205	Polk County, FL	33,927	31,676	36,178
206	Miami-Dade County, FL	33,840	32,343	35,337
209	Pasco County, FL	32,702	30,691	34,713

Source: U.S. Census Bureau, 2001 Supplementary Survey, Ranking Tables.

Notes:

The 2001 Supplementary Survey used the same questionnaire and methods developed for the American Community Survey (ACS) to collect demographic, social, economic, and housing data from a national sample of 700,000 households in 1,203 counties. (Group quarters were not included in the sample.) The Ranking Tables were created by ACS to provide a quick visual representation of comparative data on key issues for the top 220 counties nationwide. The margin of error, represented by the lower and upper bounds of the 90-percent confidence interval. The confidence interval gives a range of values likely to include the population true value. The smaller the confidence interval the more precise the estimate of the characteristic of interest.

A household includes all the people who occupy a housing unit. Household income includes the income of the householder and all other persons 15 years old and over in the household, whether related to the householder or not. Because many households consist of only one person, average household income is usually less than the average family income.
