COMMITTEE BUDGET PRIORITIES

ECONOMIC DEVELOPMENT
&
HUMAN SERVICES

Memorandum

MIAMI-DADE COUNTY

Date: September 13, 2007

To: Honorable Dennis C. Moss and
Members of the Budget Conference Committee

From: Commissioner Audrey M. Edmonson, Chairperson and Members
Economic Development and Human Services Committee
Commissioner Katy Sorenson, Vice Chairperson
Commissioner Barbara Jordan
Commissioner Dennis Moss
Commissioner Javier Souto

Subject: Economic Development and Human Services Committee Priorities

---

The members of the Economic Development and Human Services Committee submit the following budget priorities for inclusion in the 2007-08 budget.

1. **Department of Community Services** – this proposed department should not be funded in the 2007-08 budget. Committee recommendation = **$0**.

2. **Community Action Agency (CAA)** - **$1 million** should be allocated from the County Services Reserve to restore CAA at its current level.

3. **Head Start** – the Committee supports the Manager's recommendation in the 9/6/07 budget memo to maintain Head Start at its current department level.

4. **Mom and Pop Program** – **$1.95 million** should be allocated from the County Services Reserve to restore this program at its current level.

5. **Metro Miami Action Plan (MMAP)** - **$300,000** should be allocated from the County Services Reserve to meet an annual budget of $778,000. (OSBM indicated in the 8/31/07 Sunshine meeting that the revised recommendation for MMAP was $448,000.)

6. **Community Based Organizations (CBOs)** – restore at full funding for the 12-month period.

7. **Greater Miami Service Corps** – Funding in the amount of **$372,000** should be restored through CDBG funds.

8. **Urban Economic Revitalization Task Force** - **$150,000** should be allocated from the County Reserve to add two positions to the department for a total of a three person staff.

9. **Equal Opportunity Board (EOB)** - **$430,000** should be allocated from the County Reserve to restore the nine (9) positions eliminated in the proposed budget.

10. **Office of Community Relations** - **$181,000** should be allocated from the County Reserve to restore two of the four positions that were eliminated in the proposed budget as well as one Community Relations position.

cc: Honorable Bruno Barreiro, Chairman
and Members, Board of County Commissioners
Cynthia Curry, Senior Advisor to the County Manager
Cynthia Johnson-Stacks, Assistant County Attorney
Shannon Somerset, Assistant County Attorney
Jennifer Glazer-Moon, Director, Office of Strategic Business Management

COMMITTEE BUDGET PRIORITIES

TRANSIT COMMITTEE

COMMISSIONER DORRIN D. ROLLE

DISTRICT 2

MEMORANDUM

DATE: September 13, 2007

TO: Commissioner Dennis C. Moss, Chairman Budget Conference Committee
Charles Anderson, Commission Auditor

FROM: Dorrin D. Rolle
Chair, Transit Committee

SUBJECT: Transit Committee Budget Recommendations

Pursuant to the Honorable Bruno A. Barreiro's "Budget Review Process" memorandum dated July 17, 2007, the members of the Transit Committee provide the following budgetary concerns for the departments that fall under its purview, namely Miami-Dade Transit (MDT), Public Works Department (surface transportation) and Seaport.

Miami-Dade Transit (MDT)

- Facilitate partnerships with municipalities with respect to the use of People Transportation Plan (PTP) funds, to ensure no overlap of services.

- Implementation of the following MDT related systems:

    - The Metrorail Corridors (Orange Line).
        - Earlington Heights to Miami Intermodal Center (EH/MIC) – 2.4 mile Metrorail Extension
        - North Corridor – 9.5 mile Metrorail Extension
        - East-West Corridor – 10.1 mile Metrorail Extension

- Metrorail Car Replacement and Rehabilitation

- Metromover Car Replacement and Refurbishment

- Bus Operations and Service
  - Bus Rapid Transit (BRT)
  - Buses Running on Shoulder
  - South Miami-Dade Extension
  - New Replacement Buses
  - New Garage at Homestead Air Force Base (HAFB)
  - Passenger Amenities

- Pedestrian Overpass Bridges
  - South Miami Pedestrian Overpass Bridge
  - University Pedestrian Overpass Bridge

- Metromover Escalator Cover/Escalator Replacement

- Universal Automated Fare Collection System (UAFCS)

- Ensure proper signage, lighting, overpasses, and placement of bus benches/shelters to ensure safety of pedestrians using public transportation.

- Establish an entity whose sole responsibility is tracking PTP funded contracts with MDT, and any other contract that contains measures and criteria for prompt payment, and provide that entity with the authority to take immediate action when these requirements are not met, or authority to develop a plan of action to ensure compliance with measures and prompt payment requirements.

- Ensure compliance with the Disadvantaged Business Enterprise (DBE) measures on **all** contracts awarded.

- Ensure compliance with the prompt payment provisions as outlined in the Miami-Dade County Code and the subject contracts.

- Find strategic and creative ways to decrease and ultimately eliminate the Transit deficit.

- Transit Village Project (7th Avenue Transit Hub at NW 7th Avenue and 62nd Street). The original concept, as presented to the Liberty City community, included a Transit and Housing/Commercial component. Portions of the funding have been made available by the federal government but Miami-Dade County needs to secure the additional funds necessary for completion of the project, as proposed to the community.

- Support Transit Department in its effort to find more efficient and environmentally friendly fuels to run their vehicles.

- Cost of overtime within the Transit Department.

- Due to the fact that the function and effect of the Small Business Affairs (SBA) division runs across almost all of the BCC committees; it is recommended, as part of the Transit Committee priorities, to re-establish the Department of Business Development as a Department and to restore $2 million for critical positions that are needed for compliance and certification.

- Retain the original alignment of the North Corridor rail extension as presented to the community and approved by FTA and eliminate the alternative realignment which proposes to cross over from the west to east just pass NW 151st Street.

- Include $150,000 to Miami-Dade Transit for an alternative fuel study.

- Prioritize circulator routes into neighborhoods rather than parking garages along the transit corridor.

Seaport

- Enhance cargo activities at Seaport to strengthen the Ports financial standings via promotion of the Port of Miami (POM) and improving the infrastructure.

- Discuss all aggressive means to increase revenues at the Port and employ a plan of action to accomplish such.

- Reduce Seaport overtime expenditure that pays for Miami-Dade Police Department (MDPD) sworn-officers, and diligently seek to amend the federal and State mandated Facility Security Plan to address MDPD overtime issues by replacing such officers with County civilian Seaport officers where applicable.

- Complete roadway system to the Seaport which will bring the Port into full compliance with the Radiation Portal Monitors regulation.

- Move forward with the Port Tunnel or an alternative method that would bring relief to the downtown area and enhance the ease of getting to the Port.

- Accessing all possible funding from Department of Homeland Security for the Seaport.

Public Works Department (surface transportation)

- Continue full implementation of the Advanced Traffic Management System (ATMS) – yearly goal of 900 signals.

- Retrofit 430 intersections with LED illuminated street name signs.

- Substantially complete the installation of new school flashing signals at 30 schools.

As we embark on a new round of negotiations through the Budget Conference Committee process, I anticipate frank and realistic discussion on the priorities set by the different standing committees.

cc: Honorable Bruno A. Barreiro, Chairman and
Members of the Board of County Commissioners
Honorable Carlos Alvarez, Mayor
Honorable Harvey Ruvin, Clerk of the Courts
George Burgess, County Manager
R. A. Cuevas, Jr., County Attorney
Kay Sullivan, Director, Clerk of the Board Division

COMMISSIONER DORRIN D. ROLLE

DISTRICT 2

MEMORANDUM

DATE: September 14, 2007

TO: Commissioner Dennis C. Moss, Chairman Budget Conference Committee
Charles Anderson, Commission Auditor

FROM: Dorrin D. Rolle, Chair Transit Committee

SUBJECT: Addendum to Transit Committee Budget Recommendations

---

This is to clarify the priority relative to Small Business Affairs. It applies to the Departments not only under the purview of the Transit Committee, but also those under the purview of all standing committees of the Board of County Commissioners.

Inadvertently omitted was the Communications Department that works in collaboration with multiple departments including those under the purview of the Transit Committee. The Communications Department affects the Board of County Commissioners and their ability to effectively reach and inform County residents. It is therefore recommended that the Communications Department either be re-established as a whole or the sections, namely: Graphics, Photography, BCC Media, Special Events, Advertising including the CPP, Television and Translation, be formed as a separate office under the control of the Board of County Commissioners.

COMMITTEE BUDGET PRIORITIES

GOVERNMENT OPERATIONS
&
ENVIRONMENT

Memorandum

MIAMI-DADE COUNTY

Date: September 11, 2007

To: Dennis C. Moss, Chairman and Members
Budget Conference Committee

From: Natacha Seijas, Chairperson
Government Operations and Environment Committee

Subject: GOE Budget Report

The Government Operations and Environment Committee (GOE) held two budget workshops. The Proprietary departments were reviewed on June 20th and the budgets for the General Fund departments were considered on July 30th.

The administration recommendations for the Proprietary departments (Solid Waste, DERM, Water and Sewer, Building, Planning and Zoning, and Building Code Compliance) were developed in consultation with the GOE committee and accepted at our June 20th meeting.

At the July 30th workshop several concerns were identified with the General Fund departments. The administration's response was given in a memorandum dated September 4, 2007, subject: "Follow-Up from the July 30, 2007 Government Operations and Environment Committee." It is provided.

Pursuant to the request of Chairman Bruno A. Barreiro, I submitted the attached August 15, 2007 memorandum to Chairman Barreiro providing budget suggestions and a list of the GOE committee's issues.

Proposed budget amendments to address some of the GOE committee concerns appeared in the "Change Memorandum" from the County Manager that was *not* adopted by the Board at our first Budget Hearing. This memorandum, subject: "Information for First Budget Hearing – FY 2007-08 Proposed Budget" is provided for reference.

A number of issues remain that the Budget Conference Committee should address:

- Government Information Center, savings related to reducing hours of operation for 311
- Media Relations staff for the BCC: determine whether GIC or BCC Chair to administer
- Office of Capital Improvement, $150K of marketing funds should be redirected for G.O. Bond staff
- Team Metro: $250K for new office could be utilized to maintain 'Government on the Go' Bus
- Team Metro: dramatic Countywide-UMSA funding shift / no related service adjustments
- Team Metro: the benefits of the Public Outreach mission should be assessed
- An Office of Sustainability Initiatives needs to be established to support CCX and CCATF
- An independent evaluation of Commission Auditor Office is needed

cc: Members of GOE

SEP 11 2007

Memorandum

MIAMI-DADE COUNTY

Date: August 15, 2007

To: Chairman Bruno A. Barreiro

From: Natacha Seijas
Chair, Government Operations and Environment Committee

Subject: Budget Issues Relating to the GOE

The Government Operations and Environment (GOE) Committee met on June 20, 2007 to discuss proprietary departmental budgets, and on July 30th to review the general fund supported departments. For the most part, the proposed recommendations of the budget were in accord with the policy positions of the GOE Committee. However, there are exceptions.

Pursuant to your "Budget Review Process" memorandum of July 17, 2007, as the Chair of the Government Operations and Environment Committee, the following recommendations are being submitted for your consideration:

Office of Capital Improvements

- Reject the proposal to expend $150,000 for a BBC Bond Program Public Education Campaign
- Instead, it is recommended that the $150,000 be used to restore administrative position cuts in the Bond Program

TEAM METRO

- The committee took issue with the rationale for increasing the UMSA v. Countywide support from 56% to 84%, since there was no correlating adjustment to the mission of TEAM METRO.
- The request to spend capital dollars in the amount of $250K to relocate staff to new offices should not be authorized at this time.
- This new facilities money ($250K) should instead be utilized to restore the highly successful mobile service delivery provided by the 'Government on the Go Bus' program.
- With the introduction of the NEAT teams at Public Works, the success of the 311 program, and the many public access offices maintained by the Mayor and the County Commission, a cost/benefit analysis of maintaining regional offices for the TEAM METRO Outreach Division should be conducted.

Government Information Center

- There are concerns with the vague announcement that the media relations staff of the defunct Communications Department "will be relocated to provide direct service to the Board of County Commissioners, Mayor and County Manager." In order for the media relations staff (three positions) to remain responsive to all members of the Board, it may be appropriate to assign these positions to the GIC Director for administrative purposes.
- The costs associated with the move of the administrative offices of the GIC (to be in proximity to the TV Studio and graphics production space) are not identified.
- It was suggested that the hours of operation for the 311 services be limited to normal business hours.

In addition to the concerns raised at the workshops, there are several other issues within the jurisdiction of the GOE committee that need to be addressed. An **Office of Sustainability Initiatives** is needed within the County Executive Offices to coordinate and manage significant policy issues across multiple departments.

This past year the County Commission adopted several measures relating to global warming. The decisions expressed a clear commitment by the elected officials, but the proposed budget does not support these initiatives. We need a strong commitment by the administration to implement these policies.

Last year the adopted budget included one position "to support sustainability issues for the county." This position was created within the Facilities and Utilities Management Division of GSA. It was never filled. The position is not even referenced in the proposed budget this year.

We now have joined the Chicago Climate Exchange (CCX) and are bound by our contractual commitment to reduce our carbon emissions. Yet there is *not one mention* in the proposed budget of an office that will be charged with the responsibility of managing these duties. And one of the county designated representatives on the CCX contract has left county service. The policy decisions of this Board require a full and adequate response from Management.

The County Commission is also seeking recommendations to prepare for the possible impacts of rising seas caused by global warming. The Climate Change Advisory Task Force (CCATF) deserves staff support from the highest levels of our government. The affects of

global climate change will require a coordinated response from all major departments of county government.

For these reasons, a professional office must be established within the County Executive Offices to ensure that every department is fulfilling the responsibilities required of the county as a member of CCX. Further, **the Office of Sustainability Initiatives** should serve as the primary staff support for the CCATF. And, as the Board adopts policies to preserve and protect the quality of life here in Miami-Dade County, **the Office of Sustainability Initiatives** must oversee the implementation of these policies.

There are numerous consolidations of departments, agencies and offices in the proposed budget. In the rush to prepare this budget after the State Legislature finally adopted the tax policies impacting local governments, one opportunity for consolidation was overlooked. The Planning and Zoning Divisions should be consolidated with existing departments. It is important to note that a permanent director has not been appointed to lead the Planning and Zoning Department at this time.

Historically, Miami-Dade County has unified 'Building' and 'Zoning' under one departmental administration for efficiency purposes. The **Building and Zoning Department** should be consolidated. And, for reasons stated below, I recommend we establish a unified **Planning and Economic Development Department.**

The fragmented approach to economic development in Miami-Dade County has not served our population well. We have had a host of agencies working to develop a sustainable economy in our urban areas for several decades. The results have not been impressive. There have been numerous plans produced, but no single entity has been responsible for implementing these plans. Unless we build strong management capacity within county government to implement a plan, we will never create the employment and business ownership opportunities needed to sustain our central urban corridor.

The professionals in the Planning Division must no longer be exclusively focused on satisfying the demands of the Florida Department of Community Affairs. We must be focused on addressing the community affairs of Miami-Dade County. I believe it is possible to comply with the Growth Management Act and plan for the economic growth of our community.

There is a wealth of information about our community maintained by the community affairs specialists in the Office of Community and Economic Development. Working together

with the demographic experts, land use specialists, and professional planners, our economic development staff will have the ability to accurately assess the opportunities and potential of our local economy. By merging these operations, the management capacity for both operations, planning and economic development, will be enhanced.

"The disconnect between planning and economic development" was sited as one of the key impediments to economic development in a study prepared for Miami-Dade County by Dr. Ned Murray, AICP and Dr. Jim Rivers[1]. Though six years have passed since the study was presented, nothing has been done to correct this situation. By merging the Planning Department and the Office of Economic Development we will directly address this major impediment to meaningful economic development in Miami-Dade County.

I look forward to working with you to see these suggestions and recommendations adopted as part of the FY 07-08 County Budget. Working together I am confident that we will produce a budget that serves the best interests of the community.

MEMORANDUM

TO: Honorable Chairman Bruno Barreiro

FROM: Commissioner Jose "Pepe" Diaz

DATE: August 28, 2007

RE: Airport and Tourism Committee Budget Priorities

The purpose of this memorandum is to provide you with a summary of the budgetary concerns expressed at the budget hearing of the Airport and Tourism Committee (ATC). As you know, the ATC has jurisdiction over the Miami-Dade Aviation Department and the Communications Department. Although the Committee focused on these two departments, we also discussed broader issues relating to the budget as a whole. The following provides you with an overview of the Committee's deliberations.

Miami-Dade Aviation Department (MDAD)

As chairman of the ATC, I was very pleased with the budget proposed by the Airport Director, Mr. Jose Abreu. It is very important to emphasize that MDAD's budget is a total subsidy of the airlines. There are no County tax dollars allocated to MDAD as the airlines are the ultimate guarantor of the department's budget. That being said, it is still important for the department to operate efficiently. Committee members were pleased to learn that the department now has less budgeted positions than it did in FY 03-04. The Director has committed to reducing the bureaucracy in the airport without affecting service.

One of the major concerns affecting the airport is the 6 billion dollar Capital Improvement Program. Although progress has been slow, we are finally close to seeing the light at the end of the tunnel. The South Terminal will soon be operational and it will be something this community can be very proud of. I have faith that the current aviation administration will also make us proud of the North Terminal.

In order to ensure the sustainability of our airport, it is important to focus on non-aeronautical revenues. For example, the department has discussed the potential for extracting lime rock from property owned by the aviation department in order to generate revenue. I commend the

RE: Addendum to Airport and Tourism Committee Budget Priorities

---

Pursuant to the consensus reached at yesterday's Fist Budget Hearing regarding the submittal of priorities to the 5-member Commission Budget Conference, I would like to proffer the following addendum to the memorandum I sent on August 28, 2007 outlining the Airport and Tourism Committee Budget Priorities.

The Community Periodical Advertising Program, established approximately 15 years ago and composed of 62 minority newspapers, serves as a vital medium of information for the disadvantaged segment of our population that can not afford to purchase or subscribe to a daily newspaper. This program was previously under the jurisdiction of the Communications Department and is being recommended for significant cuts. Recognizing the importance of reaching out to our diverse community through newspapers that serve the needs of the different demographics, I respectfully urge for this program to be fully funded at the current levels and placed under the Board of County Commissioners.

Should you have any questions please don't hesitate to contact my office at (305) 599-1200.

RE: Airport and Tourism Committee Budget Priorities

The purpose of this memorandum is to provide you with a summary of the budgetary concerns expressed at the budget hearing of the Airport and Tourism Committee (ATC). As you know, the ATC has jurisdiction over the Miami-Dade Aviation Department and the Communications Department. Although the Committee focused on these two departments, we also discussed broader issues relating to the budget as a whole. The following provides you with an overview of the Committee's deliberations.

Miami-Dade Aviation Department (MDAD)

As chairman of the ATC, I was very pleased with the budget proposed by the Airport Director, Mr. Jose Abreu. It is very important to emphasize that MDAD's budget is a total subsidy of the airlines. There are no County tax dollars allocated to MDAD as the airlines are the ultimate guarantor of the department's budget. That being said, it is still important for the department to operate efficiently. Committee members were pleased to learn that the department now has less budgeted positions than it did in FY 03-04. The Director has committed to reducing the bureaucracy in the airport without affecting service.

One of the major concerns affecting the airport is the 6 billion dollar Capital Improvement Program. Although progress has been slow, we are finally close to seeing the light at the end of the tunnel. The South Terminal will soon be operational and it will be something this community can be very proud of. I have faith that the current aviation administration will also make us proud of the North Terminal.

In order to ensure the sustainability of our airport, it is important to focus on non-aeronautical revenues. For example, the department has discussed the potential for extracting lime rock from property owned by the aviation department in order to generate revenue. I commend the

Director and his staff for thinking outside the box and I look forward to this, and other similar concepts, becoming a reality in the very near future.

