Report

INFORMATION FOR SECOND BUDGET HEARING - FY 2015-
16 PROPOSED BUDGET

Accepted as amended

Report: Mayor Carlos Gimenez summarized information in his memorandum entitled "Information for Second Budget Hearing – FY 2015-16 Proposed Budget," and highlighted the following points:

- Town hall meetings were conducted in Florida City, West Kendall, Palmetto Bay, Aventura, Hialeah, Arcola Lakes, Miami Gardens, and the West Dade Regional Library, as well as social media via Face Book and Twitter;
- Five millage rates were proposed on July 7, 2015, were adopted;
- One hundred vacancies would be filled in the Miami-Dade Police Department;
- Patrol officers would be equipped with body cameras;
- Over 1,000 police vehicles would be replaced;
- Correctional officers would be added;
- Services would be enhanced in the Fire Rescue Marine Unit;
- Additional funding would be allocated to Parks for beautification, including for tree canopy;
- Ten libraries would operate six days a week, up from five;
- Funding would be restored to cultural programs;
- Community-Based Organizations would compete under a new solicitation process;
- New animal shelter would open in the City of Doral;
- Additional \$100,000 would be allocated to the South Florida Veterinarian Foundation for spay/neuter services;
- Additional funding would be allocated for meals/homecare services for seniors; and
- Ten additional early voting sites would be opened by November 2016.

Mayor Gimenez acknowledged staff's efforts toward continuing a sustainable, balanced, five-year forecast and recognized the outstanding work done by the Office of Management and Budget Director Jennifer Moon, Deputy Director Hugo Salazar, Budget Coordinator Barbara Galvez, and the entire team who prepared this year's budget. He announced a growth in property value of approximately 9.4 percent (\$120 million), which exceeded the forecast growth of 5.5 percent (approximately \$85 million). Mayor Gimenez stated since projected expenditures were based on 5.5 percent growth of \$85 million, the additional \$35 million was being allocated to restoring and enhancing services.

Mayor Gimenez referenced concerns expressed during the First Budget Hearing (9/3) pertaining to climate change, sea level rise, and sustainability. He informed of his invitation to represent Miami-Dade County at the 2015 United States/China Climate Leaders' Summit in Los Angeles, California. During the Summit, he and other mayoral representatives signed a declaration of commitment to implement the following steps in their respective communities:

- Establish ambitious targets;
- Report on greenhouse gas inventories;
- Establish climate action plans; and
- Enhance bilateral partnerships and cooperation.

Mayor Gimenez advised that the Count was already implementing many of the steps listed.

Mayor Gimenez recognized County professionals and elected officials, particularly County Commissioner Rebeca Sosa for her leadership and continued efforts, along with the Clerk of Courts, Harvey Ruvin, with respect to the Sea Level Rise Task Force. He also acknowledged the dedication and leadership of Commissioner Levine Cava toward resolving the issues related to climate change.

Mayor Gimenez recommended the County Commission allocate \$300,000, from the Funding Set-aside, to fund the primary recommendation of the Sea Level Rise Task Force to accelerate adaptation planning and develop a robust plan of action. He noted this recommendation would be included in a changes memorandum and summarized his report, highlighting the following:

- Resilient Communities;
- Impacts of Climate Change;
- Renewable Energy and Energy Efficiency;
- Renewed and Strengthened Infrastructure;
- Strengthened Local Economy; and
- Proposed Fees.

Mayor Gimenez stated it had been proven communities could have strong economic growth with environmental regulations in place, and stated the Administration remained committed to the One Community One Goal Initiative, with the Beacon Council, to recruit quality, high-paying businesses to our community and diversify the economy. Mayor Gimenez stated this proposed budget represented reasonable tax rates, efficient government, and enhanced services through improved finances; adding better days were ahead because the County remained disciplined and committed to a fiscally sustainable future.

County Attorney Robert Cuevas stated the Board of County Commissioners adopted proposed millage rates and tentative budgets on first reading at the September 3, 2015 First Budget Hearing. Tonight (09/17), the Board would conduct a Second Public Budget Hearing and adopt final millage rates and budgets for FY 2015-16. Nine agenda items were before the Board in this regard, including six (6) millage ordinances and three final budget ordinances. The Mayor's memorandum, dated September 16, 2015, entitled: "Information for Second Budget Hearing – FY 2015-16 Proposed Budget," contained further changes and corrections to the tentative budgets adopted on September 3rd. Mr. Cuevas advised the budget ordinances reflected as Agenda Items C, E, and I should be amended to incorporate the applicable changes and corrections specified in the Mayor's memorandum.

County Attorney Cuevas read into the record the titles of the proposed ordinances on tonight's (9/17) agenda, after which Ms. Jennifer Moon, Office of Management and Budget Director, provided statements explaining the proposed millage rates, where applicable.

