

Memorandum

Date: March 23, 2015

To: Gary Hartfield, Division Director
ISO Small Business Development

From: Vivian Forhat-Diaz
Engineer 3
Miami-Dad Aviation, Facilities Maintenance

Subject: Request for MCC 7360 Solicitation – Masonry/Stucco Trades
MDAD CSBE/MCC Work Order-Based Pilot Program for Maintenance Construction at
MDAD Facilities

Regarding the subject, we respectfully request that SBD review the attached recommendation for advertising under the MCC 7360 Plan.

The scope of work for this project is the performance of on-call maintenance construction services in the Masonry/Stucco trade throughout MDAD's facilities, as required, under MDAD's CSBE/MCC Work Order-Based Pilot Program for Maintenance Construction at MDAD Facilities (Pilot Program).

Recommendation

As per the attached project measure analysis, the nature of the scope of work (Single trade) and the vendors listed under the Masonry/Stucco Trade in CIIS, there is a lack of availability under the MCC 7040 Plan.

MDAD is looking for a more robust rotation that will allow participation of more local companies, as well as introduce the CSBE program to those companies willing and available to get certify.

Previously a RPQ with similar scope of work was advertised and only one vendor submitted bid.

Cost Breakdown

The contracts in the Pilot Program are for a maximum contract amount of \$200,000. The RPQ will be work order driven and MDAD will issue five (5) identical RPQs and plan to award to five (5) different vendors.

Thank you in advance for your cooperation.
