Subject: Notice of Construction Project:
CICC 7360 Plan Project No. 20130018
Street Light Maintenance

RECOMMENDATION

Contracts and Specifications staff has evaluated the subject project and recommends No Measure for Community Small Business Enterprise (CSBE) participation. The cost estimate of the subject project is \$3,616,500.20. The Public Works and Waste Management Department (PWWM) staff has checked the availability of CSBE firms and has attached the PWWM Project Measure Analysis and Recommendation findings along with other supporting documents for your consideration. PWWM staff met with the Small Business Development Division's (SBD) Construction Manager to explain PWWM's intent. The Community Workforce Program (CWP) is applicable to various locations where maintenance is required on this project. PWWM received a response from the Geocode System which determined that the work locations are in a Designated Target Area (DTA).

BACKGROUND

The PWWM is responsible for the maintenance, repair, and upgrade of over 24,316 County maintained roadway light fixtures on its lighting system. With proper maintenance and renewal, most street lights will last for years. Most street lighting maintenance falls within the following categories: Preventive Maintenance, Response Repairs, Upgrades and Modifications and Utility Contractor Assistance.

In order to ensure the County's system maintains a 95% or better uptime of the entire Roadway Street Lighting System, preventive maintenance must be performed along County maintained arterial roadways and along Florida Department of Transportation (FDOT) maintained arterial roadways.

Page 2
Notice of Construction
20130018

The County is constantly researching various upgrades and modifications options for roadway street lighting systems which may produce more light with less energy and, features more reliability, greatly reducing system outages.

In some cases, poles and fixtures must be relocated to accommodate the construction of new buildings or roadways. Consequently, utility contractor assistance is provided due to repairs and upgrades to underground electrical utility ducts, communications conduits, and gas company pipelines by construction and utility companies.

If any additional information is needed, please call me at (305) 375-3547, or Frank Aira at (305) 375-2930.

**Miami-Dade County Public Works and Waste Management Department Input
Contract/Project Measure Analysis and Recommendation**

To: Jack Osterholt, Director
Regulatory and Economic Resources
Small Business Development Division

From: Jean-Bernard Philippeaux
Engineer 2
Public Works and Waste Management Department

Date: Monday, April 3, 2013

Department: Public Works and Waste Management

Contract Type:

MCC-7360 Plan-Single Trade

Project No.:

20130018

Re-submittal:

No

Contract/Project Title:

Street Light Maintenance

Standard Industrial Code (SIC):

17-Special Trade Contractors: Electrical

Estimated Project Cost:

\$3,616,500.20

Funding Source:

Secondary Gas Tax (SGT) and FDOT Funds

Bonding Requirements: Bid Bond– 5% of Base Bid Amount
Performance Bond– 100% of Contract Award Amount

Method of Award: Line Item

**Miami-Dade County Public Works and Waste Management Department Input
Contract/Project Measure Analysis and Recommendation**

Project No.: 20130018

Project Title: Street Light Maintenance

Detailed Scope of Work:

The work required for this Contract shall include, but is not limited to, the following: furnishing all supervision, labor, required materials, equipment and tools for proactively maintaining and repairing roadway lighting throughout Miami-Dade County. Work includes the repair and replacement of light poles complete with conductors in conduit, pull boxes, load center and the removal of any existing system including any ancillary work necessary to complete the work.

Required Contractor's Certification:

A. Contractor Certification:

1. At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active:
 - a. Certificate of Competency from the County's Construction Trades Qualifying Board as an Electrical Contractor commensurate to the requirements of the Scope of Work; or
 - b. Certification, as an electrical contractor provided by the State of Florida Electrical Contractors' Licensing Board, pursuant to the provisions of Section 489.511 of the Florida Statutes.

