

Memorandum

Date: November 1, 2022

To: Honorable Chairman Jose "Pepe" Diaz
and Members, Board of County Commissioners

From: Lourdes M. Gomez, Director 
Department of Regulatory and Economic Resources

Agenda Item No. 5(J)

Subject: Class I Permit Application by the City of Miami

Resolution No. R-1051-22

Recommendation

I have reviewed the attached application for a Class I permit by the City of Miami and based upon the applicable evaluation factors set forth in Section 24-48.3 of the Code of Miami-Dade County (Code), I recommend that the Board of County Commissioners (Board) approve the issuance of a Class I permit for the reasons set forth below.

Pursuant to Ordinance No. 16-73, this quasi-judicial matter may be submitted directly for placement on the Board's meeting agenda by the Director of the Department of Regulatory and Economic Resources.

Scope

The project site is located at Little River Pocket Park at 998 Northeast 78th Street, Miami, in Commission District 3, which is represented by Commissioner Keon Hardemon.

Delegation of Authority

This item has no delegation of authority. Upon approval of this item, Section 24-48.2(C)(2) of the Code authorizes the Department to issue the permit, provided that other Code requirements are satisfied, such as submittal of final plans and bonds, and to require additional conditions, limitations, and restrictions if consistent with this Board's approval.

Fiscal Impact/Funding Source

This resolution is a regulatory approval and does not have a fiscal impact.

Track Record/Monitor

The Coastal Resources Section Manager, McKee Gray, in the Department of Regulatory and Economic Resources, Division of Environmental Resources Management (DERM), would be responsible for monitoring the proposed permit.

Background

The subject Class I permit application requests authorization for the installation of a ramp to be used exclusively by non-motorized kayaks, canoes, and paddleboards within Little River Pocket Park to include the filling of tidal waters and for the installation of a new concrete seawall and riprap placement. The proposed project is required to be heard and decided upon by the Board at a public hearing because the filling associated with the ramp installation is specifically referenced in Section 24-48.2 of the Code as work that shall be processed with a standard form application, including a public hearing.

The subject City of Miami public park is located adjacent to the Little River. The shoreline is partially stabilized by a concrete seawall with associated T-piles and the remainder of the property consists of

an unconsolidated shoreline vegetated by red and white mangroves. Under the subject application, the City is proposing to install an approximately 347 square foot ramp to be used solely for the launching and retrieval of non-motorized kayaks, canoes, and paddleboards. The construction of the proposed ramp would result in the filling of approximately 101 square feet of tidal waters.

In addition to the above mentioned work, the subject application also requests authorization for the stabilization of the shoreline through the installation of a seawall within 1.0 foot of the wetface of the existing seawall and the placement of riprap along the unconsolidated portion of the shoreline. The installation of replacement seawalls within 1.0 foot of the existing seawall and the installation of riprap boulders within 10.0 feet of the Mean High Water Line can be processed administratively as a short form Class I permit application. Therefore, these types of work are only coming before the Board as the aforementioned work is included in the subject application.

According to Section 24-48.3(2) of Code, dredging and filling work proposed in a Class I permit application shall comply with at least one of the criteria listed in that section of the Code. The filling proposed under the subject application is the minimum necessary to install the ramp, specifically to adequately and safely facilitate the launching and retrieval of non-motorized kayaks, canoes, and paddleboards and therefore complies with the criteria listed in Section 24-48.3(2)(c) of the Code, which states: minimum dredging and filling for the creation and maintenance of marinas, piers, docks and attendant navigational channels. In addition to the above mentioned work, the City is also requesting authorization for the installation of a seawall and the placement of riprap at the property. The proposed seawall and riprap are necessary to stabilize and protect the shoreline of the public park and therefore complies with the criteria listed in Section 24-48.3(2)(f) of the Code, which states: a physical modification necessary to protect public or private property.

The proposed project has been evaluated for consistency with the Miami-Dade County Manatee Protection Plan (MPP). The project is located within an area designated as essential habitat for the Florida manatee and recommended for “Residential Docking: 1 Motorboat per 100’ of Shoreline”. However, the MPP’s restrictions are focused on powerboats, other motorized vessels, and sailboats, and do not reference kayaks, canoes, or paddleboards, which would not create similar risks to manatees from crushing, propellers, or collisions. As the use of the proposed ramp would be strictly limited to the launching and retrieval of non-motorized kayaks, canoes, and paddleboards, the proposed work is consistent with the recommendations of the MPP. Furthermore, should a Class I permit be issued for the proposed work, the permit would include specific conditions restricting the use of the ramp only for the launching and retrieval of non-motorized kayaks, canoes, and paddleboards and would require that all standard construction permit conditions regarding manatee protection be followed during all in-water operations.

Pursuant to Section 24-48.4 of the Code, potential adverse environmental impacts and cumulative adverse environmental impacts for a proposed project must be avoided and minimized. Section 24-48.4 of the Code also requires mitigation for permissible projects that otherwise result in unavoidable environmental impacts. Sparse seagrass was documented towards the east property line; however, the project has been designed as to not result in impacts to the seagrass. Additionally, no impacts to the existing mangroves are proposed; however, in order to ensure that the mangroves are not impacted during construction, the Class I permit would require the placement of the riprap by hand in lieu of the use of heavy machinery. Furthermore, the Class I permit would require that turbidity controls be utilized during all phases of construction to ensure compliance with State and County water quality standards. Therefore, no adverse environmental impacts are reasonably anticipated to occur as a result

of the proposed project. Mitigation for the filling of tidal waters and for minor temporary impacts to water quality associated with the installation of the ramp and seawall would be satisfied through the placement of riprap along the new seawall in order to extend the life of the seawall and create habitat. Any portion of the required mitigation that cannot be accommodated onsite would be satisfied through a contribution to the Biscayne Bay Environmental Enhancement Trust Fund.

The project has been designed in accordance with all relevant Miami-Dade County coastal construction criteria and is consistent with all other Miami-Dade County coastal protection provisions. Please find attached a DERM Project Report which also sets forth the reasons the proposed project is recommended for approval by DERM pursuant to the applicable evaluation factors and criteria as set forth in Section 24-48.3 of the Code. The conditions, limitations, and restrictions set forth in the Project Report attached hereto are incorporated herein by references hereto.