At the hearing, the Director mentioned that it was necessary to create a culture of customer service at MIA and I wholeheartedly agree. My staff and I recently engaged in an internet search of reviews on Miami International Airport (MIA). Although I was surprised to find a very positive review on MIA's Hotel, I was not at all surprised to find over 20 negative comments posted by national and international travelers complaining about the service at MIA. I believe that the administration should invest in customer service training for our employees. The billions of dollars spent on infrastructure will not mean a thing if our personnel cannot properly assist the traveling public. Commissioner Gimenez also emphasized the importance of cross-training staff at the airport. Although the Director admitted that progress has been delayed, he is still committed to cross-training MDAD employees to promote efficiency.

Department of Communications/Government Information Center (GIC)

Much was said at the hearing about the dissolution of the Communications Department. Committee members were genuinely confused about the information provided by staff on the reorganization of this department. Committee members were concerned with the possibility of having a duplication of services when transferring positions from the Communications Department to the GIC. Requests for information were made relating to specific savings realized from the consolidation of these departments. Commissioner Sosa specifically requested information on salaries of employees transferred from one department to another and whether or not the salaries decreased or remained the same.

The committee also emphasized on the need for improvement in providing direct services to our constituents. There are too many employees behind desks and not enough on the streets. Members were especially troubled by the fact that the administration proposed to eliminate one of two Spanish translator positions which provide direct services to our residents. It is unacceptable for a County as large and as diverse as Miami-Dade County to only have one Spanish Translator on staff. I believe this issue must be revisited.

311

311 is an excellent example of how government can provide direct services to the public at-large. At the hearing I requested that staff provide a report on the feasibility of running a 24/7 operation of 311. Commissioner Martinez requested data on the reduction of calls to 911 as a result of the 311 operation.

Office of Commission Auditor

As I mentioned in my introduction, although the Office of Commission Auditor is not under the jurisdiction of this Committee, there was plenty of discussion relating to this office and its inability to obtain information from the administration. Under our new structure of

government, it is important that we increase the funding for this office. Additionally, we need to find a way to make the Commission Auditor more accessible to information from the Office of Strategic Business Management (OSBM). At the hearing, I proposed that we have Commission Auditor staff present at the OSBM to inform us of changes in the budget as they occur rather than having to wait for a "change memo".

Federal Court Decision on Mining

At the hearing, I expressed some concern over the recent Federal Court decision on rock mining in western Miami-Dade County. It is my understanding that this decision affects approximately 35 % of the supply of limestone based construction materials coming out of the Lake Belt. I am also aware that 100% of the construction materials that we utilize in Miami-Dade County come from those quarries. This means a full 35% reduction in supply for construction projects. Based on this, I believe that a serious analysis needs to be done during the budget process to attempt to quantify the impact on Miami-Dade County's Capital Improvement Budgets in every department. For example, do we know or can we forecast what level of price increases we are going to see in construction materials for airport improvements as a result of this significant decrease in supply? What is going to be the increase in cost to continue to build and upgrade our infrastructure in terms of roads, concrete water sewer lines, buildings, bridges and other improvements? I want make decisions based on accurate facts and information. I don't think these issues, which can mean tens of millions of dollars in additional costs, have been factored into this budgetary process and I strongly believe that they need to be analyzed sooner than later.

Conclusion

It is important that we focus on approving a budget that will have a minimal impact on direct services to our constituents. We must continue to provide the best service we could afford to give for the monies we receive to make sure our constituents' quality of life is not disrupted.
I look forward to working with you, my colleagues, the Mayor, and his Administration as we move forward with the budget process.

MEMORANDUM

To: **Honorable Chairman Bruno Barreiro**
Honorable Joe A. Martinez, Chairman of the Budget & Finance Committee
Honorable Dennis Moss, Chairman Budget Conference Committee
Members of the Board of County Commissioners

From: **Commissioner Javier Souto, Chairman**
Recreation & Cultural Affairs Committee

Re: **Recreation & Cultural Affairs Committee Budget Priorities**

Date: **September 14, 2007**

The Recreation & Cultural Affairs Committee met this morning to review the budgets for all the Departments whose budgets fall under the jurisdiction of the Committee. The Committee voted unanimously to make the following recommendations:

PARKS DEPARTMENT BUDGET ISSUES:

(Need to Identify Additional $11,300,000 to Fund Park Department Budget Issues Supported by the Recreation & Cultural Affairs Committee)

The Recreation & Cultural Affairs Committee supports the Restoration of the entire $10,700,000 recommended for reduction from the Parks Department's Budget in the Manager's Budget Recommendations (which includes the restoration of the advertising budget for Metro Zoo, as well as the restoration of the Deering Estate budget cuts).

The Recreation & Cultural Affairs Committee supports the allocation of $400,000 in Countywide General Fund Revenue funds for the Agritech & Livestock Expo at Tropical Park..

The Recreation & Cultural Affairs Committee supports the allocation of $200,000 in Capital Outlay Reserves to fund bleachers, tractor and generator for Ronald Reagan Equestrian Center.

1E CULTURAL AFFAIRS BUDGET ISSUES:

(Need to Identify Additional $3,976,000 to Fund Cultural Affairs Budget Issues Supported by the Recreation & Cultural Affairs Committee)

The Recreation & Cultural Affairs Committee supports the Allocation of **$3,500,000** Countywide General Revenue Funds to restore funding to cultural and arts related community-based organizations funded through the Cultural Affairs Department.

The Recreation & Cultural Affairs Committee supports the Restoration of funding for Museums to 85 Percent of last year's funding level, instead of the 75% recommended by the County Manager. **(Total Budget Impact $476,000)**

1) Historical Museum of Southern Florida

Increase the $185,000 recommended in the County Manager's Budget to $331,000.

Need to identify additional $146,000

2) Miami Art Museum

Increase the $143,000 recommended in the County Manager's Budget to $342,000

Need to identify additional $199,000

3) Miami Science Museum

Increase the $219,000 recommended in the County Manager's Budget to $342,000

Need to identify additional $123,000

4) Vizcaya Museum and Gardens

Increase the $386,000 recommended in the County Manager's Budget to $394,000

Need to identify additional $8,000

To: Honorable Chairman Bruno Barreiro
And Members of the Health & Public Safety Committee

From: Dennis C. Moss
Chairman, Health and Public Safety Committee

Re: Budget Priorities

Pursuant to your memo of July 17, 2007, the members of the Health and Public Safety Committee submit the following Budget Priorities:

Corrections:

1. Fund the Boot Camp at $5 Million
   A. **Resources to fund boot camp**
      Cut overtime; Cut 34 vacant correctional officers ($ 1,410,000); Cut 7 vacant Correctional Sergeant Positions ($467,000) or some combination

2. Cut 10% of the light vehicle fleet
3. Fund Capital Outlay Reserve Projects through Revenue Bonds or Building Better Communities Bond Program
4. Cut $1.5 million from food service costs
   A. **Resources to fund/accomplish food services cut**
      Conduct a managed competition process where county staff and private vendors can bid on the food service contract

Police:

1. Fund Community Policing and Enhanced Enforcement Initiative
   A. **Resources to fund/accomplish Community and Enhanced Policing**
      Examine the use of Regular Time vs Overtime and dedicating the 100 plus Officers returning from Miami Gardens and Doral to address some of these issues
2. Cut 10% of the non-contractual light fleet (400 vehicles)

Fire:

1. Cut 10% of the light vehicle fleet

Commission on Ethics and Public Trust

1. Fund at 2006-2007 level (add $234,000)

Public Health Trust

1. Recapture $300,000 intended for County Wide Healthcare Planning Initiative
2. Fund their own Debt Service Payment of the $45 million Capital Improvement Program rather than use General Fund Dollars ($11 million estimated savings)

Medical Examiner

1. find alternative methods to provide direct services to the community

Office of Countywide Healthcare Planning (OCHP)

1. Provide 3 funding alternatives to retain OCHP for consideration

Finally, the committee will take up additional priority areas at the Health and Public Safety Committee on Monday, September 17, 2007, which will be forwarded to you in a change memo.

Re: Budget and Finance Committee Priorities

Pursuant to your request that each committee submit its budget priorities for consideration of the FY2007-2008 Budget, I have attached the memoranda put forward by committee members. As you are already aware, the Budget and Finance Committee Budget Workshop on August 16, 2007 was not attended by the departments under its jurisdiction at the direction of Mayor Carlos Alvarez. As a result of the boycott, the committee was unable to come to a consensus for their priorities. Therefore, I am submitting the memorandum as the best available alternative for your review.

Should you have any questions, please do not hesitate to contact me at 305.552.1155.

From: Commissioner Javier Souto

Re: **Budget Policy Considerations & Potential Sources for Funding BCC Priorities**

Date: **August 10, 2007**

Miami Dade County's Budget is the most important Public Policy responsibility and instrument available to the Board of County Commissioners. Adopting the Budget ordinances is the most important legislative action and policy decision that we make every year. As such I would like to provide my two cents worth of suggestions for your consideration as part of your Budget policy deliberations. I have also taken the liberty of identifying some potential sources of recaptured funds to assist us in restoring some of the positions and services eliminated in the Office of the Mayor Proposed Budget, as well as to assist us to fund the priorities of the Board of County Commissioners.

Our County's Budget determines the policy direction of the County in terms of economic development to sustain the County's economy and create jobs for our residents; reliable public transportation services to transport residents, healthy and disabled alike, to their jobs; the provision of social services to the poor, the disabled, the elderly and the youth; the protection of our residents from public health crisis resulting from disease transmitting vectors like mosquito and rodents; the protection of our neighborhoods from conditions that create slum and blight and foster crime by cleaning illegally dumped bulky waste and litter, as well as addressing

abandoned or neglected residential and commercial properties and vacant lots; the availability of park, recreation and cultural facilities and programs to protect our children from childhood obesity because they live sedentary lives in front of computers or to protect them from delinquency and youth gang activities because of boredom; and it determines whether we have neighborhoods which our residents perceive to be safe and free of crime or whether they feel that they are surrounded by crime and have to shelter themselves in their homes.

As a body, I believe we have collectively neglected our responsibilities by blindly following the direction of staff and allowing them to dictate policy. Have we forgotten why our Legislators have requested that we roll back our Budget and make even deeper cuts next year. We can't continue with this policy of incremental budgeting, literally grand-fathering every position, every expenditure and every County program by rolling them into the following year's Budget and using the natural growth in the tax rolls to adjust for inflation, with minor policy modifications. The County Manager puts together a $4.871 billion Operating Budget and a $494 million municipal Budget for the City of Unincorporated Miami Dade County; and provide us with two volumes of highlights with very little line item detail on how they earmarked billions of dollars. Where is the specificity in the Budget on how much each Department, Division and major operational unit spends on leasing office space, furniture, office supplies, equipment and computers, software, County vehicles (divided by administrators and support staff from the direct municipal service providers), vehicle fuel (divided by administrators and support staff from the direct municipal service providers), postage, promotional items and souvenirs, advertising, stationary, subscriptions, cellular telephones, consulting contracts, overtime, temporary labor, etc., etc.

Chairman Barreiro and Commissioner Heyman, who served in the Florida Legislature, will confirm that we developed a Budget with a lot more specificity in the Florida House and the Florida Senate, when we drafted the annual State Budget. We wonder why the residents of this County are so incensed with the millions and millions of dollars wasted by government and the thousands of dollars worth of graft and corruption that goes undetected because the skeletons are buried deep in the Budget. Literally, every year it becomes an exercise of the Commission fighting over prioritizing less than 1 percent worth of Budget priorities, while ignoring the balance of the $4.871 billion operating Budget. I can see us heading in the same direction once again this year with the first hearing composed of hundreds of community agencies pleading for social service dollars and the County Commissioners each requesting a handful of priorities between the first and the second Budget hearing. In the end, the County Manager aptly finds $40 million in the Budget to meet the request of the 13 Commissioners and the County continues to grow.

We can spend the entire year adopting resolutions and ordinances, but none are more important than the Budget ordinances that we adopt on September 20th, particularly in a County with a Budget larger than many states and even larger than the Budgets of some foreign nations. The legislative branch, which is the Board of County Commissioners under the Home Rule Charter, is not dictating public policy, but allowing the Executive/Administrative branch to dictate public policy through the Budget, while we fight over a few table scraps to provide some benefits to the tax payers we represent. Then, we take the heat from the tax payers for the growth in

government and administrative bureaucracy at a rate that exceeds the growth in personal income and the spending power of our community, which is currently stagnant.

I expected to have a more detailed Budget this year than in the past. To this end, this Board of County Commissioners adopted a Resolution that I sponsored in 2003 directing the Manager to use zero-based Budgeting concepts and performance based review on each and every County Department in cooperation with the Office of the Commission Auditor and present a detailed report justifying each and every expenditure the Board of County Commissioners. Staff requested and was granted the ability to conduct this thorough analysis by grouping the County Departments and analyzing a different group of Departments every year until each Department and each expenditure was thoroughly analyzed. Commissioner Gimenez has also sponsored legislation requesting such a review. However, as far as I know, following conversations with our Commission Auditors, we don't draft our Budget using zero based budgeting principles, but instead continue to make adjustments to the prior year's Budget, which is still incremental budgeting. How can we call the final Budget product our own Budget? I know there are a lot of dollars, along with a lot of skeletons, buried deep in the Budget, which could only be discovered through a real zero based budgeting exercise. I don't understand the reluctance to this type of analysis in light of the weekly scandals within the Departments of the County. I rather discover and de-fund any misappropriation of funds, then to discover the theft in the future, like the cell phone scandal in WASA, discovered long after my legislation was adopted in 2003 to examine all expenditures and uncover any malfeasance. Instead of our Budget staff uncovering these millions of dollars of wasted tax dollars as they put together the Department's Budget year after year, it was discovered by accident by an astute Department Director.

Part of the reason for the failure of the budgeting process this year was to be expected with the change in government structure. I don't blame the Budget staff or the County Manager or the Department Directors. I blame an organizational culture that has plagued the County for years. This is the way the County Budget has been written for years. You take the previous year's Budget and make incremental changes to reflect legislative initiatives and directives, union contract negotiations, as well as Departmental growth.

The Office of the Mayor has taken the initiative within this Budget to consolidate the administrative functions of the County Manager and the Mayor is now in effect the County Manager. I think the Legislative functions should also be consolidated and strengthened under the Board of County Commissioners within this Budget. While the drafting and adoption of the County Budget is a legislative function in the County, just as it is on the Federal level and the State level, this Budget has in excess of 60 Budget analysts and Budget support staff within the Department of Strategic Business Management and scattered as part of the administrative staff of almost all the County Departments, which are all part of the Office of the Mayor. This means that the Office of the Mayor controls the process of drafting the Budget and the institutional knowledge. Therefore the legislative branch does not put together a Budget, it rubber stamps the Office of the Mayor Budget.

I think that we need to establish a real Legislative Budget Office like the Congressional Budget Office at the Federal level and the Senate and House Budget Offices at the State level, with no other year round responsibility than to sit down with the Budget staff and directors of the County

Departments and commence drafting a Budget two weeks after the previous year's Budget is adopted. As a matter of fact, now that the Commission's responsibility has become solely a legislative one, the most important policy tool, the Budget, should not be just a once a year exercise. Just as every County Manager has done for decades with their mid year Budget amendments, we can make minor reviews and adjustments to the Budget on a quarterly basis, to reflect changes in policy direction as a result of legislative action or to appropriate revenues in excess of Budget projections, etc. It should no longer be a philosophy of the Commissioners to have one bite of the proverbial "Budget apple" each September and not have influence on policy through the Budget until the following year. As long as we stay within the constraints of the annual revenues, which may increase if our projections are underestimated, we can amend the Budget to reflect changes in policy throughout the year. Although in the past, this was action that was reserved to the County Manager with his mid-year Budget amendment, this is now under the purview of the Board of County Commissioners with their quarterly Budget amendments to reflect fiscal impacts resulting from County Commission policy decisions and legislative action. In other words, it is not one bite of the apple for the County Commission and our main governmental function and power disappears until next year.

The Administration very astutely merged the Budget Office into one of a multitude of newly created Departments, the Department of Strategic Business Management, which prevents the wholesale transfer of the Budget Office to the Legislative side of the ledger where it belongs, just as it resides in the Federal and State levels of government. Until recently, the Budget Office had always stood alone in the County governmental structure. I propose that we reduce the staffing at the Department of Strategic Business Management by 12 positions, since the Administration has Budget analysts and administrative personnel in every County Department responsible for his or her Departmental Budget. Without growing the County bureaucracy, we can then provide the Legislative Budget Office with sufficient Budget staff to assign at least one individual to sit down with his or her counterpart in each Department to once and for all begin drafting a true zero based Budget, as required by our present laws. The Legislative Budget Office not only has responsibility for review of every single line item in the County Budget as it assists the Board of County Commissioners to draft their own Budget, but they also have the legislative responsibility to determine the fiscal impact of our legislative actions and assist us to identify potential funding sources to address this fiscal impact. I suggest that we establish in the Budget a new reserve fund to be used to address the fiscal impact of the legislative policy actions of the Board of County Commissioners through the year. This fund can be replenished if necessary as part of the quarterly Budget amendment ordinances. I would call it something like: "Legislative Policy Reserve Fund." Our Budget staff can keep track of the remaining balance of this reserve and provide this information on the fiscal impact statement that accompanies our Resolutions and Ordinances.

The other Legislative function that should be strengthened under the Board of County Commissioners within this Budget is the Legislative Office of Media, Communications & Protocol. The Office of the Mayor proposed Budget has virtually eliminated the Community Periodical Program and the Community Radio Program, so obviously he shares little support for this community outreach effort, although the Board of County Commission adopted this program in 1993 and further reaffirmed the program in 1998 and 2005 as a means to communicate to a diverse cultural, ethnic, national and racial community with information concerning their County

government and governmental services. (Miami-Dade County has an 82% ethnic minority population as of 2006). The Board also adopted the Radio Advertising Program a few years ago, as a result of an appropriation that I made as part of the Annual Budget. I propose that we fund both these advertising programs and the respective administrative and graphic staff within the Legislative Office of Media, Communications & Protocol, since the Board of County Commissioners not only supports this program, but is also elected by single member districts and more sensitive to the diverse ethnic and cultural needs of this community. I suggest an Advertising Budget of $1.3 million for print advertising and $650,000 for radio advertising, which more closely reflects last year's advertising levels. Since the bulk of translation and interpreter services results from Board of County Commission and Zoning meetings, as well as translating press releases, newsletters and advertisement, and other protocol functions involving international visitors, I suggest that we strengthen this function within the Legislative Office of Media, Communications & Protocol.

