THOSE ITEMS NOT HEARD PRIOR TO THE ENDING TIME FOR THIS MEETING, WILL BE DEFERRED TO THE NEXT AVAILABLE ZONING HEARING MEETING DATE FOR THIS BOARD.

SWEARING IN OF WITNESSES

Decisions of the Community Zoning Appeals Board (CZAB) may be subject to appeal or other challenge. For example, depending upon the nature of the requests and applications addressed by the CZAB, a CZAB decision may be directly appealable to the Board of County Commissioners (BCC) or may be subject to challenge in Circuit Court. Challenges asserted in Circuit Court, where available, must ordinarily be filed within 30 days of the transmittal of the pertinent CZAB resolution to the Clerk of the BCC. Appeals to the BCC, where available, must be filed with the Zoning Hearing Section of the Department of Planning and Zoning (DPZ) within 14 days after the DPZ has posted a short, concise statement (such as that furnished above for the listed items) that sets forth the action that was taken by the CZAB. (The DPZ's posting will be made on a bulletin board located in the office of the DPZ.) All other applicable requirements imposed by rule, ordinance, or other law must also be observed when filing or otherwise pursuing any challenge to a CZAB decision.

ITEM NO.: A

A. INTRODUCTION

o SUMMARY OF REQUESTS:

This application seeks to allow an unusual use to permit the establishment of a daycare center in two Phases; Phase I to allow a maximum of 40 children and Phase II, to allow a maximum of 90 children on the site. In addition, the applicant is requesting to allow said day care center to be setback closer to the interior sides (north and south) property lines than required by the Zoning Code.

o REQUESTS:

- (1) UNUSUAL USE to permit a day care center.
- (2) Applicant is requesting to permit the day care center setback 18' 6½" (75' required) from the interior side (north) property line and setback 23' 10½" (75' required) from the interior side (south) property line.

Plans are on file and may be examined in the Department of Planning and Zoning entitled "Monica's Daycare," as prepared by Vertex Architecture, consisting of 7 sheets: Sheet "A-1," dated stamped received 7/16/10 Sheet A-3.2 dated stamped received 10/23/09 and the remaining 5 sheets dated stamped received 12/18/09. Plans may be modified at public hearing.

o LOCATION: 18820 NE 22 Avenue, Miami-Dade County, Florida.

o SIZE: 43,718 Sq. Ft.

B. ZONING HEARINGS HISTORY: None.

C. COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP):

1. *The Adopted 2015 and 2025 Land Use Plan designates the subject property as being within the Urban Development Boundary for **Low Density Residential**. The residential densities allowed in this category shall range from a minimum of 2.5 to a maximum of 6.0 units per gross acre. This density category is generally characterized by single family housing, e.g., single-family detached, cluster, zero lot line and townhouses. It could include low-rise apartments with extensive surrounding open space or a mixture of housing types provided that the maximum gross density is not exceeded.*
2. **Other Land Uses Not Addressed.** *Certain uses are not authorized under any LUP map category, including many of the uses listed as "unusual uses" in the zoning code. Use not authorized in an LUP map category may be requested and approved in any LUP category that authorizes uses substantially similar to the requested use. Such approval*

may be granted only if the requested use is consistent with the objectives and policies of this Plan, and provided that the use would be compatible and would not have an unfavorable effect on the surrounding area: by causing an undue burden on transportation facilities including roadways and mass transit or other utilities and services including water, sewer, drainage, fire, rescue, police and schools; by providing inadequate off-street parking, service or loading areas; by maintaining operating hours, outdoor lighting or signage out of character with the neighborhood; by creating traffic, noise, odor, dust or glare out of character with the neighborhood; by posing a threat to the natural environment including air, water and living resources; or where the character of the buildings, including height, bulk, scale, floor area ratio or design would detrimentally impact the surrounding area. However, this provision does not authorize such uses in Environmental Protection Areas designated in this Element.

3. **Policy LU-4A.** *When evaluating compatibility among proximate land uses, the County shall consider such factors as noise, lighting, shadows, glare, vibration, odor, runoff, access, traffic, parking, height, bulk, scale of architectural elements, landscaping, hours of operation, buffering, and safety, as applicable.*
4. **Policy LU-4C.** *Residential neighborhoods shall be protected from intrusion by uses that would disrupt or degrade the health, safety, tranquility, character, and overall welfare of the neighborhood by creating such impacts as excessive density, noise, light, glare, odor, vibration, dust or traffic.*