Commissioner Moss asked that his colleagues join in recognizing this would be County Attorney Robert "Bob" Cuevas' last Budget Hearing as he would soon retire.

Commissioner Sosa asked the members of the public who supported the Mayor's initiative on sea level rise and climate change to stand and be recognized.

Chairman Monestime opened the public hearing and the following individuals appeared:

1. Mr. Michael Pearson, 6 NE 50 Street, Miami, appeared and spoke in support of Best Buddies.
2. Mr. Khyari Atwell, student at Miami Norland Senior High School and Director of Best Buddies Chapter, appeared and shared how the program

helped him.

3. Senator Darryl Jones, 14707 S. Dixie Highway, Miami, appeared and spoke in support of the Farm Share Program. He requested the Board to ensure the current level of funding was protected and, if possible, to increase the funding amount.

4. Mayor Phillip Stoddard, City of South Miami, 6130 Sunset Drive, appeared in support of funding efforts addressing the Sea Level Rise initiative.

5. Mr. John Rivera, President, Police Benevolent Association (PBA), appeared and spoke about the issue of rising crime in the community. He stated the Police Department was minus 600 officers; therefore, 100 additional officers would not make up the difference. Mr. Rivera noted the reason for there being no contract today was not the PBA's resistance.

6. Emelio Razoy, representing Miami-Dade County Water and Sewer Department employees union, appeared and noted there was currently no contract for this group and the union would work toward securing an increase through a contract.

7. Mr. Clarence Washington, 6355 NW 36 Street, Virginia Gardens, representing the Transport Workers Union, appeared and requested an agreement be reached.

8. Mr. Al Cruz, 8000 NW 25 St, Miami, representing Miami-Dade Fire Fighters, appeared and asked for a moment of silence for the three Fire Fighters who lost their lives this week. He expressed support for Item F and asked that it be adopted as presented.

9. Mr. Stuart Kennedy, Miami Foundation, 40 NW 3 Street, Miami, appeared and expressed support for increased funding for the County's parks.

10. Ms. Laura Reynolds, Tropical Audubon Society, 5530 Sunset Drive, Miami, appeared in support of climate change and sustainability efforts by the County.

11. Mr. Ralph Rosado, 3472 SW 22 Terrace, appeared in support of the 10 percent increase in funding to the Parks budget, highlighting the Underline project.

12. Charles Anderson, 110 SW 12 Street, appeared in support of the 10 percent increase to the Parks budget, highlighting the Underline project.

13. Ms. Rachel Silverstein, Executive Director, Miami Water Keeper, 1840 Chucunantah Road, Miami, appeared and expressed support for Mayor's proposed budget for efforts addressing the sea level rise issue.

14. Ms. Andrea England, 1410 Trillo Avenue, Coral Gables, appeared in support of the proposed funding for the Underline project.

15. Ms. Carol Hardemon, 4941 NW 179 Street, Miami Gardens, appeared and spoke in support of the proposed increased funding for Parks.

16. Mr. Andrew Korge, 3111 Mary Street, Miami, appeared and shared his concerns relating to sea level rise and climate change issues.

74. Mr. Leroy Jones, Neighbors And Neighbors Association, 180 NE 62 Street, Miami, appeared and asked the Board to conduct a conference on social media to address the issue of gun violence among youth.

75. Ms. Berlinda Faye Dixon, 1128 NW 7 Avenue, Miami, appeared and supported the allocation for addressing the issue of climate change and concurred that it was not enough and requested additional funding of at least \$500,000 for this purpose.

76. Madam Renita Holmes, 350 N. LaBray Street, appeared and addressed several issues.

77. Mr. Joaquin Estrada, President of Jose Marti Plaza Resident Council, 154 SW 17 Avenue, Miami, appeared and presented issues concerning the Jose Marti Housing Development and elderly services.

Chairman Monestime stated there were no further speaker cards and called for anyone else who wished to speak to come forward. Seeing no one appear, he closed the Public Hearing. Chairman Monestime noted the majority of tonight's (9/17) speakers asked that \$500,000 be allocated for the climate change issues rather than the Mayor's proposed \$300,000.

Responding to Chairman Monestime's question whether the allocation could be increased, Mayor Gimenez advised the original allocation was \$75,000, and he increased that to \$300,000. He pointed out as no solution to sea level rise currently existed, the funds allocated would be for identifying engineering consultants and establishing ties with Florida International University (FIU), University of Miami (UM), and other entities toward development of mitigation and adaptive strategies. Mayor Gimenez noted the County was starting at ground zero and emphasized the importance of planning, conducting studies, and developing long-term solutions, including engineering aspects.

Responding to Commissioner Sosa's comment that Miami-Dade was not the only region experiencing sea level rise issues at ground zero, Mayor Gimenez reiterated three of the items in the aforementioned Declaration he signed were already being implemented, including steps to combat greenhouse gases, build infrastructure based on sea level rise requirements, and work toward a sustainable and resilient community.

