

Memorandum

Date: September 18, 2015

To: Honorable Chairman Juan C. Zapata
and Members, Strategic Planning and Government Operations Committee

From: Carlos A. Gimenez
Mayor 

Subject: Information on Outside Employment

As requested at the July 7, 2015 meeting of the Strategic Planning and Government Operations Committee (Committee), attached is a listing of all employees that submitted their annual Outside Employment Statement form reflecting the organization, type of work, and income gained from outside employment to the County's Elections Department.

Request for Outside Employment

In order for any employee to engage in outside employment, a *Request of Outside Employment* form must be reviewed by the employee's department director to confirm that there are no potential conflicts between their employee's duties and that of their outside employer. As the records custodian of the *Request of Outside Employment* form, the Human Resources Department receives the forms from each department and scans them into the respective employee's electronic personnel file. Between January 1, 2014 and December 31, 2014, there were a total of 824 approved *Request of Outside Employment* forms submitted to Human Resources for Outside Employment (Attachment 1). As requested by the members of the Committee, the employees' names have been removed from the list. This list does not include employees of the Jackson Health System.

The Human Resources Department does not capture or track information regarding disciplinary actions associated with non-compliance of outside employment nor does it maintain a list of who has been denied the ability to participate in outside employment by their department director. As a follow-up to your request, staff from the Human Resources Department reached out to all County departments requesting information regarding the denial of outside employment within the last two (2) years and any disciplinary actions associated with outside employment. The information gathered to date shows the following:

- Aviation Department: one (1) denial due to possible conflict of interest;
- Corrections and Rehabilitation Department: seven (7) denials due to poor attendance;
- Internal Services Department: one (1) denial that also involved informal counseling for failing to disclose outside employment;
- Miami-Dade Fire Rescue: two (2) denials due to poor attendance, two (2) additional denials due to a conflict of interest, and two (2) employees were disciplined for having failed to disclose outside employment;
- Property Appraiser's Office: two (2) denials due to conflict of interest;
- Public Waste and Waste Management Department: one (1) denial due to conflict of interest; and
- Water and Sewer department: four (4) actions resulting in discipline.

Outside Employment Statement

Separately, an *Outside Employment Statement* form must be submitted by each employee for approval for outside employment by July 1 of each year. The *Outside Employment Statement* form is intended to capture the amount of income generated from outside employment during the previous tax year.

As the records custodian of the *Outside Employment Statement* form, the Election Department's database tracks which employees filed an outside employment statement, the employee's department

of employment, and when the form was filed. The database does not reflect the outside organization of employment or the income derived from such outside employment.

In summary, 1,683 County employees submitted Outside Employment Statement forms by July 1, 2015 for tax year 2014 (Attachment 2). This list also excludes Jackson Health System employees. As requested by the members of the Committee, the employees' names have been removed from the list. It is important to note that the list includes multiple entries for employees that submitted forms with missing documentation, such as the County department of employment and title. Because names have been excluded, many entries on Attachment 2 are blank for those employees who did not provide their department or position title. Staff from the Elections Department contacts each individual employee with an incomplete form to obtain the necessary information.

For 2014, there is a discrepancy between the number of employees authorized to participate in outside employment (824 employees) versus those who disclosed the income from such outside employment through their *Outside Employment Statement* (1,683 employees). There may be multiple reasons as to why there are twice as many *Outside Employment Statement* forms submitted in comparison to those requesting approval for outside employment, such as:

- An employee's department may not have submitted the approved *Request of Outside Employment* form to the Human Resources Department.
- Submitted forms to the Human Resources Department may not be scanned or included in an employee's personnel file due to a significant backlog in overall personnel records scanning.
- A *Request of Outside Employment* form was submitted to the Elections Department instead of the Human Resources Department.
- There are duplicate *Outside Employment Statement* financial disclosure forms for one (1) employee due to the correction or amendment of information, or for the reporting of additional information.
- Despite the amount of training and information available to employees, many may not be aware that they are required to submit a *Request for Employment* form on an annual basis. Many employees may be under the impression that their initially approved *Request for Employment* form extends throughout the entire term of their outside employment.

Lastly, the requirements for outside employment are reviewed as part of every New Hire Orientation and further explained in the online Ethics Training required for all new hires. The Commission on Ethics and Public Trust has provided guidelines regarding approvals and disclosures required to participate in outside employment. Outside employment information, such as guidelines, forms, and frequently asked questions, are available at: <http://ethics.miamidade.gov/outside-employment.asp>.

If you have any questions or concerns, please feel free to contact Deputy Mayor Edward Marquez at 305-375-1451, or me directly.

c: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners
Robert A. Cuevas, Jr., County Attorney
Joseph Centorino, Executive Director
Commission on Ethics and Public Trust
Office of the Mayor Senior Staff
Department Directors
Charles Anderson, Commission Auditor