Section 33-311(A)(3) Special Exceptions, Unusual Uses and New Uses. *The Board shall hear an application for and grant or deny special exceptions; that is, those exceptions permitted by regulations only upon approval after public hearing, new uses and **unusual uses** which by the regulations are only permitted upon approval after public hearing; provided the applied for exception or use, including exception for site or plot plan approval, in the opinion of the Community Zoning Appeals Board, would not have an unfavorable effect on the economy of Miami-Dade County, Florida, would not generate or result in excessive noise or traffic, cause undue or excessive burden on public facilities, including water, sewer,*

solid waste disposal, recreation, transportation, streets, roads, highways or other such facilities which have been constructed or which are planned and budgeted for construction, are accessible by private or public roads, streets or highways, tend to create a fire or other equally or greater dangerous hazards, or provoke excessive overcrowding or concentration of people or population, when considering the necessity for and reasonableness of such applied for exception or use in relation to the present and future development of the area concerned and the compatibility of the applied for exception or use with such area and its development.

Section 33-311(A)(4)(b) Non-Use Variances From Other Than Airport Regulations. Upon appeal or direct application in specific cases, the Board shall hear and grant applications for **non-use variances** from the terms of the zoning and subdivision regulations and may grant a non-use variance upon a showing by the applicant that the non-use variance maintains the basic intent and purpose of the zoning, subdivision and other land use regulations, which is to protect the general welfare of the public, particularly as it affects the stability and appearance of the community and provided that the non-use variance will be otherwise compatible with the surrounding land uses and would not be detrimental to the community. No showing of unnecessary hardship to the land is required.

H. ANALYSIS:

This application was deferred from the April 13, 2011 meeting due to a lack of quorum. Approval of this application would permit the applicant to establish a day care center on the subject property which is designated for Low Density Residential 2.5 to 6 dua on the Land Use Plan (LUP) Map of the Comprehensive Development Master Plan (CDMP). The interpretative text of the CDMP indicates the neighborhood or community-serving institutional uses including schools may be approved where compatible in all urban land use categories, in keeping with any conditions specified in the applicable category, and where provided in certain Open Land subareas. Compatibility shall be determined in accordance to **Policy LU-4A**. Policy LU-4A states that such factors as noise, lighting, shades, glare, vibration, odor, runoff, access, traffic, parking, height, bulk, scale of architectural elements, landscaping, hours of operation, buffering, and safety, as applicable shall be considered when evaluating compatibility. Staff is of the opinion that the approval of the proposed day care center as requested for Phase I and Phase II with a total of 90 children, could result in a detrimental increase in noise and traffic in the neighborhood. However, staff opines that the Phase I request for a maximum of 40 children on the site would create less noise and traffic impacts in the neighborhood as compared to the requested 90 maximum children. The Phase I request would be compatible with the existing school and religious facility across NE 22 Avenue and with the surrounding neighborhood. In addition staff notes that as depicted on the plans for Phase I, there is adequate parking for staff and stacking parking spaces for dropping off and picking up the children from the proposed day care center. However, staff

opines that proposed Phase II, which will allow a maximum of 90 children on the site, would be excessive, would result in a substantial increase in noise and traffic to the neighborhood and would be incompatible with the adjacent residences to the north, south and west of the subject property. Although, the applicant has submitted a Declaration of Restrictions, restricting the hours of operation, providing traffic control, and indicating the proposed development of the site, staff opines that Phase II of the proposed day care center with a maximum of 90 children would be too intensive for this site and would result in a negative impact on traffic to the surrounding community. As such, staff is of the opinion that Phase I of the proposed day care center which indicates a maximum of 40 children on the site is **consistent** with the objectives and Policies of the CDMP. However, staff opines that Phase II of the proposed day care center to add up to 50 more children to Phase I for a maximum of 90 children on the site would be **incompatible** with the surrounding residential area lying to the north, south and west of the subject property and **inconsistent** with the CDMP.

When analyzing request #1 under Section 33-311(A)(3), Special Exceptions, Unusual Uses and New Uses, and considering the necessity for and reasonableness of the day care center in relation to the present and future development of the area, staff is of the opinion that Phase I, which indicates a maximum of 40 children on the site, would be **compatible** with the surrounding area. Staff notes that the existing house will be converted to accommodate the proposed daycare center and will provide the required classroom area, parking spaces, stacking spaces and outdoor recreation space for the proposed 40 children requested in Phase I. However, staff notes that for Phase II, the number of parking spaces remain the same as Phase I, which staff opines is inadequate for the proposed 90 children in Phase II. In addition, as previously mentioned, the subject property abuts single family residences to the north, south and west. Staff notes however that the plans submitted by the applicant do not show any type of buffering elements such as landscaping, solid fences or solid walls along the interior sides (north and south) and rear (west) property lines, which would diminish the negative visual and aural impact of the proposed day care center to the surrounding residences abutting the subject property. In addition, staff notes that in Phase I, the proposed day care center will provide service for 40 children within the existing structure, which would not create any additional negative visual impact to the surrounding area. However, in order to accommodate the additional 50 children on the site for a total of 90 children in Phase II, the applicant proposes to expand the existing structure by more than 50% in order to provide additional classrooms for the additional 50 children. Staff opines this would create a negative visual impact to the adjacent residential area.

