

# Florida Department of Environmental Protection

# Notification of Completion of Construction for a Domestic Wastewater Collection/Transmission System

#### Part I - Instructions

- (1) This form shall be completed and submitted to the appropriate DEP district office or delegated local program for all collection/transmission system projects required to obtain a construction permit in accordance with Chapter 62-604, F.A.C. Except for projects permitted by delegated local programs, instructions for submitting forms electronically are available at DEP's wastewater forms webpage or submittal may be made using the DEP Business Portal by selecting "Submit," "Registration/Notification," "Submit Notifications to DEP," then choose submission type "Division of Water Resource Management Domestic/Industrial Wastewater" and "Notification of Completion of Construction for a Domestic Wastewater Collection/Transmission System."
- (2) Newly constructed or modified collection/transmission facilities shall not be placed into operation for any purpose other than testing for leaks or testing equipment operation until:
  - 3 days after the submittal of this form to DEP if the system was constructed with no substantial deviations as noted on this form in Part III(4) and DEP did not notify the permittee of any public health or environmental concerns prior to placing the system into operation; or,
  - 10 days after the submittal of this form to DEP if the system was constructed with substantial deviations as noted on this form in Part III(4) and DEP did not notify the permittee of any public health or environmental concerns prior to placing the system into operation.
- (3) All information shall be typed or printed in ink, and all blanks must be filled.

## (4) Professional Engineer Registered in Florida

I, the undersigned professional engineer registered in Florida, certify the following:

- that this project has been constructed in accordance with the construction permit and engineering plans and specifications or that, to the best of my knowledge and belief, any deviations from the construction permit and engineering plans and specifications will <u>not</u> prevent this project from functioning in compliance with Chapter 62-604, F.A.C.;
- that the record drawings for this project are adequate and include substantial deviations\*\* from the construction permit and engineering plans and specifications;
- that a copy of the record drawings has been provided to the permittee and to the wastewater treatment facility serving the collection/transmission system;
- that the O&M manual for this project has been prepared or examined by me, or by an individual(s) under my direct supervision, includes an emergency response plan that addresses cyber security, surface water monitoring, and hurricane and severe storm preparedness and response, and that there is reasonable assurance, in my professional judgment, that the facilities, when properly maintained and operated in accordance with this manual, will function as intended; and
- that, to the best of my knowledge and belief, appropriate leakage tests have been performed and the new or modified facilities met the specified requirements.

This certification is based upon on-site observation of construction conducted by me or by a project representative under my direct supervision and upon a review of shop drawings, test results/records, and record drawings performed by me or by a project representative under my direct supervision.
