Revised 2/11/11
Date: September 1, 2011

To: Honorable Chairman Joe A. Martinez
    and Members, Board of County Commissioners

From: Alina T. Hudak
      County Manager

Subject: Resolution Authorizing a Full Vending Machine Services Program at Metrorail and Metromover Stations

RECOMMENDATION
It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing a full vending machine services program at Metrorail and Metromover stations. Due to the success of the current Vending Machine Services Pilot Project, the adopted resolution will effectuate the Pilot Project as a permanent revenue-generating program for Miami-Dade Transit (MDT).

SCOPE
The pilot program for the Vending Machine Services Program included 14 vending machines that are located at six Metrorail stations and one Metromover station in Commission Districts 2, 3, 7 and 12. Upon approval authorizing a full Vending Machine Services Program there will be an additional 26 vending machines placed at 10 additional Metrorail Stations and three Metromover stations bringing the total vending machines to 40 servicing 20 stations. Additional stations may be added in the future dependant on service demand studies and station security reviews.

FISCAL IMPACT/FUNDING SOURCE
There is a positive fiscal impact to the County as a result of the Pilot Project Vending Machine Services Program for Miami-Dade Transit. Revenue generated included an $85 Monthly Access Fee (MAF), plus 35% of the gross monthly vending machine sales (gross monthly sales are estimated at $370 per machine), that generated $215 monthly per machine. Currently, in its pilot form, approximately $3,000 a month is generated, or $36,000 annually from the existing 14 machines located at the 7 transit stations. Expansion of this program to add an additional 26 vending machines to 13 stations would generate $8,600 on a monthly basis or $103,200 annually (this figure includes revenue from the existing 14 machines).

Additionally, there are no ongoing operation and maintenance costs associated with the Vending Machine Services at Metrorail and Metromover Stations contract, as the vendor is responsible for maintaining and servicing all vending machines.

TRACK RECORD/MONITOR
The project manager responsible for managing this project is Glenn LeBlanc, Manager, MDT External Affairs.
BACKGROUND
On December 2, 2008, the Board adopted Ordinance 08-136, which modified Ordinance Section 30B-4(6) of the Code of Miami-Dade County to allow for the consumption of food and beverages at Metrorail and Metromover stations. MDT proceeded with a pilot project to evaluate the potential for receiving additional revenues from beverage and snack machines installed at the following transit stations: Dadeland South, Dadeland North, Historic Overtown/Lyric Theatre, Culmer, Dr. Martin Luther King Jr. Plaza and Palmetto Metrorail stations, and the Adrienne Arsht Center (formerly Omni) Metromover Station. As part of the Pilot Project evaluation, MDT was also tasked with monitoring the stations for increased debris resulting from the vending machines.

As noted above, revenues received from vending machine sales are approximately $3,000 per month for the seven mentioned transit stations where vending machines currently operate. Daily inspections by MDT Property Managers at the stations have shown that there has not been a noticeable increase in debris caused by the vending machines.

Due to the success of the Vending Machine Services Pilot Project, it is recommended that the Board approve the attached resolution authorizing the implementation of a full Vending Services Program at Metrorail and Metromover stations. The program will be implemented with the successful bidder of the original solicitation for the pilot project, which was awarded to URD News LLC as the Primary Vendor with Gilly Vending Inc. serving as the Secondary Vendor.