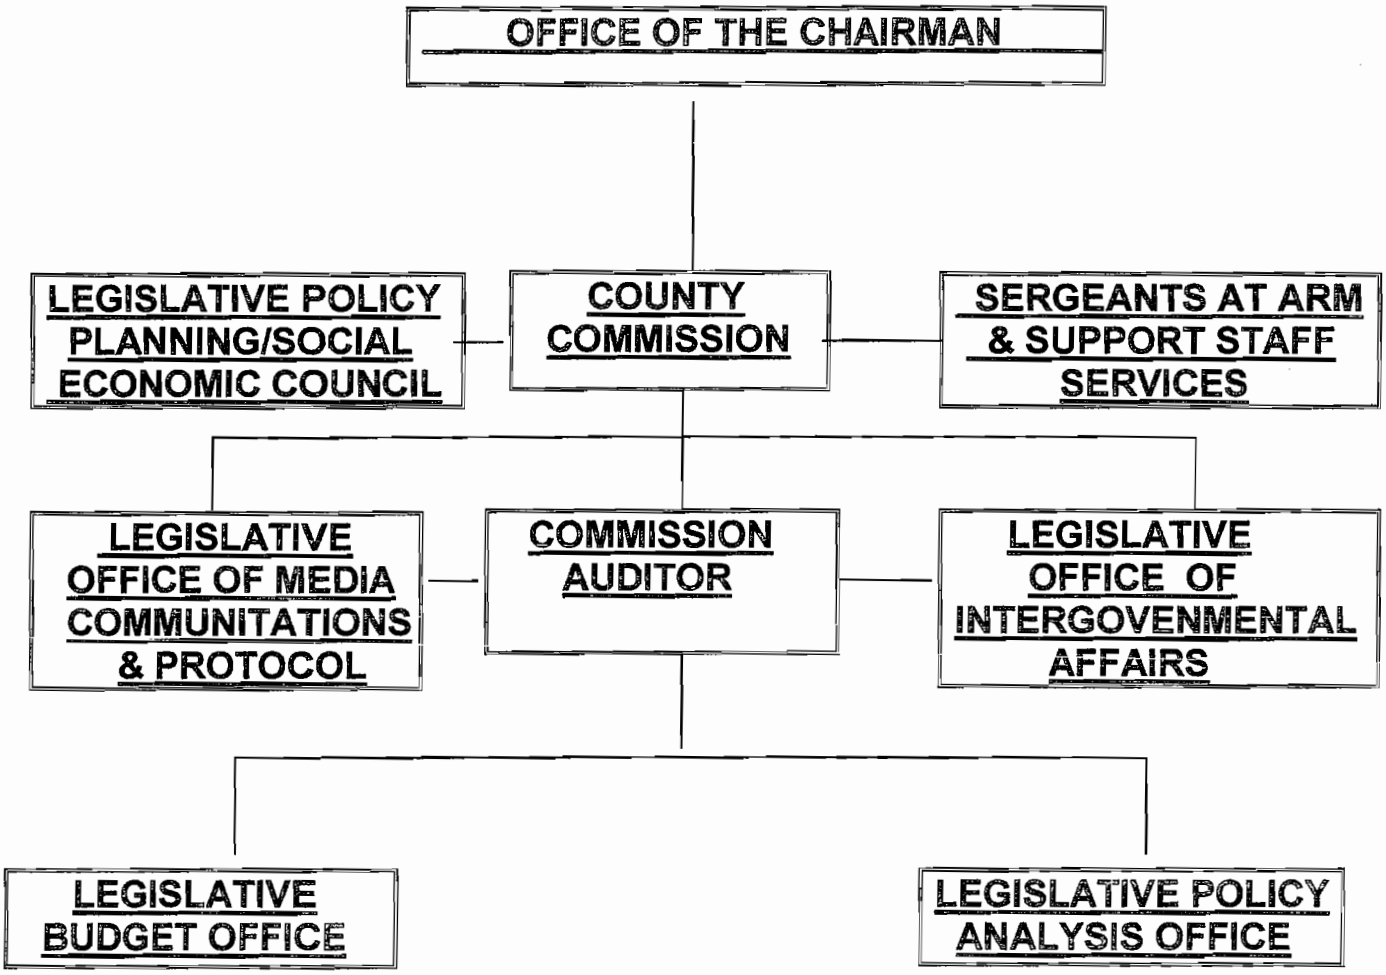
I would also suggest that we transfer the Social & Economic Development Council to the Office of the Commission Auditor and fund a full time professional Economist to oversee this volunteer policy think tank composed of experts on economic development, economic forecasting and economic policy. Most of them are P.H.D.'s and professors at our local colleges and universities. Since the Board of County Commissioners is the policy making body and this Council assists us in developing long and short range policy plans, it could be more appropriately situated under the Office of the Commission Auditor. This Council is tasked with recommending the appropriate short-run policies and measures to reactivate the economy of the County, with special attention to the needs of low income segments of the population. They are responsible for coordinating the efforts for the conceptualization, formulation and implementation of a long-run strategy for the acceleration of the social and economic development of Miami-Dade County.

I have provided a conceptual organizational flow chart for the Miami Dade County Legislative Branch, which may help understand the consolidation of the legislative functions.

I have also gone through the Office of the Mayor Proposed Budget Message and identified some appropriations to recapture, because they are lower priority than some unfunded needs, and can be funded through alternative sources or can be postponed to future years. I have identified $91 million in potential recaptures from the Countywide Budget and $36 million in potential recaptures from the UMSA Budget. Again, if I had my druthers, the County Manager and the Departments would be coming to the Board of County Commissioners to request every single line item as we draft the Budget and we would not be placed in a position to accept almost $5 billion in an Operating Budget that has been entirely drafted by the County Manager. I strongly feel that there is ample room in the Budget to meet the needs of all our constituencies, avoid layoffs in direct service delivery position and still cut the Budget by an additional $100 million. Unfortunately, we have to take the first step this year of restructuring the Legislative Branch by shifting the existing resources so that we can force the Administration to adhere new structure of government, where the Commission dictates Budget policy and drafts and approves the final Budget.

cc: Mayor Carlos Alvarez
Charles Anderson, Board of County Commissioners Auditor
George Burgess, County Manager
Robert Cuevas, County Attorney
Jennifer Glazer-Moon, Director Office of Strategic Business Management

Miami Dade County Legislative Branch



Office of the Chairman

- Services as chief presiding officer of the legislative and governing body of County government.
- Establishes Committee System
- Appoints members to all Commission Committees and Subcommittees
- Provides guidance/leadership to Commission Committees on legislative issues of countywide significance
- Oversees the efficient and productive assignment and scheduling of legislation
- Oversees process to appoint members to advisory boards, authorities, trusts, and committees
- Coordinates Commission and Committee calendars
- Presides over all Board of County Commissioners meeting
- Oversees Commission Sergeant-at-Arms, Support Employee Recognition, and Protocol staffs
- Liaises and coordinates work plan with the Office of Intergovernmental Affairs
- Liaises and coordinates work plan with the Office of Commission Auditor

County Commission

- Comprised of 13 single-member districts that reflect the diversity and unique demographics of one of the nation's largest metropolitan areas.
- Establishes regulations, laws, and fiscal policies that best serve the interests of our community and visitors
- Oversees essential public services, including planning and zoning and fiscal administration and ensures citizen participation and interaction at every level of local government
- Develops framework for promulgating legislative and policy priorities to ensure accountability, transparency, and efficiency

Sergeants at Arms & Support Staff Services

- Provides support staff to the Chairman and BCC
- Coordinates with Sergeants-at-Arms to maintain and security for Commissioners

Legislative Office of Media Communications & Protocol

- Produces quarterly Commission newspaper
- Produces, coordinates, and schedules radio and TV programs
- Prepares media kits and informational/educational materials
- Conducts necessary research for the Office of the Chairman and members of the Chairman and Members of the Board of County Commissioners (BCC)

- Coordinates all protocol and employee recognition functions for the Office of the Chairman and Members of the BCC
- Coordinates/liases Commission protocol, dignitary visits, Consular Corps, and Intergovernmental Visits and promotes the Sister Cities program
- Coordinate the Community Periodical Advertising Program
- Coordinate the Community Radio Advertising Program

Commission Auditor

- Provides independent budgetary, audit, management, revenue forecasting, and fiscal analysis of Board policies, County services, and contracts
- Provides objective and critical analysis of proposed legislation for Board consideration
- Conducts research and policy analysis and assists in formulating and developing legislation

Legislative Office of Intergovernmental Affairs

- Coordinates the County's intergovernmental relations at the local, state, and federal levels

Legislative Budget Office

- Draft County Annual Budget
- Provide Fiscal Impact Analysis for legislative items & identify funding source
- Coordinate & Assist County Departments in Developing Departments Budget

Legislative Policy Analysis Office

- Research & Policy Analysis for all Legislation before the Board of County Commission

Legislative Policy Planning/Social Economic Council

- Develop long and short range policy plans
- Develop Economic Policy
- Provide Economic Forecast
- Coordinate Efforts for formulation and implementation of a long-run strategy for the acceleration of the Social & Economic Development of Miami Dade County

Countywide Budget

Recaptured Dollars from the Corrections Department:

$1,000,000 Recapture $1,000,000 in Operating Revenue from the Mayor's Proposed Budget for Inmate Programs. The Mayor's budget proposes an almost $2 million increase in the budget for Inmate Programs from last year's budget levels. I cannot support a two million dollar increase for programs for the jail inmates, while at the same time cutting parks programs for our children, programs for the disabled, meals and programs for the elderly, and eliminating jobs to law abiding County Employees.

$2,800,000 Recapture the $2,800,000 increase in Operating Revenue from the Mayor's Proposed Budget for Inmate Food Service. The Mayor is proposing $17,809,000 for Inmate Food Service, as compared to less than $15 million last year. His budget projects 9,124,000 inmate meals served, which equates to $1.95 per inmate meal, which is substantially higher than the cost per meal for Broward County Schools, Dade County Schools, and probably higher than the cost per meal for inmates in the Florida Department of Corrections. How can I justify cutting meals to the elderly in our community, while providing an additional $2.8 million for Inmate Food Service. I suggest that we find ways to reduce the cost per meal and use inmate labor to serve the food if needed.

$440,000 Recapture the $440,000 increase in Operating Revenue from the Mayor's Proposed Budget for Administration of the Corrections Department. I support the substantial increase in Corrections Officers and their corresponding support services, but if we are asking other County Departments to suffer by cutting 10 to 15 percent of their budgets, then we cannot justify this increase for the administrative functions.

$535,000 Recapture $535,000 in Capital Outlay Reserves to install high pressure boilers to service the kitchen at TGK. Replace steam boilers that service kitchen cooking equipment: This project replaces the original steam boilers provided during the opening of the kitchen at the Turner Guilford Knight Correctional Center approximately 18 years ago. The funding also includes replacement of the existing in house lift station with a WASD approved lift station to maintain the effluent from TGK. This station was designed for lower capacity and use of the station and does not meet the current requirements of WASD lift stations, or the requirements for correctional facilities. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County

Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$1,000,000 Recapture $1,000,000 in Capital Outlay Reserve from the Mayor's proposed budget to provide generator power to air-conditioning system. If the inmates at the Metro West Detention Center dealt with the power outages and lack of air-conditioning during hurricanes Katrina and Wilma, like all our law abiding tax paying citizens, including the infirmed, disabled and elderly, they can wait another year or two for this generator. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$1,400,000 Recapture $1,400,000 in Capital Outlay Reserve from the Mayor's proposed budget for Renovating Inmate Housing Unit Bathrooms at the Metro West Detention Center. This is a multi-year project to refurbish 30 housing unit bathrooms. The project includes the replacement of the shower floors walls and vanities. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$2,200,000 Recapture $2,200,000 in Capital Outlay Reserve from the Mayor's proposed budget for Kitchen Improvements at the Women's Detention Center. Purchase of replacement retherm units for heating food in housing units. One hundred and eighteen of these units have exceeded their life expectancy and need constant repair. The Mayor's budget virtually eliminates funding to Community Based Organizations, many of which provide services to our young men and women, including job training and other employment services, education, counseling and youth recreation and sports activities. All of these types of program help reduce the number of young men and women entering these detention centers, so I would rather postpone non-life safety improvements in the jail or find another funding alternative, than to use Capital Outlay Reserves that could easily fund our Community Based Organizations. Some of these community organizations also provide meals to our elderly residents. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$1,800,000 Recapture $1,800,000 in Capital Outlay Reserve from the Mayor's proposed budget for Refurbishment of Freezers & Coolers at the Women's Detention Center. This equipment has outlived the life cycles. This is a multi-year project under contract with GSA. including replacing the insulation in exterior walls, coils, compressors, doors, and seals. Again, I would rather postpone non-life safety improvements in the jail or find another funding alternative, than to use Capital Outlay Reserves that could easily fund our Community Based Organizations. This cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$300,000 Recapture $300,000 in Operating Revenue from the Mayor's Proposed Budget for a Video Visitation Pilot Program, which is a non-life safety expenditure for inmates. This is a pilot program at MWDC in one housing unit area. The vendor will set up 1-2 cells and 8 visitor stations with equipment to provide for visitation without entering secure areas of the facility. After the trial, if the project implemented in all facilities over time, it will extend visitation opportunities by providing visitation appointments through the web and county-wide sites for the public to visit electronically with inmates.

$100,000 Recapture $100,000 in Operating Revenue for the Replacement of Aging Personal Computers for inmates, which is a non-life safety expenditure and can be postponed or replaced through computers retired and replaced from other County Departments.

Recaptured Dollars from the Finance Department:

$316,000 Recapture $316,000 in Operating Revenue from the Mayor's Proposed Budget for Five New Un-filled Positions in the Tax Collector's Office. I would rather not add County employees to the unemployment rolls, than hire five new persons to fill these positions.

$216,000 Recapture $216,000 in Operating Revenue from the Mayor's Proposed Budget for Three New Un-filled Positions in the Controller's Division. I would rather not add County employees to the unemployment rolls, than hire five new persons to fill these positions.

$1,785,000 Recapture $1,785,000 in Operating Revenue from the Mayor's proposed budget for the Finance Department to Commence design and initial development of a new windows-based tax system including a Local Business Tax module. Once again, if this expenditure was not important enough to fund over the past three years, when

the County had more than ample funds, why commence the initial development and design this year, when funds are tight and this is an almost $2 million ticket item? All these Capital Expenses can be postponed another year, funded by re-prioritizing GOB corrections projects, or financed through another bond issue. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$200,000 Recapture $200,000 in Operating Revenue from the Mayor's proposed budget for the Finance Department to fund the replacement of existing computer hardware. All these Capital Expenses can be postponed another year.

$60,000 Recapture $60,000 in Operating Revenue from the Mayor's proposed budget for the Finance Department to fund the Renovation of the Auto Tag Inventory Warehouse to accommodate the Branch Function. All these Capital Expenses can be postponed another year.

Recaptured Dollars from the Office of Strategic Business Management:

$1,000,000 Recapture Countywide General Revenue Funds from the Office of Strategic Business Management to fund enhancements in the Legislative Budget Office (de-fund three Budget Analysts 2 positions, de-fund three Budget Analysts 3 positions, de-fund three Senior Budget Analysts positions, de-fund two Budget Coordinator positions.)

Recaptured Dollars from the General Services Administration Department:

$1,500,000 Recapture $1,500,000 in Operating Revenue from the Mayor's Proposed Budget for GSA's Departmental Information Technology Projects to Covert to a relational database. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$1,019,000 Recapture $1,019,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to Perform repairs and improvements to facilities managed by General Service Administration. If you examine the Mayor's Proposed Budget, this function was funded in prior years at a level of $2,399,000 and only $750,000 was actually expended, leaving a prior year carryover budget for this very function of

$1,649,000. The Department would have this $1.65 million carryover to spend in Fiscal Year 2007-2008 to perform a lot of repairs and improvements to facilities that they managed. If we are still short of monies, we can take a look at the $1.6 million carryover, since obviously they are not spending it at the rate they are requesting it and we can re-capture an additional $1 million worth of carryover.

$4,000,000 Recapture $4,000,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to improve Fleet Shop 1 with Additional Office Space and Expand the Service Bay. Although the Mayor's Budget has earmarked $4,000,000 in Fiscal Year 2007-2008, the bulk of the expenditure is scheduled for Fiscal Year 2009-2011, so obviously the funding for this project can be postponed another year, since most of the project construction is scheduled for 2009 through 2011 according to the Mayor's Budget. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$200,000 Recapture $200,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to Design and Renovate an Existing Facility for Fleet Centralized Vehicle Receiving Center. The bulk of the renovation of this facility is scheduled between 2009 through 2010, so we can postpone this expenditure of operating revenues until next year.

$323,000 Recapture $323,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to Construct New Office and Parts Storage Space, Paint, and Update Electrical Components for Fleet Shop 3. Once Again, this is Operating Revenue, that can be used for programmatic purposes and this Capital expenditure can be postponed or financed through an alternative more appropriate mechanism.

$1,000,000 Recapture $1,000,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to Construct 6 Additional Service Bays for Maintenance of heavy Vehicles. Once Again, this is Operating Revenue, that can be used for programmatic purposes and this Capital expenditure can be postponed or financed through an alternative more appropriate mechanism. In July, we were told that we had to approve the controversial $27,000,000 project, because the Finance Department had included this $27,000,000 in their Bond emission, without the Board of County Commissioners having granted their approval for this transaction. As you can see, there are a lot of construction projects in the Mayor's Budget financed through Operating Revenues that could instead be used for programmatic activities like Social Services provided by some of our Community Based Organizations. By Financing these projects with these controversial $27,000,000 worth of bond financing, we can free up $27,000,000 in Operating Revenue Funds or Capital Outlay Reserves Funds for other Board of County Commission Priorities.

$200,000 Recapture $200,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to Design and Renovate a New Heavy Equipment Facility in Homestead Air Reserve Base. The actual construction of this facility is not scheduled until Fiscal Year 2008-2009 and Fiscal Year 2009-2010. Once Again, this is Operating Revenue, that can be used for programmatic purposes and this Capital expenditure can be postponed until next year or financed through an alternative more appropriate mechanism.

$1,000,000 Recapture $1,000,000 in Capital Outlay Reserve Funds from the Mayor's Proposed Budget for GSA to Replace Systems Furniture on the Ninth Floor of the Stephen P. Clark Center. I cannot justify inflicting the level of pain that the Mayor's Budget is inflicting on low level County Employees who will find themselves on the street with no means to support their families, while we spend $1,000,000 to replace systems furniture in the Stephen P. Clark Center. These County Employees that will be fired are people who mow the grass in our parks, clean the bathrooms in our park facilities, provide security patrols so our parks remain safe and are not vandalized and destroyed. Also, I cannot support eliminating learn to swim classes at Tropical Estates Pool, which may save the life of a child by teaching him or her to swim, while we spend $1,000,000 to replace furniture. I cannot support de-funding Community Based Organizations that serve our youth, our elderly, our disabled and our most impoverished residents, while we spend $1 million on furniture.

$523,000 Recapture $523,000 Carry-over in Capital Outlay Reserve Funds from the Mayor's Proposed Budget for Purchase of Equipment for Miami Dade T.V. These funds were appropriated by the Board of County Commissioners as part of a $688,000 appropriation in previous years, but only $165,000 was ever expended or encumbered. Since the lack of expenditure is evidence of a lack of urgency to purchase this equipment, then it can wait another year, while we resolve more pressing budget issues.

Note: ***The General Services Administration Department's Operating Budget grew by $46,083,000 or 23.6 percent from last year, after you subtract out $32,844,000 in Capital Expenditures budgeted for this coming year. While Service Delivery Departments are being asked to cut their budgets substantially. The Mayor's Budget Proposes that we increase the budget for this Administrative Department, which does not provide direct municipal services to the tax payers by almost 24 percent. While other Municipal Service Departments that serve our Community are being asked to layoff service delivery employees, this purely Administrative Department is growing by 13 positions. I propose that we examine how we can recapture dollars from the Department's requested growth in their Operational Budget and ask them to go back and prioritize their requested growth over last year's budget level.***

Property Appraisal Department:

$2,105,000 Recapture $2,105,000 growth requested in Operating Revenue from the Mayor's Proposed Budget for the Property Appraiser's Department. Why is the Property Appraiser's Department growing by 26 positions, when the Real-estate Market has come to a screeching halt across the entire United States, not just Miami-Dade County. There will be fewer housing units constructed and fewer existing homes sold in this coming year, unlike the past three years when we had the real-estate boom. The timing of this 8.4 Percent growth in their budget and 9.2 percent growth in their personnel is illogical, not only because of the virtual crash of the real-estate market, but because we are asking Departments that deliver services directly to the tax paying public to reduce their budgets by 10 and 15 percent. The Mayor's Proposed Budget is also putting a lot of the little people out of work, while this Department grows by almost 10 percent. At a minimum, I would keep them at last year's budget level, but closer analysis by the Commission Auditor may justify a budget reduction from last year's budget levels.

Vizcaya Museum and Gardens Department:

$386,000 $386,000 in Operating Revenue Recaptured from the Mayor's Proposed Budget. My appointment to the Vizcaya Museum and Gardens Trust informed me that the Department had a $400,000 surplus this past year, so the $414,000 that according to the Mayor's Proposed Budget is being reduced from the Department is in actuality recapturing a budget surplus. Thus, while Departments that provide services directly to all the people of this County like the Parks Department are being asked to reduce their budgets substantially by cutting positions and services to the residents and taxpayers, the Vizcaya Department was only asked to give back their budget surplus. I would reduce the $386,000 support from general revenue, since they receive substantial monies from user fees and charges. The Mayor's proposed budget has reduced the financial support to the Historical Museum of Southern Florida, the Miami Arts Museum and the Miami Science Museum, by 25 percent, while he has only reduced the Vizcaya budget by 10 percent or a mere 4 percent if you eliminate $400,000 surplus from last year.

