

Memorandum

Date: February 13, 2014

To: Honorable Bruno Barreiro
Board of County Commissioners-District 5

From: Carlos A. Gimenez
Mayor 

Subject: Notice of Environmental Contamination in Commission District 5

On March 3, 2009, the Board of County Commissioners adopted Resolution No. R-227-09 requiring that when environmental contamination is identified by the Department of Regulatory and Economic Resources Division of Environmental Resources Management (DERM), the Commissioner in whose District the environmental contamination is located shall be notified of such.

Pursuant to R-227-09, the owner/operator/responsible party must perform site rehabilitation action in order to bring the site into compliance with Chapter 24 of the Code of Miami-Dade County. Based on the documentation of solid waste at the park, the City proactively closed the park to restrict access and preventing direct exposure to the solid waste. DERM has directed the City to conduct assessment to ascertain the extent of contamination at the Park. Additionally, the site is on municipal water therefore there is no risk of exposure to contaminated groundwater, if present.

The summary of this case is noted below:

Subject	Environmental Contamination
Facility Name:	Southside Park
DERM File #:	HWR-779
Facility Address:	140 SW 11 Street
Folio Number:	01-0208-050-1010
Description/Nature of Violation:	Environmental contamination requiring site rehabilitation action pursuant to Division 3, Contaminated Site Cleanups, Chapter 24, Code of Miami-Dade County, Florida.

Should you have any questions or require additional information, please contact Mr. Lee N. Hefty, Director, Division of Environmental Resources Management, Department of Regulatory and Economic Resources at (305) 372-6754 or by email at heftyl@miamidade.gov.

Miami, FL 33130

Re: City of Miami (the City) Billy Rolle Park located at, near or in the vicinity of 3400 Grand Ave and Southside Park located at, near or in the vicinity of 100 SW 11 Street, Miami, FL.

Dear Ms. Bravo:

On December 23, 2013 the City announced the closure of the above referenced parks. The reason cited for the closures was the discovery of contamination during sampling activities conducted by the City. The Department of Regulatory and Economic Resources' Department of Environmental Resources Management (DERM) hereby request additional information with respect to the referenced Parks, specifically:

1. Copies of the reports of the inspection conducted at the parks along with laboratory analytical reports for any samples obtained (as applicable).
2. Photographic documentation of the engineering control (fencing, signage, etc.) implemented to restrict access to the parks.
3. A sampling plan that will allow for delineation of the vertical and horizontal extent of the solid waste and soil contamination at the referenced parks.

Based on the above, within seven (7) days of receipt of this correspondence submit the information required in Items 1 and 2 above and within thirty (30) days submit the sampling plan required in Item 3.

If you have any questions concerning the above, please contact Lorna Bucknor (BucknL@miamidade.gov), Kevin Slapp (slappk@miamidade.gov) or me (MayorW@miamidade.gov) at (305) 372-6700.

Sincerely,

Wilbur Mayorga, P.E. Chief
Environmental Monitoring and Restoration Division