Staff acknowledges that in 1998, pursuant to Resolution #CZAB2-10-98, an application for the property lying across NE 22 Avenue was approved granting an expansion to a religious facility and private school allowing a maximum of 670 students with grades kindergarten to the eighth grade along with some non-use variances of the private school requirements, setback requirements, landscaping requirements and outdoor play area requirements. However, staff is of the opinion that the character of the area lying east of NE 22 Avenue which is a major street and a half section line road has been developed with uses which are compatible with religious and school uses as opposed to the area lying on the west of NE 22 Avenue which has been developed with single family homes. Therefore, when considering the necessity for and reasonableness of the day care center use in relation to the present and future development of the area, staff is of the opinion that Phase I of the proposed use would be **compatible** with the residential character of the area and, is therefore **consistent** with the objectives of the CDMP. However, staff opines that Phase II of this project would be **incompatible** with the residential character of the properties lying west of NE 22 Avenue and therefore **inconsistent** with the objectives of the CDMP. As such, staff recommends that request #1 be approved, on a modified basis to allow a maximum of 40 children on the site

as indicated for Phase I of this project. In addition staff recommends that buffering be provided along the interior sides (north and south) and rear (west) property lines, either in the form of a 6' high wall or wood fence with shade trees 12' high at time of planting and spaced 30' on center.

When analysing requests #2 under Section 33-311(A)(4)(b), the Non-use Variance Standards (NUV), staff is of the opinion that this request would not maintain the stability and appearance of the community and that the non-use variance will not be compatible with the surrounding residential uses and would be detrimental to same. In addition, staff notes that this request is only applicable to Phase II of this project, when the proposed building would exceed a maximum of 50 persons at one time. Therefore, by staff recommending approval of Phase I only, this request is no longer needed. As such, staff recommends denial of request #2 under Section 33-311(A)(4)(b).

I. RECOMMENDATION:

Approval with conditions of Phase I with a maximum of 40 children, subject to the Board's acceptance of the proffered Declaration of Restrictions as amended by all conditions that are approved by the Board.

J. CONDITIONS:

1. That a site plan be submitted to and meet with the approval of the Director upon the submittal of an application for a building permit and/or Certificate of Use and Occupancy; said plan to include among other things but not limited thereto, location of structure or structures, types, sizes and location of signs, light standards, off-street parking areas, exits and entrances, drainage, walls, fences, landscaping, etc.
2. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "Monica's Daycare," as prepared by Vertex Architecture, consisting of 7 sheets: Sheet "A-1," dated stamped received 7/16/10 Sheet A-3.2 dated stamped received 10/23/09 and the remaining 5 sheets dated stamped received 12/18/09. Except that Phase II is deleted from the plans at time of building permit.
3. That the use be established and maintained in accordance with the approved plan.
4. That the applicant submit to the Department for its review and approval a landscaping plan which indicates the type and size of plant material prior to the issuance of a building permit and to be installed prior to the issuance of a Certificate of Use and Occupancy.
5. That the use be made to conform to the requirements and/or recommendations of the Miami-Dade County Fire Department, the Miami-Dade County Department of Public Health, and the State of Florida Department of Children and Families (Child Care Licensing Unit).
6. That the use be restricted to a maximum number of 40 children as shown in Phase I.
7. That the applicant obtain a Certificate of Use and Occupancy from, and promptly renew the same annually with the Department, upon compliance with all terms and conditions, the same subject to cancellation upon violation of any of the conditions.

8. That the applicant comply with all applicable conditions and requirements of the Department of Environmental Resources Management (DERM) as contained in their memorandum pertaining to this application.
9. That the applicant comply with all applicable conditions and requirements of the Public Works Department as contained in their memorandum pertaining to this application.
10. That the hours of operation shall be between 7:00 AM and 6:00 PM.
11. That the use may be conducted on the premises on weekdays only, Monday through Friday inclusive.
12. That buffering be provided along the interior sides (north and south) and rear (west) property lines, either in the form of a 6' high wall or wood fence with shade trees 15' high at time of planting and spaced 30' on center. Said buffering shall be installed prior to the issuance of the Certificate of Use for the day care center.

Memorandum

Date: October 28, 2010

From: Jose Gonzalez, P.E., Assistant Director
Environmental Resources Management

Subject: C-02 #Z2009000088-3rd Revision
Monica's Daycare, LLC
18820 N.E. 22nd Avenue
Unusual Use to Permit a Daycare
(EU-1) (1.083 Acres)
42-04-52

The Department of Environmental Resources Management (DERM) has reviewed the subject application and has determined that it meets the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida (the Code). Accordingly, DERM may approve the application, and the same may be scheduled for public hearing.