$25,000 Eliminate the $25,000 in Operating Revenue from Vizcaya's Travel Budget. If the Vizcayans can afford to spend hundreds of thousands of dollars on lawsuits contrary to the adopted policy of the County, they can afford to increase their financial support to Vizcaya. The Mayor's Proposed budget only shows a projected commitment in donations of $156,000 for next year.

Communications Department:

$550,000 Recapture funds from the old Communications Department budgeted positions and

fund 1 Chief Translator Position, a Translator 2, 1 Information Officer, 1 Advertising & Managing Coordinator & 1 Advertising Specialist to administer the Community Periodical & Community Radio Program, 1 Graphic Manager and 1 Graphic Designer to develop advertisements, newsletters and publications for the Legislative Office of Media, Communications & Protocol. By recapturing dollars from currently budgeted positions and placing them where they logically belong, we are not growing government.

Countywide Non-Departmental Expenditures:

$47,444,000 $47,444,000 in Countywide Operating Revenue Recaptured from the 4.9 Percent Merit Increases in the Mayor's Budget, which is above and beyond the 4 Percent Cost of Living Wage Adjustments. The 4 Percent Cost of Living Adjustment is part of the Union Contract and thus in order to avoid re-negotiation of these contracts, I propose we leave the COLA's intact and only eliminate or reduce the 4.9 Percent Merit Increases (Step Increases).

$125,000 Recapture $125,000 Capital Outlay Reserves from the Mayor's proposed Budget for Reserve for Unexpected Repairs and Renovations, since there is still a carryover reserve from last year of $242,000 for this function.

$345,000 Recapture $345,000 in Operating Revenue from the Mayor's Proposed Budget for Management Consulting Services Reserve Fund

$228,000 Recapture $228,000 in Operating Revenue from the Mayor's Proposed Budget for Outside Printing Services

$250,000 Recapture $250,000 in Operating Revenue from the Mayor's Proposed Budget for General Publicity

$104,000 Recapture $104,000 in Operating Revenue from the Mayor's Proposed Budget for Employee Awards. Holding onto a job during tough times should be reward enough for our County employees.

$41,000 Recapture $41,000 in Operating Revenue from the Mayor's Proposed Budget for Promotional Items. We cannot justify the purchase trinkets and souvenirs with County logos promoting the 311 Service, while we are firing people from their jobs as a result of budget cuts.

Countywide Reserve Funding Levels Requested for FY 2007-2008:

$7,711,000 Recapture $7,711,000 in Emergency Contingency Reserves from the Mayor's Proposed Countywide Budget, leaving an Emergency Contingency Reserve for

Fiscal Year 2007-2008 of $13,856,000, which added to the existing balance of $61,144,000 in the Emergency Contingency Reserve would give you a total balance of almost $75 million in Reserve for Emergency Contingencies.

$2,435,000 Recapture $2,435,000 in Wage Adjustment, FRS, Separation, and Energy Reserves from the Mayor's Proposed Countywide Budget, leaving $8 million in Reserves for this Account.

$2,000,000 Recapture $2,000,000 in County Services Reserves from the Mayor's Proposed Countywide Budget, leaving 5,112,000 in Reserves for this Account.

$1,400,000 Recapture $1,400,000 in Contingency Reserves from the Mayor's Proposed Countywide Budget, leaving $2 million in Contingency Reserves for this Account.

$959,000 Recapture $959,000 in Tax Equalization Reserves from the Mayor's Proposed Countywide Budget, leaving $2 million in Reserves for this Account.

$200,000 Recapture $200,000 in Public Campaign Financing from the Mayor's Proposed Countywide Budget, leaving a balance of $1 million on a first come first served basis for funding political campaigns for Mayor and County Commissioner.

$91,225,000 Recaptured from Recommendations in the Mayor's Proposed Countywide Budget.

Suggested Countywide Budget Adjustments:

$1,710,000 $1,710,000 From Recaptured Countywide General Fund Revenues to reinstate funding for Countywide share of reduced mowing of grass in parks, reduced maintenance of toddler lots, reduced maintenance of athletic turf fields, reduced maintenance of picnic shelter areas, reduced maintenance of litter cans, and reduced collection of litter for Miami Dade Park & Recreation Department. More importantly this is the Countywide portion of reinstating 37 full time grounds maintenance employees and 14.63 full time equivalents calculated from the part time hours, who under the Mayor's Proposed Budget would be terminated from the County, impacting 37 lower income families in Miami Dade County.

$332,000 $332,000 From Recaptured Countywide General Fund Revenues to reinstate funding for Countywide share of Custodial Service for Miami Dade Park & Recreation Department. These are lower income employees who keep the bathrooms at facilities operated by the Park & Recreation Department clean for use by the general public (tax paying residents and tourists). More importantly this is the Countywide portion of reinstating 9 full time custodial employees and 16.48 full time equivalents calculated from the part time hours, who under the Mayor's Proposed Budget would be terminated from the County, impacting 9 lower income families in Miami Dade County.

$895,000 $895,000 From Recaptured Countywide General Fund Revenues to reinstate funding for Countywide share of Park Security function for Miami Dade Park & Recreation Department. According to the Mayor's budget, the Parks Department would have to depend solely on police officers for patrolling every neighborhood, community, and regional parks, as well as our beaches. In reality, you would have no security whatsoever in our parks and other facilities operated by the Parks & Recreation Department, because by the Police Department's own admission, we barely have enough police officers currently to patrol our neighborhoods and provide acceptable response times to calls for police assistance. Furthermore, the Police Department is having difficulty attracting recruits to fill vacancies caused by incorporations, retirements and attrition. The Parks security patrol offered a level of visibility in our parks and served to address minimal incidents at a cost savings to our law enforcement budget. More importantly this is the Countywide portion of reinstating 21 full time park security employees, who under the Mayor's Proposed Budget would be terminated from the County, impacting 21 lower income families in Miami Dade County.

$716,000 $716,000 From Recaptured Countywide General Fund Revenues to restore 400 Head Start Program slots eliminated in the Mayor's Proposed Budget.

$712,000 $712,000 From Recaptured Countywide General Fund Revenues to fund Park & Recreation Department Special Events - 4th of July Celebration at Amelia Earhart Park, Ribfest at Homestead Air Reserve Park, Love-In at Greynolds Park,

Cornucopia of the Arts, Noches Tropicales at Tropical Park, and the Agritech & Livestock Expo at Tropical Park.

$119,000 $119,000 From Recaptured Countywide General Fund Revenues to reinstate funding for Art Expressions & Music Program at The Women's Park. The Restoration of these cuts in the Mayor's budget also eliminated 2 full time employees at The Women's Park.

$93,000 $93,000 From Recaptured Countywide General Fund Revenues to reinstate funding for 1 full time instructor position and 1.41 full time equivalent instructor position calculated from the part time hours that had been eliminated by the Mayor's proposed budget African Heritage CAC and the Raices Program.

$280,000 $280,000 From Recaptured Countywide General Fund Revenues to reinstate funding for Beach Maintenance for Miami Dade Park & Recreation Department. More importantly this reinstates 5 full time lower income employees and 2.25 full time equivalents calculated from the part time hours, who under the Mayor's Proposed Budget would be terminated from the County, impacting 5 lower income families in Miami Dade County.

$146,000 $280,000 From Recaptured Countywide General Fund Revenues to reinstate funding for hours of operation at the Larry & Penny Thompson Lake, the Homestead Bayfront Park Atoll Pool, toll booth #2 at Crandon Park on weekdays and the south end of Haulover Beach on weekdays.

$1,600,000 $800,000 in Recaptured Countywide General Revenue Funds to provide Transit Department's share of Patriot Passport Program (CITT has traditionally funded the other half $800,000 of a total program cost of $1,600,000), which provides free transit passes to low income military veterans. This program has been providing Miami-Dade County residents who are honorably discharged military veterans and whose household income meet certain low income criteria with free transit services. The Veterans Hospital has informed me that many veterans of the Iraq war, Afghanistan war, and Vietnam war who shed blood for this country have been using this service to receive regular medical care at the hospital. If we can provide extremely high salaries to some county executives and some extremely generous benefits, then I think we can find some other areas to cut, before we impact these needy American heroes. If the County can pay a Department Director several thousands of dollars monthly to lease a luxury home courtesy of the taxpayers while overseeing a Department that is supposed to provide housing for the poor and elderly, we can surely identify at least $800,000 for American heroes who shed blood for their nation. If we can provide some County Executives who have extremely generous salaries with luxury leased vehicles and a brand new gym at the Metro Dade Center so employees can build their muscles and physiques, we can find at least $800,000 to allow a marine who lost a limb to a land mine to seek physical therapy at the V.A. hospital. If we can find almost $4.7

million to provide the wine and cheese crowd with their very own County Department and Department Director to oversee a single museum that could very easily be managed by the Parks Department has it had been for decades or by the Cultural Affairs Department, then surely we could provide a veteran with transportation so he or she can seek mental health treatment for post war trauma. If we can keep spending millions of additional dollars to bailout the new Performing Arts Center, we can certainly provide a military veteran with a free ride on the metro rail, people mover and our County bus, so that he can see the beautifully designed street scape in front of the Carnival Center from the window of the passing bus or train, since they probably can't afford to pay for a performance.

$1,300,000 $1,300,000 in Recaptured Countywide General Revenue Funds to fund the Community Periodical Advertising Program within the Legislative Media & Protocol Office.

$650,000 $650,000 in Recaptured Countywide General Revenue Funds to fund the Community Radio Advertising Program within the Legislative Media & Protocol Office.

$5,000,000 $5,000,000 Rebate to WASA Customers - This $5 million Recaptured from the 4.9 Percent Merit Increase for WASA Employees in the Mayor's Proposed Budget will be Used to Reimburse the Tax Payers/Customers of WASA for the fraud misuse of their tax dollars resulting from the 4,200 active cell phone accounts for a Department of 2,600 employees, which resulted in this Department exceeding its budget in FY 2004-2005 and FY 2005-2006, by $2.5 million respectively. The Board of County Commission will work with the Department to determine the proper formula for issuing refund checks or account credits to customers. Hopefully, this reimbursement to the tax payers of their wasted tax dollars, will result in County employees not only protecting their own interests, but that of the tax payers of Miami Dade County. This action may also force County Departments to once and for all work with the Commission Auditor on Developing a Zero Based Departmental Budget and together uncovering any fraud, misappropriations or inefficiencies within each Department in an effort to save tax dollars without resorting to eliminating future merit increases to employees.

$1,950,000 $1,950,000 in Recaptured Countywide General Revenue Funds to fund the Mom & Pop Small Business Program. According to the Social & Economic Development Council, small mom and pop businesses are the backbone of Miami-Dade County's economy, particularly in the poor inner-city neighborhoods. We must support any program which fosters and helps sustain small businesses.

$504,000 $504,000 in Recaptured Countywide General Revenue Funds to restore two Forensic Investigators, Two Forensic Technicians, one Clerk IV, one Secretary, one Forensic Toxicologist I, and one Forensic Photographer. This cut in the

Mayor's Proposed Budget would result in reducing the number of hours for funeral homes and families to receive the deceased. It would also increase the turnaround time for producing laboratory results and could compromise homicide and criminal investigations.

$26,000,000 Countywide General Revenue Funds to restore funding to community-based organizations funded equitably across all Commission Districts, so as to meet the diverse geographic, cultural, ethnic and social needs of this Community's poor, elderly and youth.

$3,500,000 Countywide General Revenue Funds to restore funding to cultural and arts related community-based organizations funded through the Cultural Affairs Department.

$74,000 Countywide General Revenue Funds to restore funding to Miami-Dade County Health Department for the Special Immunization Program. This allocation provides two nursing positions for off-site immunization services to the community.

$700,000 Countywide General Revenue Funds to restore funding to Miami-Dade County Health Department for the Rodent Control/Neighborhood Improvement Program. This program provided 38,311 units of services to the community, including rodent abatement to low income households to prevent the multiplication of these disease carrying vectors.

$300,000 $300,000 in Recaptured Countywide General Fund Revenues to provide free summer learn to swim classes in County pools, along with basic first aid and CPR. throughout Miami Dade County. This was a program initiated by Commissioner Martinez in his district, which Commissioner Sosa and I have also provided in our own districts. However, the demand for free swim lessons and the need to teach our children to swim in a County surrounded by bodies of waters far exceeds a district by district response to this issue. We have a climate that makes Miami Dade County the ideal location for year round freshwater and saltwater fishing, boating, swimming in lakes, ocean and back yard pools, and playing in water theme parks. We need to teach all our children to swim and as part of that, I would go a step further, we need to teach our children basic first aid and CPR. This is a summer activity that in the future should be funded by the Children's Trust.

$1,000,000 To Fund a Legislative Policy Fiscal Impact Reserve Fund. This Reserve Fund will help the Board of County Commissioner address the Fiscal Impact of their Legislative Policy Initiatives. As ordinances and resolutions are adopted, the Commission Auditor can provide the balance left in the reserve for future legislative policy action. This fund can be adjusted or replenished, when the BCC adopts and ordinance for a quarterly or mid year budget adjustments.

$550,000	Recaptured funds from the old Communications Department budgeted positions and fund 1 Chief Translator Position, a Translator 2, 1 Information Officer, 1 Advertising & Managing Coordinator & 1 Advertising Specialist to administer the Community Periodical & Community Radio Program, 1 Graphic Manager and 1 Graphic Designer to develop advertisements, newsletters and publications for the Legislative Office of Media, Communications & Protocol. By recapturing dollars from currently budgeted positions and placing them where they logically belong, we are restructuring the government and not growing the government.
$300,000	$300,000 Recaptured funds from the $2,105,000 growth requested in Operating Revenue from the Mayor's Proposed Budget for the Property Appraiser's Department to fund three positions (1 Chief Economist, 1 Assistant Policy Analyst, 1 Secretary) in the Legislative Policy Planning branch for the Social & Economic Development Council. Why is the Property Appraiser's Department growing by 26 positions, when the Real-estate Market has come to a screeching halt across the entire United States, not just Miami-Dade County. There will be fewer housing units constructed and fewer existing homes sold in this coming year, unlike the past three years when we had the real-estate boom.
$1,000,000	Recaptured Countywide General Revenue Funds from the Office of Strategic Business Management to fund enhancements in the Legislative Budget Office (fund three Budget Analysts 2 positions, fund three Budget Analysts 3 positions, fund three Senior Budget Analysts positions, fund two Budget Coordinator positions.)
$100,000	Countywide General Revenue Funds to restore funding to Africando 2007 Culture and Economic Development Summit.
$149,000	$149,000 in Countywide General Revenue Funds to restore funding to the Office of the Inspector General.
$200,000	$200,000 in Countywide General Revenue Funds to restore funding to the Office of the Commission on Ethics.
$300,000	$300,000 From Recaptured Countywide Capital Outlay Reserves from the Mayor's proposed Budget for Marketing, Promotional and Advertising activities for the Park & Recreation Department facilities and events.
$752,000	$752,000 From Recaptured Countywide Capital Outlay Reserves from the Mayor's proposed Budget for Park & Recreation Department facilities maintenance to include the sign painting program, repairing inoperable lighting fixtures in parks, cracks in walkways that could cause injuries to park patrons inoperable water fountains, removing graffiti from parks, maintenance of irrigation systems, etc.

$1,000,000	$1,000,000 in Recaptured Countywide Capital Outlay Reserves to restore tree replacement on arterial roadways by the Public Works Department.
$323,000	$323,000 in Recaptured Countywide Capital Outlay Reserves to restore some capital costs to the Medical Examiner's budget.
$400,000	$400,000 in Recaptured Countywide Capital Outlay Reserve Funds to Restore Funding for Cleaning Storm Drains on Arterial Roads to reduce street flooding which leads to traffic accidents and traffic congestion
$200,000	$200,000 in Capital Outlay Reserves to fund bleachers, tractor and generator for Ronald Reagan Equestrian Center.
$4,000,000	$4,000,000 In Capital Outlay Reserves in FY 2007-2008, $6,000,000 in FY 2008-2009, $2,000,000 in FY 2009-2010 to fund the Construction of a Westchester Arts & Culture Center at Tropical Park.
$4,000,000	$4,000,000 In Capital Outlay Reserves in FY 2007-2008, $4,000,000 in FY 2008-2009, $4,000,000 in FY 2009-2010 to fund the Construction of a four court indoor basketball gymnasium, community fitness center, and gymnastics training center with parking and related amenities at Tamiami Park..
$1,000,000	$1,000,000 In Capital Outlay Reserves in FY 2007-2008, $1,000,000 in FY 2008-2009, $1,000,000 in FY 2009-2010 to Little Havana Activities & Nutrition Center for the Construction of a Senior Citizen Facility in Kendall at SW 117th Avenue north of Sunset Drive.
$500,000	$500,000 in Capital Outlay Reserves to fund a Skate Park at Kendall Indian Hammocks Park
$500,000	$500,000 in Capital Outlay Reserves to fund a Dog Park at Kendall Indian Hammocks Park
$500,000	$500,000 in Capital Outlay Reserves for additional funds for the Hurricane Shutter Assistance Program.
$300,000	$300,000 in Capital Outlay Reserves to fund a Pilot Program to install International Visitor Directional Signs on Section Line Roads to indicate public governmental facilities such as Libraries, Parks and Government Offices Open to the Public, as well as Tourism Destinations like Shopping Centers, Malls, Beaches, Zoos, etc.
$300,000	$300,000 in Capital Outlay Reserves to fund Anti-Littering Signs on County & State Roads.

$2,000,000	$2,000,000 In Capital Outlay Reserves in FY 2007-2008, $4,000,000 in FY 2008-2009, to fund the Construction of a Community Center at Kendall Indian Hammocks Park.
$1,000,000	$1,000,000 in Recaptured Countywide Capital Outlay Reserves to restore $1 million in a State Beautification Grant that was awarded to Commission District 10 for Beautification of Bird Road and was de-funded because the County did not move forward on the project in time.

$66,955,000 **Funded through General Fund Revenue and Captital Outlay Reserve Fund Dollars Recaptured from Recommendations in the Mayor's Proposed Countywide Budget**

$24,270,000 **Remaining Balance of Unearmarked Recaptures for Funding Board of County Commissioners' Priorities in the Countywide Budget.**

Unincorporated Municipal Service Area Budget

Recaptured Dollars from Mayor's Proposed UMSA Budget:

$21,315,000 $21,315,000 in UMSA Operating Revenue Recaptured from the 4.9 Percent Merit Increases in the Mayor's Budget, which is above and beyond the 4 Percent Cost of Living Wage Adjustments. The 4 Percent Cost of Living Adjustment is part of the Union Contract and thus in order to avoid re-negotiation of these contracts, I propose we leave the COLA's intact and only eliminate or reduce the 4.9 Percent Merit Increases (Step Increases).

$3,500,000 Recapture $3,500,000 General Fund Revenues from the Mayor's proposed UMSA budget for Facilities & Utilities Management by the General Services Administration Department. The budget for Facilities & Utilities Management in the Mayor's proposed budget requests an increase of 33% (one third) over last year's budget levels for the same function. Last year this administrative function was budgeted at $10,706,000 and they are requesting $14,233,000 for this year. I represent 100 percent Unincorporated Miami-Dade County, and I cannot justify to the residents and taxpayers in the Unincorporated areas of Westchester, Kendall and Fontainebleau, that we are cutting back on direct municipal services to the residents and yet we are increasing a bureaucratic and administrative function by 33 Percent.

