

# Memorandum

Date:

To: Tara C. Smith, Director  
Internal Services Department

From: Lester Sola, Director  
Water and Sewer Department

Subject: Review Item: Engineering Design and Related Services for the Improvement, Upgrades and Expansion of Local Wastewater Pump Stations and Related Facilities necessary for Capital Improvement Projects- Project No. E15-WASD-02

The Miami-Dade Water and Sewer Department (WASD) is requesting that the subject project be reviewed for Small Business Enterprises (SBE) measures for Architectural and Engineering (A/E) and Goods and Services (G/S), in order to proceed with the advertisement and subsequent consultant selection for this project.

WASD is seeking seven (7) engineering firms to provide professional engineering services for engineering design and related services for the improvement, upgrades and expansion of local wastewater pump stations and related facilities necessary for capital improvement projects. A detailed scope of services is attached as "Notice to Professional Consultants." The term of the Non-Exclusive Professional Services Agreement (PSA) is seven (7) years. Maximum compensation is \$2,000,000, plus a ten percent (10%) contingency allowance in accordance with Ordinance 00-65. No minimum of work or compensation will be assured to the retained consultants.

The Consultants providing engineering services must be certified in the following technical categories and the respective percentages of the disciplines as indicated below:

Technical Category (TC)	Description	TC Percentage
6.02 Prime	Water and Sanitary Sewer Systems – Major Water and Sanitary Sewage Pump Facilities	50%
17.00 Prime	Engineering Construction Management	10%
11.00 Other	General Structural Engineering	10%
12.00 Other	General Mechanical Engineering	10%
13.00 Other	General Electrical Engineering	10%
15.01 Other	Surveying and Mapping – Land Surveying	5%
16.00 Other	General Civil Engineering	5%
	<b>Total</b>	<b>100% Set Aside</b>

Tara C. Smith, Director  
Project No. E15-WASD-02  
Page 2

WASD is recommending seven (7) SBE Set Asides. Attached are WASD's Departmental Input Worksheet and the Notice to Professional Consultants for your review and approval. Should you have any questions, please contact Patty David, Chief, Intergovernmental Affairs Section at [pattyd@miamidade.gov](mailto:pattyd@miamidade.gov) or (786) 552-8040.

**MIAMI-DADE COUNTY, FLORIDA  
NOTICE TO PROFESSIONAL CONSULTANTS  
MIAMI DADE WATER AND SEWER DEPARTMENT**

**ENGINEERING DESIGN AND RELATED SERVICES FOR THE IMPROVEMENT, UPGRADES  
AND EXPANSION OF LOCAL WASTEWATER PUMP STATIONS AND RELATED  
FACILITIES NECESSARY FOR OTHER CAPITAL IMPROVEMENT PROJECTS  
PROJECT NO. E15-WASD-02**

The County Mayor of Miami-Dade County (County), pursuant to Section 287.055, Florida Statutes, 2-8.1, 2-8.2.12 and 2-10.4 of the Miami-Dade County Code, Administrative Order 3-39 and Ordinance 14-77, announces that the Miami-Dade Water and Sewer Department (WASD) will require professional engineering services from seven (7) qualified Consultants to provide engineering design and related services for the improvement, upgrades and expansion of local wastewater pump stations and related facilities necessary for WASD's capital improvement needs identified in the Multi-Year Capital Improvement Plan.

WASD is the primary provider of water and wastewater services to Miami-Dade County serving a population of over 2.3 million, making it among the largest water/wastewater utilities in the United States. WASD has developed a Multi-Year Capital Improvement Program (CIP) to upgrade its facilities and infrastructure system throughout the County in order to renew and replace its existing deteriorated system, and/or relocate as required to bring all regional pump stations into compliance and to accommodate future growth and development. WASD recognizes the need for design services of the evaluation, design and implementation of critical projects which are an integral part of the CIP.

**Scope of Services**

WASD will require engineering design services, including planning and permitting assistance during the construction for system upgrades to local sewage pump stations. The projects may include the rehabilitation or replacement of existing pump stations or for the construction of new sewage pump stations in the range of 50 to 2000 gallons per minute (gpm).

The scope of services consists of complete design services, which includes but is not limited to, performing preliminary site investigation and inspection, surveying, hydraulic analysis, coordination with other municipalities and the public. Preparation of design reports, preparation of drawings and contract specifications and preparation of design-build criteria packages. Assistance during the permitting and procurement phases, and engineering support during construction. Engineering support during construction is anticipated to include, but is not limited to, periodic site inspections, attendance at meetings, reviewing shop drawings, responding to requests for information, reviewing claims and potential change orders, reviewing contract schedules and schedule of values, and reviewing as-built drawings. Project coordination services are anticipated to include, but are not limited to, establishing a plan to implement projects, establishing and tracking project schedules, preparing budgets and deadlines, preparing status reports and attending meetings as requested.

**Experience and Qualifications**

A Prime Consultant submitting should be a full service engineering firm experienced in the design, permitting and construction management of small to medium size (50 to 2000 gpm) sewage pump stations either in a dry/wet well or submersible configuration. The successful experience on the above items should be demonstrated and successfully executed prior to the date of this solicitation. The Prime Consultant shall provide a list of members of the proposed

design team, identifying the overall design manager(s), and the team leaders for key design specialties.

The Prime Consultant shall provide descriptions of other similar successfully designed, constructed and operating new or upgraded sewage pump stations prior to the date of the solicitation.

For projects which the Prime Consultant has served as the design consultant, the Prime Consultant shall provide the name and contact information for a Utility Executive with the utility they served as the design consultant who can confirm their role. The descriptions shall include the client (i.e., municipality or agency), key project staff, the project name, a summary of the work performed, the contract amount, the schedule (to include start and completion dates), the specific role of the Prime Consultant, the achievements (e.g., projects delivered on schedule, dollars saved, innovative designs implemented, new technology utilized), and a client reference with contact information.

The Subconsultants shall provide a description of at least one (1) program or project(s) that is relevant to this Scope of Work prior to the date of this solicitation, specific to their proposed responsibilities. The descriptions shall include the client (i.e., municipality or agency), key project staff, a summary of the work performed, the contract amount, the schedule (to include start and completion dates), must also include the specific role of the sub consultant firm, the project's achievements, and client reference with contact information.

#### **A/E TECHNICAL CERTIFICATION REQUIREMENTS**

##### **Prime**

- 6.02 Water and Sanitary Sewer Systems – Major Water and Sanitary Sewage Pumping Facilities
- 17.00 Engineering Construction Management

##### **Prime and/or Subconsultants**

- 11.00 General Structural Engineering
- 12.00 General Mechanical Engineering
- 13.00 General Electrical Engineering
- 15.01 Surveying and Mapping – Land Surveying
- 16.00 General Civil Engineering

**BREAKDOWN LIST**

Technical Categories (TC)	Description	TC Percentage SBE Set Aside
6.02 Prime	Water and Sanitary Sewer Systems – Major Water and Sanitary Sewage Pumping Facilities	50%
17.00 Prime	Engineering Construction Management	10%
11.00	General Structural Engineering	10%
12.00	General Mechanical Engineering	10%

**Subject:** RE: Sample of G & S on A & E projects

Isidoro,

It is too premature to be able to even have a rough estimate or cost breakdown for surveying as that cost will depend on each particular project's needs. The local pump stations design contracts are being procured to address current design needs within the system and future ones that will arise as on-going programs are implemented. Also, consider that the local pump stations design contracts are 100% set aside and will required that the selected firms have a surveyor in the team to address any surveying needs arising from each particular design. Best regards,

**Rolando M. Roque, P.E.**
