@portmiami

PortMiami

A Message from Carlos A. Gimenez, Miami-Dade County Mayor

PortMiami's commitment to offering outstanding service to its cruise and cargo customers is at the core of its continuing success. The Port set a new record-breaking year in 2019, with a 3.4 percent gain in cargo for a total of 1,120,000 20-foot equivalent units (TEU) and a 22 percent increase in cruise passengers, surpassing its previous world record for an all-time high of 6,824,000 passengers.

PortMiami's exceptional performance is the result of its dedication to strong, collaborative work with its public and private partners. By listening to its customers, Port leadership can maximize the impact of capital infrastructure investments. These efforts ensure that the Port will have the future resources it needs to welcome its next generation of containerships and passenger vessels.

We look forward to continuous progress as we impact positively the lives of everyone who lives, works and plays in Miami-Dade County.

A Message from Juan M. Kuryla, PortMiami Director and CEO

PortMiami's continued development wouldn't be possible without its dedicated team and partners. It is through productive collaboration with cruise and cargo operators, the International Longshoremen's Association Locals 1416 and 1922, economic development agencies, and a full spectrum of other stakeholders that we are able to prosper.

I want to thank Miami-Dade County Mayor Carlos A. Gimenez, the Board of County Commissioners and the entire PortMiami team for all their support and dedication. It is because of them that PortMiami remains competitive, generating more jobs and opportunities for generations to come.

We invite you to explore the pages of this directory to see how we may be of service. 🌐

PortMiami's Mission

PortMiami's goal is to operate and further develop the world's leading cruise port and fastest-growing containerport in Florida in a socially, environmentally and economically sustainable manner.

PortMiami's Economic Impact

PortMiami is a vital economic engine of Miami-Dade County, contributing \$43 billion annually to the state's economy while supporting 334,500 jobs in Florida.

Keeping Customers First, Delivering Record Results

PortMiami's team is dedicated to surpassing customer service expectations.

The growth of Miami-Dade's port has reflected the growth of Miami's population and economic importance since emerging in the early 20th century. Moving to a newly created island home in the 1960's, it soon after witnessed the birth of the modern cruise industry, and, over the past decades, improved upon its infrastructure, operations, and standard of service to earn the title of Cruise Capital of the World.

Since the beginning of the 21st century, over \$1 billion has been invested into port improvement projects, including: a deep dredge to accommodate increasingly larger cargo vessels, super post-Panamax cranes to effectively work these vessels, the reactivation of on-port rail to provide alternate cargo transportation methods, and an underwater tunnel to directly link the port to the interstate highway system to take traffic off downtown streets and expedite cargo transportation.

As the Port enters a new age of specially designed cruise terminals, post-Panamax ships, and intermodal accessibility, it remains mindful that the customer is the reason that it exists. All PortMiami employees receive specialized, comprehensive customer service training to keep customer satisfaction their No. 1 priority. Continuing to champion the work of its public and private partners ensures that the port will capably serve the needs of its customers for years to come. PortMiami thanks all for their trust and commitment.

PortMiami welcomes comments and questions via email at POMservice@miamidade.gov and by phone at 305-347-4874. Port users may also connect through any of the social media platforms and other means detailed on page 6. 🌐

Need a facility with easy access to a port? We can build it.

Let's go.

 **CenterPoint**
centerpoint.com

Largest vessel to call at a Florida Port: CMA CGM Magellan at PortMiami.

Serving Cargo Customers with Big-Ship Capabilities

With big-ship capabilities facilitated by the completion of over \$1 billion worth of infrastructure investments, PortMiami is serving ocean carrier customers who greatly benefit from the Global Gateway's strategic location, linking worldwide markets with U.S. consumers and producers.

Upon completion in 2015 of the historic Deep Dredge undertaking, PortMiami's channel reached a depth measured at -50/-52 feet, capable of accommodating containerships that require a deeper draft to handle today's big ships. The project coincided with the 2016 opening of the expanded Panama Canal, to which PortMiami is the closest deep-water port on the Atlantic Seaboard.

To date, PortMiami has welcomed more than 350 post-Panamax vessels that would not have been able to call upon the port without

the deeper channel and the port's contingent of super-post-Panamax container cranes.

