Subject: Information Requested Regarding Department of Cultural Affairs Grants

---

This memorandum is in response to a request made by Commissioner Juan C. Zapata at the March 12, 2013 Finance Committee for additional information regarding cultural grants made through the public, competitive grants process managed by the Department of Cultural Affairs (Department). This memorandum provides an overview of the Department's comprehensive grants making process and a summary of its competitive grants programs. The attached chart presents the information requested in regard to the locations of grant events and activities for FY 2012-2013, to date.

It is important to note that the Department has one of the most effective, open and equitable grants processes in the nation. This fair and effective model for investing public funds has resulted in the success of developing our diverse and growing cultural life. Communities around the United States and abroad continue to make inquiries regarding the Department's grants making policies and have adapted the Department's approach and programs.

Given the complexity of the requested analysis, staff required additional time to complete a thorough review which took into account the following factors:

- The analysis reviewed the results, to date, of 392 grants made through the Department's sixteen (16) grants programs;
- For the vast majority of the Department's grants, each grant supports events and activities that occur in multiple locations and the analysis accounted for each of the locations of grants-supported projects (for example, a Summer Arts and Science Camps for Kids grant to the Thomas Armour Youth Ballet occurs in Districts 2, 3, 7 and 9; a Hannibal Cox, Jr. Cultural grant to Karen Peterson and Dancers occurs in Districts 3, 4, 5, 6, 7, 8, 9, 10, 11 and 13; a Tourist Development Council grant to Seraphic Fire occurs in Districts 4, 5, 6, 7, 8, and 12; and a Youth Arts Miami grant to The Roxy Theater Group occurs in Districts 1, 4, 5, 6, 8, 9, 10 and 12); and
- Two of the Department's grants programs, the Community Grants Program and the Tourist Development Council grants program, are responsive to applications on a quarterly basis and this analysis includes the grants made through these programs to date, as approved by the Board (including grants made through the third quarter of the Community Grants Program and through the second quarter of the Tourist Development Council grants program).

It also is important to note the following:

- The analysis does not take into account the location of the grantee organization (i.e., its headquarters or office) although this location may be different from the actual location of the grant-funded events activities (for example, the Florida Grand Opera's office, rehearsal studios, and theater set and costumes

facility is located in Doral in District 12; its grants-funded, public events and activities occur predominantly at the Adrienne Arsht Center in District 3; The Murray Dranoff Foundation/International Two-Piano Competition's office is in the Design District in District 3; its public events and grants-funded activities occur in Districts 1, 3, 5, 7, 9, 10,and 13);

- This analysis does not take into account thousands of education and outreach activities conducted by the vast majority of these grantees (for example, the Florida Grand Opera's outreach activities, through its "Community Programs," occur in Districts 2, 4, 5, 6, 7 and 11 – and there are other educational and outreach programs presented by the Opera in additional locations); and
- Attendees at the grant-funded, public events and activities come from outside of the District in which the event is located (for example, surveys conducted by the Department for the South Miami-Dade Cultural Arts Center in District 8 confirm that there are attendees at the Center from every County Commission District).

Background on the Department of Cultural Affairs Grants Making Process

The Department has developed a series of grant programs that serve as a portfolio of public sector investments to promote the growth of Miami-Dade County's cultural community. Each program is designed to address specific kinds of cultural projects and organizations. An overview of these grants programs is in the section below (*Overview of Department's Grants Programs*).

The Department's grants process is designed to be helpful and collaborative for non-profit organizations seeking support. The Department is committed to working with potential new applicants to provide guidance with grant requirements and the online application procedures.

The Department's grants programs generally follow the following public process:

- Public Announcement and Applicant Technical Assistance
  - Grant programs are announced through published and disseminated guidelines and application forms and deadlines are promoted publically through press releases, e-announcements and postings on the Department's web site.
  - The published grants program guidelines set forth the goals of each program, eligibility requirements and instructions for completion of the application form.
  - The Department has developed a multi-level review process, which begins with staff review and a required consultation with the applicant. At this interview, Department staff advises the applicant as to eligibility and appropriateness of the proposed project, and informs the applicant of other public and private sector funding opportunities.
  - The Department requires applicants to attend workshops that provide training for use of its online grants application system and that offer information and help regarding each specific grants program.
- The Application Process
  - Eligible cultural organizations are required to submit applications through the online grants system by the publically announced deadlines.

- The Department reviews the grant applications for technical eligibility and provides all applicants with feedback and an opportunity to strengthen submitted applications based on this input.
- Each of the Department's grant programs requires organizations to show evidence of matching funds from other public and private sector sources in the form of a complete revenue budget which must correspond in total to the detailed expenditure budget. On average, every County grants dollar invested in local non-profit cultural groups is matched by 31 other public and/or private sector dollars.

