

Memorandum

Date: February 5, 2019

To: Gary Hartfield, Division Director, Small Business Development Division
Internal Services Department

From: Monique Perez Medina, Contracts Administrator
Parks, Recreation and Open Spaces Department *Monique*

Subject: Haulover Park – Pedestal Receptacle Replacement
Project # 222302-17-004

We respectfully request that you consider our recommendation for a SBE-Cons No-Measure.

General Description of Work:

The scope includes, but it is not limited to: demolition work; installation of new electrical equipment (power pedestals, power modules, disconnect switches, distribution panels, surge protection devices, power receptacles, etc.); replacement of existing electrical distribution panels (inclusive of all conduit/wiring work required to energize new equipment); and all associated work (materials/labor, and equipment) required to deliver a fully functional code compliant electrical system to meet the design intent described in the contract documents.

Estimated Total Value: \$505,745.00

Project Criteria:

This project contains Florida Inland Navigational District (FIND) Grant monies that require the following:

- Full and open competitive bidding
- No State or Local Government Geographical Preferences

An analysis of the CSBE Program Ordinance 97-52, amended and I.O 3-22 has been conducted and the Department suggests a SBE-Cons **No-Measure** due to the Grant requirements contained in the funding guidelines. The Department further suggests using the 7360 contract to be able to conform to the Grant requirements.

Thank you in advance for your cooperation.