The port's improved multimodal interconnectivity provides additional advantages to its customers. A fast-access tunnel, used by more than 23 million vehicles since opening in 2014, provides a direct link to the Interstate highway system and takes about 80 percent of port traffic off downtown Miami streets. Its on-dock intermodal rail delivers goods to 70 percent of the U.S. population within four days.

PortMiami's transportation links are furthered by our cooperation with and close proximity to Miami International Airport, which ranks No. 1 among U.S. airports in international cargo volume and No. 3 in international passenger traffic. 

SFCT welcomed six new eco-friendly electrified rubber-tired gantry cranes. These RTGs feature a 100-percent electric power system that produces no emission and will be the first of its kind in the United States.

CARGO TERMINALS

PortMiami, as a landlord port, has lease agreements with three terminal operating companies: Port of Miami Terminal Operating Co., LC (POMTOC), Seaboard Marine, and South Florida Container Terminal, LLC (SFCT). 🌐

SEABOARD
MARINE

SFCT
South Florida
Container Terminal

Seaboard Marine completed construction on 50.5 acres of surface and drainage improvements at PortMiami. The project is one of many infrastructure improvements that the cargo yard and PortMiami are jointly undertaking as part of a long-term effort to improve the security, capacity and efficiency of the 87-acre Seaboard Marine terminal. Upcoming improvement projects slated to start later this year include berthing upgrades and expanded usage of refrigerated container racks.

Welcoming Top Cargo Lines

The world's leading cargo lines call at PortMiami where they are welcomed with the highest levels of customer service.

Container lines calling at the port include members of the major ocean carrier alliances, as well as companies operating on an independent basis. 🌐

Welcome to our HOME... PortMiami

Offering FTZ Advantages

Foreign-Trade Zone No. 281 extends U.S. Customs-related benefits throughout a large portion of Miami-Dade County.

PortMiami offers customers the U.S. Customs-related benefits of Foreign-Trade Zone No. 281, for which the port is the grantee. The zone encompasses much of Miami-Dade County, from Southwest Eighth Street northward to the Miami-Dade/Broward County line. The zone also takes in many key areas of industrial, logistical and transportation infrastructure, including Miami International Airport and Opa-Locka Airport.

Businesses in the FTZ area are afforded opportunities to reduce, defer

and even entirely eliminate U.S. Customs duties associated with import-export functions.

Those currently taking advantage of such FTZ benefits include third-party logistics firms and freight forwarders, in addition to shippers of goods.

Those seeking details on FTZ No. 281 can call 305-329- 4028, send an email to FTZ281@miamidade.gov or go to www.miamidade.gov/portmiami/foreign-trade-zone-281.asp

**CRUISE BUSINESS
REVIEW**

www.cruisebusiness.com

CRUISE CAPITAL OF THE WORLD™

Welcoming Millions of Travelers to the Cruise Capital of the World™

Since the world's modern cruise industry dawned at the port more than half a century ago, PortMiami has been at the forefront of cruising, providing impeccable customer service to millions of travelers.

In October 2018, PortMiami and its partners at Royal Caribbean celebrated the grand opening of Cruise Terminal A, the Crown of Miami. At 170,000 square feet, this modern architectural marvel is the nation's largest and most innovative cruise facility and features Royal Caribbean International's Expedited Arrival experience, allowing guests to check in online in just a few steps, hand off their bags and go from "car to bar" in mere minutes, without lines or paperwork to fill out. 🌐

Cruise Terminal A is home to the line's 5,518-passenger Symphony of the Seas and has already welcomed more than 1.5 million passengers in through its doors.

