

Project at a Glance

Project Number 4.9 (23)

Installation of 8, 10, and 12-inch wastewater line:

Fact Sheet

Wastewater Line Replacement

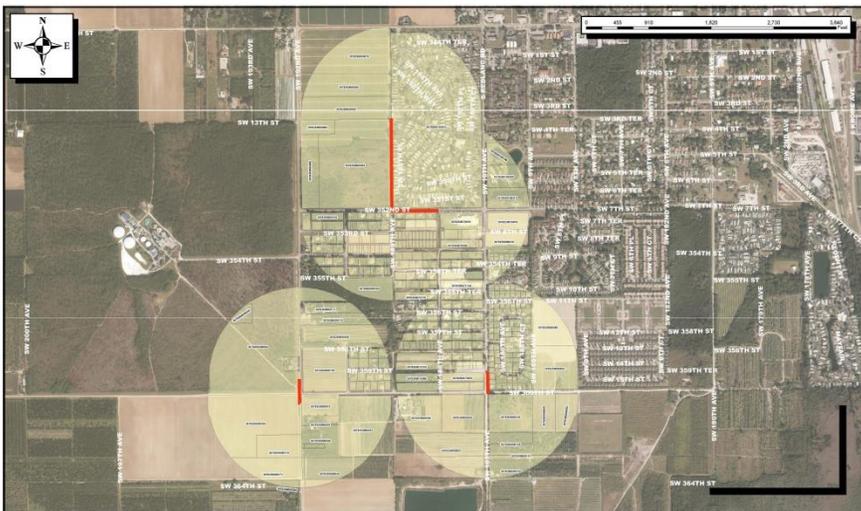

The Miami-Dade Water and Sewer Department (WASD) has embarked on a Capital Improvement Program to provide necessary upgrades to the water and sewer infrastructure to continue providing high quality services, protecting public health, and the environment. One of these projects is a new wastewater line in your neighborhood. This project is part of the Consent Decree Program which requires several operational and maintenance improvements to Miami-Dade's wastewater system.

On April 9, 2014, the United States District Court for the Southern District of Florida authorized a Consent Decree between Miami-Dade County, the United States of America, the State of Florida, and the Florida Department of Environmental Protection, for improvements to the County's wastewater collection system. The rehabilitation of wastewater lines for Consent Decree Project 4.9 (23) is part of this program.

PROJECT INFORMATION / SCHEDULE

Construction of the pipeline is expected to begin in January 2018 and is scheduled to be completed in eight (8) months. Construction work will take place weekdays during daylight hours. The contractor will take additional steps to minimize impacts, but you may experience some noise and intermittent traffic inconveniences due to lane and road closures or detours. At the conclusion of the project, the roadway areas impacted by the construction will be restored. In advance, we thank you for your support as the department works on this necessary infrastructure upgrade.

- Installation south from Pump Station 1022 (SW 348 St. and SW 189 Ave.) to SW 352 St., along 352 St. to SW 188 Ave.
- Installation at S. Redland Rd. and SW 360 St.
- Installation at SW 360 St. and SW 192 Ave.
- The upgrade will not affect the water or the wastewater services in your area.
- There could be temporary road closures, lane closures or detours.
- Access to your property will be maintained at all times.
- The areas surrounding the construction will be restored at the conclusion of the project.

Public Outreach - CD 4.9(23)