Commissioner Barreiro expressed his support for Mayor Gimenez' Proposed 2015-16 FY Budget as endorsed by the County Commission.

Commissioner Zapata expressed his concerns regarding sea level rise, transit, and economic development, stating discussion should have been held sooner to allow reactive rather than proactive measures. He advised special meetings to address the issues were being planned. Commissioner Zapata also discussed concerns regarding proper investment of additional resources to produce lasting returns, such as enhancing reserves, building

infrastructure rather than hiring extra bus drivers, and protecting the integrity of the Unincorporated Municipal Service Areas. He stated he could not support the Mayor's proposed budget.

Commissioner Diaz indicated he supported the Mayor's proposed budget and noted his position on the hiring of additional police officers, the radio communication, the County's tree canopy, and the Underline and Ludlum Trails. He expressed his support for establishing a collaborative with FUI and UM to develop sea level rise solutions.

Commissioner Jordan suggested that the Board initiate discussion on policies that would impact the FY 2016-17 at this time, to avoid the consequences from last minute policy changes. She expressed her support for the Mayor's proposed budget, applauding his efforts to minimize staff reductions. She also indicated she supported replacing those police officers who were retiring and implementing the use of body cameras.

In response to Commissioner Jordan's inquiry whether the Farm Share Program participated in the competitive solicitation process, Ms. Jennifer Moon noted Farm Share requested to be excluded from the process because its service method was different from general community-based organizations (CBO). She advised that a motion was in order to formally exclude Farm Share from the competitive solicitation process for CBOs.

It was moved by Commissioner Jordan that Farm Share be excluded from the County's Competitive Solicitation Process. This motion was seconded by Commissioner Diaz, followed by discussion.

Commissioner Sosa requested the motion be amended to include language establishing parameters that would prevent other organizations from requesting to also be excluded from the procurement process.

Commissioner Jordan accepted Commissioner Sosa's amendment; however, she questioned the need for the amendment since Farm Share's sole source exception was created when the Federal Government conveyed 100 percent of the distribution to the agency.

Subsequently, it was moved by Commissioner Moss that the organization, Farm Share, be excluded from the County's competitive solicitation process for CBO funding. This motion was seconded by Commissioners Diaz and Jordan, followed by further discussion.

Stating Farm Share and The Alliance for Aging were exempted from the competitive process was because they worked with other CBOs rather than provide direct services, Commissioner Levine Cava suggested the amended language state the exemption was for federal agencies that received federal dollars and were the point for federal programs.

It was moved by Commissioner Moss that the Farm Share organization be excluded from the competitive solicitation process for CBO funding. This motion was seconded by Commissioners Diaz and Jordan, and upon being put to a vote, passed voted 13-0.

In response to Commissioner Jordan's inquiry as to whether funding was allocated to the American International Relief Organization, Ms. Moon replied yes.

Commissioner Jordan resumed her presentation and read into record issues impacting the Small Business Development Division (SBD) reflected in the 2015 Disparity Study, including the need for adequate staffing, to unbundle contracts, and monitor and enforce reporting requirements on contracts-holding departments accountable. She recommended creating an SBD liaison within the departments contracting with small businesses to emphasize the seriousness of this issue and considering an approach toward SBD's independence

Commissioner Levine Cava expressed her support for the Mayor's proposed budget; however, she noted her concerns regarding climate change issues. She concurred with the increasing sense of urgency expressed by the many speakers tonight (9/17) and listed several items proposed in the proposed budget that addressed resiliency, including Water and Sewer engineering, Capital Improvements, Greenprint, Environmentally Endangered Lands Program, and the funds to address Sea Level Rise. Commissioner Levine Cava addressed her concern with the Sea Level Rise Task Force's quarterly reports not being received in a timely manner and emphasized the need to work with the universities aggressively to address this issue.

Commissioner Moss spoke in support of the mayor's proposed budget and noted his concern with the decrease in funding for the Mom and Pop Program.

Acknowledging Commissioner Moss' concern, Ms. Moon advised a funds reconciliation process could determine availability of very old money that was likely eligible for reallocation to Mom and Pop businesses.

In response to Commissioner Moss' comments on establishing sea level rise and corporate sustainability, Mayor Gimenez agreed that industry could be created here and he would ensure the educational institutions were at the forefront of these economic research opportunities.

Commissioner Moss concluded his comments by listing the following needs: increased visibility of law enforcement at sporting events in District 9 and adequate resources, priority, and focus to address findings in the disparity study with respect to SBD. Commissioner Moss asked that he be provided with a report providing information about entities that managed grants allocated to groups for international programs for economic development.