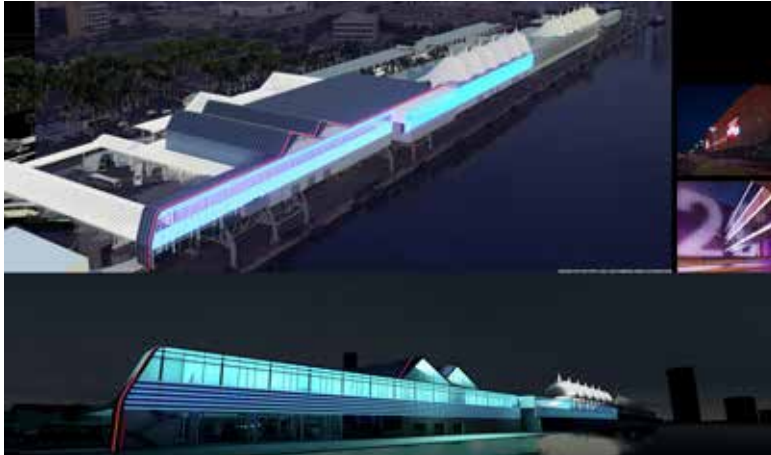

PortMiami keeps building upon its time-honored status as the Cruise Capital of the World,[™] providing millions of passengers a year with outstanding customer service.

Cruise Terminal B, dubbed The Pearl of Miami, is set to open this Summer. The terminal is expected to facilitate at least 1.3 million Norwegian Cruise Line passenger moves a year, generating approximately \$24 million or more in revenues for Miami-Dade County. Norwegian, which in late 2018 welcomed the 4,002-passenger Norwegian Bliss to its PortMiami lineup, has designed the new facility to accommodate ships in the 5,000-plus-passenger range.

Virgin Voyages looks to break ground on a 100,000-square-foot terminal in the near future.

This summer, Carnival Cruise Line is set to work on a major expansion project of Cruise Terminal F. Once renovated the terminal will be capable of supporting the operations of Carnival's new Excel-class ship set to debut in 2022. The facility will have facial recognition technology and other features to move guests smoothly and quickly through the embarkation process. Disney Cruise Line has also proposed a dedicated PortMiami terminal as part of a pledge to increase its presence.

CRUISE ACTIVITY AND PASSENGER COUNTS

PortMiami's cruise passengers not only enjoy the greatest selection of cruise itineraries from over 20 cruise lines, sailing throughout the Caribbean, Mexico, Central America, and beyond, but they also benefit from the port's prime location adjacent Miami's bustling heart and direct highway access to Miami International Airport.

Continuing to fund strategic capital improvements and service enhancements ensure that the port will meet the needs of cruise travelers for generations to come.

2019 CRUISE ACTIVITY

6,823,816	Total Cruise Passengers
20	Cruise Lines
55	Cruise Ships
1,288	Cruise Ship Calls

Figures are for the fiscal year ended Sept. 30, 2019. Figures are for fiscal years ended Sept. 30.

Protecting People and Property

PortMiami's layered, collaborative approach to security includes a 24/7 control center offering numerous strategic surveillance camera views.

A critical component of PortMiami's customer-focused commitment entails proactively ensuring that both people and property are safe and secure.

By way of implementation of leading-edge technologies and close collaboration with numerous local, state and federal agency partners, PortMiami is continually enhancing its safety and security capabilities so as to deter unwelcome activity while facilitating unimpeded flow of legitimate cargos and cruise passengers alike.

Long-recognized as a global leader in safety and security practices, PortMiami is the first major U.S. seaport to provide police escort for all cargo vessels entering and departing port facilities.

Furthermore, thanks to support from federal and state grants, PortMiami is working to enhance its night-vision camera capabilities in furnishing waterside surveillance.

Latest technologies implemented at PortMiami include license plate recognition and U.S. Customs and Border Protection mobile passport and

facial-recognition capabilities.

PortMiami's Safety and Security Division, comprised of sworn law enforcement personnel, non-sworn personnel, and even canines, partners strategically with a number of local, state, and federal agencies to keep the port secure. Miami- Dade County Police, Miami-Dade Fire Rescue, the Florida Fish and Wildlife Conservation Commission, the Florida Department of Law Enforcement, U.S. Customs and Border Protection, the U.S. Department of Agriculture, the U.S. Coast Guard, and the security teams employed by the port's tenants all play an integral part in making sure the port runs smoothly and safely.

Those witnessing suspicious activity are encouraged to contact the Southeast Florida Fusion Center Miami by calling 305-470-3880 or emailing seffc@mdpd.com, per the DHS. Emergencies should be immediately reported with a call to 911 with a request to speak to Miami-Dade County Dispatch, while one may dial 305-329-4049 in the event of non-emergencies. 📞

ENVIRONMENT

Advancing a Green Commitment

Mangrove habitats supported by PortMiami initiatives furnish healthy natural homes for a host of indigenous species, including water birds.

