

SBD - CM Review Form

To:	Project Review and Analysis - A&E	Contact:	Julie Balogh
From:	SBD CM - Eddy V. Etienne Jr.	Resubmittal:	No
Department:	Regulatory and Economic Resources		
Date:	2/11/2016		

PROJECT NUMBER:	E15-RER-03-PTP Environmental Cleanup, Compliance and Related Services for Miami-Dade Transit and PTP
PROJECT TITLE:	Funded County Facilities
PROJECT LOCATION:	Various

SCOPE OF WORK/DESCRIPTION: The proposed scope of work includes:

A. Performing environmental assessment or rehabilitation and related tasks, including but not limited to drilling, surveying and mapping and laboratory analytical services, at Miami-Dade County owned or operated sites in accordance with Chapter 62-780 of the Florida Administrative Code (FAC), Chapter 24 of the Miami-Dade County Code and all other applicable regulations.

B. Performing services related to the modification, repair, removal, replacement, installation and/or abandonment of any underground or aboveground storage systems, and related tasks, necessary for the investigation, prevention or cleanup of contamination, in accordance with Chapters 62-761 and 62-762 FAC, Chapter 24 of the Miami-Dade County Code and all other applicable regulations.

C. Performing services as design criteria professionals and duties related to construction management for environmentally related construction tasks related to A and B above.

D. Performing other related environmental work, not identified above, necessary for investigation or prevention of potential or known contamination, for compliance with applicable regulations, for protection of the environment and the public health and for cleanup of environmental contamination .

As indicated above in the proposed scope of work, laboratory analytical services are incidental to, and necessary for, the performance of environmental assessment and rehabilitation. However, no specific Technical Certification category exists for these services. Additionally, drilling services not related to geotechnical investigations, are most often performed by SFWMD licensed water well drillers, not required to be certified in TC category 9.01. Remedial construction activities which fall outside of the Technical Certification categories are required to be performed as well as transportation and disposal of contaminated soil and groundwater, and other miscellaneous non technical support services.

SPECIAL REQUIREMENTS: 10.05 - Contamination Assessment and Monitoring; 10.06 - Remedial Action Plan Design; 10.07 - Remedial Action Plan Implementation/Operation/Maintenance; 16 - General Civil Engineering; 17 - Engineering Construction Management; 15.01 - Surveying and Mapping (Land Surveying)

CATEGORIES	PERCENTAGE	COMMENTS