- The Public Review Process
  - A peer review panel of community volunteers is appointed by the Cultural Affairs Council (the Department's volunteer advisory board) for each program with an explicit interest in balancing its composition ethnically, racially, geographically, and with a sensitivity to gender representation and area of cultural and community expertise.
  - The panel meets at a publically announced session to evaluate grant applications and make initial funding recommendations to the Cultural Affairs Council.
  - Grant applicants are notified of the panel meeting date, time and location and encouraged to attend the grants panel meetings.
  - The panels' recommendations are forwarded to the Cultural Affairs Council for review. It is important to note that Council members are represented on each grants review panel to provide a link between these evaluation/recommendation stages.
  - The Council's action on panel recommendations is submitted to Cultural Affairs and Recreation Committee and the Miami-Dade County Board of County Commissioners for final approval.
  - The Board of County Commissioners reviews these recommendations and grant agreements. The final, approved grant agreements include detailed project descriptions and itemized budgets specifying use of the grant funds and contain performance specifications, reporting and monitoring procedures, and enforcement provisions, which are implemented by Department staff in coordination with involved County departments (i.e., Finance, Budget, County Mayor, and County Attorney).
- Grant Project Implementation and Monitoring
  - The Department monitors grant projects to ensure compliance with grant agreements and implements payment schedules for grant awards.
  - The Department reviews grantees' reports to evaluate the projects' results and works with grantees on an ongoing basis to resolve issues, as necessary, and strengthen their capacity to present successful programs to the public.
  - Final grants reports require detailed programmatic and financial documentation and overall results are shared with the Cultural Affairs Council and grants panels in the ensuing year's grants review cycle.

Overview of Department of Cultural Affairs' Grants Programs

The attached chart is an analysis of the locations of events and activities funded through the competitive grants programs of the Department to date for FY 2012-2013. These grants programs are structured to address the community's diverse and growing arts and cultural needs, and at the same time, provide fair and

equitable opportunities to compete for funding support among organizations of similar size, impact and program or project type. The Department's portfolio of grants programs are organized around the four main objectives:

1. Quarterly Grants – grants opportunities that address cultural events and projects on a quarterly basis in order to remain responsive to activities throughout the year. These include:
   - *Community Grants Program*: support for non-profit organizations that develop small to medium scale community-based cultural programs, projects and events, such as fairs, parades, neighborhood festivals, conferences and publications; and
   - *Tourist Development Grants Program*: support to significant cultural and/or special events, including sports activities and television/film origination projects that promote Miami-Dade County's appeal as a tourist destination.
2. Children and Youth Programs - grants programs, made possible with funding from The Children's Trust, that provide support to non-profit arts and cultural organizations that focus on activities for and by children and youths. These include:
   - *Youth Arts Miami:* support to large and medium-sized, non-profit youth arts organizations whose primary mission is to create, present or exhibit cultural programs for and/or with children and youth and that have at least a 3-consecutive year track record of providing a year-round season of youth arts activities;
   - *Youth Arts Enrichment Program:* support for projects that make live arts experiences available to children and families whose ability to participate in such programs may be limited by geography, economics or disability and that focus on: arts instruction; arts intervention; healing / expressive arts; in-school performances; or public performances / exhibitions;
   - *Summer Arts and Science Camps for Kids:* support for non-profit organizations to provide underserved children in Miami-Dade County with opportunities to attend high quality cultural arts and science summer camp programs at little or no cost; and
   - *Arts Education Initiatives:* support for non-profit organizations that have a track record for working with artists to develop innovative and far-reaching programs for and by children and youth.
3. Specialized Projects - grants programs that provide support for specialized projects of non-profit arts and cultural organizations. These include:
   - *Capital Development Grants Program*: support for non-profit cultural organizations to help renovate, adapt and/or equip neighborhood cultural facilities, with priority consideration given to facilities proposing ADA-compliance improvements; and
   - *International Cultural Exchange Grants Program:* support for Miami-Dade County-based professional, non-profit cultural organizations to develop meaningful artistic exchange, partnerships or collaborations with professional artists, arts professionals and/or organizations abroad.
4. Annual Programmatic Seasons - grant programs that provide support to non-profit arts and cultural organizations with a track record for presenting annual seasons of events and activities. These include:
   - *Major Cultural Institutions Program*: support for the community's largest, fully professional non-profit institutions that have year-round, exemplary programs and annual fiscal operations of a magnitude to satisfy the eligibility requirements;
   - *Cultural Advancement Grants Program:* provides funding support and technical assistance to mid- to large-size, artistically excellent and culturally diverse performing, visual, literary and presenting

arts organizations that are engaged year-round in the creation or presentation of art and demonstrate the potential to achieve regional, national, or international visibility;