CAMACOL and its Hemispheric Congress
are proud of our partnership with
Miami Dade County and Port Miami

*We salute Port Director **Juan Kuryla** and his team
as well as Mayor **Carlos Gimenez** and the
Board of County Commissioners
for their visionary efforts.*

41st Hemispheric Congress - June 2-5, 2020
www.camacol.org

Through its steadfast dedication to environmentally sound practices and green initiatives, PortMiami extends its community-centric vision to encompass protection of Miami's water, land and wildlife resources.

Inherently a "clean" port that does not handle inherently risky bulk cargos, PortMiami advances a host of earth-friendly endeavors and maintains environmental responsibility and sustainability as crucial facets of all activities.

In conjunction with the PortMiami channel-deepening process, more than \$32 million has been invested in environmental measures, including restoration of 16.9 acres of seagrass in Biscayne Bay, creation of 11.6 acres of offshore artificial reefs and relocation of more than 1,700 coral colonies, as well as donations to the Biscayne Bay Environmental Enhancement Trust Fund.

Beyond the immediate port area, PortMiami has placed more than 1,800 artificial reef modules in North Biscayne Bay and has completed a 63-acre red mangrove enhancement program at North Miami-Dade County's Oleta River State Park.

PortMiami's use of electric-powered container cranes leads to substantial reduction in carbon dioxide emissions, while a broad-ranging port wide energy-saving initiative is anticipated to cut the port's power usage by 20 percent by 2020. All construction, expansion and renovation undertakings at the port are devised to meet or exceed the U.S. Green Building Council's Leadership in Energy and Environmental Design or LEED criteria.

The PortMiami Tunnel eliminated some 22,000 vehicle trips a day on downtown Miami streets, facilitating significant reductions in emissions while decreasing congestion. 🌍

Providing World-Class Facilities

PortMiami customers benefit from world-class facilities designed to provide efficient cargo processing and timely cruise operations. Recent enhancements, including a deeper ship channel and additional cruise terminal facilities, combined with a dedication to outstanding service, further PortMiami's ability to exceed customer expectations.

Anchorage

For vessels anchoring outside of the harbor, the prescribed anchorage area is located eastward of a line about 1.5 nautical miles offshore and northward of a line about 0.2 nautical miles north of the sea buoy marking the main channel entrance. The northern and southern extremities of the anchorage area are marked by nun buoys.

To avoid possible damage to cables laid on the ocean bottom and natural coral reefs in the vicinity, refer to Anchorage Area 110.188 on National Oceanic and Atmospheric Administration survey charts 11466 and 11468.

Channels and turning basins

The harbor entrance is approximately 2.5 nautical miles from the Atlantic Ocean. The sea buoy marking the main channel is located at Latitude 25°46.135' N, Longitude 80°15.001' W.

Vessels entering the harbor from the Atlantic Ocean travel through Government Cut (500 feet wide, 52 feet deep).

The main ship channel (36 feet deep), used primarily by cruise vessels, is 400 feet wide along the north side of Lummus Island and 900 feet wide along the north side of Dodge Island.

The south shipping channel is 440 feet wide with a controlled depth of 50 feet.

Four turning basins are as follow:

- The main ship channel forms the northern boundary of PortMiami. The channel terminates at a 1,600-foot-diameter main turning basin (36 feet deep).
- The Fisher Island turning basin (50 feet deep) is a truncated basin located north of Fisher Island at the junction between the main and south shipping channels. It has a diameter of 1,500 feet.
- The Lummus turning basin (50 feet deep) is 1,500 feet in diameter and is located along the south shipping channel at the transition point between Lummus and Dodge islands.
- The south shipping channel terminates at a 900-foot diameter western turning basin (32 feet deep).

These waterways provide access to all of PortMiami's berth areas, as well as to the Miami River and Atlantic Intracoastal Waterway. They are part of

a channel access system maintained by the port as a sponsor to the U.S. Army Corps of Engineers.

