# Mission Statement

## The Miami-Dade Police Department

Will commit its resources in partnership with the community to:

- Promote a safe and secure environment, free from crime and the fear of crime,
- Maintain order and provide for the safe and expeditious flow of traffic,
- Practice our core values of integrity, respect, service, and fairness.

### Integrity

Integrity is the hallmark of the Miami-Dade Police Department and we are committed to the highest performance standards, ethical conduct, and truthfulness in all relationships.

We hold ourselves accountable for our actions and take pride in a professional level of service and fairness to all.

### Respect

We treat all persons in a dignified and courteous manner, and exhibit understanding of ethnic and cultural diversity, both in our professional and personal endeavors.

We guarantee to uphold the principles and values embodied in the constitutions of the United States and the State of Florida.

### Service

We provide quality service in a courteous, efficient, and accessible manner.

We foster community and employee involvement through problem-solving partnerships.

### Fairness

We treat all people impartially, with consideration and compassion.

We are equally responsive to our employees and the community we serve.

# Major's Message

## **A Message from the Major of the Miami-Dade Public Safety Training Institute**

Dear Colleague:

Thank you for considering the Miami-Dade Police Department for your training needs. As part of the largest law enforcement agency in the southeast United States, the Specialized Training Unit has been providing outstanding practical and innovative training programs for law enforcement since 1986. Our cutting-edge courses not only provide outstanding classroom instruction, but also the latest in hands-on exercises to ensure that all aspects have a real-life scenario-based approach.

The course fees include lunch and costs of all student notebooks and/or manuals, as well as selected promotional items.

Each course addresses a topic of critical concern and is presented with the highest caliber of professional instruction. Students from all over the United States and from over 46 foreign countries have traveled to Miami to participate in our courses. Instructors for the courses are drawn from throughout the world to provide you with the latest, state-of-the-art information. Each instructor is also rated for presentation skills and only those with the highest rating are selected for courses conducted by our Department. We recognize that most of these training programs are intensive; therefore, we are committed to providing an atmosphere conducive to learning and relaxation. Our training staff is always on site to assist you in ensuring that your learning experience is second to none.

We appreciate your patronage and hope to have the pleasure of serving you in the future as we continue to do our very best to meet all of your training needs.

Ruben Galindo, *Major*

## Math and Physics for Bloodstain Pattern Analysis

---

»» **DATE** January 23-27, 2012

»» **FEE** \$726

»» **LOCATION** Miami-Dade Public Safety Training Institute

»» **LOCATION** Courtyard by Marriott

Miami West/FL TP

## Forensic Light Source Photography Workshop

---

»» **DATE** August 13-17, 2012

»» **FEE** \$799

»» **ACCOMMODATIONS** Newport Beachside Resort  
**Cost:** \$89 single/double

Photography of evidence illuminated by Ultraviolet Radiation, Infrared Radiation and Alternate Light Sources has frequently provided crime scene investigators and forensic photographers with challenges. This course has been designed to instruct innovative methods to photographically capture images of this type of evidence using digital cameras.

- Photography of latent fingerprints, footwear impressions, biological fluids, trace evidence, bitemarks, and more . . .
- Reflective and luminescent light including reflective UV/IR and fluorescence
- Selection of excitation wavelengths and appropriate barrier filters including the 2-inch Baader Venus Filter
- Selection of appropriate light sources including cost factors
- Selection of appropriate lenses for the type of radiation being recorded
- Selection of cameras to include full-spectrum digital cameras and digital camera conversions

This course will heavily emphasize instruction using hands-on techniques. The students will photograph realistic evidence to observe the photographic results of the techniques learned and used in class. Students will be exposed to cutting edge, state-of-the-art imaging devices that can be used to see and capture evidence that is not normally visible to the human eye. A thermal imaging lecture and demonstration is included. Due to the amount of hands-on training in this course, enrollment is limited to 25 students. A selection of cameras, lenses and light sources for use in the course will be provided. Students are encouraged to bring the digital camera used in their work and full-spectrum digital cameras if so equipped.
