CHANGES TO TODAY'S COMMITTEE AGENDA

Assistant County Attorney Joni Armstrong-Coffey noted the changes listed in the County Manager's Memorandum entitled "Requested Changes to the Governmental Operations and Environment Committee Agenda," dated July 11, 2007.

Chairwoman Seijas requested Agenda Items 3A and 3F be deferred indefinitely.

It was moved by Commissioner Gimenez that the changes in the County Manager's memorandum be approved as noted by Assistant County Attorney Armstrong-Coffey, along with the additional changes requested by Chairwoman Seijas. This motion was seconded by Commissioner Edmonson, and upon being put to a vote, passed by a vote of 4-0 (Commissioners Diaz and Martinez were absent).

Report: *Assistant County Attorney Armstrong-Coffey read the foregoing proposed resolution into the record.*

Mr. Lester Sola, Supervisor of Elections, Elections Department, noted that the lead time for the General Services Administration (GSA) Print Shop equipment would be approximately six (6) months and that the set up timeframe would be three (3) months. He clarified the intent of this proposed resolution was for authorization to advertise and negotiate these contracts and to come before the Board on September 4, 2007, for review and approval of the contracts. He emphasized that this proposal was not asking for authorization to award these contracts during the August recess.

Commissioner Gimenez expressed concern regarding the sense of urgency in the memorandum entitled "Resolution Authorizing the County Mayor to Award Contracts during the Board Recess in August in Preparation for the 2008 Election Cycle."

In response to Commissioner Gimenez's inquiry concerning the sense of urgency, Mr. Sola explained the memorandum encompassed the entire components needed by the Elections Department (Elections). He noted that Elections was in a sense of urgency to procure voting equipment because Elections currently used the GSA Print Shop to print the ballots, and the GSA Print Shop needed to increase its capacity for Elections to continue using it.

Commissioner Gimenez expressed concern regarding the recommendation that only one vendor was capable of providing the voting equipment.

Mr. Sola clarified that a voting system included the software to program an election, the ballots, and the optical scanners; that optical scanners from a different vendor could not interact with the

existing software; and that Elections recommended the County use the existing vendor to minimize the cost of conversion.

Following further discussion regarding the number of recommended vendors, Commissioner Gimenez expressed concern that this memorandum intended to lead the Commission down a path.

Commissioner Martinez pointed out that Sarasota County had used ES&S the same vendor as the County for its election equipment; that Sarasota County had bought optical scanners from Diebold; and that Sarasota County appeared to have integrated its software with Diebold's optical scanners.

Mr. Sola clarified that Sarasota County changed its entire voting system and that the Diebold optical scanners did not interface with ES&S's software.

Discussion ensued regarding the intent and the voting booth aspect of this proposed resolution.

Commissioner Gimenez asked Assistant County Manager Hudak and Mr. Sola to provide him with the name(s) of the individual(s) who wrote the County Manager's memorandum entitled "Resolution Authorizing the County Mayor to Award Contracts During the Board Recess in August in Preparation for the 2008 Election Cycle."

Assistant County Manager Hudak said Mr. Sola, Ms. Miriam Singer, Director, Procurement Management Department, GSA, herself, and their staffs wrote the memorandum. She noted the County experienced an election crisis in 2002 when it had limited time to transition to new voting equipment and the intent of this proposed resolution was to do everything possible to be ready for the 2008 elections.

Following Commissioner Gimenez's explanation that he preferred to have the County Administration provide the Commission with the facts in lieu of lead them down a path, Mr. Sola clarified his recommendation was for the Commission to authorize the County Administration to advertise the contracts and to enter into negotiations with the vendors and to waive the competitive bid process for the optical scanner contract.

In response to Chairwoman Seijas' question regarding the bid waiver, Assistant County Attorney Oren Rosenthal advised that a bid waiver required a recommendation from the County Manager and a 2/3 majority vote from the Commission.

Mr. Sola further clarified that his recommendation was the following:

- For the "Lease-Purchase of three Black & White High Speed Digital Production Printers" contract; to negotiate with the successful bidder and present the award for approval before the Board in September;*
- For the "Purchase of Lithographic Printing Press" contract; to negotiate with the successful bidder and to present the award for approval before the Board in September; and*
- For the "Purchase of New Equipment" (Optical Scanners) contract; to waive the formal bid process and present the award for approval before the Board in September.*

Following discussion regarding the advantages of using ES&S optical scanners, Commissioner Gimenez noted that notwithstanding the advantages of staying with ES&S, he preferred to change vendors if it would be more cost effective and user friendly; and that he would be uncomfortable without a competitive process.