Tides and currents

The normal mean tidal range at the harbor entrance is 2.5 feet; for Biscayne Bay it is about 2 feet. The extreme tidal range is about 4 feet. Easterly winds may raise the water level 1.5 feet at the harbor entrance and from 1 to 1.5 feet in the bay. The tidal currents at the entrance to Biscayne Bay may reach a velocity of 1.5 to 3 knots through the main channel.

Berthing

PortMiami offers 20,829 linear feet of berthing on Dodge and Lummus islands, with 9,416 linear feet serving cruise vessels and 11,413 linear feet serving cargo ships.

Fire safety

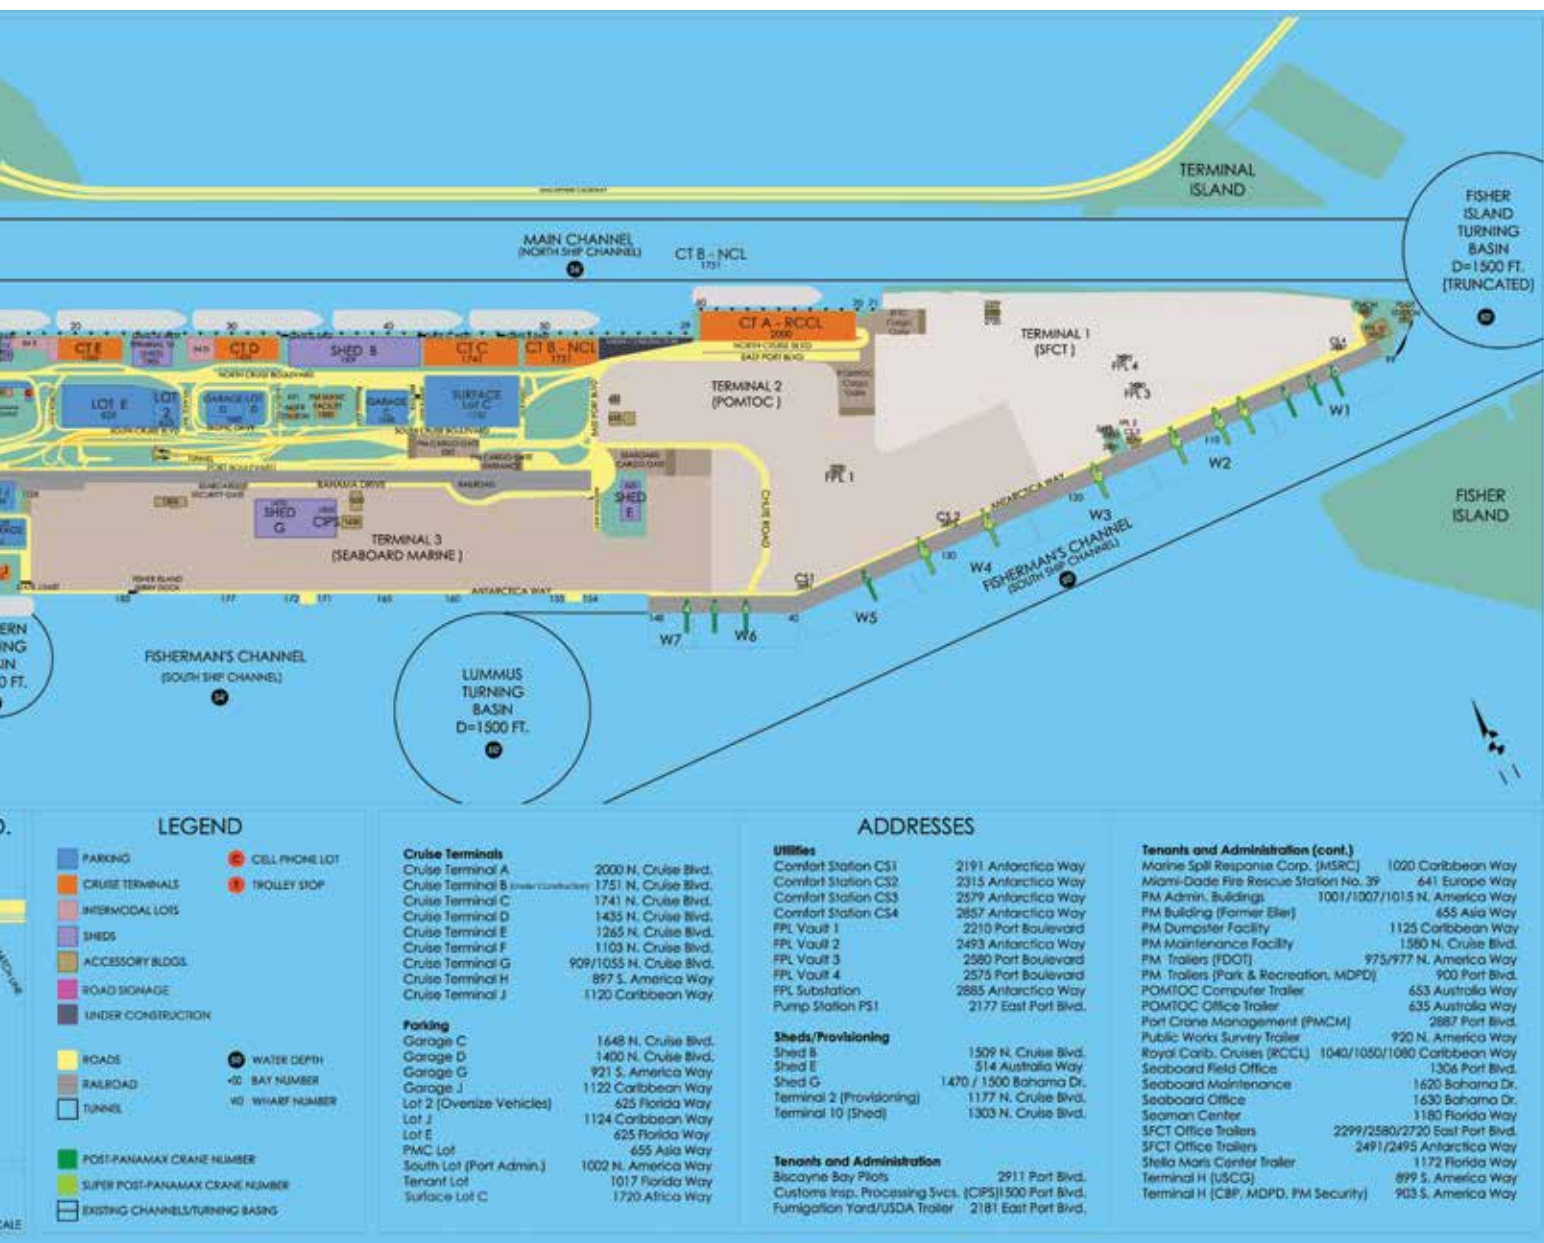

PortMiami's fire station — the Miami-Dade County Fire Rescue's Marine Services Bureau — maintains two 28-foot-long Bertram fire rescue boats. In addition, hydrants, hand extinguishers and hoses are available. Private companies also assist with fire protection services.

Passenger operations

PortMiami currently has nine passenger terminals with six such facilities on the north side of the port, plus Terminal J on the south side and Terminal H on the west side. Cruise terminal square footages (inclusive of space designated for U.S. Customs and Border Protection and offices) and capacities are:

- Terminal A (more than 170,000 square feet, passenger capacity of more than 6,000),

- Terminals B & C (91,782 square feet each, passenger capacity of 3,000 each), with terminals B & C combinable to serve as a single terminal (183,564 square feet, passenger capacity of 5,000);
- Terminal D (135,000 square feet, passenger capacity of 4,000);
- Terminal E (115,000 square feet, passenger capacity of 4,000);
- Terminals F (159,770 square feet, passenger capacity of 5,200);
- Terminal G (127,500 square feet, passenger capacity of 4,000);
- Terminal H (17,000 square feet, passenger capacity of 1,500); and
- Terminal J (56,120 square feet, passenger capacity of 1,500).

Parking

Parking is conveniently located with access to all cruise terminals, with facilities including the Terminal A Garage, Garage C, Garage D, Garage G, Garage J and Flat Lot E. Cruise passengers benefit from almost 7,000 parking spaces at PortMiami, which has an automated parking system that facilitates efficient and accurate payment processing. Designated disabled permit parking spaces are available at each garage. 🅿️