CLASS I PERMIT APPLICATION NO. CLI-2021-0175

Class I Permit Application by the City of Miami for the Filling of Tidal Waters in Association with the Installation of a Kayak, Canoe, and Paddleboard Ramp and for the Installation of a Seawall and Riprap at Little River Pocket Park, in the City of Miami, Miami-Dade County, Florida

DATE: October 4, 2022

Staff's recommendation of approval for the above-referenced permit application is based on the applicable evaluation factors under Section 24-48.3 of the Code of Miami-Dade County, Florida (Code). The following is a summary and staff's opinion to its conformance with respect to each applicable evaluation factor:

1. **Potential Adverse Environmental Impact** – Pursuant to Section 24-48.4 of the Code, potential adverse environmental impacts and cumulative adverse environmental impacts for a proposed project must be avoided and minimized. Section 24-48.4 of the Code also requires mitigation for permissible projects that otherwise result in unavoidable environmental impacts. Sparse seagrass was documented towards the east property line; however, the project has been designed as to not result in impacts to the seagrass. Additionally, no impacts to the existing mangroves are proposed; however, in order to ensure that the mangroves are not impacted during construction, the Class I permit would require the placement of the riprap by hand in lieu of the use of heavy machinery. Furthermore, the Class I permit would require that turbidity controls be utilized during all phases of construction to ensure compliance with State and County water quality standards. Therefore, no adverse environmental impacts are reasonably anticipated to occur as a result of the proposed project. Mitigation for the filling of tidal waters and for minor temporary impacts to water quality associated with the installation of the ramp and seawall would be satisfied through the placement of riprap along the new seawall in order to extend the life of the seawall and create habitat. Any portion of the required mitigation that cannot be accommodated onsite would be satisfied through a contribution to the Biscayne Bay Environmental Enhancement Trust Fund.

The proposed project has been evaluated for consistency with the Miami-Dade County Manatee Protection Plan (MPP). The project is located within an area designated as essential habitat for the Florida manatee and recommended for "Residential Docking: 1 Motorboat per 100' of Shoreline". However, the MPP's restrictions are focused on powerboats, other motorized vessels, and sailboats, and do not reference kayaks, canoes, or paddleboards, which would not create similar risks to manatees from crushing, propellers, or collisions. As the use of the proposed ramp would be strictly limited to the launching and retrieval of non-motorized kayaks, canoes, and paddleboards, the proposed work is consistent with the recommendations of the MPP. Furthermore, should a Class I permit be issued for the proposed work, the permit would include specific conditions restricting the use of the ramp only for the launching and retrieval of non-motorized kayaks, canoes, and paddleboards and would require that all standard construction permit conditions regarding manatee protection be followed during all in-water operations.

2. **Potential Cumulative Adverse Environmental Impact** – The proposed project is not reasonably expected to result in cumulative adverse environmental impacts as set forth in Number 1 above.
3. **Hydrology** - The proposed project is not reasonably expected to adversely affect surface water drainage or retention of stormwater.
4. **Water Quality** – The proposed project may affect surface water quality on a temporary basis during construction operations; however, potential temporary water quality impacts have been minimized and would be mitigated as set for in Number 1 above.
5. **Wellfields** – The proposed project is not reasonably expected to adversely affect wellfields.
6. **Water Supply** – The proposed project is not reasonably expected to adversely affect water supply.
7. **Aquifer Recharge** – The proposed project is not reasonably expected to adversely affect aquifer recharge.

8. **Aesthetics** – The proposed project is not reasonably expected to adversely affect aesthetics.

City of Miami
CLI-2021-0175, Page 2

9. **Navigation** – The proposed project is not reasonably expected to adversely affect navigation.

10. **Public Health** - The proposed project is not reasonably expected to adversely affect public health.

11. **Historic Values** - The proposed project is not reasonably expected to adversely affect historic values.

12. **Archaeological Values** - The proposed project is not reasonably expected to adversely affect archaeological values.

13. **Air Quality** – The proposed project is not reasonably expected to adversely affect air quality.

14. **Marine and Wildlife Habitats** – The proposed project is not reasonably expected to adversely affect marine and wildlife habitats as set forth in Number 1 above.

15. **Wetland Soils Suitable for Habitat** – The proposed project is not reasonably expected to adversely affect wetland soils suitable for habitat.

16. **Floral Values** – The proposed project is not reasonably expected to adversely affect floral values as set forth in Number 1 above.

17. **Fauna Values** - The proposed project is not reasonably expected to adversely affect fauna values as set forth in Number 1 above.

18. **Rare, Threatened and Endangered Species** – The proposed project is not reasonably expected to adversely affect rare, threatened and endangered species as set forth in Number 1 above.

19. **Natural Flood Damage Protection** - The proposed project is not reasonably expected to adversely affect surface water drainage or retention of stormwater.

20. **Wetland Values** – The proposed project is not reasonably expected to adversely affect wetland habitat.

21. **Land Use Classification** – Pursuant to Section 24-48.2(II)(B)(7) of the Code of Miami-Dade County, Florida, applications for Class I permits by a municipality within its own jurisdiction shall not be required to submit a substantiating letter or plan approval from the local zoning authority.

22. **Recreation** - The proposed project does not conflict with the recreation element of the Miami-Dade County Comprehensive Development Master Plan.

23. **Other Environmental Values Affecting the Public Interest** – The proposed project is not reasonably expected to adversely affect other environmental values affecting the public interest. The proposed project would occur on lands owned by the applicant.

24. **Conformance with Standard Construction Procedures and Practices and Design and Performance Standards** – The proposed project complies with the standard construction procedures and practices and design and performance standards of the applicable portions of the Code of Miami-Dade County and the Miami-Dade County Public Works Manual.

25. **Comprehensive Environmental Impact Statement (CEIS)** - In the opinion of the Director, the proposed

project is not reasonably expected to result in significant adverse environmental impacts or cumulative adverse environmental impacts. Therefore, a CEIS was not required by DERM to evaluate the project.

FOR BARGES LAUNCHED FROM A BOAT RAMP, A LETTER OF AUTHORIZATION FROM THE BOAT RAMP OWNER AND A MAP SHOWING ITS LOCATION SHALL BE PROVIDED AT THE REQUIRED PRE-CONSTRUCTION MEETING. NO BARGES MAY BE LAUNCHED FROM THE BANK OF ANY CANAL. IF A BARGE IS TO REMAIN IN THE CANAL OVERNIGHT, SAFETY/NAVIGATIONAL LIGHTING AND SIGNS SHALL BE USED TO ENSURE PUBLIC SAFETY. PERMITTEE SHALL BE SOLELY RESPONSIBLE FOR ALL DAMAGES RESULTING FROM PERMITTEE'S USE OF A BARGE WITHIN THE DISTRICT'S RIGHT OF WAY.