Commissioner Souto stated his District (10) consisted entirely of Unincorporated Municipal Service Areas, but, was one of the cleanest communities in the County. He discussed the need to address trash pickup in the area; his support for increasing the number of police officers to eradicate the crimes in the community; and the positive aspects of diversity in this community.

Commissioner Edmonson expressed appreciation to County staff for compiling this budget. She noted funds must be allocated to planning before moving forward in addressing climate change issues. Commissioner Edmonson informed that she addressed Commissioner Jordan's concerns regarding the Mom and Pop funding issues in her sponsored legislation and welcomed her colleagues as co-sponsors.

Commissioner Sosa commended County Administration for their efforts putting together this budget, expressing her support for the proposed funding allocations and the Clerk of Courts for his leadership on Sea Level Rise

issues. She indicated donations should begin now for summer jobs for students and advised she would work with Commissioner Jordan on that effort.

Commissioner Heyman read into the record the following: "On February 3, 2015, this Board approved a resolution to make one vehicle available from the County's Fleet Motor Pool of \$1.00 per year to the Eleventh Judicial Circuit Criminal Mental Health Project. Yesterday, I along with my colleagues, considered a report from the Mayor on this request and we, as a body, voted to change the recipient of the vehicle to the South Florida Behavioral Health Network. The organization will pay for insurance and gas, and the County will provide the vehicle at \$1.00 per year for the lease."

Upon Commissioner Heyman's request that the Mayor acknowledge the foregoing request would be implemented into the budget for this Fiscal Year, County Mayor Carlos Gimenez acknowledged, for the record, that the budget would be amended to incorporate the language presented by Commissioner Heyman.

Commissioner Heyman noted her dismay at this year's budget failing to address the inconsistencies and need for an equitable, well-structured process for funding CBOs. She acknowledged the County's efforts to address climate change and sea rise issues and expressed her desire to see municipalities included in these efforts and spoke about the Coastal Community and Mayors' meetings that the County was involved in. Commissioner Heyman expressed her support for restoration of the Fire Boat; the cost savings in healthcare; sufficient funding for libraries, additional staff and increased hours for the parks; and noted she supported the Mayor's proposed budget.

Commissioner Bovo indicated the County's corporate business partners needed to be involved with the issues regarding transportation initiatives and sea level rise conversations. He expressed his support of the proposed budget.

Chairman Monestime expressed his appreciation to the Property Appraiser for conducting effective evaluations of the properties.

Responding to Chairman Monestime's question how the In-kind budget was structured, Ms. Moon stated it remained at the current year's level equally among the districts and was intended to be reimbursement to the departments when providing in-kind services to approved organizations.

Chairman Monestime concurred with his colleagues on this proposed budget being well-funded and listed several areas that received increases and noted his support. He addressed the climate change issue and noted the youth presentations were inspiring. Chairman Monestime said he believed it might be possible to identify an additional \$200,000 to increase the allocation for climate change to \$500,000. He explained his reason was that the money would not be spent until the expertise was in place to initiate the process.

In response to Chairman Monestime's concern regarding the use of County Reserve funds, rather than insurance money, to repair the damage caused by fire on the 15th floor of the Stephen P. Clark Center, Mayor Gimenez advised the insurance deductible was \$5 million.

Chairman Monestime noted he was pleased with the proposed funding for the 5,000 Role Models Program and concurred with his colleagues on the need to implement structural changes on the preparation of the budget with respect to

UMSA. He closed with the quote: "If we are not better off, it's not because of our circumstances; it is because of our lack of disposition."

Mayor Gimenez stated those public speakers who expressed their concerns with climate control and sea level rise issues were instrumental in the allocation being increased to \$300,000 and regarding Commissioner Zapata's concern with adding bus drivers when ridership was decreasing, he indicated this actually saved the County money.

Ms. Moon advised the intent of adding bus driver positions was to reduce overtime expenditures and referenced the location of supporting information reflecting decreased budgeting overtime. She noted the same principle applied in the Corrections Department.

Chairman Monestime stated he would proffer a motion that the Request for Proposals be issued and fully implemented with the beginning of the next Fiscal Year so CBOs would be fully funded at the same level as last year.

Responding to Commissioner Jordan's whether Chairman Monestime's proposal would reduce CBOs funding, Ms. Moon noted it was the policy of this Board to bring forward a competitive solicitation structure to move it away from the County's Fiscal Year. She stated the CBOs operated on many different fiscal years and noted they were aware of the solicitation and time period. Ms. Moon indicated the Board's discussions were specifically to change the contract period of CBOs to not occur on the County's fiscal year; therefore, the Budget contemplated current CBOs would have funding for nine months, then the new contract would begin. Ms. Moon explained that a 12-month period would still be funded and the CBOs would not lose money.

Chairman Monestime accepted staff's confirmation that CBOs would be funded all year.