Potable Water Service

Public water can be made available to the subject property. Therefore, connection of the proposed development to the public water supply system shall be required in accordance with the Code requirements.

Existing public water facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required by DERM for this proposed development order.

Wastewater Disposal

Public sanitary sewers are not located within feasible distance for connection to the subject property; consequently, any proposed development would have to be served by a septic tank and drainfield as a means for the disposal of domestic liquid waste.

DERM would not object to the interim use of a septic tank and drainfield system provided that the site is connected to the public water supply system and the proposed development meets the sewage loading requirements of Section 24-43.1(4) of the Code. Based upon the available information the proposal meets said requirements. Furthermore, since the request is for a non-residential land use, the property owner has submitted a properly executed covenant running with the land in favor of Miami-Dade County as required by Section 24-43.1(4) (a) of the Code, which provides that the only liquid waste, less and except the exclusions contained therein, which shall be generated, disposed of, discharged or stored on the property shall be domestic sewage discharged into a septic tank.

Additionally the proposed development shall comply with the maximum sewage loading allowed by Section 24-43.1(4) (b) of the Code. The maximum sewage loading shall not exceed 1,500 gallons per day per acre (gpd/acre) for nonresidential properties served by a septic tank in conjunction with public water. The subject property contains 50793 square feet (sf) and the existing and proposed development would generate a wastewater flow of approximately 1440 gallons per day (gpd). This translates into a sewage loading rate of 1234 gpd/acre which complies with sewage loading requirements as defined in Section 24-43.1(4)(b) of the Code.

Stormwater Management

All stormwater shall be retained on site utilizing properly designed seepage or infiltration drainage system. Drainage plans shall provide for full on-site retention of the stormwater runoff generated by a 5-year / 1-day storm event.

Site grading and development plans shall comply with the requirements of Section 11C of the Code, as well as with all state and federal criteria, and shall not cause flooding of adjacent properties.

Any proposed development shall comply with county and federal flood criteria requirements. The proposed development order, if approved, will not result in a reduction in the LOS standards for flood protection set forth in the CDMF subject to compliance with the conditions required by DERM for this proposed development order.

Wetlands

The subject property does not contain wetlands as defined by Section 24-5 of the Code; therefore, a Class IV Wetland Permit will not be required.

The applicant is advised that permits from the Army Corps of Engineers (305-526-7181), the Florida Department of Environmental Protection (561-681-6600) and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Tree Preservation

The landscape plan submitted with this zoning application entitled "Monica's Daycare-Landscape Plan/General Notes/Details", prepared by Vertex Architecture Inc, sheet L-1 and dated June 3, 2009 (revised November 6, 2009) and received on December 18, 2009, provides for the preservation of the specimen sized trees on site, however non specimen trees EX 40-44 and EX A will be removed or relocated within the subject property. A Miami-Dade County Tree Removal Permit is required prior to the removal or relocation of any tree that is subject to the Tree Preservation and Protection provisions of the Code. Said Tree Removal Permit shall meet the requirements of Sections 24-49.2 and 24-49.4 of the Code.

The applicant is required to comply with the above tree permitting requirements. DERM's approval of the subject application is contingent upon inclusion of said tree permitting requirements in the resolution approving this application. The applicant is advised to contact DERM staff for additional information regarding tree permitting procedures and requirements prior to site development.

Also please be advised that the proposed structures, parking area or the concrete round about driveway may affect the existing trees root systems, thereby causing the effective destruction of the trees which constitutes a violation of Section 24-49 of the Code. Therefore, DERM recommends that appropriate actions be taken to not adversely impact trees resources existing on the referenced property.

Enforcement History

DERM has found no open or closed enforcement records for the subject property.

Concurrency Review Summary

DERM has conducted a concurrency review for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute DERM's written approval, as required by the Code.

If you have any questions concerning the comments, or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

PUBLIC WORKS DEPARTMENT COMMENTS

Applicant's Names: MONICA'S DAYCARE, LLC

This Department has no objections to this application.

Miami Dade County Public Works Department Traffic Engineering Division has reviewed the Site Plans, revised 4/12/10, for the proposed facility located at 18820 N.E. 22nd Ave., and has no objection to this application.

This land requires platting in accordance with Chapter 28 of the Miami-Dade County Code. The road dedications and improvements will be accomplished thru the recording of a plat.

Additional improvements may be required at time of permitting/platting.

This project meets traffic concurrency because it lies within the urban infill area where traffic concurrency does not apply.
