# Tree Canopy Restoration \$\$\$

## Project Title:

Full Implementation of 30% Tree Canopy Restoration Initiative

## Project Description:

Investment in additional staff, contractors, trees and other necessary materials to achieve and maintain at a minimum the Miami-Dade County (MDC) Board of County Commissioners County-wide 30% tree canopy cover goal by 2020. Currently the County's tree canopy cover is 12% and estimations of labor and materials required to achieve the 30% goal indicate that current resource commitments will not enable the County to meet this goal. Municipalities also contribute on their own to tree canopy cover and with the funding of the project MDC can ensure that at a minimum the region-wide 30% goal is met.

# Tree Canopy Restoration \$\$\$

Request to participate in MDC block grant applications for “shovel-ready” projects to include:

- 1) Street Tree Plantings
- 2) Adopt-a-Tree Program
- 3) Park Tree Plantings
- 4) Natural Area Restoration
