Resubmittal Date(s):

Estimated Cost of Project/Bid: \$3,432,000.00

Description of Project/Bid:

This project is one in a series of projects that are being processed under Section 2-8.1.12 of the Code, entitled Miami-Dade Water and Sewer Department Consent Decree and Capital Improvement Programs Accelerate Ordinance. The project consists of rehabilitation of approximately 2,600 LF of the existing 48" prestressed concrete cylinder pipe (PCCP) force main. The work includes the following: bypassing, dewatering and interior cleaning of the force main; removing any protrusions and obstructions with potential impact to the lining operations; furnishing all material, labor and equipment necessary for the rehabilitation and relining or coating varying lengths of the force main per the Performance Specification Guidelines for the Installation of Slip Lining; and any other appurtenant and miscellaneous items

### Contract Measures Recommendation

<u>Measure</u>	<u>Program</u>	<u>Goal Percent</u>
No Measure	SBE/CONS	

### Reasons for Recommendation

An analysis of the factors contained in Implementing Orders 3-44, and 3-22 indicates a No Measure is appropriate for this contract.

Note: Project No. S-901 was reviewed for SBD/Construction and SBD/Goods & Services measures. Based on the scope of services (Rehabilitation of approximately 2,600 linear feet of the existing 48 inch prestressed concrete cylinder pipe (PCCP) work will be completed within the existing force main( which is a confined space.), location (along the north side of the C-8 Canal in green space for an approximate length of 2,600 linear feet.) and specialization (trenchless technologies must be used to rehabilitate the large diameter sewage force main, slip lining is the recommended method but other trenchless technologies will be considered) no SBD/Construction and SBD/Goods & Services measures could apply. No SBD Certified Firms could participate as they do not meet the project requirements. No subcontracting opportunities available as the Prime Contractor will perform the scope of services.

CWP Not Applicable: Not in DTA

Trade Category: 237110-Water And Sewer Line And Related Structures Construction

### Small Business Contract Measure Recommendation

Subtrade	Cat.	Estimated Value	% of Items to Base Bid	Availability
Water and Sewer Line and Related Structures Construction	SBE/CONS