6. THE DISTRICT SHALL NOT BE RESPONSIBLE FOR ANY DAMAGE OR LOSS TO ANY IMPROVEMENTS AND/OR RELATED APPURTENANCES AUTHORIZED BY THIS PERMIT, INCLUDING VESSELS DOCKED THERETO, RESULTING FROM DISTRICT USE, OPERATION (E.G., WATER FLOWS, FLUCTUATIONS AND OPERATIONS OF ITS STRUCTURES), ACTIVITY AND/OR MAINTENANCE OF OR IN ITS RIGHTS OF WAY OR OTHER WORKS OF THE DISTRICT.

9. EXCAVATED MATERIAL FROM THE CANAL SHALL NOT BE STOCKPILED IN THE RIGHT OF WAY. PERMITTEE SHALL REMOVE ALL EXCESS MATERIAL FROM THE RIGHT OF WAY.
10. THE BULKHEAD/SEAWALL SHALL BE CONSTRUCTED WITH ADEQUATE RETURNS AT EACH END OF CONSTRUCTION TO PREVENT EROSION THAT COULD UNDERMINE THE BULKHEAD.
11. THE BULKHEAD/SEAWALL SHALL BE OF ADEQUATE DESIGN TO RESIST ALL STATIC AND DYNAMIC FORCES APPLIED THERETO BY CONDITIONS THAT MAY BE CREATED FROM CANAL FLOWS AND STAGES.
12. THE INVERT ELEVATION OF THE AUTHORIZED CULVERT SHALL BE SET AT (-)3.0 FEET NGVD 1929 ((-)4.5 FEET NAVD 1988) OR LOWER.
13. ALL CULVERTS MEASURING 36 INCHES IN DIAMETER OR GREATER SHALL BE EQUIPPED WITH A SKIMMER OR BAFFLE WHICH EFFECTIVELY PRECLUDES THE DISCHARGE OF DEBRIS, VEGETATION OR AQUATIC MATERIAL INTO THE CANAL. PERMITTEE SHALL BE RESPONSIBLE FOR MAINTENANCE OF THE REQUIRED SKIMMER OR BAFFLE.
14. PERMITTEE SHALL BE RESPONSIBLE FOR ENSURING THAT THE AUTHORIZED CULVERT DOES NOT DISCHARGE DEBRIS, VEGETATION OR AQUATIC MATERIAL INTO THE CANAL. IF THE CULVERT CONNECTION OR PERMITTEE FAILS TO PREVENT SUCH DISCHARGE, THE DISTRICT RESERVES THE RIGHT TO REQUIRE PERMITTEE TO REMOVE AND DISPOSE OF DEBRIS FROM THE CANAL AT ITS SOLE EXPENSE IMMEDIATELY UPON DEMAND BY THE DISTRICT. FAILURE TO PREVENT OR REMOVE DISCHARGE FROM THE CANAL SHALL BE GROUNDS FOR REVOCATION OF THIS PERMIT AND REMOVAL OF THE CULVERT FROM THE DISTRICT'S RIGHT OF WAY.
15. PERMITTEE SHALL INSTALL AND MAINTAIN THE EROSION CONTROL RIP-RAP AT THE BASE OF THE SEAWALL AND THE DISCHARGE CULVERT IN ACCORDANCE WITH THE PLANS AND SPECIFICATIONS FOR THE WORK AUTHORIZED BY THIS PERMIT.

UNLESS OTHERWISE EXPRESSLY SET FORTH IN THIS PERMIT, NO PLACEMENT OF ANY MATERIAL IS AUTHORIZED IN THE CANAL.
17. FOR WORK REQUIRING THE INSTALLATION OF TURBIDITY BARRIERS OR BOOMS, PERMITTEE SHALL BE REQUIRED TO REMOVE ALL VEGETATION AND SURFACE DEBRIS CAPTURED BY SUCH DEVICES PRIOR TO THEIR REMOVAL.

18. PERMITTEE IS ADVISED THAT MANGROVE TREES ARE PRESENT WITHIN THE LIMITS OF THE PROJECT AREA. MANGROVES ARE A PROTECTED SPECIES IN THE STATE OF FLORIDA. IF THE PROPOSED WORK WILL RESULT IN THE ALTERATION, TRIMMING OR REMOVAL OF MANGROVES, PERMITTEE IS STRONGLY ENCOURAGED TO CONTACT THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION TO DETERMINE WHAT PERMITS, IF ANY, ARE REQUIRED. PERMITTEE SHALL COMPLY WITH ALL LOCAL, STATE AND FEDERAL LAWS RELATED TO MANGROVES, AND SHALL BE LIABLE FOR ALL COSTS, PENALTIES, CORRECTIVE ACTIONS OR OTHER REMEDIES IMPOSED BY ANY AGENCY AS A RESULT OF PERMITTEE'S FAILURE TO COMPLY WITH SUCH LAWS.
19. COMMERCIAL USE OF ANY PORTION OF THE WORK AUTHORIZED BY THIS PERMIT IS PROHIBITED.