Hearing no further questions or comments, the Board proceeded to consider the budget items on today's agenda.

		MY POSITION IS: <input checked="" type="checkbox"/> ELECTIVE <input type="checkbox"/> APPOINTIVE	

WHO MUST FILE FORM 8B

This form is for use by any person serving at the county, city, or other local level of government on an appointed or elected board, council, commission, authority, or committee. It applies to members of advisory and non-advisory bodies who are presented with a voting conflict of interest under Section 112.3143, Florida Statutes.

Your responsibilities under the law when faced with voting on a measure in which you have a conflict of interest will vary greatly depending on whether you hold an elective or appointive position. For this reason, please pay close attention to the instructions on this form before completing and filing the form.

INSTRUCTIONS FOR COMPLIANCE WITH SECTION 112.3143, FLORIDA STATUTES

A person holding elective or appointive county, municipal, or other local public office **MUST ABSTAIN** from voting on a measure which would inure to his or her special private gain or loss. Each elected or appointed local officer also **MUST ABSTAIN** from knowingly voting on a measure which would inure to the special gain or loss of a principal (other than a government agency) by whom he or she is retained (including the parent, subsidiary, or sibling organization of a principal by which he or she is retained); to the special private gain or loss of a relative; or to the special private gain or loss of a business associate. Commissioners of community redevelopment agencies (CRAs) under Sec. 163.356 or 163.357, F.S., and officers of independent special tax districts elected on a one-acre, one-vote basis are not prohibited from voting in that capacity.

For purposes of this law, a "relative" includes only the officer's father, mother, son, daughter, husband, wife, brother, sister, father-in-law, mother-in-law, son-in-law, and daughter-in-law. A "business associate" means any person or entity engaged in or carrying on a business enterprise with the officer as a partner, joint venturer, coowner of property, or corporate shareholder (where the shares of the corporation are not listed on any national or regional stock exchange).

* * * * *

ELECTED OFFICERS:

In addition to abstaining from voting in the situations described above, you must disclose the conflict:

PRIOR TO THE VOTE BEING TAKEN by publicly stating to the assembly the nature of your interest in the measure on which you are abstaining from voting; *and*

WITHIN 15 DAYS AFTER THE VOTE OCCURS by completing and filing this form with the person responsible for recording the minutes of the meeting, who should incorporate the form in the minutes.

* * * * *

APPOINTED OFFICERS:

Although you must abstain from voting in the situations described above, you are not prohibited by Section 112.3143 from otherwise participating in these matters. However, you must disclose the nature of the conflict before making any attempt to influence the decision, whether orally or in writing and whether made by you or at your direction.

IF YOU INTEND TO MAKE ANY ATTEMPT TO INFLUENCE THE DECISION PRIOR TO THE MEETING AT WHICH THE VOTE WILL BE TAKEN:

- You must complete and file this form (before making any attempt to influence the decision) with the person responsible for recording the minutes of the meeting, who will incorporate the form in the minutes. (Continued on page 2)

APPOINTED OFFICERS (continued)

- A copy of the form must be provided immediately to the other members of the agency.
- The form must be read publicly at the next meeting after the form is filed.

IF YOU MAKE NO ATTEMPT TO INFLUENCE THE DECISION EXCEPT BY DISCUSSION AT THE MEETING:

- You must disclose orally the nature of your conflict in the measure before participating.
- You must complete the form and file it within 15 days after the vote occurs with the person responsible for recording the minutes of the meeting, who must incorporate the form in the minutes. A copy of the form must be provided immediately to the other members of the agency, and the form must be read publicly at the next meeting after the form is filed.

DISCLOSURE OF LOCAL OFFICER'S INTEREST

I, DENNIS C. MOSS, hereby disclose that on SEPTEMBER 17, 20 15 :

(a) A measure came or will come before my agency which (check one or more)

- inured to my special private gain or loss;
- inured to the special gain or loss of my business associate, _____ ;
- inured to the special gain or loss of my relative, _____ ;
- inured to the special gain or loss of THE RICHMOND-PERRINE OPTIMIST, by whom I am retained; or
- inured to the special gain or loss of _____, which is the parent subsidiary, or sibling organization or subsidiary of a principal which has retained me.

(b) The measure before my agency and the nature of my conflicting interest in the measure is as follows:

I AM A MIAMI-DADE COUNTY COMMISSIONER AND ALSO THE PRO-BONO, UNPAID EXECUTIVE DIRECTOR OF THE RICHMOND PERRINE OPTIMIST CLUB (RPOC). RPOC RECEIVES FUNDING THROUGH MIAMI-DADE COUNTY'S COMMUNITY BASED ORGANIZATION FUNDING PROGRAM. DURING THE BUDGET HEARING ON 09/17/15, SEVERAL PROPOSED BUDGET ITEMS INCLUDED FUNDING FOR THE COMMUNITY BASED ORGANIZATION PROGRAM THAT INCLUDES FUNDING FOR RPOC. AS A RESULT I ASKED THAT THOSE ITEMS BE VOTED ON SEPERATELY DUE TO THE CONFLICT AND I ABSTAINED FROM VOTING ON THOSE SPECIFIC ITEMS.