$2,175,000 Recapture $2,175,000 General Fund Revenues from the Mayor's proposed UMSA budget for the Government Information Center Department's Answer Center. This is an activity that has never been charged to the UMSA budget. It is a Countywide function and has always been charged to the Countywide budget. When persons call and are referred to the appropriate services within the Federal, State or local City government, we don't charge those governmental entities or those other Cities for this service. Why should we charge the County. Furthermore, you cannot justify cutting direct services to the residents of Unincorporated Miami Dade County and then spend $2 million on this luxury referral service. The services performed by the Answer Center of referring constituents to the appropriate City, County, State or Federal entity used to be performed by County Commission Offices as the normal part of constituency referral and constituency assistance services, so although this referral service is a nice thing to have, the County functioned before it was created a couple of years ago and the County can function without it through the constituency staffs of the Mayor and the Thirteen County Commissioners. If you fund this activity out of the Countywide budget, I can accept this expenditure at a modest level, but it too should be cut like other Departments that provide direct municipal services and like the Community Based

Organizations that provide social services to the residents of this community.

$296,000 Recapture $296,000 General Fund Revenues from the Mayor's proposed UMSA budget for the Government Information Center Department Administration functions. This is an activity that has never been charged to the UMSA budget. It is a Countywide function and has always been charged to the Countywide budget. Furthermore, this is administrative expenses for non-municipal service delivery.

$852,000 Recapture $852,000 General Fund Revenues from the Mayor's proposed UMSA budget for Data Center Services for the Enterprise Technology Services Department. The budget for Data Center Services in the Mayor's proposed budget requests an increase of 37% over last year's budget levels. Last year this administrative function was budgeted at $2,282,000 and they are requesting $3,134,000 for this year. I represent 100 percent Unincorporated Miami-Dade County, and I cannot justify to the residents and taxpayers in the Unincorporated areas of Westchester, Kendall and Fontainebleau, that we are cutting back on direct municipal services to the residents and yet we are increasing a bureaucratic and administrative function by 37 Percent.

$306,000 Recapture $306,000 General Fund Revenues from the Mayor's proposed UMSA budget for Enterprise Programs Division of the Enterprise Technology Services Department. The budget for Data Center Services in the Mayor's proposed budget requests an increase of 11% over last year's budget levels. I cannot justify to the residents and taxpayers in the Unincorporated areas of Westchester, Kendall and Fontainebleau, that we are cutting back on direct municipal services to the residents and yet we are increasing a bureaucratic and administrative function by 11 Percent.

$1,200,000 Recapture $1,200,000 Capital Outlay Reserves from the Mayor's proposed UMSA budget for Repair and capital maintenance reserve for facilities serving the Unincorporated Municipal Service Area. The Mayor's budget had budgeted $1,725,000 for this reserve for next year, so this recapture would still leave a reserve balance of $525,000, which should be sufficient as a reserve, particularly since there was no reserve for this purpose in prior years according to the Mayor's proposed budget, which leaves half a million dollars more next year than in the past.

$155,000 $155,000 in Operating Revenue from the Mayor's Proposed Budget for Management Consulting Reserve Funds

$102,000	$102,000 in Operating Revenue from the Mayor's Proposed Budget for Outside Printing
$47,000	$47,000 in Operating Revenue from the Mayor's Proposed Budget in Employee Awards. Holding onto a job during tough times should be reward enough for our County employees.
$19,000	$19,000 in Operating Revenue from the Mayor's Proposed Budget for Promotional Items. We cannot justify the purchase trinkets and souvenirs with County logos promoting the 311 Service, while we are firing people from their jobs as a result of budget cuts.
$500,000	Recapture $500,000 in Emergency Contingency Reserves from the Mayor's Proposed UMSA Budget, leaving an Emergency Contingency Reserve for Fiscal Year 2007-2008 of $500,000, which added to the existing balance of $2,000,000 in the Emergency Contingency Reserve would give you a total balance of almost $2.5 million in Reserve for Emergency Contingencies.
$2,375,000	Recapture $2,375,000 in Wage Adjustment, FRS, Separation, and Energy Reserves from the Mayor's Proposed Countywide Budget, leaving $4 million in Reserves for this Account.
$2,000,000	Recapture $2,000,000 in County Services Reserves from the Mayor's Proposed Countywide Budget, leaving 2,231,000 in Reserves for this Account.
$1,000,000	Recapture $1,000,000 in Contingency Reserves from the Mayor's Proposed Countywide Budget, leaving $1 million in Contingency Reserves for this Account.
$500,000	Recapture $500,000 in Tax Equalization Reserves from the Mayor's Proposed Countywide Budget, leaving $829,000 in Reserves for this Account.
$36,342,000	**Recaptured from Recommendations in the Mayor's Proposed UMSA Budget**

Suggested UMSA Budget Adjustments:

$1,026,000 $1,026,000 From Recaptured UMSA General Fund Revenues to reinstate funding for UMSA share of reduced mowing of grass in parks, reduced maintenance of toddler lots, reduced maintenance of athletic turf fields, reduced maintenance of picnic shelter areas, reduced maintenance of litter cans, and reduced collection of litter for Miami Dade Park & Recreation Department. More importantly this is the UMSA portion of reinstating 37 full time grounds maintenance employees and 14.63 full time equivalents calculated from the part time hours, who under the Mayor's Proposed Budget would be terminated from the County, impacting 37 lower income families in Miami Dade County.

$518,000 $518,000 From Recaptured UMSA General Fund Revenues to reinstate funding for UMSA share of Custodial Service for Miami Dade Park & Recreation Department. These are lower income employees who keep the bathrooms at facilities operated by the Park & Recreation Department clean for use by the general public (tax paying residents and tourists). More importantly this is the UMSA portion of reinstating 9 full time custodial employees and 16.48 full time equivalents calculated from the part time hours, who under the Mayor's Proposed Budget would be terminated from the County, impacting 9 lower income families in Miami Dade County.

$441,000 $441,000 From Recaptured UMSA General Fund Revenues to reinstate funding for UMSA share of Park Security function for Miami Dade Park & Recreation Department. According to the Mayor's budget, the Parks Department would have to depend solely on police officers for patrolling every neighborhood, community, and regional parks, as well as our beaches. In reality, you would have no security whatsoever in our parks and other facilities operated by the Parks & Recreation Department, because by the Police Department's own admission, we barely have enough police officers currently to patrol our neighborhoods and provide acceptable response times to calls for police assistance. Furthermore, the Police Department is having difficulty attracting recruits to fill vacancies caused by incorporations, retirements and attrition. The Parks security patrol offered a level of visibility in our parks and served to address minimal incidents at a cost savings to our law enforcement budget. More importantly this is the UMSA portion of reinstating 21 full time park security employees, who under the Mayor's Proposed Budget would be terminated from the County, impacting 21 lower income families in Miami Dade County.

$363,000 $363,000 From Recaptured UMSA General Fund Revenues to reinstate funding

for UMSA share of the Arts in the Parks Program consisting of arts instruction provided at 12 hub sites to 6,000 after school and summer camp program inner city youths for Miami Dade Park & Recreation Department. This funding reinstates 3 full time positions and 3.57 full time equivalents calculated from the part time hours that had been eliminated by the Mayor's proposed budget.

$185,000 $185,000 From Recaptured UMSA General Fund Revenues to reinstate funding for Tropical Estate Pool - To re-open pool during the Summer and provide children with learn to swim classes, as well as to provide children from Miami Dade County Swim Teams with a pool for their practices. (This Summer program also provides employment to young swim coaches in our community)

$1,006,000 $1,006,000 From Recaptured UMSA General Fund Revenues to restore funding for 12 Team Metro Code Enforcement Positions and 6 Community Outreach Positions eliminated from the Mayor's Budget. The Mayor's Budget proposes to reduce the Team Metro budget at the service delivery level, while preserving a top heavy Department full of highly paid Administrators.

$1,516,000 $1,516,000 From Recaptured UMSA General Fund Revenues to restore funding for administrative support for community council meetings and the Government on the Go Bus Program.

$322,000 $322,000 From Recaptured UMSA Capital Outlay Reserves from the Mayor's proposed Budget for Park & Recreation Department facilities maintenance to include the sign painting program, repairing inoperable lighting fixtures in parks, cracks in walkways that could cause injuries to park patrons inoperable water fountains, removing graffiti from parks, maintenance of irrigation systems, etc.

$15,000,000 $15,000,000 from Capital Outlay Reserves and General Fund Revenues in the UMSA Budget to fund Quality Neighborhood Improvement Projects in UMSA that include traffic calming devices, guardrails, drainage projects, sidewalk projects, road resurfacing projects or neighborhood landscaping projects in the Unincorporated Municipal Service Area. These funds shall be divided by the 13 County Commission Districts based on a formula that is based 50 percent on UMSA square miles and 50 percent UMSA population. As Miami Dade County's economy sinks into a recession because of downturn in the construction and real-estate industry, the unemployment rolls in our community will begin to rise. This is precisely the time that our Government should be moving forward with Capital Improvement Projects that could allow small local businesses that would be constructing sidewalks, roads, and drainage in new residential developments and landscaping those new neighborhoods to bid for contracts to do the same type of work for the County. The County will also benefit, because we should have a lot

more competitive bidding for these government contracts, and thus the prices should drop substantially, allowing the public dollars to stretch further with more linear miles of roads, sidewalks, drains, etc.

$500,000 To Fund a Legislative Policy Fiscal Impact Reserve Fund. This Reserve Fund will help the Board of County Commissioner address the Fiscal Impact of their Legislative Policy Initiatives in the Unincorporated Municipal Service Area. As ordinances and resolutions are adopted, the Commission Auditor can provide the balance left in the reserve for future legislative policy action. This fund can be adjusted or replenished, when the BCC adopts and ordinance for a quarterly or mid year budget adjustments.

$20,877,000 Funded through General Fund Revenue and Capital Outlay Reserve Fund Dollars Recaptured from Recommendations in the Mayor's Proposed UMSA Budget

$15,465,000 Remaining Balance of Unearmarked Recaptures for Funding Board of County Commissioners' Priorities in the UMSA Budget.

MEMORANDUM
BOARD OF COUNTY COMMISSIONERS
COMMISSIONER CARLOS A. GIMENEZ
DISTRICT 7

Memorandum

TO: Honorable Bruno Barreiro, Chair and Members of the County Commission

DATE: August 20, 2007

FROM: Carlos A. Gimenez Commissioner

SUBJECT: Proposed Budget process

The past month has been extremely challenging while the Board of County Commissioners has worked to review the proposed FY07/08 budget. We have spent significant time focusing on individual positions and allocations for departments or programs, and have been unable to impact the overall direction and prioritization of the budget.

Now, thanks to the efforts of Chairman Bruno Barreiro, the Administration has agreed to re-engage in the budgetary process with the Board. I believe our duty is clear – we are here to protect our citizens.

Under our form of government, the budgetary process needs to be clearly defined by this Board. As such, I believe the Board needs to:

- Set overall policy direction. The Board, as a body, needs to clearly define and state to the Administration our **guiding principles and priorities**.
- Provide clear direction to the Administration on the financial framework within which they have to implement our guiding principles and priorities.
- Approve a Resolution clearly stating our intent and guidelines, and providing specific direction to the Administration.
  - This resolution should direct the Administration to deliver the details of this Board's directives via a Change Memo to the proposed budget.
  - The Change Memo shall be presented with two columns that clearly delineate the differences between the Administration's proposed budget and the Board's directed changes.
  - The Change Memo shall be delivered no later than August 30, 2007, in order to allow for review by the BCC and the Commission Auditor.

At this week's Committee of the Whole meeting, it is vital that a resolution be approved that incorporates these points. The details will emerge from input and suggestions during our discussions that day.

Specific Recommendations

After listening to my colleagues at the budget workshops held this summer, and from remarks made at BCC meetings, I believe five principles have emerged. All of them are aimed at getting us back to basics and delivering better services to our citizens. I recommend the following be our guiding principles. Again, these can be discussed and modified at our workshop on Thursday.

Guiding Principles

- **Lowering taxes by cutting government waste** – Our constituents are struggling with a series of pocketbook issues: homeowners' insurance, gasoline prices, an economic slowdown, property taxes. Of these, we can only provide property tax relief – and we should. The budget should reflect a greater millage reduction without a concurrent increase in non-ad valorem fees and charges.

- **Direct services to citizens** – We have all repeatedly stated the need to focus on direct services to citizens. We need more police on patrol in our neighborhoods; public works staff to inspect bridges, repair sidewalks, potholes and streetlights; staff to keep libraries open; staff to maintain and provide security in our parks, etc.

- **Putting people to work** – As the housing and construction industries slow and more and more workers are either on the verge of or already out of work, now is the time to truly energize our Building Better Communities / General Obligation Bond program. Capital projects, in particular those that do not require additional operation and maintenance costs, should be accelerated and expedited, much like the approved Water and Sewer projects. The benefits are two-fold. This will provide construction-related jobs at a time work is becoming scarce and will continue to provide opportunities until the private sector begins to recover. Additionally, as the economy continues to slow, competition for County contracts will increase and construction costs will be lower than they have been for the past few years.

- **Helping the elderly and young** – Now more than ever, we need to focus on those in our community who are most vulnerable. There is great concern that many Community Based Organizations will be unable to absorb the drastic cuts in the proposed budget in such a short period of time and will be forced to close their doors. Funding cuts to CBOs should be phased, so that viable organizations will have the opportunity to make the necessary adjustments to continue to provide valuable services to those most in need.

- **Protecting our environment** – We have made great strides in protecting our environment and natural resources. Reallocating our budget and protecting our environment are not conflicting objectives, indeed they can go hand in hand.

Direction for the Administration

Once we have established our guiding principles, we need to give specific directions to the Administration. Below are my specific recommendations.

I would recommend that the first element of direction to the Administration is to reallocate the Countywide and UMSA General Fund (GF) budgets by $100 million (approximately 5 percent).

- The Countywide GF budget of $1.33 billion (*07/08 Proposed Resource Allocation – volume 1, page 404*) would be reallocated by $75 million.
- The UMSA GF budget of $494 million (*07/08 Proposed Resource Allocation – volume 1, page 406*) would be reallocated by $25 million.
- The combined total reallocation is $100 million.

The $100 million reallocated should be distributed as follows:

- $75 million of the total reallocation to be made available for direct services to citizens, helping our elderly and young, and protecting the environment:
  - $15 million (20 percent of $75 million) to CBOs.
  - $45 million (60 percent of $75 million) to direct services such as parks security, police patrols in the neighborhoods, public works staff inspecting bridges, fixing sidewalks, replacing streetlights, etc.
  - $15 million (20 percent of $75 million) to environmental programs, including additional resources for monitoring water quality, restoration and enhancement of the tree canopy, etc.
- $25 million of the total reallocation will be used for additional property tax reduction above and beyond the Florida Legislature's mandate and the Administration's recommendation. This is to be distributed in accordance with the amount collected Countywide and in UMSA. The reduction for Countywide would be $18.75 million and the reduction for UMSA would be $6.25 million.

  To provide perspective, $25 million is approximately 1.37 percent of the combined Countywide General Fund and UMSA General Fund budget of $1.82 billion. It is also important to note that property tax revenue for Miami-Dade County (Countywide, UMSA, Fire District, and Library District) has increased by nearly $500 million since FY 03/04. Our citizens need relief.

The following principles are to be followed by the Administration in order to achieve the $100 million reallocation:

- Fifteen percent administrative cost reductions across all General Fund programs. Administrative costs are defined as all managerial and support personnel and costs that are not directly involved with delivering services to our citizens.

- Ten percent reduction in the light vehicle fleet (cars and small trucks). This reduction shall not include hybrid vehicles, which will conserve fuel thereby lowering costs.
- The Administration must focus on the reduction or elimination of duplicative and non-essential functions.
- The Administration is instructed to minimize lay-offs to the greatest extent possible through attrition and re-training employees to fill essential positions currently vacant. Future vacancies should be evaluated for re-training opportunities.
- While the Fire Rescue Taxing District is not expected to cut their budget, the Fire Department shall be included in the 15 percent administrative cost reduction process. The savings should be invested in opening those new fire stations that were deferred in the Administration's proposed budget due to lack of staffing and operational funds.
- While the Library Taxing District is not expected to cut their budget, the Library Department shall also be included in the 15 percent administrative cost reduction process. Those savings shall be re-invested in adequate staff to restore and if possible, increase the hours and days of operation that were reduced in the Administration's proposed budget.
- If the reallocation cannot be achieved by the Administration with the aforementioned directives, the Administration shall find additional methods. If other methods are utilized, the Administration shall clearly delineate these in the Change Memo due on August 30, 2007. Senator Souto's excellent memo, dated August 10, 2007, provides numerous options, in great detail, that should be considered.

In light of the proposed state amendment and the declining real estate market, it is quite possible that the coming years will present even bigger challenges. We need to be prepared and I believe that this year's budget is critical in laying the foundation.

It should be made clear that the concepts presented in this are my recommendations and should be viewed as a starting point for our discussion at the Committee of the Whole meeting. I look forwarding to hearing everyone's valuable input and suggestions at this week's meeting, which will serve to enhance and clarify our direction to the Administration. It is vital that we reach closure (through a resolution) on this direction to the Administration during our meeting, as time is of the essence.

By establishing a clearly defined budget process, for the Board and for the Administration, the County will be better prepared for the future. I fully support Senator Souto's assertion that this Board needs to be involved with the budget year round. The process for the 2008/09 budget needs to begin immediately beginning with a comprehensive study refining essential and non-essential functions.

I would ask the Chairman to place on the agenda for Thursday's meeting the process addressed in this memo.

I want to take this opportunity to express my appreciation to our Chairman, and all of the members of the Board of County Commissioners for your commitment to resolving these issues.

Memorandum

To: Honorable Chairman Bruno A. Barreiro and
Members of the Board of County Commissioners

From: Joe A. Martinez, Commissioner

Date: August 21, 2007

Re: FY 07-08 Budget Recommendations

I am submitting additional recommendations to the Board of County Commissioners (Board) as it relates to the FY 07-08 budget process. These recommendations are in addition to what we have discussed in prior meetings and my individual budget recommendations that were submitted to the Board via memorandum on March 5, 2007, which is attached herein (Attachment 2).

While I have consistently stated that the Board needs to conduct line item reviews, I also think that we need to go a step further by conducting reviews based on the approved Pay Plan. This way, we assure that the bureaucracy of this government is not top heavy and that we are providing direct services as opposed to allocating an exorbitant amount of dollars for "administration." To this end, I asked the Office of Strategic Business Management (OSBM) and the Commission Auditor to provide me with a staffing report based on the Board approved Pay Plan that depicts monetary allocations made to each department for administration and/or executive offices – this does not impact our collective bargaining agreements nor is my proposal intended to do so. OSBM has already provided the reports for those departments that fall under the jurisdiction of the Budget and Finance Committee and are soon to disseminate the remaining departments.

Based on this information and the attached report (Attachment 1) that I requested from the Commission Auditor pertaining to departmental "administration/executive" designations by department, I believe that it would be fiscally prudent to reduce the proposed allocation for those specific areas/functions by 15% from the FY 06-07 allocations in order to yield additional savings. Based on the attached report, if this were adopted across the board to all departments, it will generate a savings of approximately $56.1 million as compared to FY 06-07. Please keep in mind that this is for salary and fringes as well as other operational expenses allocated for those departmental divisions/services designated as administrative/executive.

These reductions would be in addition to department-wide reductions that have also been proposed by our colleagues and the Administration. Furthermore, please note that reductions within the departmental administration/executive divisions ***should not*** affect services to our residents.

If we can further reduce the bureaucracy by 56.1 million, we can provide additional relief to our residents, fund vital programs that have been reduced or eliminated by the Administration and fund those programs and services that are essential to the community. I wholeheartedly agree with Senator Souto's assertion of the budget process and also support many of the recommendations to recapture allocations proposed by the Administration to areas that will be prioritized by the Board. I would also like to commend Commissioner Gimenez for putting forth his recommendations to the Board and support his proposal to further reduce the millage rate. Furthermore, on August 13, 2007, I also requested the Administration to provide a report to the Board as it relates to the County's vehicle fleet with the exception of the Police Department, the Fire Department, and the Corrections Department to include the number of vehicles, 24-hour vehicle assignments for both essential and non-essential personnel. While the information has not yet been provided, I anticipate the numbers to be quite high and the costs associated with the fleet and the current procedure to be alarming. I would instruct the Administration to review the 24-hour vehicle assignments in an effort to assure that those assignments are based on essential personnel only, thus reducing our fuel costs as well as minimizing the County's liability.

