

Business Development Mission to KUALA LUMPUR-MALAYSIA, TIANJIN & SHANGHAI-CHINA & HONG KONG March 7th to 20th, 2005

I am delighted to be leading a Business Development Mission to **Kuala Lumpur-Malaysia, Tianjin & Shanghai-mainland China, and Hong Kong. Malaysia Is Prosperous.** For decades Malaysia has been an excellent market for U.S. products and a superb place to invest. Malaysia is the 10th largest trading partner and 16th largest export market for the U.S. GDP growth is said to be above 6.0 % for 2004.

Malaysia is Stable. Malaysia has become an even better business partner since Prime Minister Abdullah Badawi took over the reigns of government in October 2003. The coalition party has an overwhelming mandate from the electorate for continued promotion of international trade and foreign investment, as well as for moderate political policies that emphasize transparency in business, the healthcare system and education. There is a feeling of even more optimism and opportunity in a country that is already one of the best places to do business in the region.

Tianjin, is China's third largest city, an independent municipality with a population of 9.5 million that is a major commercial and industrial center as well as the biggest port in north China. It is a center of multinational businesses concentrated in the new satellite city known as TEDA (Tianjin Economic Development Area), Tianjin has an extensive modern infrastructure, and is known for the high quality of its industrial products.

Shanghai is China's most comprehensive industrial and commercial city, ranking number one (1) in population and population density, and as a sea port, science and technology center, and business center. China has been dubbed "the world's factory", and Shanghai is the center of Commerce on mainland China. As a tourist city, it attracts travelers from both home and abroad by its commercial activity rather than scenic beauty. Whether you run a multi-million dollar enterprise or a one person consultancy or importing/ exporting business, you will find tremendous opportunities waiting for you in China. Many of the big corporate names are already operating out China, thousands of small businesses are benefiting from their connections in China! If you have not been to China yet, the opportunity is here, the time is now!

Hong Kong, City of Life is at the center of the enormous trade that is being conducted between China, SE Asia and the rest of the world. Hong Kong's services are crucial to facilitating business in this region commonly called the "world's factory" and the world's market places. Hong Kong is vibrant, dynamic and bustling and provides lots of trading opportunities. Hong Kong is a world class business city, a free port, a bustling trade center, and a shipping and banking emporium: one of the greatest trading and transshipment centers in the world.

While every effort will be made to accommodate every business that wants to participate and pursue opportunities on this mission, below are the main sectors that have been identified as being the most promising. The sectors on which we will concentrate are:

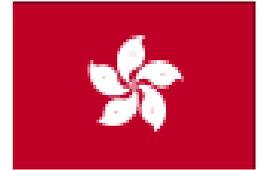

In Malaysia:

Medical and biotechnology, Electrical and electronic products, Energy, Oil & Gas, Aviation/Aerospace, Telecommunications/Information Technology, Education, Franchising and services.

In China:

Most manufacturing sectors, Service sectors, and Franchising

Jose "Pepe" Diaz
Miami-Dade County Commissioner
ITC Chair
