CONTRACT MEASURE ANALYSIS AND RECOMMENDATION**

To: Gary T. Hartfield, Division Director
Internal Services Department
Small Business Development Division

From: Isaac Smith, Manager
Construction Contracts Section

Department: Miami-Dade Water and Sewer Department

Contract Title: Two-Year Countywide Contract for Rehabilitation of Sanitary Sewers by the Cured-In-Place Pipe Lining Method with County Option to Renew for an Additional Two Years on a Yearly Basis

Contract No.: S-866

Estimate Amount: \$5,550,900 (See breakdown below)

[\$4,833,500 Construction + \$483,350 Contingency + \$234,050 Dedicated Allowance]

Funding Source: WASD Revenue Bonds Sold

CSBE GOAL -0% (No availability)

Analysis for Recommendation (SEE NEXT PAGE)

Department Head or Authorized Agent

DESCRIPTION OF PROJECT:

The project consists of furnishing all labor, materials and equipment necessary to repair approximately 130,630 linear feet of faulty 8 through 36-inch diameter gravity sanitary sewers in both industrial and non-industrial areas by the cured-in-place pipe lining method under different work orders at different locations anywhere within the limits of Miami-Dade County, Florida, as ordered by WASD during a two year period.

The work will also include the following: reinstatement of approximately 1,400 service laterals, including sealing the lateral connections; cleaning and video inspections with closed circuit television (CCTV); supplementary cleaning of the sewers to be repaired, and removal and proper disposal of solids as required; by-pass pumping of sewage; maintenance of traffic (MOT); and all other appurtenant and miscellaneous items and work for a completed Project. The work in the sewer shall be accomplished through sanitary sewer manholes, without disturbing the street surface or adjacent property or any utility, except when performing excavated point repairs of sewers.

The unit prices bid will be used for uniform comparison amongst the bidders, and the bids will be evaluated based upon the lowest total amount bid in the Proposal. The Contract will be awarded for an aggregate amount of up to five million five hundred fifty thousand nine hundred dollars (\$5,550,900) for a 24-month period. The Contract will terminate upon the depletion of the five million five hundred fifty thousand nine hundred dollars (\$5,550,900), or the expiration of the 24-month period, whichever occurs first.

The Mayor or his designee has the option to renew the contract for up to an additional two years, on a yearly basis, with the same unit prices used in the original contract, with an additional total amount of \$5,550,900. Each renewal option will be for a one year period, and \$2,775,450.

Bidder Qualifications:

Bidder shall have a minimum of five (5) years experience performing pipeline installations and/or pipeline rehabilitation by the cured-in-place pipe lining method.

In the event a new firm is established by executives, supervisors and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, the Miami-Dade Water and Sewer Department (WASD) reserves the right to qualify the new firm based on WASD's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm.

Bidders must demonstrate that the firm or its key employees, as described above, have experience performing pipeline repairs by means of the Cured-In-Place Pipe lining method within the company's noted history.

Each bidder must submit proof that his/her firm has been regularly and successfully engaged in the installation of the liner product for a minimum of one (1) year, and has successfully performed an aggregate amount of at least 100,000 linear feet of sanitary sewer repairs of 8 through 36 inches in diameter in sub-aqueous conditions. Further, bidders must submit proof that the liner system submitted must have a documented minimum amount of 500,000 linear feet of any pipe diameter of successful wastewater installation in the United States, for the bid to be acceptable.

These requirements shall be based on projects completed prior to the bid submission date. WASD will confirm the listed experience by calling the owners or representatives.

The Types of Licenses required are: State of Florida General Contractor, State of Florida Underground Utility/ Excavation Contractor, Miami-Dade County General Contractor, Miami-Dade County General Engineering Contractor, and Miami-Dade County Pipeline Contractor.