General Conditions

1. THIS AUTHORIZATION IS SOLELY FOR THE USE OF PERMITTEE AND PERMITTEE'S CONTRACTOR(S)/SUB-CONTRACTOR(S) PERFORMING WORK WITHIN OR USING THE RIGHT OF WAY.
2. AT NO TIME SHALL THE CANAL BE BLOCKED OR FLOWS OTHERWISE RESTRICTED OR IMPEDED. THIS RESTRICTION SHALL INCLUDE, BUT NOT BE LIMITED TO, A PROHIBITION ON THE USE OF DAMS OR FILL IN THE CANAL DURING ALL PHASES OF CONSTRUCTION AND ANY SUBSEQUENT FUTURE MAINTENANCE OPERATIONS.
3. PERMITTEE AND/OR THE PERMITTEE'S CONTRACTORS SHALL ALWAYS MAINTAIN THE DISTRICT'S VEHICULAR ACCESS THROUGHOUT THE PROJECT LIMITS. IF, IN PERMITTEE'S OPINION, IT WILL BE NECESSARY FOR THE DISTRICT'S VEHICULAR ACCESS TO BE BLOCKED, IMPEDED OR ALTERED AT ANY TIME, PERMITTEE SHALL SUBMIT A WRITTEN REQUEST TO THE DISTRICT SETTING FORTH THE PROPOSED ACTIVITIES THAT WILL RESULT IN OBSTRUCTION OF THE RIGHT OF WAY AND THE DATES THAT THE RIGHT OF WAY WILL BE RENDERED INACCESSIBLE. WRITTEN PERMISSION FROM THE DISTRICT SHALL BE REQUIRED PRIOR TO COMMENCEMENT OF PERMITTEE'S PROPOSED OBSTRUCTION OF THE RIGHT OF WAY. THE DISTRICT, AT ITS SOLE DISCRETION, RESERVES THE RIGHT TO APPROVE, APPROVE WITH CONDITIONS OR DENY PERMITTEE'S REQUEST.
4. TURBIDITY BARRIERS SHALL BE PLACED WITHIN THE CANAL IF DIRECTED BY THE DISTRICT'S FIELD REPRESENTATIVE AT THE PRE-CONSTRUCTION MEETING. PERMITTEE SHALL REMOVE THE TURBIDITY BARRIERS IN COMPLIANCE WITH DIRECTION FROM THE DISTRICT WHEN OPERATION, MAINTENANCE OR EMERGENCY CONDITIONS REQUIRE SUCH REMOVAL.
5. THE DISTRICT'S FIELD REPRESENTATIVE SHALL HAVE SOLE AUTHORITY TO DETERMINE WHETHER PERMITTEE'S METHODS OF CONSTRUCTION, INTERIM WORK, CONSTRUCTION ACTIVITY OR USE OF THE RIGHT OF WAY IS IN CONFORMANCE WITH THE PERMIT AUTHORIZATION, INCLUDING TERMS AND CONDITIONS, THE APPLICATION, RESPONSES OR STATEMENTS MADE BY PERMITTEE DURING APPLICATION PROCESSING, AND SUPPORTING DOCUMENTS INCORPORATED INTO THE PERMIT FILE. IF THE DISTRICT'S FIELD REPRESENTATIVE DETERMINES THAT PERMITTEE'S ACTIVITIES ARE NOT IN CONFORMANCE, HE/SHE SHALL ISSUE A STOP WORK ORDER TO PERMITTEE UNTIL SUCH NONCONFORMANCE HAS BEEN RESOLVED TO THE SATISFACTION OF THE DISTRICT. IF PERMITTEE CHOOSES TO PROCEED WITH THE WORK AUTHORIZED BY THIS PERMIT, PERMITTEE ACKNOWLEDGES THIS CONDITION AND AGREES TO CEASE ALL ACTIVITY IN THE DISTRICT'S RIGHT OF WAY IMMEDIATELY UPON RECEIPT OF THE STOP WORK ORDER.
6. IF THE IMPROVEMENTS, WORK AND/OR USE AUTHORIZED BY THIS PERMIT (EITHER DURING CONSTRUCTION OR FOLLOWING COMPLETION) RESULT IN ANY DAMAGE TO THE DISTRICT'S RIGHT OF WAY (E.G., SHOALING, EROSION OR WASH-OUT OF ANY AREA IN THE RIGHT OF WAY), DISTRICT FACILITIES AND/OR ANY OTHER FACILITIES (AUTHORIZED OR UNAUTHORIZED), PERMITTEE SHALL BE SOLELY RESPONSIBLE FOR REPAIRING SUCH DAMAGE. IN ADVANCE OF PERFORMING ANY REPAIRS, PERMITTEE SHALL CONSULT WITH THE DISTRICT TO DETERMINE THE APPLICABLE DISTRICT PROCESSES AND REQUIREMENTS WHICH MAY INCLUDE, BUT ARE NOT LIMITED TO, FILING AN APPLICATION FOR A RIGHT OF WAY OCCUPANCY PERMIT TO SECURE AUTHORIZATION TO PERFORM SUCH WORK. PERMITTEE SHALL BE RESPONSIBLE FOR ALL COSTS AND LIABILITY RESULTING FROM SUCH DAMAGE.

7. IF STORM, HURRICANE OR EMERGENCY CIRCUMSTANCES DEVELOP, THE DISTRICT IS AUTHORIZED, AT ITS SOLE DISCRETION, TO TEMPORARILY OR PERMANENTLY SUSPEND OR TERMINATE THE AUTHORIZED USE. IN SUCH EVENT, THE DISTRICT WILL CONTACT PERMITTEE TO PROVIDE DIRECTION WHICH MAY INCLUDE, BUT IS NOT LIMITED TO, VACATING THE RIGHT OF WAY, REMOVING AND/OR SECURING EQUIPMENT AND/OR MATERIALS FROM THE RIGHT OF WAY, OR PERFORMING WORK TO ENSURE THAT THE RIGHT OF WAY IS SUFFICIENTLY RESTORED TO ACCOMMODATE DISTRICT OPERATIONS AND MAINTENANCE ACTIVITIES. PERMITTEE, INCLUDING ALL PERSONS, VENDORS, SUB-CONTRACTORS OR AGENTS OF PERMITTEE, SHALL BE REQUIRED TO COMPLY WITH DISTRICT DIRECTION. THE DISTRICT RESERVES THE RIGHT TO TERMINATE THE AUTHORIZED USE IF PERMITTEE FAILS TO MAKE SURE THAT ALL PARTIES COMPLY WITH THIS CONDITION.
8. PERMITTEE SHALL NOT STOCKPILE SOIL, MATERIALS OR DEBRIS IN THE RIGHT OF WAY. SUCH MATERIALS SHALL BE REMOVED FROM THE RIGHT OF WAY UNLESS OTHERWISE SET FORTH BY THE CONDITIONS OF THIS PERMIT. PERMITTEE SHALL EXERCISE BEST MANAGEMENT PRACTICES TO PREVENT EROSION OR SOILS FROM ENTERING THE CANAL DURING THE AUTHORIZED WORK, INCLUDING, BUT NOT LIMITED TO, THE TEMPORARY INSTALLATION OF SILT FENCE OR OTHER MEANS OF CONTAINMENT ACCEPTABLE TO THE DISTRICT.
9. THE DISTRICT'S REVIEW OF PERMITTEE'S PLANS IS LIMITED TO DETERMINING WHETHER THE PROPOSED WORK WILL IMPACT THE DISTRICT'S OPERATIONS AND MAINTENANCE OF ITS RIGHTS OF WAY OR FLOOD CONTROL SYSTEM. ISSUANCE OF THIS PERMIT BY THE DISTRICT SHALL NOT BE CONSTRUED BY PERMITTEE OR ANY OTHER PARTY AS APPROVAL BY THE DISTRICT OF THE DESIGN, ENGINEERING OR CONSTRUCTION OF THE PROPOSED IMPROVEMENTS. PERMITTEE SHALL BE SOLELY RESPONSIBLE FOR ENSURING THAT THE PROPOSED WORK IS DESIGNED, ENGINEERED AND CONSTRUCTED TO SERVE ITS INTENDED PURPOSE.
10. THE DISTRICT RESERVES THE RIGHT, AT ITS SOLE DISCRETION, TO REQUIRE AN INSPECTION REPORT FROM A PROFESSIONAL ENGINEER OR CONTRACTOR LICENSED IN THE STATE OF FLORIDA AT ANY TIME DURING WHICH THE AUTHORIZED WORK REMAINS IN THE RIGHT OF WAY TO VERIFY THAT THE AUTHORIZED WORK COMPLIES WITH INDUSTRY STANDARDS, PERFORMS THE FUNCTION FOR WHICH IT WAS DESIGNED AND IS SOUND AND POSES NO THREAT TO THE DISTRICT'S RIGHT OF WAY AND/OR OPERATION AND MAINTENANCE OF ITS FLOOD CONTROL SYSTEM. IF THE DISTRICT DETERMINES THAT REPAIR, REPLACEMENT OR REFURBISHMENT OF THE AUTHORIZED WORK IS REQUIRED, PERMITTEE SHALL IMMEDIATELY COMPLY WITH DISTRICT DIRECTION TO SECURE APPROVALS/PERMITS, AS MAY BE REQUIRED, AND TO PERFORM SUCH WORK WITHIN THE TIMEFRAME SET FORTH BY THE DISTRICT.
11. PERMITTEE SHALL BE SOLELY RESPONSIBLE FOR PERFORMING REGULAR AND ROUTINE INSPECTIONS OF THE IMPROVEMENTS AUTHORIZED BY THIS PERMIT AND CORRECTING ANY DEFICIENCIES IDENTIFIED BY SUCH INSPECTIONS TO ENSURE THAT THE IMPROVEMENTS CONTINUE TO COMPLY WITH THE PERMIT AND PERFORM, AS NEEDED, TO PROTECT PUBLIC HEALTH, SAFETY AND WELFARE.
12. PERMITTEE SHALL MAKE PROSPECTIVE BIDDERS AWARE OF THE TERMS AND CONDITIONS OF THIS PERMIT. PERMITTEE SHALL BE RESPONSIBLE FOR ALL ACTIONS OF ITS CONTRACTORS AND AGENTS AND TO ENSURE THAT PARTIES ACTING ON BEHALF OF PERMITTEE COMPLY WITH THE TERMS AND CONDITIONS OF THIS PERMIT.

