

## Miami-Dade County Minimum Rates for Limousine Service

Limousine service in Miami-Dade County is subject to minimum rates set by the Board of County Commissioners.

The rates are reviewed at two-year intervals and must be set at levels that are no less than three and one-third ( $3 \frac{1}{3}$ ) times the hourly rate for taxicabs. The purpose of prescribing minimum limousine rates is to maintain the quality of limousine service in the County by establishing a level playing field for all limousine operators and to differentiate between the types of limousine services as well as taxicab services, to contribute to the viability of all sectors.

**The following minimum rates are effective as of June 17, 2005:**

Type of Limousine	Rate
Luxury Sedan (including SUVs)	\$40/hour, with a 2-hour minimum;  \$70 for a one-way continuous trip to any location;  \$70 for any one-way continuous trip to Miami International Airport or Seaport, if the trip originates north of S.W. 248 <sup>th</sup> Street; and any stop during the trip shall be \$40/hour or fraction of an hour; or  \$90 for any one-way continuous trip to Miami International Airport or Seaport if the trip originates south of S.W. 248 Street; and any stop during the trip shall be \$40/hour or fraction of any hour.
Stretch Limousine	\$55/hour, with a 3-hour minimum;  \$95 for a one-way, continuous trip to any location;  \$75 for any one-way continuous trip to Miami International Airport or Seaport; and any stop during the trip shall be \$45/hour or fraction of an hour
Super-Stretch Limousine	\$65/hour, with a 3-hour minimum;  \$95 for a one-way, continuous trip to any location

The Consumer Services Department strictly enforces the minimum limousine rates and any limousine operator found to be quoting or charging less than the prescribed rates could face a fine of up to \$500 per occurrence if found guilty at an administrative hearing.