Commissioner Edmonson noted that the County Administration needed to justify its recommendations and that a competitive bid process would provide the County protection from public criticism if problems arose.

Mr. Sola noted that he felt the ES&S equipment was the best. He explained that two other vendors in Florida provided voting equipment; that the ES&S optical scanner was being certified to interface with voters in the languages and with the message size that the County wanted; that one of the other vendors could not tabulate absentee ballots; and that the third vendor had a small LCD display. He noted that the County was also driven by time constraints; that the County wanted to have the equipment early enough to use during municipal elections prior to the August 2008 election.

Commissioner Martinez noted he could not support the contract for voting booths and for new equipment with the bid waiver.

Responding to Commissioner Rolle's inquiry regarding alternatives to the bid waiver, Mr. Sola pointed out the proposal to waive the competitive bid process was a recommendation and it could follow the normal bid process. He said he did not think the County had time to follow the normal bid process; and that they could not wait until August 2008 to deploy the new system. He further noted the GSA print shop might not be able to print ballots with another vendor's voting equipment.

Following comments by Commissioner Diaz regarding the need for a competitive bid process, Chairwoman Seijas suggested the Committee amend this proposed resolution to waive the competitive bid process and authorize the County Manager to negotiate with all vendors certified in the State of Florida and bring a recommendation to the County Commission in September 2007.

Commissioner Gimenez asked that a member of the Office of the Commission Auditor be included in the negotiations.

In response to Commissioner Martinez's concern that the County Administration would only negotiate with one vendor, Mr. Sola clarified that the County would negotiate with ES&S for optical scanners and with other vendors for the entire voting system.

Following further discussion regarding the competitive negotiations, Commissioner Martinez pointed out that ES&S was still developing their trilingual optical scanner.

Commissioner Gimenez asked Mr. Sola to consider as part of the negotiations the initial purchase price versus the future operating expenses for each election for each vendor's system.

Responding to Chairwoman Seijas' inquiry regarding the amount of time involved with bid protests, Assistant County Attorney Rosenthal noted that if the Commission had a competitive process with a recommendation, the vendors would have three (3) days to file an intent to bid protest, and if a vendor filed an intent to bid protest it would require at least 10 more days before the recommendation could come before the Board.

Following further discussion concerning

Commissioner Seijas' proposed amendment, it was moved by Commissioner Diaz that the foregoing proposed resolution be forwarded to the County Commission with a favorable recommendation with committee amendment(s) to bifurcate the recommendation to authorize the County Manager to purchase new equipment on hand written page one (1), last paragraph; to waive the competitive bid process and authorize the County Manager to negotiate with all Florida vendors certified in three languages; to submit his recommendations at the September 4, 2007, County Commission meeting; to waive the bid protest period; to include representative(s) from the Office of the Commission Auditor in the negotiations; to provide Small Business participation goals; and to consider as part of the negotiations, the initial purchase price versus the future operating expenses for each election for each vendor's system. This motion was seconded by Commissioner Rolle.

Hearing no other questions or comments, the Committee proceeded to vote.

Chairwoman Seijas noted she would prepare a memorandum requesting that Chairman Barreiro waive the Board's Rules and Procedures to allow this proposed resolution to be considered at the July 24, 2007, County Commission Meeting.

PROJECT AWARD RECOMMENDATION IN THE AMOUNT OF \$999,418.18 BETWEEN FOUNTAIN ENGINEERING, INC. AND MIAMI-DADE COUNTY FOR THE SW 157 AVENUE DRAINAGE IMPROVEMENT PROJECT, LOCATED WITHIN COMMISSION DISTRICT 11 - PROJECT NO.: 1-70094GOB; CONTRACT NO: GOB05050 (Public Works Department)

Report: *Assistant County Attorney Armstrong-Coffey read the foregoing proposed bid award into the record.*

Commissioner Gimenez questioned what would be the impact if the Court decided that the land for constructing the canal in this proposed bid award did not belong to the County.

Commissioner Martinez clarified that the County attempted to deed the land to the Master Association for the residents in Lakes of the Meadows; that the Master Association did not accept the County's offer to deed the land; and that the residents' case had been rejected once already and it was being appealed.

In response to Commissioner Gimenez's questions regarding litigation over the land for the canal, an unidentified Public Works representative noted the residents opposed the canal project because they opposed losing the land.

Following Commissioner Gimenez's question whether the residents could require the County to fill the canal if they won the lawsuit, Commissioner Diaz noted the County could conserve the rights under the land.

Responding to Commissioner Martinez's suggestion that the County Commission could award the contract and delay starting the project until the Court made a decision, an unidentified Public Works representative pointed out the County did not control the hearing date and the contractor could start blaming the County for costs incurred.

