Item No. A

Recommendation Summary	
Commission District	1
Applicant	Miami Gardens Commons, LLC
Summary of Requests	The applicant is seeking a zone change to BU-2 and to permit less classroom space, outdoor recreation space and stacking spaces than required. Additionally, the applicant is seeking to waive the required 5' high masonry wall and permit one (1) tenant two (2) wall signs, where one sign per tenant is permitted.
Location	5901 Miami Gardens Drive, Miami-Dade County, Florida.
Property Size	2.95 acres
Existing Zoning	IU-C
Existing Land Use	Office Building
2015-2025 CDMP Land Use Designation	Business and Office <i>(see attached Zoning Recommendation Addendum)</i>
Comprehensive Plan Consistency	Consistent with interpretative text, goals, objectives and policies of the CDMP
Applicable Zoning Code Section(s)	Section 33-311 District Boundary Change Section 33-311(A)(4)(b) Non-Use Variances From Other Than Airport Regulations <i>(see attached Zoning Recommendation Addendum)</i>
Recommendation	Approval with conditions of requests #1 - #4 and #6; denial without prejudice of request #5, unless withdrawn by the applicant.

This application was deferred from the October 25, 2012 Board of County Commissioners meeting at the request of the district commissioner.

On June 28, 2012, pursuant to Resolution No. CZAB5-5-12, Community Zoning Appeals Board (CZAB) 5, denied with prejudice the entire application by a vote of 4 to 1. Subsequently, on July 13, 2012, the applicant appealed the CZAB 5 decision to the Board of County Commissioners (BCC) citing that no competent substantial evidence of record existed for CZAB 5 to deny the application.

REQUESTS:

- (1) DISTRICT BOUNDARY CHANGE from IU-C (Controlled Industrial District) to BU-2 (Special Business District).
- (2) NON-USE VARIANCE to permit a classroom space of 17,158 sq. ft. (22,675 sq. ft. required).
- (3) NON-USE VARIANCE to permit an outdoor recreation space of 1,711.95 sq. ft. (200,550 sq. ft.).
- (4) NON-USE VARIANCE to permit zero (0) stacking spaces (5 stacking spaces required).
- (5) NON-USE VARIANCE of sign regulations to permit one (1) tenant with two (2) wall signs (1 wall sign per tenant permitted).

(6) NON-USE VARIANCE to waive the required 5' high masonry wall where a business lot abuts a residentially zoned property from the rear (north) property line.

Plans are on file and may be examined in the Department of Regulatory and Economic Resources entitled "Miami Garden Commons," as prepared by Gutierrez & Lozano Architects and dated stamped received 3/21/12 consisting of 6 sheets. Plans may be modified at public hearing.

PROJECT DESCRIPTION: The subject property is an existing 3-story 72,682 sq. ft. multi-tenant office building.

NEIGHBORHOOD CHARACTERISTICS		
	Zoning and Existing Use	Land Use Designation
Subject Property	IU-C; office building	Business and Office
North	RU-4L; multi-family residential	Medium Density Residential (13 to 25 du)
South	IU-C; commercial	Business and Office
East	IU-C; commercial and storage facility	Business and Office
West	IU-C; storage facility	Business and Office

NEIGHBORHOOD COMPATIBILITY:

The subject property is an existing office building located at 5901 Miami Gardens Drive. The surrounding area is characterized by commercial and residential uses.

SUMMARY OF THE IMPACTS:

Approval of this application will rezone the subject property to BU-2 and increase the visibility of tenants of the existing office building by increasing the number of signs. Additionally, approval would permit a private school with less classroom and outdoor recreational space and zero (0) auto stacking spaces for a private school. As such, the proposed school could result in additional traffic in the surrounding area and the proposed additional signage could result in visual clutter and have a negative visual impact on the surrounding area.

CDMP ANALYSIS:

The subject property is designated as **Business and Office** on the Comprehensive Development Master Plan (CDMP) Land Use Plan (LUP) map. *This category accommodates the full range of sales and service activities. Included are retail, wholesale, personal and professional services, call centers, commercial and professional offices, hotels, motels, hospitals, medical buildings, nursing homes (also allowed in the institutional category), entertainment and cultural facilities, amusements and commercial recreation establishments such as private commercial marinas.* The approval of the requests sought in this application will permit the applicant to rezone the property from IU-C to BU-2, provide less classroom and outdoor space than required for a private school and increase the number of wall signs on the existing office building. Staff opines that the requested BU-2, Special Business District, is **consistent** with the Business and Office designation of the subject property on the CDMP Land

Use Plan map. Additionally, the proposed educational use is consistent with Land Use Element interpretative text for Institutions, Utilities and Communications which states that *neighborhood or community-serving institutional uses, cell towers and utilities including **schools**, libraries, sanitary sewer pump stations and fire and rescue facilities in particular, and cemeteries may be approved where compatible in all urban land use categories, in keeping with any conditions specified in the applicable category, and where provided in certain Open Land subareas. Compatibility shall be determined in accordance to Policy LU-4A.* Staff notes that **Land Use Element Policy LU-4A** sets forth the criteria to determine compatibility and states when evaluating compatibility among proximate land uses, the County shall consider such factors as noise, lighting, shadows, glare, vibration, odor, runoff, access, traffic, parking, height, bulk, scale of architectural elements, landscaping, hours of operation, buffering, and safety, as applicable. Additionally staff notes that the existing office building will be utilized for the proposed educational use. The existing facility did not require a zoning hearing and was built as a matter of right and subject to the County's building permit process. Staff notes that submitted plans for this application depict the same building elevations, architectural elements, landscaping, buffering and parking areas as were previously approved although the floor plans have been modified to accommodate the proposed 907 students.