13. PERMITTEE SHALL NEITHER CONSTRUCT, INSTALL OR PLACE ADDITIONAL IMPROVEMENTS WITHIN THE DISTRICT'S RIGHT OF WAY, NOR USE THE RIGHT OF WAY FOR ANY ACTIVITY (UNLESS EXPRESSLY AUTHORIZED BY THIS PERMIT) WITHOUT FIRST HAVING OBTAINED A MODIFICATION OF THIS PERMIT. OF PARTICULAR NOTE, THAT AREA MEASURING 40 FEET LANDWARD FROM THE TOP OF BANK SHALL REMAIN FREE AND CLEAR OF ANY OBSTRUCTIONS, IMPROVEMENTS OR USE, UNLESS OTHERWISE AUTHORIZED BY THIS PERMIT.
14. THIS PERMIT SHALL NOT BECOME VALID UNTIL ALL OTHER REQUIRED SOUTH FLORIDA WATER MANAGEMENT DISTRICT, LOCAL, COUNTY AND/OR STATE PERMITS OR OTHER AFFECTED PARTIES' APPROVALS HAVE BEEN OBTAINED. IF THERE IS A CONFLICT BETWEEN THE WORK AUTHORIZED BY THIS PERMIT AND A PERMIT OBTAINED FROM A DIFFERENT PUBLIC OR PRIVATE ENTITY, THE TERMS AND CONDITIONS OF THIS PERMIT SHALL PREVAIL AND HAVE SUPERIORITY.
15. A COPY OF THE PERMIT PACKAGE WILL BE KEPT AT THE JOB SITE UNTIL COMPLETION OF ALL PHASES OF CONSTRUCTION AND APPROVAL OF THE FINAL INSPECTION.
16. THE DISTRICT SHALL NOT BE LIABLE FOR ANY DAMAGE OR LOSS TO ANY IMPROVEMENTS AND/OR RELATED APPURTENANCES AUTHORIZED BY THIS PERMIT RESULTING FROM DISTRICT USE, OPERATION (E.G., GATE, PUMPING AND STRUCTURE OPERATIONS, WATER LEVEL MANAGEMENT, WATER FLOWS, FLUCTUATIONS AND OPERATIONS OF ITS STRUCTURES), ACTIVITY AND/OR MAINTENANCE OF OR IN ITS RIGHTS OF WAY OR OTHER WORKS OF THE DISTRICT.
17. THE DISTRICT RESERVES THE RIGHT TO REQUIRE PERMITTEE TO SUBMIT CERTIFIED AS-BUILT DRAWINGS PREPARED BY A PROFESSIONAL ENGINEER LICENSED IN THE STATE OF FLORIDA WHEN, IN THE SOLE OPINION OF THE DISTRICT, THERE IS REASON FOR THE DISTRICT TO POSSESS VERIFICATION THAT THE AUTHORIZED WORK WAS NOT PERFORMED AND/OR INSTALLED IN COMPLIANCE WITH THE CONDITIONS OF THIS PERMIT. IF THE DISTRICT MAKES SUCH A REQUEST, NO FINAL INSPECTION APPROVAL OF THE AUTHORIZED WORK SHALL BE ISSUED UNTIL PERMITTEE PROVIDES THE CERTIFIED AS-BUILT DRAWINGS. FAILURE TO COMPLY WITH A DISTRICT REQUEST FOR CERTIFIED AS-BUILT DRAWINGS SHALL CONSTITUTE A VIOLATION OF THIS PERMIT.