As stated in my August 17, 2007 memorandum, the actions taken by the Administration last week demonstrated the need to ensure that in the future, the Board (governing body) has the necessary resources and expertise independent of the Administration's staff to conduct the business of Miami Dade County – most importantly the budget process. As stated in said memorandum, I believe that in order for the budget process to work effectively and in the best interest of those we represent, the Board needs to have independent staff assigned to each Board Committee under the auspices of the Commission Auditor that can effectively provide the institutional knowledge and advice to adopt a fiscally prudent budget, allowing the Board to perform its obligations under the Charter – a process that needs to commence October 1. I want to be clear that I am not proposing to create additional bureaucracy or allocate additional monies for this function but rather, from a budgetary perspective, re-allocate a portion of the multimillion dollar budget from the Administration to the Board. Finally, in order to assure that budgetary controls remain under the jurisdiction of the governing body, I am also proposing changes to the Ordinance related to budgeting by amending section 2-1796 which rescinds the authority of the Administration to make certain intradepartmental budget amendments without prior Board approval, prohibiting transfers of funds from one department to another without prior Board approval and prohibiting transfers of funds to a newly-created department without prior Board approval. I have asked that this item be on the September 4, 2007 Board agenda for First Reading. This proposed change will allow the Board to assure that the services being provided are indeed those set in motion by policies and priorities identified by the Board.

I look forward to a fruitful discussion at the Board meeting that has been scheduled by the Chairman and hope that we can move forward in a manner that will bring additional relief to our residents than what is already being proposed while maintaining the quality and level of services.

If you should have any questions please call me at (305) 375-5511.

JOE A. MARTINEZ

MIAMI DADE COUNTY COMMISSIONER

DISTRICT 11

Memorandum

To: Honorable Chairman Bruno A. Barreiro and
Members of the Board of County Commissioners

From: Joe A. Martinez, Commissioner

Date: March 5, 2007

Re: FY 2007-08 Individual Budget Priorities and Recommendations

---

In addition to presenting the Board of County Commissioners (Board) with a Budget Message as the Chairman of the Budget and Finance Committee for FY 2007-08, I am also submitting my recommendations and priorities in an effort to have healthy debates on said priorities so that we could ultimately adopt a fiscally prudent budget that addresses not only individual District needs but also pressing Countywide issues. During this year's budget process, I would urge the Mayor and my colleagues to put forth their top priorities and recommendations so that Commission Committees can successfully review the Board's priorities as well as those of the Mayor. This will provide an avenue for us to not only adopt a balanced budget but also one that is representative of the County as a whole while addressing District specific issues as presented by my colleagues. I believe that by addressing these issues at the onset, will allow for a more cohesive and in depth review of the process and therefore allowing us to appropriate necessary funding and eliminating waste throughout Miami-Dade County Government.

An open and transparent process will provide an avenue for the Board to adopt budgetary policies and recommendations that are truly in the best interest of the County and our residents. As stated in my Budget Message sent to you on Friday, March 2, 2007, adopting firm policies and reviewing all programs/departments and their respective budgets closely, will enable us to adopt similar review and appropriation of funds that have proven effective in the State and Federal Governments. I look forward to working closely with all of you. I also look forward to engaging in debate with my colleagues in order to address their priorities for the County and their respective Districts. I believe that these recommendations as well as my listed priorities will ultimately provide an avenue for healthy debate and compromise.

Public Safety

I would ask that the Mayor and the administration explore additional crime fighting initiatives that will directly address crime ridden areas that have recently been prone to gun violence affecting our youth. I would further ask that the police department continue to aggressively recruit police officers and provide adequate training, and appropriate funding be in place to increase the number of recruits per class which are currently at an average of 34. Furthermore, we need to fund these classes so as to ultimately fill vacant position within districts and ultimately reduce response times. In order to effectively attain these goals, the Board should direct the administration and MDPD to augment the Public Service Aide (PSA) program so that sworn officers can concentrate on crime fighting initiatives and allow for the PSA's to handle non-criminal issues such as routine traffic accidents.

Enhanced Enforcement Initiatives (EEI's) have proven to be quite effective since its inception as a pilot program of former Mayor Alex Penelas. Throughout the last couple of years, there has been a direct link to the lowering of crime within our community and the EEI programs. To this end, I would recommend to the Board that it augment the level of funding for this program and request the administration and the department to specifically allocate additional funding for EEI's across the board and also augment funding of specific programs/initiatives designed to reduce the criminal activity related to youth gun violence.

I have consistently asked the administration to explore the possibility of merging numerous administrative functions of the Corrections and Rehabilitation Department with the Miami-Dade Police Department, such as internal affairs, personnel, procurement, quartermaster, and training and development to name a few. I would urge my colleague, Commissioner Moss, as the Chairman of the Health and Public Safety Committee to further review these issues and develop policy that directs the administration to begin this process. I look forward to working with Commissioner Moss and my colleagues on this issue.

Doing so will streamline both departments and allow for savings in revenues that can be applied to hiring of additional police and correctional officers and the ability to also address urgent capital needs in our facilities.

While I commend the administration for finally placing the much needed fire boat that I originally sponsored in service, we must still augment said fleet to have sufficient coverage countywide with reasonable response times. Second, appropriate funding needs to be in place to replace existing fleet and equipment/vessels that are necessary to address the increase in fire rescue demands. This should be a top priority for the administration and the Miami-Dade Fire and Rescue Department in an effort to immediately address and resolve these issues. I would ask that the administration prepare a cost estimate for these priorities for consideration during the committee budgetary review process.

Public Works and Infrastructure

For the last several years, we have had the need to replace our tree canopy throughout the county as a result of numerous hurricanes and storms that have pummeled through our community. In addition to the trees lost to the hurricanes and storms, the County has lost over 600,000 trees to Citrus Canker. Last year the Board allocated a total of $4 million to the tree restoration program, a program that has traditionally been funded at approximately $1 million per year. It is anticipated that the Public Works Department will begin planting trees and restoring our tree canopy in April 2007 and is expected to complete said task by September 2007. In an effort to continue the tree canopy restoration within our community, I would ask that we appropriate an additional $1 million for the FY 2007-08 Budget and the administration plan accordingly. It is important to note that the county currently only has a 10% tree canopy, whereas most urban areas have a 33.4% tree canopy. By staying committed to this program, we can expect to attain at least a 30% tree canopy by approximately 2020 – barring any unforeseen storms or hurricanes. It is important for us to educate policy makers, administrators, and the community on the importance of the need for a tree canopy, promoting the design of urban spaces that adequately fit trees, and encourage local growers to produce quality species for public right of ways.

The County has undertaken a very ambitious approach to retrofitting signals with illuminated signs in an effort to make our roadways safer and easier for drivers to commute. As such, the Public Works Department is expected to complete approximately 2,000 intersections within the next three years at a cost of about $10,000 per intersection. It is anticipated that 430 intersections will be retrofitted in 2007. In addition to the use of capital outlay reserves and funding from the People's Transportation Plan (PTP), I would urge the administration to request inclusion in the Florida Department of Transportation's (FDOT) work program and allocate necessary funding towards these much needed retrofits.

While the County is in the process of developing the Advanced Traffic Management System (ATMS) for all 2,650 traffic signals located in the County - having completed 148 in 2006, I urge the administration to ensure that the 1,000 that were promised to be completed in 2007 are indeed integrated into the system expeditiously.

The anticipated completion date is 2009. I would urge the administration to work with the provider to increase the original installs of 100 per month in order to move up this priority for completion in 2008. Doing so will bring noticeable relief to those that commute on our roadways on a daily basis. I would further ask the administration to advise whether additional funding will be necessary to modify the current phases of the program and possibly provide financial incentives to the provider in order to expedite this request and if so, present a plan to the Board for consideration. ATMS in the transit bus corridors coupled with the use of Global Positioning Satellite System will provide for a bus rapid transit corridor and in turn provide for incentives for the use of public transportation.

Government Obligation Bond and Quality Neighborhood Improvement Programs

The County has been able to effectively move projects that were approved in the Government Obligation Bond Program (GOB) and effectively fund and complete Quality Neighborhood Improvement Program (QNIP) projects as approved and prioritized by the Board. However, the Expedite Ordinance utilized to award capital projects such as those within GOB, QNIP, and other capital projects approved by the Board is no longer available due to a trigger exercised by the passage of the most recent referendum. Without said ordinance, the contract award process now reverts to a six to seven month process. This ordinance benefited the Public Works Department and the Capital Improvements Office by expediting approved projects and also assisted contractors by not holding their bid bonds longer than necessary. Under the previous ordinance, Board approved capital projects listed in the annual budget could be awarded and brought forth to the Board for ratification. To this end, the Capital Improvements Office is currently preparing a new Expedite Ordinance to bring forth to the Board. Pursuant to issues recently discussed by the Board, I would hope that this new ordinance should more clearly define what constitutes a controversial item which would require Board approval prior to award. As we move forward and demand accountability, I would urge the administration bring forth recommendations as soon as possible for the Board to consider as it prioritizes projects within our community. Such proposals should be inclusive of pre-bid estimate amounts and a process for approval, detailed explanations and recommendations based on the type of work requested, approval limits and specific directives to the administration. The Board approved QNIP 5 during the FY 2006-07 budget process and has hence allocated $30 million to be spent for said Board approved projects over the next three years – through FY 2008-09.

Healthcare

The health of Miami Dade County citizens is of the utmost importance to all of us. There continues to be over 500,000 uninsured residents in this community. My goal has always been to develop an action plan to address the ever-increasing need for countywide healthcare services for the uninsured by expanding the County's healthcare delivery system. As you are aware, I have developed several different programs in an effort to achieve this goal. During my tenure as Chairman of the Board, I developed the Health Care Task Force which was created and established for the specific purpose of advising and making recommendations to the Board and making recommendations regarding funding for the uninsured, creating neighborhood medical centers and educating residents through community outreach regarding access to and the benefits of primary care. I commend the task force which is comprised of professionals within our community that have diligently worked to create a public/private partnership in order to provide affordable healthcare to the many uninsured residents of Miami-Dade County. This program is in the planning stage and I am confident that we will be able to bring a viable plan to the Board for discussion and ultimately adoption in the very near future.

As such, I would like to thank my colleagues for extending the sunset provision of said task force beyond the tenure of my Chairmanship in an effort to continue the work of these fine professionals with an ultimate goal of providing affordable healthcare.

In addition, I would invite you to join me in reaching out to your constituencies to attend the 2007 Annual Joe A. Martinez Health and Safety Expo which will be held on August 25, 2007, at the Fair and Expo Center located in Tamiami Park. I would urge the administration and the Board to consider augmenting funding levels for organizations such as the Borinquen Clinic that have mobile medical centers that provide Primary Care and Preventive Medicine throughout the County as well as Jackson Memorial Hospital's Carevan.

The administration presented a report to the Budget and Finance Committee earlier this month that discussed the issuance of an RFP for a self-funded medical program. The report depicted that by modifying the existing HMO funding structure from fully insured to self-funded will achieve significant savings in the non-claims component of premiums, which includes excess administrative and risk charges, as well as profit margins. The report further stated that an analysis of the non-claims cost associated with our current fully insured plans for 2005 reflects expenses ranging from 15.3% to 25.8% of premiums, while our self-funded Point of Service Plan had only a 4.1% non-claims expense. Typically, non-claims expenses range from 4% to 7% in a self-funded environment. I look forward to continued dialogue with my colleagues, employees, union representatives, and retirees to determine the best healthcare services in the best interest of our employees and retirees.

The preliminary findings of the report conclude that using a conservative 7% projection, the savings resulting from the reduction in non-claims expenses based on 2007 rates would have been approximately $22 million. We also need to look at ways to offer additional relief to our employees and those that have retired from the County and are paying an exorbitant amount of money per month in order to maintain healthcare coverage. As I presented my budget message to you last year, I directed the administration to address this issue and proffer solutions – to date none have been proffered to my knowledge for retirees.

Affordable Housing

Miami-Dade County has grown tremendously over the last several years and is expected to continue growing. We currently have over three million residents and a budget that approaches seven billion. However, with growth comes both good and bad for all residents. For those who already own a home, your property values have soared, as such, your equity has increased substantially. However, for others who were renting and who didn't own their home have found themselves in a position which is difficult to purchase a home at the current market prices. Rising property values have made it even more difficult for many of our workforce and our children who are now graduating from college to purchase a home in Miami-Dade County.

This is something that we as a Board need to continue to urge our State Delegation to adopt legislation that will offer relief to all sectors of our community.

Affordable Housing has become a critical dilemma; therefore, I have been working diligently to address these issues. Since the market has slowed down and there are many developers sitting on available inventory, I have proposed several programs that provide for public/private partnerships with the County in order to match buyers with available properties. To this end, I have sponsored a resolution to address these issues and will continue to work diligently to make sure that everyone who is interested in buying a home has an opportunity to do so. The County is also working with many qualified lending institutions that are aware of the many County subsidies which are available to bridge the gap in order to qualify many of our very low to moderate income residents. As a result, residents can now log on to housing.MiamiDade.gov to obtain the most recent housing information.

While this does not resolve the current housing crisis in our community, it is a step to at the very least assist a growing number of residents that otherwise would not have an opportunity to rent or own their own home. We must continue to demand accountability from the administration and the Miami-Dade Housing Agency and work with the USHUD in an effort to find amicable solutions that are in the best interest of our residents.

Domestic Violence Programs

The Board has taken many steps over the last several years to assure that the County and the administration augments services provided to victims of domestic violence and focus efforts on also educating our citizens to have the ability to obtain assistance prior to any acts of violence occurring. At the same time, we were faced with the unfortunate hurricane damage caused to the Safespace Center in South Dade in 2005 which has exacerbated an already critical shortage of emergency shelter beds within our County. I would urge the administration to prioritize the re-opening of the shelter as well as services provided to victims of Domestic Violence. As you are aware, available and accessible services can be the difference between life and death for victims of Domestic Violence. To this end, I sponsored an Ordinance that was approved by the Board which calls for a One Stop Center to be erected that has been endorsed by the Miami-Dade Police Department, the State Attorney's Office, the Public Defender's Office, and Domestic Violence Counselors. The County has identified a "turn key" center that would be a perfect fit for all involved and has obtained appraisals to procure at a cost of approximately $5.5 million. I have discussed this potential center with Dr. Mae Bryant at length as well as the approximately $8 million that are under the auspices of the Domestic Violence Oversight Board (DVOB). I understand that the DVOB has raised some legal issues pertaining to the use of said funding. I disagree with the legality issue as it relates to the use of the funding for a much needed center. As such, I would urge my colleagues to pursue the use of this funding for the purchase of the center once legal issues are cleared or direct the administration to earmark necessary funding so that we can indeed inaugurate this much needed center in our community.

Water Conservation and Related Issues

Over the last several years we as a Board have adopted numerous programs that promote water conservation. However, for a County that consumes an excess of 300 million gallons of water daily and only reuses approximately 5% is unacceptable and we must do more. During the 2005, State Legislative Session, senate Bill 444 was enacted, changing the way public water suppliers plan and implement water conservation measures. The water protection and sustainability Program created due to these changes provides funding for Alternative Water Supply Projects that are identified in the South Florida water Management Districts' Regional Water Supply Plans.

On November 9, 2006, the South Florida Water Management District issued a "Declaration of Water Shortage Warning." To this end, the Miami-Dade Water and Sewer Department met with the District to address the different ways in which to best communicate with the public. The District's emphasis was in curtailing lawn irrigation and specifically promoting the existing County ordinance that prohibits automated irrigation between the hours of 9:00 A.M. and 5:00 P.M.

In moving forward, I believe that we need to continue debate on how to best increase the reuse percentage of our water supply, limit use, augment the promotion of conservation programs and increase public awareness. In order to assure compliance of existing regulations, I would urge the administration to expeditiously develop and implement an aggressive awareness campaign that has an enforcement component. However, I want to be clear that our focus needs to be on education. Enforcement should be a last resort.

The 2006 hurricane season had a devastating impact on the agricultural community and surprisingly, it was the smaller storms that affected them the most. In larger storms, much of the debris is mixed together and therefore making it difficult for FEMA to differentiate between agricultural or household debris associated with storms. When smaller storms impact our agricultural communities, unlike traditional communities, the agricultural community absorbs the bulk of the financial impact for collecting the debris because FEMA funds cannot be earmarked for mixed/multiple debris. Again, during the aftermath of the 2006 hurricane season, the agricultural community had to wait to in order to receive reimbursement.

The agricultural practices sub-committee on disaster debris removal met September 27, 2006 and concluded that the needs of the row-cropper, the grove owners, and the nursery growers are too varied to implement a comprehensive policy procedure. The sub-committee however, proposed several ways that the County can proffer assistance in dealing with the debris classification issue. Some of these ideas include expediting fire permits with reduced fees, developing special services for debris handling and stricter enforcement of illegal dumping. As the 2007 hurricane season approaches, I would urge the administration to bring forth recommendations to the Board that will not only assure protection and assistance to the agricultural community but also allocate necessary funding to help them adequately prepare prior to any storm.

Cultural and Recreation Programs

I have consistently supported our cultural and recreational community as I am a firm believer that the children and elderly within our community directly benefit from programs tailored for them as they gain educational/cultural knowledge and find means to maintain a beneficial social atmosphere in the golden years. Now that the Performing Arts Center is open and the Museum Park soon to come, we have the ability to expand services to our residents and build on our tourism base. To this end, I would urge my colleagues to continue supporting these much needed programs while assuring that the financial support is managed in a fiscally prudent manner. Furthermore, I would urge my colleagues to continue their support of the cultural community's goal and our financial commitment throughout the next couple of years.

As I have consistently stated, the Parks and Recreation Department needs to provide our residents and visitors access to a well maintained park system that offer state of the art amenities that are second to none. As such, I would ask that the administration prioritize maintenance, capital improvements, and repairs at our facilities in order to augment the level and quality of programs offered by the Parks Department. I look forward to continue working with my colleagues in an effort to allocate much needed funding to not only improve our Park and Recreation programs but also to assure that those organizations that have partnered with the Parks and Recreation Department have the necessary tools and adequate funding to provide quality services.

This Board has been instrumental in the aggressive growth of our Library System and since 2004 has been able to successfully inaugurate five storefront mini libraries and one branch library. The system is expected to inaugurate two storefront mini libraries and three branch libraries prior to the end of the FY 2006-07 year. I look forward to continue working with my colleagues in order to assure that the two branch libraries slated to open in FY 2007-08 and the four slated to be opened in FY 2008-09 are opened on time and within budget. We need to urge the administration to stay on track and assure that we expedite these projects in order to bring these much needed services to our residents.

Transportation

There are numerous projects underway throughout Miami-Dade County that encompass multiple-agency involvement to ultimately improve the traffic congestion within our community and in an effort to promote the use of public transportation in the hopes of reducing said congestion. However, some of these ambitious programs require a significant financial contribution and will take numerous years to complete. In order to immediately address this crisis, I have been advocating for a much faster solution that will have a much reduced financial impact. The solution that I am referring to is the diesel Multiple Unit (DMU) project that a number of you are quite familiar with and joined me last year during a demonstration of the project. Currently, Miami-Dade County is evaluating the use of the existing CSX railway alignment to provide commuter rail service from Southwest Miami-Dade to the vicinity of Metro Zoo, to the future site of the Miami Intermodal Center.

This service would alleviate vehicular traffic along several of our most congested roadways, reduce commuter travel time, and save fuel consumption. The proposed rail car produces 72% less pollution than a locomotive and is cheaper to procure. This service would use existing tracks that would be retrofitted to allow for passenger rail cars which in turn would reduce the infrastructure costs. There has been a great deal of public participation and debate that has yielded both support and opposition and I support further debate in order to address all pros and cons to the project so that if approved all issues are addressed and that inconveniences are minimized. I will continue to pursue this project as a priority and look forward to your support in the future as we look to provide relief to those who spend an exorbitant amount of time on our roadways – time they spend away from their families or time that they would prefer to dedicate to themselves.

