers. Subject to orders of persons of higher authority, the Operator has charge of the train and shall be responsible for:

- (a) Observation of and adherence to speed commands, headways, schedules, and signals.
- (b) Knowledge of and adherence to all DTPW operating procedures and safety regulations, including pre departure testing procedures, and overall yard responsibilities and procedures.
- (c) The safety of boarding and alighting passengers.
- (d) Provide passenger assistance.
- (e) The adjustment of lighting for the comfort and convenience of passengers.
- (f) Proper display of all required signs and identifications.
- (g) Distribution of schedules, route finders and other transit informational publications on trains and in stations as directed by DTPW
- (h) Performance of such other duties as may from time to time be prescribed by DTPW

An Operator may grieve any unreasonable order by a higher authority under these provisions.

LINE-UPS AND RUNS

Line-ups and runs shall be governed in accordance with the following procedures:

- (a) DTPW will provide for at least three (3) line-ups each year, November, March and July. These line-ups shall be timed to coincide with Metrobus' Transportation line-ups. Additional line-ups may be scheduled as necessitated by service adjustments and/or other operational requirements. These other line-ups may be independent of Metrobus line-ups.

The November pick shall determine vacation schedules as well as work assignments. If the July line-up is a re-pick of an existing line-up, the seven (7) calendar day Union review and posting will run concurrently and the picking will be done during a seven (7) calendar day period.

- (b) **Transfer between locations** - At such time that line-ups are in effect, Operators may be transferred from one reporting facility to another between line-ups and thereafter shall work

on a regular basis at the new facility. Volunteers will first be requested. Existing vacancies, after using volunteers, will be filled by assigning extra board attendants in reverse seniority order. Employees being permanently transferred will be given forty-eight (48) hours prior notice.

Temporary transfers of extra board operators can be implemented by DTPW between facilities in one week increments.

Operators may volunteer to be assigned work at any location on a daily basis if there is a shortage of Operators at another location.

If voluntary assignment to another location is made after an employee reports for work at his/her normal location, reasonable travel time will be paid if applicable.

Transfer Work - Operators shall be required to work any work that is normally assigned to another facility subject to the following procedures: Volunteers will be requested first from among extra board and extra list operators. Failing this, reverse seniority assignments will be made from the extra board for that operating day.

- (c) **Unfilled Work Assignments** - Unfilled work assignments or emergency relieves will be assigned first to any available extra board operator, next to any extra list operator, then to any available operator. Part-time operators will not be used unless all regular operators have been given an opportunity to operate said service.
- (d) **Seniority Roster** - At such time that line-ups are effective, seniority for picking work shall be determined as follows:
 - (1) For employees hired as Train Operators from inception up to and including two years after South line revenue service begins, seniority order shall be determined solely upon length of continuous employment with DTPW in any TWU bargaining unit job classification.
 - (2) For employees hired into rail classifications after two years of South line revenue service begins, seniority order shall be determined solely upon length of continuous employment with DTPW in this classification.

A Roster shall be kept which shall list the name of each Operator in order of his/her date of employment as established by paragraphs 1 or 2 above and his/her line-up number assigned in accordance with his/her position on the roster. The number so assigned shall be used to determine the order in which he/she shall be accorded an opportunity to select the assignment of his/her choice.

- (e) **Operators Leaving Train** - Operators must notify control and get instructions prior to leaving the train for restroom or other purposes.
- (f) **Regular Assignments** - A regular assignment shall be defined as regular work chosen at line-up or assigned as provided in these rules. Regular assignment shall include straight assignments, split assignments and dual assignments in stations/platforms and yards.

- (g) A **split assignment** consists of two parts and each part may be on a different assignment. On split assignments, the intervening time in excess of ninety (90) minutes shall be paid at straight time. The minimum unpaid intervening time will be thirty (30) minutes.
- (h) A **dual assignment** consists of two parts; 1) The actual operation of the train, and 2) Station platform or yard duties as described above. A dual assignment may be split or straight.

Combination assignments - It is the express intent of the parties to develop additional work schedule procedures which will result in pre-assigning as much work as practical on a daily or weekly basis.

