2.5 Bidder shall insert unit price and extension, as required, opposite each item. Where the unit price and the extension price are at variance, the unit price shall prevail.

2.6 SPECIAL CONDITIONS FOR BIDDING MOBILE EQUIPMENT

BIDDING EQUAL PRODUCTS, NO SUBSTITUTION COMPONENTS, MANUFACTURER’S CATALOGUES/BROCHURES AND PRODUCT DEMONSTRATIONS

2.6.1 Manufacturer’s name, brand name and/or model number, when used in the specifications are for the sole purpose of establishing minimum requirements of levels of quality, standards of performance and design. They are in no way intended to prohibit the bidding of other manufacturer’s brands of equal material, quality, design and standards of performance, unless the wording “NO SUBSTITUTION” is used. When an equal product is bid, the bidder shall furnish the factory information sheets (specifications, brochures, etc.) that show the product meets or exceeds the required specifications. Failure to meet this
requirement may result in the bid being deemed non-responsive. The County will be sole judge of equality or similarity and the County's decision shall be final.

2.6.2 When “NO SUBSTITUTION” is used in combination with a manufacturer's name, brand name and/or model number, the named item is the only item that will be accepted by the County.

2.6.3 Manufacturer's standard information sheets, catalogues, brochures and all supporting documentation submitted must show the product meets or exceeds the required specifications. Bids that are submitted with standard product literature which offer technical data or product descriptions indicating the item or product bid does not meet the required specifications must be accompanied by a letter, on the bidder's company stationary, identifying those differences and describing how compliance with the required specifications is to be accomplished. Failure to comply with this requirement may result in the rejection of the bid for not meeting the specifications.

NOTE 1: Photographs, picture, and other graphic illustrations that are part of standard product literature will not be used in determining product compliance with these specifications.

2.6.4 After the Bid Submittals have been evaluated by the County, the bidder offering the lowest price, as stipulated in Paragraph 1.5 of this solicitation may be required to demonstrate the equipment, which has been proposed, for evaluation by and at no cost to the County. The purpose of the demonstration is to observe the equipment in an operating environment and verify its capability, suitability, and adaptability as compared to the performance requirements stipulated in the bid. If a demonstration is required, the County will notify the bidder of such in writing and will specify the date, time and location of the demonstration. If the bidder fails to perform the demonstration on the date stipulated in the notice, the County may elect to reject the bidder's proposal or to re-schedule the demonstration. The County will be the sole judge of the acceptability of the equipment in conformance with the Bid Specifications and its decision shall be final.

2.6.5 The equipment used for the demonstration shall be the same as the manufacturer's model identified in the bidder's proposal. Accordingly, the equipment used in the demonstration shall create an expressed warranty that the actual equipment provided by the bidder during the contract period shall be similar to the equipment used in the demonstration. Should that equipment be new, not previously demonstrated and conforms to all bid specifications and requirements, the County reserves the right to purchase that equipment upon successful completion of the demonstration and approval by the Board of County Commissioners, if required.

2.7 This Invitation to Quote, any addenda, and/or properly executed modifications, the purchase order (if issued), and a change order (if applicable), constitute the entire contract.

2.8 All material specified herein shall be fully guaranteed by the bidder against factory defects. The bidder at no cost to the County shall correct any defects, which may occur as the result of faulty material or workmanship, within the period of the manufacturer's standard warranty. The County does not waive the implied warranties granted under the Uniform Commercial Code.

2.9 The County may, at its sole discretion, extend the delivery date where the County determines that it is in the best interest of the County.

2.10 Rejected goods remain the property of the bidder and all risk of loss remains with the bidder. Bidder must remove all rejected goods from County property within the time frame established by the County.

2.11 The County Mayor, or designee, shall issue an award under this solicitation. The awarded bidder shall honor no request for performance until the Mayor or designee, has made an award.

Automobiles that are equipped with accessories, which are not the OEM manufacturer's standard order accessories, will have less than 100 miles recorded on the odometer at the time of delivery. Vehicles delivered outside this mileage requirement will not be accepted. Odometers must not show any signs of tampering or disconnect/reconnect. Any optional components that are required in accordance with the Bid Specifications (refer to Section 3, of this Solicitation) shall be considered standard equipment for the purposes of this solicitation. Any optional components that are recommended by the vehicle manufacturer for the application intended must be included and will be considered standard equipment for the purposes of this solicitation. The application and usage of all components, sub-components or parts must be in accordance with their manufacturers' recommendations, as well as the recommendations of all associated component manufacturers. Omission of any essential detail from these specifications does not relieve the vendor from furnishing a complete and ready to work unit. The silence of specifications on any point shall mean that only the finest commercial practices of the industry shall apply and all interpretations of the Bid Specifications shall be so governed. The unit shall conform to all applicable Occupational Safety and Health Administration (OSHA), State and Federal, and American National Standards Institute (ANSI) requirements and standards, and Department of Transportation (D.O.T.) regulations. All components and included craftsmanship are to be in accordance with current Society of Automotive Engineers (S.A.E.) standards and recommended practices. The engineering, materials and workmanship shall exhibit a high level of quality and appearance, consistent with or exceeding the industry standards.

2.13.2 The equipment and features required are listed in the bid specifications (refer to entitled "Technical Specifications"). The County may, after delivery and acceptance of the initial equipment ordered, make changes to the required equipment or equipment options supplied, provided; 1) such changes are mutually agreed between the awarded bidder and the County, 2) all changes in per unit pricing are no more than the change in per unit documentable cost to the bidder, and 3) that the net amount of any such changes is no more than five percent of the per unit price originally bid. Bids requiring a pre-construction conference, or, the construction and approval of a prototype unit, will be considered in satisfaction of the initial equipment order provision of this paragraph.

2.14 **WARRANTY REQUIREMENTS**

2.14.1 The awarded bidder shall supply and be responsible for the vehicle's warranty. Vehicles with a GVWR of 19,500 pounds or less will have a warranty free of deductibles with no less than the following industry defined coverage:

- Hybrid unique components (if hybrid) sixty (60) months.

When vehicle or component manufacturers provide a warranty with coverage in excess of that stipulated herein, that additional coverage shall not be diminished by the requirements of this paragraph. When vehicle or component manufacturers provide a warranty with less coverage than that stipulated herein, the vendor shall provide a supplemental warranty that meets or exceeds the warranty requirements, as
stipulated herein. The warranty terms shall be subject to Delay In Start Warranty Program (commence when the vehicle is put into service), if available from the vehicle's manufacturer.

2.14.2 The awarded bidder shall be responsible for promptly correcting any warranted deficiency, at no cost to the County, at a warranty service center that meets the criteria stated in Paragraph 1.6.1 within five (5) calendar days after the County notified the bidder of such deficiency in writing. If the bidder fails to honor the warranty and/or fails to correct or replace the defect within the period specified, the County may, at its discretion, notify the bidder in writing that the bidder may be found in violation of the Contract or be subject to contractual default if the deficiencies are not corrected and/or replacement or repairs are not completed to the satisfaction of the County within the specified timeframe. If the bidder fails to satisfy the warranty within the period stipulated in the notice, the County may (a) place the bidder in default of its contract, and/or (b) procure the products or services from another vendor and charge the bidder for any additional costs that are incurred by the County, either through a credit memorandum or through invoicing.

2.14.3 The awarded bidder and/or its local service representative may be required to enter into an Original Equipment Manufacturer (OEM) parts and service supply agreement with Miami-Dade County, during the useful life of the equipment furnished. This maintenance support agreement would be to supply parts, repairs and training or service at the County's discretion.