If disclosure of specific information would violate confidentiality or privilege pursuant to law or rules governing attorneys, a public officer, who is also an attorney, may comply with the disclosure requirements of this section by disclosing the nature of the interest in such a way as to provide the public with notice of the conflict.

Petitioning Miami-Dade County Mayor Carlos Gimenez and the Board of County Commissioners

We support improving and enhancing our Miami-Dade County Parks through increased funding in the county budget by at least 10% this coming budget cycle. Protecting our parks, green public spaces, and environmentally endangered lands are a fundamental part of quality of life for our residents, supporting a healthy, active lifestyle for all age groups and interests, promoting relaxation, recreation and play, appreciation for our beautiful natural environment, and community. Parks build community, provide invaluable programming for youth, create a sense of attachment for residents and stimulate economic development through higher property values, job creation, tourism, healthcare savings, clean water and clean air. During recent difficult budget times, Miami-Dade County has suffered dramatic cuts to parks budgets for operations and maintenance. If not reversed, this neglect will erode our parks from community assets to neighborhood blights. With some additional funding for urgently needed repairs, we could start to restore our parks to the community gathering places for our kids, our elders, and our families that we expect from our County.

Elsa Roberts	Miami, FL	2015-05-20	Parks are a vital part of a cityscape and the surrounding area. Not only do they have a positive economic impact but they are important for community happiness and wellbeing. I strongly support a funding increase to our parks so we can continue to build and repair this vital part of our city.
Oscar Corral	Miami, FL	2015-05-20	Parks are a critical part of our health and community.
Mara Leventhal	Miami Beach, FL	2015-05-20	As a parent and a Miami resident, I cannot believe how parks have suffered. Parks build community: they give our children spaces to explore outside and to meet their neighbors. Miami should invest heavily in our outdoor spaces!
Celeste De Palma	Miami, FL	2015-05-20	Every single open green space in Miami-Dade recharges our aquifers, in addition to providing wildlife for migratory and resident songbirds and other wildlife. If this is not enough, think about how parks provide the ultimate service to residents! Green areas are key for successful early human development, as well as for mental health into adulthood. Parks are important gathering places to connect with one another and with nature. Kids need a place to play and gain social and motor skills and parks are the best space for this. We need more green spaces in Miami. As far as I'm concerned, investing in our parks is a win-win for all.
LEONARDA DURAN	MIAMI, FL	2015-05-20	I care
Meenal Sawant	Miami, FL	2015-05-20	I'm signing because parks are important part of our lifestyle and we are responsible to create a safe and relaxing place for everyone in the community to hang out.
Jorge Rodriguez	Miami, FL	2015-05-20	If Miami wants to become a world class city, we need world class parks.
Mari Chael	Coral Gables,, FL	2015-05-20	Parks enhance our quality of life and immensely help the environment.
Rhonda Amir	Hollywood, FL	2015-05-20	Quality of life is measured by beautiful well kept parks and recreation
Sorell Negro	West Hartford, CT	2015-05-20	Our parks are an invaluable part of our community. The quality of our parks has a significant impact on the quality of our neighborhoods and lives.
Peter Ehrlich	Miami, FL	2015-05-20	I would like to see Parcel B turned into a world class park.
thom wheeler	miami, FL	2015-05-20	I'm signing because the government you've championed favors development over conservation. So I have to remind you, as your constituent, that you also owe consideration to our common spaces.
Bruce Bagley	Miami, FL	2015-05-20	We need more parks
Ana Colls	Miami, FL	2015-05-20	Quality, well-maintained parks can have a significant positive impact on our economy, environment and social equity. I support adequate parks funding that reflects the value our parks provide.
Bonnie Daniels	Miami, FL	2015-05-20	Quality of life is so important and parks, and libraries, and other public spaces, are an important factor in improving that quality. It was so sad to see, this past year, as this picture depicts, the neglect of our parks.
Ann Kaklamanos	Jupiter, FL	2015-05-20	Important to maintain quality of life in Dade County!!
Sara Leviten	North Miami, FL	2015-05-20	I'm signing this petition, because increasing the county's budget by 10% will help save our parks and our environment. Saving those two things is imperative to our way of life. The more greenery we have, the better our health and lives will be.
Alice Holohean	Miami, FL	2015-05-20	I care greatly about our parks. They enhance my life in South Florida and are a welcome relief from the frustrations from living in a congested area.