DTPW may develop, in addition to the regular assignments heretofore described, a group of Combination Assignments. These assignments shall be scheduled and paid as follows:

Assignments shall include 8 ½ hours within a total elapsed time of 12 hours.

Work beyond the twelfth hour will be at overtime in all cases.

When work time within the twelve hour spread exceeds eight hours, daily overtime guarantee applies. Pay for combination assignments will be a minimum of 45 hours of pay at straight time rate. For example, the pay for a week could be made up of the following:

(1)	42.50	Hours of work time
	2.50	Hours of overtime premium pay
	45.00	Hours at straight time rate
(2)	41.00	Hours of work time
	1.00	Hour of overtime premium pay
	3.00	Hours of paid unassigned time
	45.00	

Should an Operator with paid unassigned time in his/her daily work schedule desire to work during the intervening period of his/her combination assignment, overtime, or added pay will begin after paid unassigned time for that day is made up by work time. Any work performed at either end of the combination assignment will come under the daily overtime provisions of this Agreement.

If an Operator with a combination assignment which has paid unassigned time, works an assignment which is authorized by the Supervisor during his/her intervening period, payment for such work will be above his/her assignment pay at the applicable rate of pay. If an Operator is late returning to the yard at the end of his/her combination, pay shall be above the run pay at the applicable rate of pay.

Combination Assignments may include assignments in stations or yards in addition to train operation on the main line.

- (i) **Assignment Cancellation** - Any Operator holding a regular assignment who reports as scheduled in proper attire and condition to work but whose work has been canceled shall be paid no less than full pay for the assignment and shall hold him/herself available for other assignments during the time for which he/she is paid unless such Operator:

- (1) Has been notified that the emergency procedures prescribed in Article III.10 are in effect.
- (2) Is being held off for investigation.
- (3) Is under penalty suspension.
- (4) Does not hold him/herself ready for other work which may be assigned by the Supervisor and which prior to or at the time his/her regular assignment would have terminated.

Any time worked beyond such termination will be compensated one-and one-half times the base hourly rate. In case of permanent cancellation of a run, such employee(s) shall have equal priority with employees covered by Article III.2.

In the event that either side experiences problems in the application of the provisions of "Line-ups and Runs", contained herein, the issue shall be an item for the Labor Management Committee as provided in Article III.1. If there is mutual agreement by DTPW and TWU that the provisions of the Line-ups and Runs are not working, a joint DTPW/TWU Committee will be established to resolve the issue.

- (j) The parties recognize that only employees classified as Train Operators will operate trains in a passenger carrying capacity, except in emergencies. Maintenance employees will not operate trains beyond the house. Train Operators will operate all trains in the yard(s) and on the main lines. This includes special projects and demonstrations which involve passengers. This is not to preclude Supervisors, Instructors and Maintenance employees from performing their tasks, which include test demonstration of new equipment and retrofit modifications. DTPW reserves the right to use supervisory personnel for special emergency requests (as determined by the General Superintendent of Transportation) when Train Operators are not available. The Union will be notified of such action as soon as possible.

UNIFORMS

Wearing of cap and badge, while on duty, is optional with the operator. If a cap is worn it shall be the regulation uniform cap. Train Operators may wear the badge on their uniform shirt if the cap is not worn.

WORKING PROCEDURES - OPERATORS

The following working procedures shall apply to Operators:

- (a) **Reporting for Work** - Operators - Each Operator, both a.m. and p.m. given an assignment shall report to Central Control, the terminal supervisor or to the Rail Yard Master as specified and at the time specified, prepared to commence his/her assignment as scheduled.
- (b) **Transit Radio and Operations Procedures** - The Operating Instructions for the Transit Mobile Radio System and the Metrorail Operations Rules and Procedures Manual are a part of the rules and regulations of DTPW. Any employee violating these rules or other misuse of the radio system will be subject to disciplinary action.

WORKING PROCEDURES - EXTRA BOARD OPERATORS

The following procedures shall apply to Operators working the Extra Board.

