## Memorandum

Date: February 1, 2005

To: Honorable Chairman Joe A. Martinez  
and Members, Board of County Commissioners

From: George N. Burgess  
County Manager

Subject: Ordinance Establishing the Small Business Enterprise (SBE) Program

Agenda Item No. 4(J)

### RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) approve the attached ordinance establishing the Small Business Enterprise (SBE) Program for the acquisition of goods and services.

### BACKGROUND

On August 20<sup>th</sup>, 2004, Federal District Court Judge Adalberto Jordan issued a ruling in the case of Hershel Gill Consulting Engineers, Inc. et al. v.s. Metropolitan Dade County. This is the second federal court decision finding that the County's B/H/WBE programs do not meet the rigorous prerequisites required for the application of race-, ethnicity- or gender-conscious measures to county contracting. The County Attorney advised the effect of these two federal court decisions is that the B/H/WBE programs can no longer be applied to the bid and award of any County contract.

County staff, including the Department of Business Development (DBD) and the Department of Procurement Management have met with representatives from the affected market areas and with members of the Minority and Women-Owned Business Advisory Board to discuss the establishment of a County race and gender neutral small business program for goods and services. As proposed, the Small Business Enterprise (SBE) Program incorporates two sectors of the local market place: a) very small businesses, defined as Micro Enterprises whose three year average gross revenues do not exceed \$2,000,000 (manufacturers and wholesalers with 50 or more employees are ineligible) and b) small businesses, defined as SBEs whose three year average gross revenues do not exceed \$5,000,000 (manufacturers and wholesalers with 100 or more employees are also ineligible).

Under the SBE program, certified Micro Enterprises will receive an automatic 10% bid preference on contracts of \$50,000 and under. County departments will be required to solicit bids or quotes from at least four firms where available (2 available certified Micro Enterprises and 2 non-certified firms) for contracts of \$50,000 and under. County departments are also required to expend at least 5% of the total value of contracts \$50,000 and under with Micro Enterprises. On contracts that exceed \$50,000, certified SBEs will be afforded opportunities to participate through the application of set-asides and subcontractor goals. The proposed ordinance will also create the Small Business Advisory Board which shall be responsible for reviewing program activities and making recommendations to DBD and the Board on matters pertaining to the program.

#### Track Record/Monitor

The Department of Small Business Development (SBD) is responsible for administering this program.

#### Background

In December 2009, certification functions for the County's Small and Disadvantaged Business Programs were transferred from the Department of Small Business Development (SBD) to the Department of Procurement Management (DPM). These include the Small Business Enterprise, Community Small Business Enterprise, Community Business Enterprise, Disadvantaged Business Enterprise, and Local Developing Business programs. Increases in the volume of both new applications and recertifications have created a backlog. DPM and SBD have conducted extensive reviews of each of these programs, in consultation with stakeholders and certified firms, resulting in legislative amendments to improve the certification process and customer service, streamline operational processes, enhance opportunities to local small businesses, and allow for overall effectiveness with reduced resources. Subsequently, in October 2010 the certification functions transferred back to SBD.

The proposed amendments have been reviewed with members of the Board of County Commissioners and/or their staffs, Small Business Advisory Boards, and other small business programs stakeholders. Specific amendments recommended in the proposed Ordinance are as follows:

#### Certification Amendments

1. Authorizes the County Mayor or designee to establish the frequency and administrative procedures for certification renewal by Implementing Order approved by the Board of County Commissioners.
2. Clarifies that acting as a broker is not considered a commercially useful function for purposes of certification eligibility.
3. Authorizes the Mayor or designee to adjust the SBE/Micro-SBE size limits every five (5) years based on the local Consumer Price Index for All Urban Consumers (CPI-U) calculated by the U.S. Department of Commerce or other appropriate tool of inflation measures as applied to Miami-Dade County for the preceding five (5) years.

#### Program Amendments

1. Changes the name of the Department of Business Development to the Department of Small Business Development.
2. Streamline the Review Committee Process

A fourth violation and finding of noncompliance, shall constitute a default of the subject contract and shall be cause for suspension or termination in accordance with the contract's terms and debarment in accordance with the debarment procedures of the County.
