Fuel	10/19/2004	R-1296-04	FEASIBILITY OF BIODIESEL FOR USE IN DIESEL FUEL BUSES	RESOLUTION DIRECTING THE COUNTY MANAGER TO PREPARE A REPORT REGARDING THE FEASIBILITY AND ADVISABILITY OF PURCHASING BIODIESEL FOR USE IN DIESEL FUEL BUSES OPERATED BY MIAMI-DADE COUNTY	Souto, Sorenson	In Progress - On February 5, 2009, a memo was sent to the Board advising them that all departments have been directed to begin purchasing 5% biodiesel fuel blends (65) for use in diesel powered County vehicles. 65 is a blend of 95% petroleum diesel and 5% biodiesel made from farm products such as soy, canola and palm oils. The County took its first delivery of 65 on May 19, 2009 for use in mobile equipment only. The decision to transition to biodiesel was made following an assessment of the feasibility and risks associated with using biodiesel to power our diesel equipment. This completes the first phase of our efforts to secure biodiesel supplies and is the first step to transitioning to higher biodiesel blends over the coming months. The second phase was to conduct a preliminary feasibility study of producing biodiesel locally to support the County's sustainability efforts. Additionally, the Board has directed the administration to investigate various energy alternatives to traditional fuels and electricity supplies, including self generation. The preliminary biodiesel assessment included the feasibility of producing quality biodiesel from algae (a plant commonly found in Florida lakes and ponds), atrophy (a plant that produces large seeds high in vegetable oil content), brown grease and yellow grease, both of which are referred to as restaurant grease. Based on the findings, we intend to test the market by soliciting proposals from the industry to construct and operate a multi-feedstock biodiesel refinery. The Board will be kept apprised of any new developments regarding the biodiesel initiative as they become available.
Fuel	12/11/2008	R-83-09	DIESEL CONVERSION NOW IMPLEMENTATION PLAN	RESOLUTION DIRECTING THE COUNTY MAYOR TO DEVELOP AN IMPLEMENTATION PLAN FOR MODIFYING COUNTY VEHICLES THAT CURRENTLY USE DIESEL FUEL TO ALLOW THEM TO BE ABLE TO USE OTHER AVAILABLE FUEL SOURCES SUCH AS BIO-DIESEL OR VEGETABLE OIL [SEE ORIGINAL ITEM UNDER FILE NO. 082611]	Jordan, Heyman