Commissioner Martinez clarified that he suggested the County Commission could just authorize the County Administration to award the contract and the County Administration could wait to award it until the litigation was finished.

In response to Commissioner Edmonson's inquiry regarding squatter's rights, Assistant County Attorney Armstrong-Coffey advised that a statutory provision existed in which abutting land owners were allowed to take the land if the County did not use it within a certain timeframe. She noted that the County could condemn the land. She said the County Attorney's Office would be prepared to provide more information regarding the litigation concerning this proposal at the next meeting when this item was considered.

Commissioner Edmonson questioned how long the residents had been squatting on this land.

An unidentified Public Works representative explained that the Department of Environmental Resources Management (DERM) issued a permit allowing the residents to fence in the land; and that each resident signed the permit with a condition that they would release the land to the County within 60 days of notice when the County needed the land to construct the canal.

Pursuant to Commissioner Rolle's request, Ms. Ester Calas, Director, Public Works Department, explained Fountain Engineering, Inc. had a problem with a subcontractor on a DERM project. She said the Water and Sewer Department was very satisfied with the work that Fountain Engineering, Inc. was currently doing.

Commissioner Seijas asked Ms. Calas to provide the name of the subcontractor used by Fountain Engineering, Inc. who was responsible for the low performance rating from DERM.

Following further discussion regarding the low performance rating from DERM, Commissioner Rolle asked Ms. Calas to provide a copy of DERM's evaluation of Fountain Engineering, Inc. and its subcontractors.

Following further discussion, the Committee proceeded to vote.

Report: *Assistant County Attorney Armstrong-Coffey read the foregoing proposed resolution into the record.*

Responding to Commissioner Gimenez's questions concerning the intent of this proposed resolution, Ms. Ester Calas, Director, Public Works Department, explained that this proposed resolution would raise the established aggregate funding for the miscellaneous construction contracts (MCC) to \$5 million per month for the Public Works Department. She noted that these contracts enabled the Public Works Department to expedite many projects. She said that Public Works was currently accessing the unused allocations of other departments, and Public Works was limited to \$1 million per contract.

Mr. Roger Hernstadt, Director, Office of Capital Improvements, clarified that the \$5 million allowance per month would be effective until a new MCC was approved, or the existing MCC was terminated or extended in October 2007.

Hearing no other questions or comments, the Committee proceeded to vote.

Commissioner Seijas asked the Assistant County Manager to provide a report reflecting the Community Small Business Enterprise participation goals included in this proposed resolution before it was considered by the County Commission.

Chairwoman Seijas noted she would prepare a memorandum requesting that Chairman Barreiro waive the Board's Rules and Procedures to allow this proposed resolution to be considered at the July 24, 2007, County Commission Meeting.

Report: *Hearing no objection, the Committee proceeded to consider Agenda Items 2N, 2O, and 2P simultaneously.*

Assistant County Attorney Armstrong-Coffey read the foregoing proposed change orders into the record.

It was moved by Commissioner Gimenez that these proposed change orders be forwarded with a favorable recommendation. This motion was seconded by Commissioner Diaz.

Commissioner Rolle expressed concern regarding the amount of these change orders.

Ms. Ester Calas, Director, Public Works Department, noted the change orders were a result of the increase in street lights and the annual adjustment in price tied to the U.S. Department of Labor's Consumer Price Index (CPI).

Responding to Commissioner Rolle's questions regarding Community Small Business Enterprise (CSBE) and Disadvantage Business Enterprise (DBE) goals for Agenda Items 2N and 2O, Ms. Calas clarified that these proposed change orders were for maintenance contracts and did not have CSBE and DBE goals and that staff was looking for a way to include these goals in the future.

Ms. Penelope Townsley, Small Business Affairs, pointed out that the issue of funds in a change order going to CSBEs and DBEs was part of the change order review process.

In response to Commissioner Edmonson's question regarding whether Agenda Item 2P was a change order or a settlement agreement, Mr. John Renfrow, Director, Water and Sewer Department, clarified this Agenda Item was a settlement agreement presented as a change order.

Commissioner Rolle questioned the CSBE goal for

Agenda Item 2P.

Ms. Townsley noted that the CSBE goal was 8%, or \$1.9 million, and that \$5.5 million had been achieved.

Hearing no other questions or comments, the Committee proceeded to vote.

Chairwoman Seijas noted she would prepare a memorandum requesting that Chairman Barreiro waive the Board's Rules and Procedures to allow this proposed change order to be considered at the July 24, 2007, County Commission Meeting.

