

Health & Wellness Coaching For Miami-Dade County Employees

Miami-Dade County's "WellnessWorks" program now offers Health & Wellness Coaching for employees and dependents who are AvMed Members. This is a free service to help make – and keep -- YOU healthy!

What is Health & Wellness Coaching?

Health and Wellness Coaching is a partnership between you and a trained, professional Health & Wellness Coach (HWC) to help YOU be your best and healthiest self. Your HWC will not simply tell you what to do; she will help you create a program designed to reach your goals. The HWC will guide, support and encourage you, but ultimately YOU are responsible for your own choices and actions.

How A Health & Wellness Coach Can Help YOU:

- **LISTEN:** Clarify what it is YOU want to do in order to get – and stay – healthy;
- **WORK WITH YOU** to design an individualized action plan based on your Personal Health Assessment (PHA);
- **CO-CREATE** realistic goals and then break them down into smaller, achievable action steps;
- **ASSIST** in getting you the necessary screenings, biometrics, fitness options, immunizations, resources and follow-up care from your health providers;
- **ENCOURAGE, MOTIVATE AND SUPPORT** you toward reaching your goals; and...
- **CELEBRATE** your victories with you!

Embrace better health.®