Benjamin Abo	Miami Beach, FL	2015-05-20	It's important!
Kevin Marra	Miami, FL	2015-05-20	Parks are critical to a great city and Miami is a great city.
Jared Jacobs	Coral Gables, FL	2015-05-20	Without parks foreign investors who never spend any time here in this place will call home will turn them all into city or world centers without bike lanes, or native canopy. That some free spaces are kind of needed to maintain sanity and a productive mindset among our species.
Meg DALY	Coral Gables, FL	2015-05-21	I love parks!
Patricia Mellerson	Homestead, FL	2015-05-21	I love and respect our earth. Parks keep us in touch with our natural surroundings .
Jeff Borg	South Miami, FL	2015-05-21	Can't have enough parkland. Especially in Miami-Dade.
Kelly Weigel	Miami, FL	2015-05-21	Parks are important and we need to make them functional for future enjoyment.
Howard Feinberg	Miami, FL	2015-05-21	It is imperative that we keep the green and make it grow. Why not step back; relax, and enjoy the fresh air outside of your offices. Live like we want to live with fresh air, clean environment and government!
Christine Spadola	Miami, FL	2015-05-21	I believe in the importance of protecting, maintaining, and continuing to expand our parks.
Geisha Labour	Miami, FL	2015-05-21	I'm signing because children and families deserve parks and recreation!
Genevieve Rosenthal	Brooklyn, NY	2015-05-21	there is no green space
Sarah Helene Sharp	Coconut Grove, FL	2015-05-21	The world's great cities have great parks. Will Miami become a great city? Yes, if city and county mayors and commissioners show good stewardship. May they act to protect our lovely green gems!
Lorenzo Canizares	Harrisburg, PA	2015-05-21	Well taken care of parks are signs of a healthy city
Camila Ramos	Miami, FL	2015-05-21	Parks are important part of the community, we don't have enough.
tanya bhatt	miami beach, FL	2015-05-21	parks make us happy, healthy, more connected community citizens.
Kristina Tilson	Miami, FL	2015-05-21	I am a proud Miami native but have attended schools all over the U.S. I moved back home to Miami to practice as an attorney and find myself frustrated by the lack of public space in my city. Usable public space makes a tremendous difference for the quality of life in a city, please bring Miami up to speed with so many other cities around the country.
sandra Tagle	Miami, FL	2015-05-21	Because nature is good for children and adults Heart.
Aysha Zouain	Hialeah, FL	2015-05-21	We need parks to be clean for running.
Natalia Ortiz	Miami, FL	2015-05-21	parks make me happy!
Kalyn James	Miami, FL	2015-05-21	The parks give me a place to connect with my daughters and add to our community.
Michelle Wallace	Miami Beach, FL	2015-05-21	I love parks. :)
Sabrina A Cruz-Munoz	Palmetto Bay, FL	2015-05-21	Restore our parks so that the future generations, such as my 18-month old daughter's, will have places to play, grow and learn for years to come.
Matthew McClure	Miami, FL	2015-05-21	Miami severely lags behind most other major cities when it comes to it's parks. Kind of a shame since it's really the ONLY major city where outdoor activities are a year round thing. If the city can spend millions on a baseball stadium no one cares about, than they can definitely put up more funding for our parks.