When an Extra Board Operator is given a regular assignment of eight hours or more, he/she shall be considered a regular operator for the duration of that assignment. All rules applicable to Regular Operators set forth herein shall be applicable to Extra Board Operators, except when in conflict with those rules contained in this Article.

- (a) **Line-ups** - Those Operators not picking a regular assignment or combination at line-up shall be the Extra Board Operator. Those operators choosing to work the Extra Board will pick report assignments and days off on a seniority basis.
- (b) **Reports** - Extra Board Operators may require to make two reports each operating day at the time selected at line-up for the first report, and at the time and place designated by the Supervisor for the second report. The second report may be at a different location. The p.m. reports for the same day shall be posted at 8:30 a.m. that day. The a.m. reports for the next day shall be posted at 5:00 p.m. It shall be the duty of all Extra Board Operators to check each posting of the board for his/her next report. It is understood by DTPW/TWU that concurrent with opening of North line a one (1) report Extra Board will be established in conjunction with the present two (2) reports Extra Board.
- (c) **Extra Board Line-ups** - Extra Board Line-ups shall be held in conjunction with the line-up for regular assignments. Additional line-ups may be held as deemed necessary by DTPW. At each such line-up Extra Board Operators will be allowed to select, by seniority, their first report time and days off.
- (d) **Reporting for Work** - Extra Board Operators - Each Operator assigned to the Extra Board shall report to the Supervisor at the time of his/her assignment specified on the daily posted list and shall be ready to depart as scheduled.
- (e) **Reliefs - Emergency** - Any emergency reliefs will fall to the lot of the first available Extra Board Operator. Regular Operators shall get second preference at applicable rate of pay.
- (f) **Extra Board Operators - Waiting Requirement** - Each Extra Board Operator, whether or not he/she is assigned a "piece of work," shall be paid regular scale commencing with the time of his/her report.
- (g) **Extra Board Assignments** - Extra Board Operators will pick a.m. or p.m. report times (Example: 3:55, 4:00, 4:01, 4:02, etc.) to cover daily span of operation. Assignments: All "pieces of work" coming open by 3:00 P.M. the day prior to work day will be preassigned on a time-in basis to Extra Board Operators with a.m. reports. Such preassignments shall be restricted to work with report times prior to the next picked report and shall not exceed ten (10) platform hours in a spread time of fourteen (14) hours. Operators making preassigned second reports, and Operators whose picked report time is p.m., shall be preassigned on a time-in basis and will be scheduled in the yard within fourteen (14) hours of their picked report.

Spread time in excess of twelve (12) hours shall be paid at one and one-half times the hourly rate (Article VII.8 - Item 5). Any operator who is late will be assigned work after all

other operators available on the Extra Board have been assigned on the date he/she is late.

(h) **Assignment of Open Pieces of Work** - Open pieces of work shall fall to the lot of Extra Board Operators not already assigned work in order of position on the board. Assignments shall be made in accordance with the following procedures:

(1) Open pieces of work will be assigned at the report time to Operators in time-out order from top of a.m. Extra Board. Any piece of work eight hours or more that would require an Extra Board Operator to arrive in the yard beyond fourteen hours of his/her picked report will be assigned to an Operator on the extra list when present. Only after these procedures are followed, will it be assigned to an Extra Board Operator. If so assigned, he/she will be required to finish the assignment. Any Operator working such an assignment may request that his/her report for the next day be changed to ten (10) hours from time in yard.

(2) P.M. Open Pieces of Work not preassigned to p.m. Extra Board Operators with eight (8) hours or more will be assigned at the report time to Operators in time-out order from the top of the p.m. Extra Board.

(3) Open pieces of work remaining uncovered will fall to the unassigned p.m. Extra Board in time-out order, after the a.m. Extra Board Operators making second reports (within fourteen (14) hours of first report) has been exhausted.

(i) **Extra Board Operators - Days Off** - Each Extra Board Operator shall be entitled to receive two consecutive days off in each week.

(j) **Extra Board Operators - Duty on Completion of Regular Assignment** - There shall be no second report required of any Extra Board Operator if he/she has worked a total of eight (8) hours. The Operator may make a second report at his/her option, provided the Supervisor needs manpower. Assignment of less than eight (8) platform hours will not be preassigned.