Homeland Security Regional Training Facility

This project which I sponsored and aggressively continue to pursue has already yielded some positive traction throughout the Federal Government commencing with the successful outcome of the Base Realignment and Closure (BRAC) exercise which yielded a positive outcome for Miami-Dade County.

I would like to thank all of my colleagues and other elected officials that traveled to Washington and successfully persuaded the Federal Government to augment operations at Homestead Air Reserve Base. Second, the Federal Emergency Management Agency (FEMA) has committed to maintaining a presence in South Dade in an effort to be ready to respond to any disasters to provide relief stemming from hurricanes that periodically affect our community. Furthermore, FEMA has indicated that it will be pursuing a more permanent presence at our South Dade site. The United States Coast Guard has already moved several operations to said site and will be a significant component of the proposals that I have submitted to the Board in the past. With the expansion of our training facilities at the Miami-Dade Police Department and the partnership forged with the Federal Bureau of Investigations (FBI) at said facility, I believe that it would be prudent to continue to aggressively pursue other State and Federal agencies to forge relationships with Miami-Dade in order to indeed bring to fruition a state of the art facility in South Dade that will not only benefit the local law enforcement community and its state of preparedness but also serve as a model for other agencies throughout the country and therefore making it a coveted facility that agencies throughout the Country and abroad will want to visit. The location of the facility coupled with the climate in South Florida will provide for local, state, federal, and agencies abroad to participate in exercises and training programs year round.

Conclusion

These Budget Priorities and Recommendations are just a few issues that I have championed for many years and those that I truly believe impact the quality of life of those we represent as well as priorities that have been adopted by the Board in the past. While some of the recommendations listed herein may not be priorities for my colleagues, I believe that putting them forth will engage the Board in a healthy budgetary debate that if successful, should address all of those priorities that are important to our citizens. This will provide a forum for compromise that will ultimately benefit those that we represent. As such, I look forward to the budget process this year and I am humbled by the opportunity given to me by Chairman Barreiro in appointing me to lead the Budget and Finance Committee – an important task that I believe will allow us to build upon a process that has proven to be effective.

If you should have any questions, please call me at (305) 375-5511.

MEMORANDUM

TO:	Honorable Bruno Barreiro, Chair Board of County Commissioners	DATE:	August 20, 2007
FROM:	Katy Sorenson Commissioner, District 8	SUBJECT:	COMMITTEE OF THE WHOLE MEETING

Katy Sorenson

I am sorry that I will not be able to attend the Committee of the Whole meeting as I had previously scheduled family responsibilities, but I do want to set out several of my priorities for the 2007-2008 budget.

This will be a very difficult budget year due to the actions taken by our State legislature to limit our property tax revenues and our decision not to override. I recognize that cuts will have to be made, and I think that we as a commission need to set an example by responsibly cutting our own budgets, including our discretionary funds, in order to support other priorities, particularly services, in our County

One of our highest priorities needs to be our continued support for Cultural Affairs. We must restore all of the funding for this department's grants programs. The arts are an important part of our community – they contribute to the vitality of the community for our citizens and the marketability of Miami-Dade as a destination. They provide jobs for more than 22,000 people. These grants represent money well spent, as each dollar spent by the County leverages, on average, $27 from other sources to support these important cultural events.

Our Parks Department also provides important programs and opportunities for the residents, particularly the children, of Miami-Dade County. We must protect the funding for Parks to ensure that our residents continue to have access to safe, well-maintained public areas for recreation and healthy programs for our children. An ounce of prevention is worth a pound of cure. Money spent on parks programs is money not needed to address juvenile delinquency and health related issues such as obesity.

While there has been much discussion about an Office of Sustainability, we have not seen a position filled for this important office. Climate change will have serious consequences for Miami-Dade County, and we must be in a much better position to use all our natural resources wisely and cost-effectively.

We need to restore funding to the Community Based Organizations, which provide vital services to our residents. At the same time, we must ensure a comprehensive approval and evaluation process for these funding allocations based on priorities, performance measures and outcomes, so that our investments of tax dollars are used most effectively. So along with continuing to fund these CBO's, we must also restore a portion of the funding supporting the allocation and oversight process. Currently, the Department of Community Service is slated for a $6.2 million reduction. The budget number will have to be adjusted if we are to effectively monitor these agencies.

It is also important that we restore funding for GSA, particularly their repair and renovation activities. Cutting these activities is penny-wise and pound-foolish. Maintenance of public facilities is an investment that guards against large expenditures that will become necessary without proper upkeep.

Along the same lines, we must continue our drain cleaning program along with other efforts to maintain our infrastructure. We saw very clearly in the recent tragedy in Minnesota, not to mention the debacle in New Orleans two years ago, what happens when governments do not make the necessary investments in the safety and security of their residents. When the General Obligation Bond was passed, our infrastructure backlog was slated at $6 Billion. That number continues to grow and we must focus on addressing these critical needs.

We must continue to fund tree replacement and mowing in the rights-of-way. As a tourism-based economy, it is imperative that we maintain an attractive community that helps to foster pride in area residents and is appealing to our visitors. We must also continue to maintain effective and efficient Code Enforcement efforts.

We must restore funding to our Police Department to support their investigative activities and enhanced enforcement initiatives, as well as initiatives such as the Agricultural Patrol in order to meet the variety of needs throughout different areas of our community. Furthermore we must ensure that our officers are provided with necessary equipment and technology in order to best protect and serve the residents of Miami-Dade.

We must also continue to fund and support our ADA office and ensure compliance not only by our own agencies but countywide as well.

Animal Services plays an important role in the health and safety of our residents. We cannot cut the budget of this department while we continue to expect more service.

Our Corrections Department deserves state-of-the-art technology in order to operate our facilities in an efficient and orderly manner. We should continue to support them in this effort.

We need to support our Transit Department in their efforts to find more efficient and environmentally friendly fuels to run their vehicles. Again, this is an investment that will pay dividends in the future.

The Miami Art Museum, the Historical Association of South Florida, the Miami Museum of Science, and Vizcaya Museum and Gardens are important cultural centers and resources in our community that need to be supported.

The Medical Examiner's office provides an important service to families in a time of need. Delays in the response time of this department are unacceptable.

Instead of looking to eliminate services in the South Dade Government Center such as the tax collector, we need to look at making County services more accessible to our residents. Through relocating Team Metro from the Southland Mall to our own facility and cross-training opportunities with departments such as the tax collector, we should move towards providing the residents of South Dade with more readily available access to the services of Miami-Dade County. This will not only be a convenience for our residents; it will more importantly reduce traffic if people are not forced to travel downtown.

If we aspire to be a world class community, we must make the public investments necessary to encourage private investment and the prosperity that results. We can all agree that the citizens and residents of our county deserve to have their hard-earned tax dollars spent carefully in a way that meets the needs of our most vulnerable and enhances the quality of life for everyone. I hope that those who have been advocates for tax cuts will be able to identify appropriate places to make those cuts without affecting our most important services.

Thank you for your consideration.

C: Honorable Chairwoman Barbara Jordan and
Members of the Board of County Commissioners
Honorable Carlos Alvarez, Mayor
George Burgess, County Manager
Abigail Price-Williams, County Attorney
Charles Anderson, Commission Auditor
Kay Sullivan, Clerk of the Board

MEMORANDUM
BOARD OF COUNTY COMMISSIONERS
Commissioner Rebeca Sosa, District 6

TO:	The Honorable Chairman Bruno A. Barreiro and members of the Board of County Commissioners	DATE:	August 23, 2007
FROM:	Rebeca Sosa Commissioner District 6	SUBJECT:	FY 07-08 Budget Process Recommendations

I recognize that Miami-Dade County is experiencing an unprecedented and difficult budgetary time, requiring significant cuts that will impact every aspect of county operations. In our capacity, I believe that we as a commission need to set an example by providing compassionate and prudent oversight over the fiduciary responsibilities with which we are charged.

One of our highest priorities needs to be our continued support towards direct services. We must restore all of the funding for programs that impact the delivery of direct services to our residents, as we need to recapture the proposed elimination and reduction of front line personnel during our deliberations. In addition, I would urge all of us to minimize the impact to our employees by not cutting any currently filled positions from the budget. We should do everything within our ability to maintain our very fragile unemployment rate at a low level during this time of financial strain.

The enhancement of crime fighting efforts should be a focal point of the administration. We should increase our efforts in the area of Enhanced Enforcement Initiatives (EEI) and specialized crime suppression units. This will become more important as the economy continues to slow down and the unemployment rate goes up.

As a result of continued congestion in our highway/street systems, first responder response times have dramatically increased. We must continue to look at any and all innovative programs, which allow for significant reductions in response time.

The time has come to take the burden off of our tax paying citizens. We must shift the financial burden of the Fire District off the back of home owners who pay property taxes. There must be a transformation of thought on how to fund the fire district from our general fund.

Parks & Recreation Department provides programs and opportunities for wellness and recreation to the residents. We must restore funding for parks to ensure that our residents continue to have access to safe, well-maintained public areas for recreation and healthy programs for our children. Recreation and after-

school programs play a pivotal role in the promotion of a healthy mind, body and spirit. Moreover, as the economy continues to decline, recreational actives will have added value as crime deterrent avenues and outlets for citizens.

As an extension of public safety, we must reinstate funding to our boot camp. This program has had an incredible impact on the reduction of the recidivism rate in our corrections system.

The building of infrastructure capacity and the maintenance of our aging infrastructure are of monumental importance to keeping commerce and tourism moving in our county. In light of the recent tragedy in Minnesota, we saw what happens when governments do not make the necessary investments in the safety and security of their residents. We should look to accelerate the General Obligation Bond (GOB) monies for these critically important projects. This will serve as a stimulus to the local construction industry, which is suffering the results of the lingering construction/real estate slow down.

As the "Gateway to the Americas," it is vital that we uphold an attractive community that helps to foster pride in area residents and is appealing to our visitors. We must continue to fund our tree canopy program. Moreover, we might want to enhance our prisoner work program for the mowing of rights-of-way areas and litter clean-up along major and arterial roads. We can use the established protocol of NEAT Teams already established.

We need to restore Community Based Organizations (CBO's) funding this fiscal year and work on a transition process that can create a merit system for completive bids. We must ensure a comprehensive approval and evaluation process for these funding allocations based on priorities, performance measures and outcomes to measure results and provide accountability.

In that same light, we must restore funding to the "Mom and Pop Program" that have made countless contributions to the success of small business in Miami-Dade County.

The Miami-Dade County Head Start program has been recognized as a national leader for it's innovativeness. We must find a way to preserve funding to this most worthy program that provides education and health services to children from low-income families.

To strive towards the creation of a comprehensive "World Class Community" Miami-Dade County must continue to make major investments in their arts and cultural programs. We should continue to fund programs that showcase our community to the more than 11 million annual visitors. Because of our sustained commitment, we can be proud of the recognition and financial investment contributed by programs such as "Art Basel, the Miami International Book Fair, the Miami International Film Festival, the South Beach Food & Wine Festival, the Winter Music Festival, Fashion Week, Calle Ocho, amongst others."

Now that the University of Miami Hurricanes have moved their home games from the Orange Bowl to Dolphins Stadium, the County has been presented with an opportunity to finally construct the baseball stadium home for the Florida Marlins. We should make all efforts to finally bring closure to this most overdue project.

We need to continue to review and streamline bus routes that are running below capacity and providing alternate routes that will service these areas. Our Transit Department needs to focus their efforts to find more efficient and environmentally friendly fuels to run their vehicles.

Efforts to reduce cost in the Medical Examiner's office should be curtailed as delays in the response time of this department are unacceptable to families in a moment of despair.

Action must be taken to reduce the take home car fleet with the exception of first responders (Corrections & Rehabilitation, Fire Rescue and Police). I am very disturbed by the large amount of county vehicles that travel out-of-county. At a time when fuel costs, insurance, and depreciation of vehicles are at a premium we must curtail and take steps to eliminate take home vehicles, until such time as warranted. This should include essential and non-essential personnel.

As an expression of our committment to provide "Government in the Sunshine" and the perception of transparency in Government, we must continue to fully fund the Office of the Commission on Ethics and Office of the Inspector General.

I look forward to a spirited discussion on this compelling countywide issue that affects all the residents of Miami-Dade County.

Moving forward, we are still unaware of the potential looming cuts that will come down from the Florida Legislature during the special session in September, not to mention, the possible results from the passing of the constitutional amendment property tax reform issue that will be voted on January 29, 2008. Consequently, we must be innovative and provide long term budgetary forecast to weather any additional cuts to our budget.

Thank you for your consideration and I look forward to a spirited debate.

C: Honorable Carlos Alvarez, Mayor
George Burgess, County Manager
Abigail Price-Williams, County Attorney
Denis Morales, Chief of Staff, Mayor Alvarez
Jennifer Glazer-Moon, Director of Budget
Roly Marante, Chief of Staff
Charles Anderson, Commission Auditor
Kay Sullivan, Clerk of the Board

Memorandum

MIAMI-DADE COUNTY

Date: September 6, 2007

To: Honorable Dennis C. Moss
Commissioner

From: George M. Burgess
County Manager

SEP 0 6 2007

Subject: Information Request

The attached information has been prepared in response to your August 24, 2007 memorandum to Mayor Alvarez requesting the following information.

1. A copy of the section of every bargaining unit's contract where the union employees are guaranteed a cost of living raises, merit pay, and longevity bonuses.

   Attachment 1 is the copy of the section relating to cost of living, merit pay, and longevity bonuses for all of the County's collective bargaining agreements.

2. The dollar amount of costs associated with costs of living, merit and longevity benefits for non-bargaining union employees.

   There are approximately 4,000 employees that fall under the non-bargaining unit classification. Cost of living expenses associated with these 4,000 employees, and to be effective July 2008, is approximately $2.925 million (including proprietary departments); general fund support represents an estimated $1.463 million.

   Of these 4,000 employees only 2,700 are eligible for merit pay. The estimated cost associated with merit for these eligible employees is approximately $4.3 million, of which approximately $1.8 million is supported by the general fund. This estimate is net of the merit reductions that were included as part of the FY 2007-08 Proposed Budget as well as the additional merit reduction directed by the Mayor, and detailed in the first change memo.

   Longevity bonus expense for non-bargaining employees is approximately $2 million (including proprietary departments); general fund support represents an estimated $1 million.

3. The number of take home cars for each department; which employees have them and which employees have had to actually use their vehicles after hours for a county related emergency.

   Attachment 2 is made up of two individual reports, one from General Services Administration (GSA) and one from the Miami-Dade Police Department. The GSA report details by department the individual(s) assigned to a vehicle with job classification, the address where the vehicle is parked at the end of the day, and the portal to portal mileage associate with that vehicle. The Police Department report details the same information with the exception of the portal to portal miles. Information regarding after hours usage is not available.

COLLECTIVE BARGAINING AGREEMENT

BETWEEN

MIAMI- DADE COUNTY, FLORIDA

AND

THE DADE COUNTY POLICE BENEVOLENT ASSOCIATION

RANK AND FILE UNIT

OCTOBER 1, 2005 TO SEPTEMBER 30, 2008

Includes Addendum Approved by the Board of County Commissioners on 9-26-06.

B. Back Pay

An employee shall be entitled to recover, as soon as possible, without penalty to the County, funds due him by reason of errors in the implementation or administration of the County Pay Plan and other applicable regulations affecting pay.

C. Entrance Pay Rates

For all employees hired into the County Service on or after November 1, 1991, the entrance pay rate for all bargaining unit classifications, except Police Sergeant, Correctional Corporal, and Correctional Sergeant, shall be pay step 1 of the appropriate pay range provided in the Dade County Pay Plan. Progression from the entrance level pay of step 1 to step 2 shall be six (6) months (13 pay periods) based upon satisfactory or above satisfactory job performance. Progression from step 2 to the maximum step in the pay range shall be at one (1) year (26 pay periods) intervals thereafter based upon satisfactory or above satisfactory job performance. Nothing herein shall preclude the County from continuing to approve intermediate pay requests based upon relevant experience in accordance with established County compensation procedures.

D. Longevity Bonus

The annual longevity bonus payments will be paid in accordance with the following schedule:

Years of Completed Full-time Continuous County Service	Percentage Payment of Base Salary
15	1.5%
16	1.6%
17	1.7%
18	1.8%
19	1.9%
20	2.0%

County, excluding the budget ordinance, or Personnel Rules and Regulations of Miami-Dade County. Exclusion of the Budget Ordinance shall not adversely affect the benefits expressed in this Agreement.

ARTICLE 35 WAGES

First Year 2005 - 2006

Effective the beginning of the first pay period in July, 2006, all employees in bargaining unit classifications shall receive a two percent (2%) wage increase. Further, effective the beginning of the first pay period in July 2006, employees in bargaining unit classifications shall receive an additional one percent (1%) wage increase. The sum total of the wage increase received by employees in bargaining unit classifications on July 3, 2006, shall not exceed three percent (3%).

Second Year 2006 - 2007

Effective the beginning of the first pay period in July, 2007, all employees in bargaining unit classifications shall receive a three percent (3%) wage increase.

Third Year 2007 - 2008

Effective the beginning of the first pay period in July, 2008, all employees in bargaining unit classifications shall receive a four percent (4%) wage increase.

ARTICLE 36 PREMIUM PAY

Special assignment allowances shall be provided to bargaining unit employees as described below, after approval by the Department Director and the Director of the Employee Relations Department or as otherwise designated:

A. Law enforcement personnel regularly assigned to underwater search and recovery shall receive one (1) pay step.

TRUST FUNDS & RESERVES

Memorandum

MIAMI-DADE COUNTY

Date: August 31, 2007

To: Honorable Carlos Gimenez
Commissioner

From: George M. Burgess
County Manager

Subject: Information Request

The attached information has been prepared in response to your August 21, 2007 memorandum to Mayor Alvarez requesting a listing with amounts of all reserves, trust funds, impressed funds, debt service reserves, carryovers, and any other unallocated funds for Countywide, UMSA, Fire, and Library Taxing Districts.

Attachment 1 provides a listing of all trust funds with the balances as of June 30, 2007. A description of the trust fund, as well as applicable restrictions or limitations for use has been documented. As you know, trust funds in the County are created by Board action, which typically dictates the allowable uses of the fund. Where applicable, we have included the resolution or ordinance adopted to create each trust fund.

Attachment 2 provides a listing of debt service reserves funded by the tax-supported funds. This schedule includes the reserve appropriated in the FY 2007-08 Proposed Budget for each of the debt service obligations. As you know, the reserves are technically outside of the general fund.

Attachment 3 indicates the unallocated carryover in the general fund. This carryover is typically appropriated to the originating Commission District budgets through budget amendments.

Attachment 4 provides a listing of reserves funded for FY 2007-08 in the Proposed Budget. A description of each reserve is included, along with the intended uses and any restrictions or limitations. Your memorandum asked for balances of these funds for FY 2006-07. As you are aware, unspent reserves are classified as carryover into the following fiscal year and have been appropriated in the FY 2007-08 Proposed Budget. Therefore, we have provided the balance of each of these reserves as recommended in the FY 2007-08 Proposed Budget. I am proud to point out that the total reserves in the general fund are well within the best practices goal of five to seven percent of the total budget.

Should you have any questions regarding this information, please feel free to contact me or Jennifer Glazer-Moon.

OTHER AREAS OF CONSIDERATION
A. HEALTH INSURANCE SAVINGS
B. OTHER SUGGESTIONS

Countywide Budget

Recaptured Dollars from the Corrections Department:

$1,000,000 Recapture $1,000,000 in Operating Revenue from the Mayor's Proposed Budget for Inmate Programs. The Mayor's budget proposes an almost $2 million increase in the budget for Inmate Programs from last year's budget levels. I cannot support a two million dollar increase for programs for the jail inmates, while at the same time cutting parks programs for our children, programs for the disabled, meals and programs for the elderly, and eliminating jobs to law abiding County Employees.