40E-6.381. Limiting Conditions

The District's authorization to utilize lands and other works constitutes a revocable license (including both notice general permits and standard permits). In consideration for receipt of that license, Permittees shall agree to be bound by the following standard limiting conditions, which shall be included within all permits issued pursuant to this chapter:

1. All structures on District works for lands constructed by Permittee shall remain the property of Permittee, who shall be solely responsible for ensuring that such structures and other uses remain in good and safe condition. Permittees are advised that other federal, state and local safety standards may govern the occupancy and use of the District's lands and works. The District assumes no duty with regard to ensuring that such uses are so maintained and assumes no liability with regard to injuries caused to others by any such failure.
2. Permittee solely acknowledges and accepts the duty and all associated responsibilities to incorporate safety features, which meet applicable engineering practice and accepted industry standards, into the design, construction, operation and continued maintenance of the permitted facilities/authorized use. This duty shall include, but not be limited to, Permittee's consideration of the District's regulation and potential fluctuation, without notice, of water levels in canals and works, as well as the Permittee's consideration of upgrades and modifications to the permitted facilities/authorized use which may be necessary to meet any future changes to applicable engineering practice and accepted industry standards. Permittee acknowledges that the District's review and issuance of this permit, including, but not limited to, any field inspections performed by the District, does not in any way consider or ensure that the permitted facilities/authorized use is planned, designed, engineered, constructed, or will be operated, maintained or modified so as to meet applicable engineering practice and accepted industry standards, or otherwise provide any safety protections. Permittee further acknowledges that any inquiries, discussions, or representations, whether verbal or written, by or with any District staff or representative during the permit review and issuance process, including, but not limited to, any field inspections, shall not in any way be relied upon by Permittee as the District's assumption of any duty to incorporate safety features, as set forth above, and shall also not be relied upon by Permittee in order to meet Permittee's duty to incorporate safety features, as set forth above.
3. Permittee agrees to abide by all of the terms and conditions of this permit, including any representations made on the permit application and related documents. This permit shall be subject to the requirements of Chapter 373, F.S., and Chapter 40E-6, F.A.C., including all subsequent rule and criteria revisions. Permittee agrees to pay all removal and restoration costs, investigative costs, court costs and reasonable attorney's fees, including appeals, resulting from any action taken by the District to obtain compliance with the conditions of the permit or removal of the permitted use. If District legal action is taken by staff counsel, "reasonable attorney's fees" is understood to mean the fair market value of the services provided, based upon what a private attorney would charge.
4. This permit does not create any vested rights, and except for governmental entities and utilities, is revocable at will upon reasonable prior written notice. Permittee bears all risk of loss as to monies expended in furtherance of the permitted use. Upon revocation, the Permittee shall promptly modify, relocate or remove the permitted use and properly restore the right of way to the District's satisfaction. In the event of failure to so comply within the specified time, the District may remove the permitted use and Permittee shall be responsible for all removal and restoration costs.
5. This permit does not convey any property rights nor any rights or privileges other than those specified herein and this permit shall not, in any way, be construed as an abandonment or any other such impairment or disposition of the District's property rights. The District approves the permitted use only to the extent of its interest in the works of the District. Permittee shall obtain all other necessary federal, state, local, special district and private authorizations prior to the start of any construction or alteration authorized by the permit. Permittee shall comply with any more stringent conditions or provisions which may be set forth in other

required permits or other authorizations. The District, however, assumes no duty to ensure that any such authorizations have been obtained or to protect the legal rights of the underlying fee owner, in those instances where the District owns less than fee.

6. Unless specifically prohibited or limited by statute, Permittee agrees to indemnify, defend and save the District (which used herein includes the District and its past, present and/or future employees, agents, representatives, officers and/or Governing Board members and any of their successors and assigns) from and against any and all lawsuits, actions, claims, demands, losses, expenses, costs, attorneys fees (including but not limited to the fair market value of the District's in-house attorneys' fees based upon private attorneys' fees/rates), judgments and liabilities which arise from or may be related to the ownership, construction, maintenance or operation of the permitted use or the possession, utilization, maintenance, occupancy or ingress and egress of the District's right of way which arise directly or indirectly and are caused in whole or in part by the acts, omissions or negligence of the Permittee or of third parties. Permittee agrees to provide legal counsel acceptable to the District if requested for the defense of any such claims.

7. The District does not waive sovereign immunity in any respect.

8. The Permittee shall not engage in any activity regarding the permitted use which interferes with the construction, alteration, maintenance or operation of the works of the District, including:

- (a) discharge of debris or aquatic weeds into the works of the District;
- (b) causing erosion or shoaling within the works of the District;
- (c) planting trees or shrubs or erecting structures which limit or prohibit access by District equipment and vehicles, except as may be authorized by the permit. Permittee shall be responsible for any costs incurred by the District resulting from any such interference, as set forth in (a), (b), and (c), above.
- (d) leaving construction or other debris on the District's right of way or waterway;
- (e) damaging District berms and levees;
- (f) the removal of District owned spoil material;
- (g) removal of or damage to District locks, gates, and fencing;
- (h) opening of District rights of way to unauthorized vehicular access; or
- (i) running or allowing livestock on the District's right of way.

9. The District is not responsible for any personal injury or property damage which may directly or indirectly result from the use of water from the District's canal or any activities which may include use or contact with water from the District's canal, since the District periodically sprays its canals for aquatic weed control purposes and uses substances which may be harmful to human health or plant life.

10. Permittee shall allow the District to inspect the permitted use at any reasonable time.

11. Permittee shall allow, without charge or any interference, the District, its employees, agents, and contractors, to utilize the permitted facilities before, during and after construction for the purpose of conducting the District's, routine and emergency, canal operation, maintenance, and construction activities. To the extent there is any conflicting use, the District's use shall have priority over the Permittee's use.

12. This permit is a non-exclusive revocable license. Permittee shall not interfere with any other existing or future permitted uses or facilities authorized by the District.

13. The District has the right to change, regulate, limit, schedule, or suspend discharges into, or withdrawals from, works of the District in accordance with criteria established by the Big Cypress Basin, the District, or the U.S. Army Corps of Engineers for the works of the District.

14. If the use involves the construction of facilities for a non exempt water withdrawal or surface water discharge, the applicant must apply for and obtain a water use or surface water management permit before or concurrently with any activities which may be conducted pursuant to the right of way occupancy permit.

15. The District shall notify the local ad valorem taxing authority of the lands affected by the permitted use,

where the Permittee owns the underlying fee and derives a substantial benefit from the permitted use. The taxing authority may reinstate such lands on the tax roll. Failure to pay all taxes in a timely manner shall result in permit revocation. Such permit revocation shall not alleviate the responsibility of the Permittee to pay all taxes due and payable.

16. Permittee shall provide prior written notice to their successors in title of the permit and its terms and conditions.

17. Permittee authorizes the District to record a Notice of Permit through filing the appropriate notice in the public records of the county or counties where the project is. Governmental entities and utilities are not subject to this provision.