Extra Board - Holidays - DTPW will provide two (2) days advance notice to as many Extra Board Operators as possible on all holidays on which a Sunday schedule is run, whether or not they will be required to work or will be off on such holidays. A procedure will be established by an Administrative Order. **Extra Board Operators**- who work on the holiday shall be paid for hours worked (No Holiday Premium will be paid).

(k) **Hold Down** - Any regular run or combinations, which is listed on the current line-up may be available on a seniority basis as a hold down provided it can be determined that the regular operator will be absent for a minimum of one (1) calendar week. All operators working such assignments will be considered regular operators for the duration of the hold down, subject to the days off, work hours, and work rules applicable to that run. The vacation hold-downs will be posted every three (3) weeks on Monday of the week preceding the vacation cycle. Hold downs for other types of absences will be posted each Monday. Bidding for all hold downs will close at 5:00 p.m. on Thursday following the posting period. Successful bidders shall be notified by posting by the Rail Yard Master after noon on Friday. The effective date of the hold down will be the following Sunday. Successful bidders shall be notified by the Rail Yard Master after noon on Friday.

- (1) These hold down assignments will be effective for the duration of the vacation or absence and will be effective in full work week increments only. Odd days of less than one (1) week will revert to the extra board.
- (2) Operators picking hold downs shall not have scheduled leave which will conflict with the hold down. In such cases, these operators shall be ineligible to pick the hold down.
- (3) If an operator is late or misses the hold down more than three (3) occasions, such operator shall lose the hold down and be prohibited from bidding on future hold downs for the duration of the lineup.

The hold down provision shall apply to Report Board Extra Board Operators and Time Slot Extra Board Operators (Working Procedures - Extra Board Operators (b) and (g)).

In the event that either side experiences problems in the application of the provisions of "Working Procedures - Extra Board Operators", contained herein, the issue shall be an item for the Labor Management Committee as provided in Article III.1. If there is mutual agreement by DTPW and TWU that the provisions of "Working Procedures - Extra Board Operators" are not working, a joint DTPW/TWU Committee will be established to resolve the issue.

**~~MEMORANDUM OF UNDERSTANDING BETWEEN
MIAMI-DADE COUNTY AND
TRANSPORT WORKERS UNION LOCAL 291 (TWU)~~**

~~This MEMORANDUM OF UNDERSTANDING ("MOU") is entered this ____ day of _____, _____, between the TWU ("TWU") and MIAMI-DADE COUNTY ("COUNTY"), jointly referred to as the ("PARTIES").~~

~~WHEREAS, MIAMI-DADE COUNTY is currently experiencing the effects of the COVID-19 pandemic which has been declared a public health emergency; and~~

~~WHEREAS, due to the COVID-19 public health emergency certain essential employees have expanded duties with an increased exposure to COVID-19; and~~

~~WHEREAS, at the July 27, 2020, special meeting of the Board of County Commissioners, the Board directed the County Mayor or County Mayor's designee to negotiate with the appropriate collective bargaining units for a temporary pay supplement for County bus operators during the coronavirus disease 2019 (COVID-19) pandemic, if fiscally possible within legally available means; and~~

~~WHEREAS, the Federal Transit Administration's FY 2020 Section 5307 CARES Act Program Funding Grant Agreement FL-2020-051-00 has been fully executed which is expected to provide funding for an incentive pay supplement for essential workers with potential exposure to COVID-19 because of regular in-person interactions with the public; and~~

~~WHEREAS, the PARTIES are desirous of providing the available funding to its Bus Operators in Revenue Service.~~

~~NOW, THEREFORE, in consideration of the mutual covenants contained herein, the PARTIES intending to be legally bound do hereby stipulate and agree as follows:~~

- ~~1. Bus Operators in Revenue Service are included within a bargaining unit covered by a collective bargaining agreement between Miami Dade County and the TWU~~

~~("Covered Employee"), shall receive a temporary one percent (1%) pay adjustment added to their base pay for the performance of their duties effective upon execution as provided in paragraph 2 ("the 1% pay adjustment").~~