- *Hannibal Cox, Jr. Cultural Grants Program:* provides support to small and mid-sized, semi-professional and professional non-profit organizations whose primary mission is the year-round creation, presentation, exhibition or performance of cultural activities;
- *Developing Arts in Neighborhoods Grants Program:* provides support for small and/or developing, non-profit cultural groups that produce and present artistic activities at the grassroots level including underserved neighborhoods, communities or populations;
- *Festivals and Special Events Grants Program:* supports non-profit organizations presenting major annual festivals and special events in Miami-Dade County which have an established reputation for excellence and credibility, are capable of attracting visitors on regional, national and/or international levels, and have a significant and positive impact on the perception of Miami-Dade County as a dynamic cultural community;
- *Service Organizations:* provides support for non-profit organizations, such as coalitions and umbrella groups, that complement and extend the Department's work by providing services and assistance to specialized constituencies and/or similarly purposed cultural groups and individual artists; and
- *Targeted Organizations:* supports non-profit organizations that have the capacity to address underserved areas of cultural development and can be effective partners with the Department to advance entire sectors of the community's cultural life.

In addition, a limited number of *Community Based Facilities Direct Allocations* are included in the attached grants analysis chart. These grants support non-profit organizations that operate in County-owned facilities or are considered to fulfill a cultural mission of essential interest to Miami-Dade County.

Grants Programs and Technical Assistance Workshops

The Department directly serves artists and cultural organizations through its competitive grants programs. Each of these programs is designed to address specific areas of cultural development ranging from the renovation of neighborhood cultural facilities to the support of exemplary programs by the community's largest non-profit cultural organizations.

Each of the Department's grants programs involves a public review process with a peer panel evaluating grant requests. The panels' grant recommendations are subsequently reviewed and approved by the Miami-Dade Cultural Affairs Council, the Miami-Dade County Board of County Commissioners and the Mayor of Miami-Dade County.

All potential applicants are required to meet with a grants program administrator prior to submission of an application. All applicants must attend a workshop to become familiar with the Culture Grants Online – Miami system. Some grant programs require potential applicants to attend the program-specific workshops.

Programas de Subvención y Talleres de Asistencia Técnica

El Departamento atiende directamente a artistas y organizaciones culturales a través de sus programas competitivos de subvención. Cada uno de estos programas está diseñado para abordar áreas específicas de desarrollo cultural, que van desde la renovación de centros culturales comunitarios hasta el apoyo a programas ejemplares por parte de las más grandes organizaciones culturales sin fines de lucro de la comunidad.

Cada uno de los programas de subvención del Departamento conlleva un proceso de revisión pública realizado por un panel de homólogos que evalúa las solicitudes de subvención. Las recomendaciones del panel posteriormente son revisadas y sometidas a aprobación por el Consejo de Asuntos Culturales de Miami-Dade, la Junta de Comisionados del Condado Miami-Dade y el Alcalde del Condado Miami-Dade.

Todos los solicitantes potenciales están requeridos a reunirse con un administrador del programa de subvención antes de presentar la solicitud. Todos los solicitantes deben asistir a un taller para familiarizarse con el sistema de Subvenciones Culturales En Línea – Miami. Algunos programas de subvención exigen que los solicitantes potenciales asistan a los talleres específicos del programa.

Las directrices para subvenciones del Departamento de Asuntos Culturales se encuentran disponibles en nuestro sitio web www.miamidadearts.org.

Talleres 2013-14

Los servicios del Departamento de Asuntos Culturales también incluyen talleres de asistencia técnica con una amplia variedad de temas, entre los que están: redacción de subvenciones para recursos privados, locales, estatales y federales; accesibilidad a las artes; tecnología computarizada; marketing y gestión de organizaciones sin fines de lucro.

Para obtener más información sobre servicios, programas y oportunidades para artistas individuales, llame al 305-375-4634 o visítenos en www.miamidadearts.org.

El Departamento brinda varios talleres orientados a las subvenciones, como el taller CGO Básico, el cual presenta a las organizaciones el sistema de Subvenciones Culturales En Línea – Miami, y al que están obligados a asistir quienes hacen una solicitud por primera vez. El nuevo taller CGO (Avanzado) brinda actualizaciones y técnicas para maximizar su uso a los solicitantes ya familiarizados con el sistema CGO. Además, los administradores de subvenciones llevan a cabo consultas con los beneficiarios para asegurar que los detalles de cada programa de subvención se aborden de forma adecuada. Todos los talleres tienen cupo limitado. Tiene que hacer una reservación llamando al (305) 375-6434 o registrarse en línea. Haga clic aquí para inscribirse en uno de los talleres. Todas las reuniones, talleres y reuniones de revisión del panel se llevarán a cabo en las oficinas del Departamento, al menos que se especifique lo contrario.