*Deferred to no date certain**Mover: Gimenez**Seconder: Edmonson**Vote: 6-0*

Report: *Assistant County Attorney Armstrong-Coffey read the foregoing proposed resolution into the record.*

Mr. Mitchell Bierman, 2525 Ponce De Leon Avenue, Attorney representing Waste Services, Inc., noted that Waste Services, Inc. had been recommended for the recycling collection and hauling contract and they were willing to provide recycling processing services to the County for the same terms as Waste Management, Inc.; that the County would have only one company to deal with for collection and hauling and processing services; and that Waste Services, Inc. would have to lay off several County residents if it lost the contract to process the County's recycling. He clarified that Waste Services, Inc. had acquired BFI's Miami assets.

In response to Commissioner Rolle's concern that he did not receive this proposal until earlier that morning, Chairwoman Seijas assumed responsibility for the Committee members receiving this proposal late.

Assistant County Attorney Benitez noted the County Attorney's Office had some suggestions to improve the County's contracting position, which delayed the distribution of the proposal.

Following comments by Commissioner Edmonson regarding the problems that the County had with

BFI, Commissioner Diaz questioned why this time sensitive proposal was presented at the last minute.

Assistant County Manager Roger Carlton clarified that the transitional process for new collection trucks was six (6) months; that the process for ordering 170,000 new rolling carts would take a long time; and that the existing contract was extended to December 31, 2007.

Commissioner Diaz noted the County Commission could extend the contract again, if necessary. He said he wanted to meet with certain vendors and ask some questions.

Responding to Commissioner Gimenez's inquiry regarding the effects of deferring this proposed resolution to the next Committee meeting, Assistant County Manager Carlton noted the existing contract would need to be extended an additional 90 days.

It was moved by Commissioner Gimenez that this proposed resolution be deferred to the next Committee meeting and that the existing recycling service contract be extended 90 days. This motion was seconded by Commissioner Edmonson.

In response to Commissioner Gimenez's motion to extend the existing recycling service contract, Assistant County Manager Roger Carlton noted he would prepare legislation for the July 24, 2007, County Commission meeting to extend the current County recycling contract for 90 days.

Following Commissioner Edmonson's inquiry regarding whether or not Waste Services, Inc. was a local vendor, Assistant County Manager Carlton clarified that Waste Services, Inc. conducted business in Florida and in the County and that its corporate offices were not in Florida.

Commissioner Martinez pointed out that some residents could not move the 64 gallon recycling cart that was being proposed. He pointed out that the County Commission had a contentious discussion yesterday (7/10) regarding BFI, and he expressed concern that the County Administration may have waited for the outcome of that discussion to distribute this proposal. He said he thought this proposed resolution would make the struggling recycling program much worse.

Commissioner Seijas asked Assistant County Manager Carlton to meet with each committee

member before September 11, 2007, to address any questions/concerns regarding this proposed resolution.

Mr. Michael Adams, 4701 NW 35th Avenue, World Waste Services, noted World Waste Services had been denied the opportunity to negotiate with the County.

Commissioner Gimenez expressed concern regarding the County Administration excluding companies when this request for proposal was an open, competitive process.

Assistant County Manager Carlton clarified that the selection committee did not recommend World Waste Services for negotiations.

Commissioner Rolle asked that Mr. Carlton be prepared to explain what Industry was responding to in this proposal.

Commissioner Diaz asked that Mr. Carlton be prepared to explain why the bulky waste pick up was not included in this proposal.

Hearing no other questions or comments, the Committee proceeded to vote.

Report: *Assistant County Attorney Armstrong-Coffey read the foregoing proposed ordinance into the record.*

The public hearing was opened. It was closed after no one appeared in response to Chairwoman Seijas' call for persons wishing to be heard.

It was moved by Commissioner Martinez that this proposed ordinance be forwarded with a favorable recommendation. This motion was seconded by Commissioner Gimenez.

In response to Chairwoman Seijas' question concerning the length of the residency requirement for Community Councils possibly being longer than the residency requirement for commissioners, Assistant County Attorney Armstrong-Coffey advised that the residency requirement for County Commissioners was one (1) year.

Pursuant to Commissioner Diaz's comments, Chairwoman Seijas asked that this proposed resolution be considered by the Governmental Operations and Environment Subcommittee before it was considered by the County Commission.

Following further discussion, the Committee proceeded to vote.

Manager Roger Carlton to meet with him as soon as possible to discuss municipal annexation for the four cities in his district

Commissioner Rolle pointed out that this proposed ordinance included a provision to bring back updated financial numbers for the North Central Area.

Hearing no other questions or comments, the Committee proceeded to vote.