- ~~2. The 1% pay adjustment shall only be paid on work shifts when a Covered Employee is actually driving a bus and interacting with the public or for leave hours that are paid to the Covered Employee under the COVID-19 Families First Coronavirus Response Act (FFCRA) and in such event, the 1% pay adjustment shall be applied for the Covered Employee's entire shift. Consistent with the above limitation, the 1% pay adjustment is not subject to be paid if the Covered Employee is not in pay status or on any unworked paid hours including but not limited to Annual Leave, Educational Leave, Jury Duty, Sick Leave, Workers' Compensation Leave, Disability Leave, etc. Additionally, the 1% pay adjustment is not to be paid on any leave payouts such as DROP payouts or separation payouts.~~
- ~~3. The 1% pay adjustment provided by this MOU is temporary and shall remain in place for as long as the COVID-19 public health emergency declaration remains in effect or December 30, 2020, whichever is earlier. This means that the work for which payment is due under this MOU must be completed on or before the last date of the COVID-19 public health emergency declaration or December 30, 2020, whichever is earlier.~~
- ~~4. TWU and Miami Dade County both agree that the determination of whether a Covered Employee's assignment qualifies for this 1% pay adjustment and the amount of the 1% pay adjustment received by any Covered Employee are entirely within the discretion of the Director of the Miami Dade County department in which the Covered Employee is employed. TWU may bring any discrepancy it perceives in the payment of the 1% pay adjustment to a Covered Employee in writing to the attention of the applicable Department Director within 30 days of the pay day in which the perceived discrepancy occurred for work performed on or before November 15, 2020. For any work performed on or after November 15, 2020, TWU may bring any discrepancy it perceives in the payment of the 1% pay adjustment to a Covered Employee in writing to the attention of the applicable Department Director within 15 days of the pay day in which the perceived discrepancy occurred. Notwithstanding the foregoing, TWU agrees that the applicable department Director's determinations regarding eligibility for the 1% pay adjustment and the amount of the 1% pay adjustment paid to a Covered Employee are final and binding and not subject to grievance or arbitration under the collective bargaining agreement nor any other challenge under law.~~

- ~~5. The 1% pay adjustment will only be pensionable if the Florida Retirement System (FRS) deems the temporary adjustment to be pensionable, otherwise, the adjustment will not be counted as creditable earnings for FRS purposes.~~
- ~~6. The PARTIES agree and state that no promise, inducement or agreement not expressly contained herein has been made, that this MOU constitutes their entire and final understanding to the subject matter of this agreement, and that the terms of this MOU are contractual and not a mere recital.~~

~~The PARTIES understand that this Memorandum of Understanding and the 1% pay adjustment will be implemented only after ratification by both the TWU bargaining unit members and the Miami Dade County Board of County Commissioner.~~

ADDENDUM 1

Group Health Cost Containment Initiatives

This sets forth a list of cost savings initiatives identified during the course of cost containment meetings that, if aggressively and effectively implemented, should achieve the projected cost savings commitments of \$21 million for plan year 2020. Moreover, the Union and the County have agreed that the County and the Union shall jointly continue to seek additional ways to reduce the cost of providing benefits while maintaining the integrity of the benefits received by the Union members.

The Healthcare Cost Containment Workgroup ("Workgroup") shall continue and shall meet regularly to review progress. In addition, if following a January or July meeting the Employer Designees reasonably believe that the Healthcare Fund has not implemented modifications and initiatives sufficient to produce the foregoing approximate savings, or there is a disagreement over adoption of a modification or initiative, the dispute shall be resolved according to an internal appeal process, but shall not be subject to arbitration.

In consideration of flat insurance premiums for the plan year 2020-2021 and the 2020 cost containment initiatives, the County agrees to continue the County's Medical Plan, which is currently administered by AvMed, with no plan design changes other than those indicated in this agreement and those required by State or Federal Law. All other health benefit plans offered by the County will remain the same pursuant to current collective bargaining agreement.