18. Permittee shall be responsible for the repair or replacement of any existing facilities located within the District's right of way which are damaged as a result of the installation or maintenance of the authorized facility.

19. All obligations under the terms of this permit authorization and any subsequent modifications hereto shall be joint and several as to all owners.

20. It is the responsibility of the Permittee to make prospective bidders aware of the terms and conditions of this permit. It shall be the responsibility of the Permittee's contractors to understand the terms and conditions of this permit and govern themselves accordingly.

21. It is the responsibility of the Permittee to bring to the attention of the District any conflict in the permit authorization or permit conditions in order that they may be resolved prior to the start of construction. In resolving such conflicts the District's determination will be final.

22. Special Conditions that are site specific shall be incorporated into every Permit as may be necessary in the best interest of the District.

23. The District is not responsible for the repair of or claims of damage to any facilities and uses which may incur damage resulting from the District's utilization of its rights of way or use by third parties. Improvements placed within the right of way are done so at the sole risk of the owner.

A review of the information and drawings provided indicates that the proposed work is to conduct shoreline improvements, repairs and renovations to the existing municipal park.

The project includes the following components:

1. Installation of 77 linear feet of concrete seawall with an associated 3 foot wide concrete cap and 11 concrete piles installed landward of the existing seawall.
2. Installation of a 42 foot long by 8 foot wide (336 sq. ft.) kayak ramp. Approximately 0.94 cubic yards of fill are proposed below MHW for the grading of the proposed kayak ramp.
3. Placement of approximately 32 cubic yards (528 square feet) of riprap along 60 linear feet of the existing shoreline and the proposed seawall.
4. Replacement of an existing 25 inch diameter outfall with a new 48 inch diameter outfall. The new outfall will be installed on the proposed seawall and will have a manatee barrier installed on the waterward side.

All work is anticipated to be conducted from the uplands and temporary turbidity curtains will be used during the construction phase.

The activities subject to this permit are authorized pursuant to authorities under Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. § 403), **and** Section 404 of the Clean Water Act (33 U.S.C. § 1344). The project would affect waters of the United States associated with Little River. The project site is located at NE 10th Avenue and NE Little River Drive in Section 20, Township 53 South, Range 42 East, Miami, Florida 33138.

Your project, as depicted on the enclosed drawings, is authorized by Nationwide Permit (NWP) 3 (Maintenance), 13 (Bank Stabilization), 7 (Outfall Structures), 36 (Boat Ramps). **This verification is valid until March 14, 2026.** Furthermore, if you commence or are under contract to commence this activity before the date that the relevant NWP is modified or revoked, you will have 12 months from the date of the modification or revocation of the NWP to complete the activity under the present terms and conditions of this NWP. In order for this NWP authorization to be valid, you must ensure that the work is performed in accordance with the NWP General Conditions and the Jacksonville District Regional Conditions, and the General and Project-Specific Special Conditions listed below. Alternatively, you can access the U.S. Army Corps of Engineers' (Corps) Jacksonville District's Regulatory Source Book web page for links to view NWP information at: <https://www.saj.usace.army.mil/Missions/Regulatory/Source-Book/>. Please be aware this Internet address is case sensitive and should be entered as it appears above. Once there select "Source Book" and then select "Nationwide Permits." These files contain the description of the NWP authorization, the NWP general conditions, and the regional conditions, which apply specifically to this NWP verification.

You must comply with all of the special and general conditions for NWP-#, including any project-specific conditions included in this letter and all conditions incorporated by reference as described above.

General Conditions (33 CFR PART 320-330):

1. The time limit for completing the work authorized ends on **March 14, 2026.**
2. You must maintain the activity authorized by this permit in good condition and in conformance with the terms and conditions of this permit. You are not relieved of this requirement if you abandon the permitted activity, although you may make a good faith transfer to a third party in compliance with General Condition 4 below. Should you wish to cease to maintain the authorized activity, or should you desire to abandon it without a good faith transfer, you must obtain a modification of this permit from this office, which may require restoration of the area.
3. If you discover any previously unknown historic or archeological remains while accomplishing the activity authorized by this permit, you must immediately notify this office of what you have found. We will initiate the Federal and state coordination required to determine if the remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.

4. If you sell the property associated with this permit you must obtain the signature of the new owner on the transfer form attached to this letter and forward a copy to this office to validate the transfer of this authorization.

5. If a conditioned water quality certification has been issued for your project, you must comply with the conditions specified in the certification as special conditions to this permit.

6. You must allow a representative from this office to inspect the authorized activity at any time deemed necessary to ensure that it is being or has been accomplished in accordance with the terms and conditions of your permit.

2. **COMMENCEMENT NOTIFICATION:** Within 10 days from the date of initiating the work authorized by this permit. The Permittee shall provide a written notification of the date of commencement of authorized work to the Corps.
3. **SELF-CERTIFICATION:** Within 60 days of completion of the work authorized by this permit, the Permittee shall complete the attached "Self-Certification Statement of Compliance" form and submit it to the Corps. In the event that the completed work deviates in any manner from the authorized work, the Permittee shall describe the deviations between the work authorized by this permit and the work as constructed on the "Self-Certification Statement of Compliance" form. The description of any deviations on the "Self-Certification Statement of Compliance" form does not constitute approval of any deviations by the Corps.
4. **POSTING OF PERMIT:** The Permittee shall ensure that all contractors, sub-contractors, and entities associated with the implementation of the project review, understand, and comply with the approved plans and special conditions made part of this permit. The Permittee shall inform all parties associated with the activity of the construction area boundaries, and the location of adjacent *wetland shoreline, sea grass, corals, hardbottom* to be avoided. Complete copies of the

permit and approved plans shall be available at the construction site at all times. Failure to comply with the approved plans and permit special conditions may subject the Permittee to enforcement action.