$2,800,000 Recapture the $2,800,000 increase in Operating Revenue from the Mayor's Proposed Budget for Inmate Food Service. The Mayor is proposing $17,809,000 for Inmate Food Service, as compared to less than $15 million last year. His budget projects 9,124,000 inmate meals served, which equates to $1.95 per inmate meal, which is substantially higher than the cost per meal for Broward County Schools, Dade County Schools, and probably higher than the cost per meal for inmates in the Florida Department of Corrections. How can I justify cutting meals to the elderly in our community, while providing an additional $2.8 million for Inmate Food Service. I suggest that we find ways to reduce the cost per meal and use inmate labor to serve the food if needed.

$440,000 Recapture the $440,000 increase in Operating Revenue from the Mayor's Proposed Budget for Administration of the Corrections Department. I support the substantial increase in Corrections Officers and their corresponding support services, but if we are asking other County Departments to suffer by cutting 10 to 15 percent of their budgets, then we cannot justify this increase for the administrative functions.

$535,000 Recapture $535,000 in Capital Outlay Reserves to install high pressure boilers to service the kitchen at TGK. Replace steam boilers that service kitchen cooking equipment: This project replaces the original steam boilers provided during the opening of the kitchen at the Turner Guilford Knight Correctional Center approximately 18 years ago. The funding also includes replacement of the existing in house lift station with a WASD approved lift station to maintain the effluent from TGK. This station was designed for lower capacity and use of the station and does not meet the current requirements of WASD lift stations, or the requirements for correctional facilities. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County

the County had more than ample funds, why commence the initial development and design this year, when funds are tight and this is an almost $2 million ticket item? All these Capital Expenses can be postponed another year, funded by re-prioritizing GOB corrections projects, or financed through another bond issue. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$200,000 Recapture $200,000 in Operating Revenue from the Mayor's proposed budget for the Finance Department to fund the replacement of existing computer hardware. All these Capital Expenses can be postponed another year.

$60,000 Recapture $60,000 in Operating Revenue from the Mayor's proposed budget for the Finance Department to fund the Renovation of the Auto Tag Inventory Warehouse to accommodate the Branch Function. All these Capital Expenses can be postponed another year.

Recaptured Dollars from the Office of Strategic Business Management:

$1,000,000 Recapture Countywide General Revenue Funds from the Office of Strategic Business Management to fund enhancements in the Legislative Budget Office (de-fund three Budget Analysts 2 positions, de-fund three Budget Analysts 3 positions, de-fund three Senior Budget Analysts positions, de-fund two Budget Coordinator positions.)

Recaptured Dollars from the General Services Administration Department:

$1,500,000 Recapture $1,500,000 in Operating Revenue from the Mayor's Proposed Budget for GSA's Departmental Information Technology Projects to Covert to a relational database. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$1,019,000 Recapture $1,019,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to Perform repairs and improvements to facilities managed by General Service Administration. If you examine the Mayor's Proposed Budget, this function was funded in prior years at a level of $2,399,000 and only $750,000 was actually expended, leaving a prior year carryover budget for this very function of

$1,800,000 Recapture $1,800,000 in Capital Outlay Reserve from the Mayor's proposed budget for Refurbishment of Freezers & Coolers at the Women's Detention Center. This equipment has outlived the life cycles. This is a multi-year project under contract with GSA. including replacing the insulation in exterior walls, coils, compressors, doors, and seals. Again, I would rather postpone non-life safety improvements in the jail or find another funding alternative, than to use Capital Outlay Reserves that could easily fund our Community Based Organizations. This cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$300,000 Recapture $300,000 in Operating Revenue from the Mayor's Proposed Budget for a Video Visitation Pilot Program, which is a non-life safety expenditure for inmates. This is a pilot program at MWDC in one housing unit area. The vendor will set up 1-2 cells and 8 visitor stations with equipment to provide for visitation without entering secure areas of the facility. After the trial, if the project implemented in all facilities over time, it will extend visitation opportunities by providing visitation appointments through the web and county-wide sites for the public to visit electronically with inmates.

$100,000 Recapture $100,000 in Operating Revenue for the Replacement of Aging Personal Computers for inmates, which is a non-life safety expenditure and can be postponed or replaced through computers retired and replaced from other County Departments.

Recaptured Dollars from the Finance Department:

$316,000 Recapture $316,000 in Operating Revenue from the Mayor's Proposed Budget for Five New Un-filled Positions in the Tax Collector's Office. I would rather not add County employees to the unemployment rolls, than hire five new persons to fill these positions.

$216,000 Recapture $216,000 in Operating Revenue from the Mayor's Proposed Budget for Three New Un-filled Positions in the Controller's Division. I would rather not add County employees to the unemployment rolls, than hire five new persons to fill these positions.

$1,785,000 Recapture $1,785,000 in Operating Revenue from the Mayor's proposed budget for the Finance Department to Commence design and initial development of a new windows-based tax system including a Local Business Tax module. Once again, if this expenditure was not important enough to fund over the past three years, when

Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$1,000,000 Recapture $1,000,000 in Capital Outlay Reserve from the Mayor's proposed budget to provide generator power to air-conditioning system. If the inmates at the Metro West Detention Center dealt with the power outages and lack of air-conditioning during hurricanes Katrina and Wilma, like all our law abiding tax paying citizens, including the infirmed, disabled and elderly, they can wait another year or two for this generator. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$1,400,000 Recapture $1,400,000 in Capital Outlay Reserve from the Mayor's proposed budget for Renovating Inmate Housing Unit Bathrooms at the Metro West Detention Center. This is a multi-year project to refurbish 30 housing unit bathrooms. The project includes the replacement of the shower floors walls and vanities. This expenditure can be postponed another year or in the alternative, this cost could be financed through a bond program. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$2,200,000 Recapture $2,200,000 in Capital Outlay Reserve from the Mayor's proposed budget for Kitchen Improvements at the Women's Detention Center. Purchase of replacement retherm units for heating food in housing units. One hundred and eighteen of these units have exceeded their life expectancy and need constant repair. The Mayor's budget virtually eliminates funding to Community Based Organizations, many of which provide services to our young men and women, including job training and other employment services, education, counseling and youth recreation and sports activities. All of these types of program help reduce the number of young men and women entering these detention centers, so I would rather postpone non-life safety improvements in the jail or find another funding alternative, than to use Capital Outlay Reserves that could easily fund our Community Based Organizations. Some of these community organizations also provide meals to our elderly residents. We could even look at the $27 million that was included in the Series 2007 Capital Asset Acquisition Bonds authorized by the Board on March 20, 2007 to purchase a controversial property, which was not authorized by the Board of County Commissioners in the July 26th meeting and was instead deferred until September 11th.)

$200,000 Recapture $200,000 in Operating Revenue from the Mayor's Proposed Budget for GSA to Design and Renovate a New Heavy Equipment Facility in Homestead Air Reserve Base. The actual construction of this facility is not scheduled until Fiscal Year 2008-2009 and Fiscal Year 2009-2010. Once Again, this is Operating Revenue, that can be used for programmatic purposes and this Capital expenditure can be postponed until next year or financed through an alternative more appropriate mechanism.

$1,000,000 Recapture $1,000,000 in Capital Outlay Reserve Funds from the Mayor's Proposed Budget for GSA to Replace Systems Furniture on the Ninth Floor of the Stephen P. Clark Center. I cannot justify inflicting the level of pain that the Mayor's Budget is inflicting on low level County Employees who will find themselves on the street with no means to support their families, while we spend $1,000,000 to replace systems furniture in the Stephen P. Clark Center. These County Employees that will be fired are people who mow the grass in our parks, clean the bathrooms in our park facilities, provide security patrols so our parks remain safe and are not vandalized and destroyed. Also, I cannot support eliminating learn to swim classes at Tropical Estates Pool, which may save the life of a child by teaching him or her to swim, while we spend $1,000,000 to replace furniture. I cannot support de-funding Community Based Organizations that serve our youth, our elderly, our disabled and our most impoverished residents, while we spend $1 million on furniture.

$523,000 Recapture $523,000 Carry-over in Capital Outlay Reserve Funds from the Mayor's Proposed Budget for Purchase of Equipment for Miami Dade T.V. These funds were appropriated by the Board of County Commissioners as part of a $688,000 appropriation in previous years, but only $165,000 was ever expended or encumbered. Since the lack of expenditure is evidence of a lack of urgency to purchase this equipment, then it can wait another year, while we resolve more pressing budget issues.

Note: ***The General Services Administration Department's Operating Budget grew by $46,083,000 or 23.6 percent from last year, after you subtract out $32,844,000 in Capital Expenditures budgeted for this coming year. While Service Delivery Departments are being asked to cut their budgets substantially. The Mayor's Budget Proposes that we increase the budget for this Administrative Department, which does not provide direct municipal services to the tax payers by almost 24 percent. While other Municipal Service Departments that serve our Community are being asked to layoff service delivery employees, this purely Administrative Department is growing by 13 positions. I propose that we examine how we can recapture dollars from the Department's requested growth in their Operational Budget and ask them to go back and prioritize their requested growth over last year's budget level.***

Property Appraisal Department:

$2,105,000 Recapture $2,105,000 growth requested in Operating Revenue from the Mayor's Proposed Budget for the Property Appraiser's Department. Why is the Property Appraiser's Department growing by 26 positions, when the Real-estate Market has come to a screeching halt across the entire United States, not just Miami-Dade County. There will be fewer housing units constructed and fewer existing homes sold in this coming year, unlike the past three years when we had the real-estate boom. The timing of this 8.4 Percent growth in their budget and 9.2 percent growth in their personnel is illogical, not only because of the virtual crash of the real-estate market, but because we are asking Departments that deliver services directly to the tax paying public to reduce their budgets by 10 and 15 percent. The Mayor's Proposed Budget is also putting a lot of the little people out of work, while this Department grows by almost 10 percent. At a minimum, I would keep them at last year's budget level, but closer analysis by the Commission Auditor may justify a budget reduction from last year's budget levels.

Vizcaya Museum and Gardens Department:

$386,000 $386,000 in Operating Revenue Recaptured from the Mayor's Proposed Budget. My appointment to the Vizcaya Museum and Gardens Trust informed me that the Department had a $400,000 surplus this past year, so the $414,000 that according to the Mayor's Proposed Budget is being reduced from the Department is in actuality recapturing a budget surplus. Thus, while Departments that provide services directly to all the people of this County like the Parks Department are being asked to reduce their budgets substantially by cutting positions and services to the residents and taxpayers, the Vizcaya Department was only asked to give back their budget surplus. I would reduce the $386,000 support from general revenue, since they receive substantial monies from user fees and charges. The Mayor's proposed budget has reduced the financial support to the Historical Museum of Southern Florida, the Miami Arts Museum and the Miami Science Museum, by 25 percent, while he has only reduced the Vizcaya budget by 10 percent or a mere 4 percent if you eliminate $400,000 surplus from last year.

$25,000 Eliminate the $25,000 in Operating Revenue from Vizcaya's Travel Budget. If the Vizcayans can afford to spend hundreds of thousands of dollars on lawsuits contrary to the adopted policy of the County, they can afford to increase their financial support to Vizcaya. The Mayor's Proposed budget only shows a projected commitment in donations of $156,000 for next year.

Communications Department:

$550,000 Recapture funds from the old Communications Department budgeted positions and

fund 1 Chief Translator Position, a Translator 2, 1 Information Officer, 1 Advertising & Managing Coordinator & 1 Advertising Specialist to administer the Community Periodical & Community Radio Program, 1 Graphic Manager and 1 Graphic Designer to develop advertisements, newsletters and publications for the Legislative Office of Media, Communications & Protocol. By recapturing dollars from currently budgeted positions and placing them where they logically belong, we are not growing government.

Countywide Non-Departmental Expenditures:

$47,444,000 $47,444,000 in Countywide Operating Revenue Recaptured from the 4.9 Percent Merit Increases in the Mayor's Budget, which is above and beyond the 4 Percent Cost of Living Wage Adjustments. The 4 Percent Cost of Living Adjustment is part of the Union Contract and thus in order to avoid re-negotiation of these contracts, I propose we leave the COLA's intact and only eliminate or reduce the 4.9 Percent Merit Increases (Step Increases).

$125,000 Recapture $125,000 Capital Outlay Reserves from the Mayor's proposed Budget for Reserve for Unexpected Repairs and Renovations, since there is still a carryover reserve from last year of $242,000 for this function.

$345,000 Recapture $345,000 in Operating Revenue from the Mayor's Proposed Budget for Management Consulting Services Reserve Fund

$228,000 Recapture $228,000 in Operating Revenue from the Mayor's Proposed Budget for Outside Printing Services

$250,000 Recapture $250,000 in Operating Revenue from the Mayor's Proposed Budget for General Publicity

$104,000 Recapture $104,000 in Operating Revenue from the Mayor's Proposed Budget for Employee Awards. Holding onto a job during tough times should be reward enough for our County employees.

$41,000 Recapture $41,000 in Operating Revenue from the Mayor's Proposed Budget for Promotional Items. We cannot justify the purchase trinkets and souvenirs with County logos promoting the 311 Service, while we are firing people from their jobs as a result of budget cuts.

Countywide Reserve Funding Levels Requested for FY 2007-2008:

$7,711,000 Recapture $7,711,000 in Emergency Contingency Reserves from the Mayor's Proposed Countywide Budget, leaving an Emergency Contingency Reserve for

	Fiscal Year 2007-2008 of $13,856,000, which added to the existing balance of $61,144,000 in the Emergency Contingency Reserve would give you a total balance of almost $75 million in Reserve for Emergency Contingencies.
$2,435,000	Recapture $2,435,000 in Wage Adjustment, FRS, Separation, and Energy Reserves from the Mayor's Proposed Countywide Budget, leaving $8 million in Reserves for this Account.
$2,000,000	Recapture $2,000,000 in County Services Reserves from the Mayor's Proposed Countywide Budget, leaving 5,112,000 in Reserves for this Account.
$1,400,000	Recapture $1,400,000 in Contingency Reserves from the Mayor's Proposed Countywide Budget, leaving $2 million in Contingency Reserves for this Account.
$959,000	Recapture $959,000 in Tax Equalization Reserves from the Mayor's Proposed Countywide Budget, leaving $2 million in Reserves for this Account.
$200,000	Recapture $200,000 in Public Campaign Financing from the Mayor's Proposed Countywide Budget, leaving a balance of $1 million on a first come first served basis for funding political campaigns for Mayor and County Commissioner.

$91,225,000 **Recaptured from Recommendations in the Mayor's Proposed Countywide Budget.**

Unincorporated Municipal Service Area Budget

Recaptured Dollars from Mayor's Proposed UMSA Budget:

$21,315,000 $21,315,000 in UMSA Operating Revenue Recaptured from the 4.9 Percent Merit Increases in the Mayor's Budget, which is above and beyond the 4 Percent Cost of Living Wage Adjustments. The 4 Percent Cost of Living Adjustment is part of the Union Contract and thus in order to avoid re-negotiation of these contracts, I propose we leave the COLA's intact and only eliminate or reduce the 4.9 Percent Merit Increases (Step Increases).

$3,500,000 Recapture $3,500,000 General Fund Revenues from the Mayor's proposed UMSA budget for Facilities & Utilities Management by the General Services Administration Department. The budget for Facilities & Utilities Management in the Mayor's proposed budget requests an increase of 33% (one third) over last year's budget levels for the same function. Last year this administrative function was budgeted at $10,706,000 and they are requesting $14,233,000 for this year. I represent 100 percent Unincorporated Miami-Dade County, and I cannot justify to the residents and taxpayers in the Unincorporated areas of Westchester, Kendall and Fontainebleau, that we are cutting back on direct municipal services to the residents and yet we are increasing a bureaucratic and administrative function by 33 Percent.

$2,175,000 Recapture $2,175,000 General Fund Revenues from the Mayor's proposed UMSA budget for the Government Information Center Department's Answer Center. This is an activity that has never been charged to the UMSA budget. It is a Countywide function and has always been charged to the Countywide budget. When persons call and are referred to the appropriate services within the Federal, State or local City government, we don't charge those governmental entities or those other Cities for this service. Why should we charge the County. Furthermore, you cannot justify cutting direct services to the residents of Unincorporated Miami Dade County and then spend $2 million on this luxury referral service. The services performed by the Answer Center of referring constituents to the appropriate City, County, State or Federal entity used to be performed by County Commission Offices as the normal part of constituency referral and constituency assistance services, so although this referral service is a nice thing to have, the County functioned before it was created a couple of years ago and the County can function without it through the constituency staffs of the Mayor and the Thirteen County Commissioners. If you fund this activity out of the Countywide budget, I can accept this expenditure at a modest level, but it too should be cut like other Departments that provide direct municipal services and like the Community Based

Organizations that provide social services to the residents of this community.

$296,000 Recapture $296,000 General Fund Revenues from the Mayor's proposed UMSA budget for the Government Information Center Department Administration functions. This is an activity that has never been charged to the UMSA budget. It is a Countywide function and has always been charged to the Countywide budget. Furthermore, this is administrative expenses for non-municipal service delivery.

$852,000 Recapture $852,000 General Fund Revenues from the Mayor's proposed UMSA budget for Data Center Services for the Enterprise Technology Services Department. The budget for Data Center Services in the Mayor's proposed budget requests an increase of 37% over last year's budget levels. Last year this administrative function was budgeted at $2,282,000 and they are requesting $3,134,000 for this year. I represent 100 percent Unincorporated Miami-Dade County, and I cannot justify to the residents and taxpayers in the Unincorporated areas of Westchester, Kendall and Fontainebleau, that we are cutting back on direct municipal services to the residents and yet we are increasing a bureaucratic and administrative function by 37 Percent.

$306,000 Recapture $306,000 General Fund Revenues from the Mayor's proposed UMSA budget for Enterprise Programs Division of the Enterprise Technology Services Department. The budget for Data Center Services in the Mayor's proposed budget requests an increase of 11% over last year's budget levels. I cannot justify to the residents and taxpayers in the Unincorporated areas of Westchester, Kendall and Fontainebleau, that we are cutting back on direct municipal services to the residents and yet we are increasing a bureaucratic and administrative function by 11 Percent.

$1,200,000 Recapture $1,200,000 Capital Outlay Reserves from the Mayor's proposed UMSA budget for Repair and capital maintenance reserve for facilities serving the Unincorporated Municipal Service Area. The Mayor's budget had budgeted $1,725,000 for this reserve for next year, so this recapture would still leave a reserve balance of $525,000, which should be sufficient as a reserve, particularly since there was no reserve for this purpose in prior years according to the Mayor's proposed budget, which leaves half a million dollars more next year than in the past.

$155,000 $155,000 in Operating Revenue from the Mayor's Proposed Budget for Management Consulting Reserve Funds

$102,000	$102,000 in Operating Revenue from the Mayor's Proposed Budget for Outside Printing
$47,000	$47,000 in Operating Revenue from the Mayor's Proposed Budget in Employee Awards. Holding onto a job during tough times should be reward enough for our County employees.
$19,000	$19,000 in Operating Revenue from the Mayor's Proposed Budget for Promotional Items. We cannot justify the purchase trinkets and souvenirs with County logos promoting the 311 Service, while we are firing people from their jobs as a result of budget cuts.
$500,000	Recapture $500,000 in Emergency Contingency Reserves from the Mayor's Proposed UMSA Budget, leaving an Emergency Contingency Reserve for Fiscal Year 2007-2008 of $500,000, which added to the existing balance of $2,000,000 in the Emergency Contingency Reserve would give you a total balance of almost $2.5 million in Reserve for Emergency Contingencies.
$2,375,000	Recapture $2,375,000 in Wage Adjustment, FRS, Separation, and Energy Reserves from the Mayor's Proposed Countywide Budget, leaving $4 million in Reserves for this Account.
$2,000,000	Recapture $2,000,000 in County Services Reserves from the Mayor's Proposed Countywide Budget, leaving 2,231,000 in Reserves for this Account.
$1,000,000	Recapture $1,000,000 in Contingency Reserves from the Mayor's Proposed Countywide Budget, leaving $1 million in Contingency Reserves for this Account.
$500,000	Recapture $500,000 in Tax Equalization Reserves from the Mayor's Proposed Countywide Budget, leaving $829,000 in Reserves for this Account.

$36,342,000 **Recaptured from Recommendations in the Mayor's Proposed UMSA Budget**