Francis Oliver	Miami, FL	2015-05-21	As a parks employee, I witness the transformative experience green public space offers to our county residents every day. The hard work and dedication that goes into parks is not overlooked- we have already garnered attention nationally for our progressive programs (e.g. Kendall Indian Hammock's work with TERRA High School students, the Deering Estate Cutler Slough Rehydration Project in collaboration with South Florida Water Management District as part of Everglades restoration efforts). Much akin to the unique, sacred value of libraries, parks bridge and support communities of varied income and resource levels. If you love Miami-Dade county, you must take care of and nourish its parks system.
Natalia Martinez	miami, FL	2015-05-21	i have lived in Europe, Nyc and Portland. I have enjoyed parks and seen the positive impact these spaces have on the community and on low income children in particular- children without backyards or opportunities to play. Please bring Miami to the ranks of other cities.
Dhorka Gonell	Miami, FL	2015-05-21	We deserve safer places for our children to play
Richard Lamondin	Aventura, FL	2015-05-21	The rent is too damn high for this shortage of greenspaces
Richard Love	Miami Gardens, FL	2015-05-21	Our parks are very important for assisting our children in developing healthier physically.
Carly Grimm	Miami, FL	2015-05-21	Parks are important to local quality of life!
Gerry Tiziani	Miami, FL	2015-05-22	I learned so much at Commissioner Cava's "parks" meeting last night. We have the capacity for world class parks, including a world-class zoo. Money better spent for quality of life than spending it for corporate profit.
Benjamin Chiszar	North Miami Beach, FL	2015-05-22	Miami Dade county does NOT do enough for Parks and Rec...or green space...or shade...or cyclists...and needs to add more Pine Rocklands and Vizcaya to Parks department!
Alexandre Larmier	Miami, FL	2015-05-22	We need this ! more green space :)
Martha kohen	Gainesville, FL	2015-05-22	public space is where humans meet in the real world!
Jason Smith	Miami, FL	2015-05-22	Please increase funding for our parks.
Jane Muir	Miami, FL	2015-05-22	I support funding parks and protecting greenspace!
Melissa Jurado	Miami, FL	2015-05-22	Recreational outdoor facilities are incredibly important for promoting activity for children. With the rise in obesity this is a critical time to have opportunities for play away from a screen.
Lysa Augustin	Huntsville, AL	2015-05-23	My family resides in Dade county and we must save these parks.
Frances Blake	Palmetto Bay, FL	2015-05-26	Parks are important in our lives!
David Freer	miami, FL	2015-05-26	Parks connect us as a community!
kathy hersh	Miami, FL	2015-05-27	great cities have great parks. We need more green canopied places for people to relax and breathe, trees for children to climb and places for family reunions in beautiful settings.
Anneliese Morales	Miami, FL	2015-05-27	Parks are part of healthy communities!
ricky smith	Miami, FL	2015-05-27	our parks. Need a lot of TLC. More funding for park improvement, programs, staff.
Kenneth Kilpatrick	Miami, FL	2015-05-27	Desperately needed youth and senior programming for our Parks in Brownsville. Not to mention a much needed increase in hours and salary for staff.
Gerald Reed Jr.	Miami, FL	2015-05-27	I am signing because I have seen how important the programs are at Jefferson Reaves Park to the community.
Carol Vega	Palmetto Bay, FL	2015-05-27	I want to KEEP IT GREEN. Not only in Horse Country but in all of Miami Dade.

Steven Redlich	Miami, FL	2015-05-28	My area has no parks within a mile. We need something, and we need it sooner rather than later.
Carolyn M Van Vliet	Miami, FL	2015-05-29	We have so preciously few parks in Miami-Dade, especially in the District 8 area.
Phillip Lyons	Miami, FL	2015-05-29	I can't believe how bad the parks look. Rode by the one across from Miccosuki golf course and a small child could get lost in the high grass.
Barbara Condon	Cuttler Bay,, FL	2015-05-29	Parks are the heart of a community. They provide opportunities for people young and old to play, exercise, socialize and learn new skills or simply to quietly enjoy the natural beauty that surrounds us.
Nichole Oursler	Miami, FL	2015-05-29	We are a family that enjoys the parks on a weekly basis and value it as a safe place to gather with friends and enjoy nature while promoting an active lifestyle for our children. Please take care of this precious community resource by funding it adequately!
Nyana Miller	Miami, FL	2015-05-30	Life is not measured by the number of breaths we take, but by the moments that take our breath away. Beautiful parks make bring life to our community.
Lisbeth Bustin	Miami, FL	2015-06-01	I believe that well maintained parks are important community resources and add value to our neighborhoods.
Laurie Levitan	Miami, FL	2015-06-01	Our parks need more frequent maintenance. Rockdale park looks like a wheat field. It's an embarrassment. No other city I visit lets its parks become an eyesore.
Alex Schimel	Miami, FL	2015-06-02	I'm signing this petition because I use Miami-Dade County parks all the time. I would not want to live in Miami without our parks! They are our most important urban resource, and dramatically enhance our quality of life.
michelle rubio-contesse	Miami, FL	2015-06-04	I care about my community
Suzanne Ferreira	Miami, FL	2015-06-05	It is shameful that we live in such a beautiful environment but we don't have enough green public spaces to enjoy it.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community-deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public-space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

That is less than a quarter of the 12.4 acre national median.

Since 2008, our parks system has undergone dramatic budget cuts, losing more than 400 full-time staff, and ignoring millions of dollars in unfunded needs and deferred maintenance. The end result is crumbling playgrounds, unkempt lawns, unmanaged parks, substandard conditions like bathrooms closed on weekends, and too few organized play and after-school activities for our youth. We have beautiful weather year-round in Miami-Dade and our community deserves world-class, safe, well-maintained, beautiful parks. Please increase funding for our parks by 10% over last year's budget as a first step in returning Miami-Dade County to a greener, healthier, more livable community.

Dear Mayor Gimenez,

Please prioritize our Miami-Dade County parks in this year's budget. Parks are fundamental to our quality of life as residents. Parks are a basic benchmark of the quality of our community. If we wish to be a "world class city," we must have parks that provide world class spaces for our children to play and be safe, our elderly to gather and to keep healthy, and provide a respite for the rest of us. We are already deficient in the development of park space when compared to the rest of the country: Miami-Dade has approximately 3.71 acres of green public space per 1,000 residents. That is less than a quarter of the 12.4 acre national median.