5. **AGENCY CHANGES/APPROVALS:** Should any other agency require and/or approve changes to the work authorized or obligated by this permit, the Permittee is advised a modification to this permit instrument is required prior to initiation of those changes. The Corps reserves the right to fully evaluate, amend, and approve or deny the request for modification of this permit.
6. **MANATEE CONDITION:** The Permittee shall comply with the "Standard Manatee Conditions for In-Water Work – 2011," attached to this permit.
7. **TURBIDITY BARRIERS:** Prior to the initiation of any of the work authorized by this permit the Permittee shall install floating turbidity barriers with weighted skirts that extend to within one foot of the bottom around all work areas that are in, or adjacent to, surface waters. The turbidity barriers shall remain in place and be maintained until the authorized work has been completed and all erodible materials have been stabilized.
8. **ASSURANCE OF NAVIGATION AND MAINTENANCE:** The Permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structures or work herein authorized, or if in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the Permittee will be required, upon due notice from the Corps of Engineers, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the United States. No claim shall be made against the United States on account of any such removal or alteration.
9. **BEST MANAGEMENT PRACTICES:** Environmental controls and best management practices must be implemented to properly contain construction materials and prevent fugitive particulates from entering surrounding waters during the construction of the project.
10. **Historic Properties:**
 - a. No structure or work shall adversely affect impact or disturb properties listed in the National Register of Historic Places (NRHP) or those eligible for inclusion in the NRHP.
 - b. If during the ground disturbing activities and construction work within the permit area, there are archaeological/cultural materials encountered which were not the subject of a previous cultural resources assessment survey (and which

shall include, but not be limited to: pottery, modified shell, flora, fauna, human remains, ceramics, stone tools or metal implements, dugout canoes, evidence of structures or any other physical remains that could be associated with Native American cultures or early colonial or American settlement), the Permittee shall immediately stop all work and ground-disturbing activities within a 100-meter diameter of the discovery and notify the Corps within the same business day (8 hours). The Corps shall then notify the Florida State Historic Preservation Officer (SHPO) and the appropriate Tribal Historic Preservation Officer(s) (THPO(s)) to assess the significance of the discovery and devise appropriate actions.

c. Additional cultural resources assessments may be required of the permit area in the case of unanticipated discoveries as referenced in accordance with the above Special Condition ; and if deemed necessary by the SHPO, THPO(s), or Corps, in accordance with 36 CFR 800 or 33 CFR 325, Appendix C (5). Based, on the circumstances of the discovery, equity to all parties, and considerations of the public interest, the Corps may modify, suspend or revoke the permit in accordance with 33 CFR Part 325.7. Such activity shall not resume on non-federal lands without written authorization from the SHPO for finds under his or her jurisdiction, and from the Corps.

d. In the unlikely event that unmarked human remains are identified on non-federal lands, they will be treated in accordance with Section 872.05 Florida Statutes. All work and ground disturbing activities within a 100-meter diameter of the unmarked human remains shall immediately cease and the Permittee shall immediately notify the medical examiner, Corps, and State Archeologist within the same business day (8-hours). The Corps shall then notify the appropriate SHPO and THPO(s). Based, on the circumstances of the discovery, equity to all parties, and considerations of the public interest, the Corps may modify, suspend or revoke the permit in accordance with 33 CFR Part 325.7. Such activity shall not resume without written authorization from the State Archeologist and from the Corps.

11. **JAXBO:** Jacksonville District Programmatic Biological Opinion (JAXBO), 2017, Project Design Criteria (PDCs): Structures authorized under this permit must comply with all applicable PDCs, based on the permitted activity, as required by JAXBO. Please note that failure to comply with the applicable PDCs, where a take of listed species occurs, would constitute an unauthorized take, and noncompliance with this permit. The NMFS is the appropriate authority to enforce the terms and conditions of JAXBO. The most current version of JAXBO can be accessed at the Jacksonville District Regulatory Division internet webpage in the Endangered Species section of the Sourcebook located at: <http://www.saj.usace.army.mil/Missions/Regulatory/SourceBook.aspx>

Note - JAXBO may be subject to revision at any time. The most recent version of these conditions must be utilized during the design and construction of the permitted work. In accordance with the Endangered Species Act, and for those

projects which do not comply with JAXBO, the Corps will seek individual consultation with the NMFS.

Note - some authorized activities may deviate from the PDCs. In cases, where the activity (i.e., structure dimensions, length, etc.) deviates from the PDCs, the permit drawings shall supersede the PDCs.

For each of the following authorized activities subject of this permit, the permittee shall adhere to the following PDCs, which are attached to, and made part of, this authorization/verification letter:

Activity 1 - Shoreline Stabilization: (AP.1-14; A1.1-12; S.1; S.2; S.4)

Activity 4 -Water Management Outfall Structures and Endwalls: (AP.1-14; A4.1-7; S.1; S.4)

Activity 36 - Boat Ramps: (AP.1-14; A6.1-11; S.1; S.4)

12. **Clean fill:** The Permittee shall use only clean fill material for this project. The fill material shall be free from items such as trash, debris, automotive parts, asphalt, construction materials, concrete block with exposed reinforcement bars, and soils contaminated with any toxic substance, in toxic amounts in accordance with Section 307 of the Clean Water Act.
13. **Erosion Control:** Prior to the initiation of any work authorized by this permit, the Permittee shall install erosion control measures along the perimeter of all work areas to prevent the displacement of fill material outside the work area into waters of the United States. Immediately after completion of the final grading of the land surface, all slopes, land surfaces, and filled areas shall be stabilized using sod, degradable mats, barriers, or a combination of similar stabilizing materials to prevent erosion. The erosion control measures shall remain in place and be maintained until all authorized work is completed and the work areas are stabilized.
14. **PROTECTED SPECIES CONSTRUCTION CONDITIONS:** The Permittee agrees to abide by the enclosed standard construction conditions designed to protect species under the jurisdiction of NOAA Fisheries Southeast Regional Office (SERO) Protected Resources Division (PRD).

This authorization does not obviate the necessity to obtain any other Federal, State, or local permits, which may be required. Prior to the initiation of any construction, projects qualifying for this NWP/RGP permit must qualify for an exemption under section 403.813(1), F.S. or 373.406, F.S., or otherwise be authorized by the applicable permit required under Part IV of Chapter 373, F.S., by the Department of Environmental Protection, a water management district under section 373.069, F.S., or a local government with delegated authority under section 373.441, F.S., and receive Water Quality Certification (WQC) and applicable Coastal Zone Consistency Concurrence (CZCC) or waiver thereto, as well as any authorizations required for the use of state-

owned submerged lands under Chapter 253, F.S., and, as applicable, Chapter 258, F.S. You should check State-permitting requirements with the Florida Department of Environmental Protection or the appropriate water management district.

This letter of authorization does not give absolute Federal authority to perform the work as specified on your application. The proposed work may be subject to local building restrictions mandated by the National Flood Insurance Program. You should contact your local office that issues building permits to determine if your site is located in a flood-prone area, and if you must comply with the local building requirements mandated by the National Flood Insurance Program.

This letter of authorization does not preclude the necessity to obtain any other Federal, State, or local permits, which may be required.