Effective January 1, 2021, or if after January 2021, upon ratification of the 2017-20 collective bargaining agreement the Miami-Dade County Group Health Plan shall be amended as follows:

Participation and acceptance of the 2020 cost containment plan redesign initiatives that are expected to reduce the plans expenditures will allow premiums to remain flat for the duration of this Collective Bargaining Agreement ("CBA") 2017-2020. The contributions for insurance premiums are listed in Addendum 2.

As it is the intention of the parties to maintain and improve the County's programs, these and other adjustments are needed to preserve the resources of the Healthcare Fund to provide its comprehensive health coverage in the face of rising health care costs. Thus, without limiting the potential cost savings approaches the Mayor and his designees should pursue, they are directed to implement appropriate savings which may include the following programs, policies and plan changes:

1. Pharmacy

- i. **Generic first across all plans:** The member/dependent(s) will be required to use generic medication first. The member/dependent(s) will be allowed to use brand-name drugs only after first trying similar generic medications and the generic medication has not been effective in treating member/dependent(s) condition. If brand-name medication is required, the member/dependent(s) will be responsible for the difference in cost of the generic medication versus the brand medication.
- ii. **Mail-Order/90-Day Limited Network Retail Pharmacy Solution for maintenance/preventive drugs:** The member/dependent(s) will be required to use mail order or pick up prescriptions at an in-network retail pharmacy for all maintenance/preventive drugs needed for a long-term health condition. First time prescription will only be filled at retail pharmacy three (3) times and subsequent refills would be filled using mail order pharmacy or an in-network 90 day retail pharmacy. The member/dependent(s) will pay only two (2) copays for a 90 day refill of mail order or a limited network 90 day retail pharmacy for prescriptions.
- iii. **AvMed Standard Formulary:** The current formularies in both HMO and POS plans will be removed and all member/dependent(s) plans will use AvMed's Standard Formulary. The member/dependent(s) whose medication is not on the AvMed Standard Formulary, with physician's recommendation, will be transitioned to a similar medication that is on the AvMed Standard Formulary. For those member/dependent(s) whose medication does not have a similar medication available, will be allowed to continue with current medication, "grandfathered", until such time the course of treatment is completed and/or no longer needed.

2. Medical

Eliminate Private Healthcare Network ("PHCS") from High HMO and POS Elite Network: AvMed will continue to assume administration over the County's Medical Plans, and lease the Elite (PHCS) wrap network for medical services to achieve Provider discounted rates for out-of-area services. All member/dependent(s) in the AvMed service area currently using PHCS providers would be redirected and transitioned to AvMed Network Providers, except those in POS who choose to use their out-of-network benefit, subject to applicable copays. The member/dependent(s) in the HMO plans do not have out-of-network benefits. Therefore, PHCS will no longer be available. The out-of-area plan retirees enrolled in the High Option HMO plan will not be affected by this change.

3. New Hires

Enrollment in First Choice Advantage HMO/Select Advantage HMO: The First Choice Advantage HMO and the Select Advantage HMO Medical Plans will be the only group health plan choices available for benefit eligible newly hired employees and their dependents hired

after ratification for plan year effective January 1, 2021 and thereafter. This will not affect existing employees and their dependents currently enrolled in a County group health insurance program.

4. Freestanding Imaging

Freestanding imaging only: The member/dependent(s) will be required to have all (non-emergency) Imaging/Radiology services done at an in-network freestanding facility of their choice. All occurrences of emergency room visits and hospital admits are excluded from this requirement.

5. Utilization Driven Co-pays

Change co-pays: The utilization driven changes to co-pays are indicated in Addendum 2 and will become effective January 1, 2021 and thereafter.

The County and the Union are committed to working together to maintain and improve the ability of the Employers to provide quality health care through joint labor-management efforts; to insure appropriate funding and resources for health care through joint legislative work; and to insure that there is affordable health care and access to health care for the employees of Miami-Dade County through continuing to fund initiatives, and other joint ventures; and

The County and the Union agree that Article VII.16 (Group Health/Life Insurance) of the collective bargaining agreement between them shall be modified as set forth in the attachment hereto.
