

# POLAND

## Your Business Partner in the EU

### Why Poland?

Consider 18 consecutive years of economic growth, investor-friendly climate, and geographic location in the heart of Europe. The birthplace of Chopin has given rise to a well-educated, skilled workforce with an aptitude for languages. Poland's entry into the European Union in 2004 and opening intra-EU borders have led to the country's growing reputation as a regional hub for business processing centers, call centers, and technology and research centers. Moreover, Poland is a significant producer of high quality industrial and consumer goods - well known and esteemed on the American market.