In addition to the above, Bidders must be prequalified and considered eligible by the Florida Department of Transportation (FDOT) under Section 337.14, F.S. and Chapter 14-2, Florida Administrative Code, to perform the work described in the Contract Documents. Contractors shall submit along with the Bid Documents for review and consideration, current copy (ies) of their FDOT Certificate(s) of Qualification, Certification of Work Underway, and Status of Contract(s) On Hand. Acceptable FDOT prequalification(s) necessary to perform the Work specified in the Contract Documents include the Electrical Work Class.

INTENTIONALLY LEFT BLANK

**Miami-Dade County Public Works and Waste Management Department Input
Contract/Project Measure Analysis and Recommendation**

Project No.: 20130018

Project Title: Street Light Maintenance

Areas for possible measures:

None

Areas recommended for CSBE Subcontractor Goal:

None

Contract Measure Recommendation:

- No Measure
- Set-Aside:
 - Level I
 - Level II
 - Level III
- Trade Set-Aside(s):
- Aggregate Set-Aside
- CSBE Subcontractor Goal:
- CWP: Applicable; Work location does appear to be in a Designated Target Area (DTA).
- DBE Subcontractor Goal

Reason for Recommendation:

This is a single trade project; none of the primary trade related work (Street Lighting Repair and Maintenance) can be subcontracted as per the Miscellaneous Construction Contract (MCC) specifications. Additionally, staff has met with the design engineer, construction project manager, and members of the industry and concluded that there is no ancillary work required to complete this project which may be subcontracted for CSBE participation please see "Comments". Ancillary work to be performed under this project includes all construction trade categories listed under "Area for Possible Measures."

This type of specialized work is not usually associated with small business enterprise firms that are prime contractors. Also, this type of work is highly specialized and requires special equipment that is typically owned and/or leased by the contractor.

**Miami-Dade County Public Works and Waste Management Department Input
Contract/Project Measure Analysis and Recommendation**

Project No.: 20130018

Project Title: Street Light Maintenance

Comments:

In 2007, PWWM was charged with soliciting this project (Request for Price Quotation [RPQ] No. 20070656) for bids to procure the requested services valued at \$8 million dollars. In an effort to provide open competitive bid competition to non-CSBE and CSBE firms the Department divided one project into two projects. The first project solicited for bids by accessing the Miscellaneous Construction Contract (MCC) Program: MCC 7360 Plan-CICC 7360-0/08 that included a Departmental contract measure recommendation of No Measure which allowed non-CSBE firms the opportunity to bid on RPQ No. 20070656 valued at \$7 million. Although the contract measure recommendation of No Measure was applicable CSBE firms could also participate in the bid process. The second project (RPQ No. 20070764), valued at \$1 million included CSBE participation only by accessing the MCC 7040 Plan. The PWWM was successful in its attempt to provide opportunities to non-CSBE and CSBE firms, the awarded contractors were Horsepower Electric, Inc. and Prime Electrical Contractors, Inc., respectively.

In 2010, PWWM also divided one project into two projects in order to provide opportunities for open competitive and CSBE firms. Consequently, Capital Project No. 20100408 (\$6,478,977.00) and CICC 7040 RPQ No. 20100407 (\$935,173.43) was bid and awarded.

It is PWWM's intent to continue soliciting for bids utilizing the aforementioned precedence; RPQ No. 20130018 will be solicited utilizing the 7360 Program Plan for open competitive competition and RPQ No. 20130017 (\$1,403,850.20) will be solicited utilizing the 7040 Program Plan for CSBE participation only.

CSBE Prime History of similar Contracts/Projects for previous three years:

None.

Similar Projects previously submitted for RC Action:

CICC 7040-20070764-\$1,000,000.00
CICC 7360-20070656-\$7,000,000.00
Capital 20100408-\$6,478,977.00
CCIC 7040-20100407-\$935,173.43

Scope of Work History Summary – Subcontracting Opportunities:

Areas recommended for CSBE Goal (PWWM/SBD):

None.

Areas used to meet subcontractor goal (Awarded Contractor):

Not Applicable.