Further, the CDMP Land Use Element interpretative text for the Business and Office designation states that *in reviewing zoning requests or site plans, the specific intensity and range of uses, and dimensions, configuration and design considered to be appropriate will depend on locational factors, particularly compatibility with both adjacent and adjoining uses, and availability of highway capacity, ease of access and availability of other public services and facilities.* Staff notes that memoranda submitted by the Departments of Public Works and Waste Management, the Environment Division of the Regulatory and Economic Resources, Miami-Dade Fire Rescue and Parks, Recreation and Open Spaces do not indicate any negative impact from the requested district boundary change. Therefore, staff opines that the proposed district boundary change and educational use are **consistent** with the Business and Office designation and the Land Use Element interpretative text for Institutions, Utilities and Communications and **compatible** with the surrounding area based on the that Land Use Element Policy LU-4A compatibility criteria.

ZONING ANALYSIS:

On October 24, 21012, the applicant submitted a letter to the department and informed staff that they intend to withdraw request #5 and comply with the County's sign regulations. Additionally, the applicant has offered a condition which includes additional landscaping along the north (rear) property line, in lieu of providing the required 5' high masonry wall where a business lot abuts a residentially zoned (request #6).

When request #1, District Boundary Change from IU-C to BU-2, is analyzed under Section 33-311 of the Code, staff opines that the approval of this request would be **consistent** with the CDMP's LUP map Business and Office designation. The Environmental Division of the Department of Regulatory and Economic Resources memorandum indicates that approval will not result in a reduction in the Level of Service (LOS) standards for potable water service, wastewater disposal, or stormwater management. Further, staff opines that said request would not have an unfavorable impact on the environmental and natural resources, or economy nor burden water, sewer solid waste disposal, recreation, education or public transportation facilities as evidenced by memoranda submitted by the Departments of Public Works and Waste Management; Parks, Recreation and Open Spaces; the Environment Division of Regulatory and Economic Resources; and Miami-Dade Fire Rescue. Additionally, said

departments indicate in their memoranda that they do not object to this application. As such, staff opines that the applicant's request for a zone change to BU-2 will not have a negative impact on the surrounding area. Staff notes that the existing office building and uses are allowed in the BU-2 zoning district. **Therefore, staff recommends approval of request #1 under Section 33-311 Standards for District Boundary Change.**

When requests #2, #3 and #4 are analyzed under Section 33-311(A)(4)(b) Non-Use Variances From Other Than Airport Regulations, staff opines that approval of the requests to permit the subject property with less classroom and outdoor recreation space than required and zero (0) stacking spaces would be **compatible** with the area. In staff's opinion, requests #2, #3 and #4 maintain the basic intent and purpose of the zoning, subdivision and other land use regulations, which is to protect the general welfare of the public, particularly as it affects the stability and appearance of the community. Staff notes that the requested non-use variances are for a proposed private school which is allowed by right within the BU-2, Special Business District. The applicant has indicated in the letter of intent that the private school will be a post secondary facility for college aged students. Staff notes that due to the size of the subject property, the proposed private college did not meet the main campus standards for private colleges and universities listed in Section 151.14 of the Zoning Code. Said Section of the Code states that private colleges and universities with sites of thirty (30) acres or less shall meet the minimum standards established for high schools; therefore, the requested non-use variances are based on the private school standards for a high school educational facility as outlined in Section 151.18. Staff notes that the requests to permit less classroom and outdoor recreation space (requests #2 and #3) are based on the proposed total of 907 students. Staff opines said requests are minimal because the school offers its students convenient class schedules that allow for attendance at anytime during the day or evening. Therefore the number of students on campus will vary and may not reach the requested 907 students at any given time. Further, staff opines that request #4 to permit zero (0) stacking spaces, where five (5) are required will not impact the traffic circulation within the parking lot or negatively impact the adjacent roadways. Additionally, staff opines that modes of transportation utilized vary for college aged students from personal vehicle, mass transit and carpooling. In the event a student is dropped off at the location, the layout of the parking lot is designed with ample space to for other vehicles to maneuver around a stopped vehicle without impacting the circulation throughout the parking lot. **As such, staff recommends approval with conditions of requests #2, #3 and #4 under Section 33-311(A)(4)(b), Non-Use Variance (NUV) Standards.**

However, when request #5 is analyzed under Section 33-311(A)(4)(b), the Non-Use Variance (NUV) Standards, staff opines that approval of this request would be out of character with the surrounding area. The applicant is requesting to permit two (2) wall signs for one (1) tenant, where only one (1) wall sign per tenant is permitted. In staff's opinion the request is incompatible with the surrounding area. Further, staff notes that in addition to the permitted one (1) wall sign per tenant, tenants of the existing office building are identified on an existing monument sign located along NW 183 Street (Miami Gardens Drive). Said monument sign faces east and west which aids in locating tenants in the existing office building by passersby traveling in either direction. Staff opines that the request is incompatible and would have a negative visual impact on the surrounding area. **As such, staff recommends denial without prejudice of request #5 under Section 33-311(A)(4)(b), Non-Use Variance (NUV) Standards, unless withdrawn by the applicant.**

When analyzing request #6, to waive zoning regulations requiring a 5' high masonry wall where a business lot abuts a residentially zoned property from the rear (north) property line under Section 33-311(A)(4)(b), the Non-Use Variance (NUV) Standards, staff opines that the request

is **incompatible**. Staff notes that the BU-2 zoning district requires a 5' high decorative masonry wall when abutting RU zoned properties; however, the existing IU-C zoning district does not have the same requirement. Staff opines that the wall provides a buffer that can mitigate visual and noise impacts from the proposed educational use. However, in lieu of the required 5' high masonry wall, the applicant has proposed to increase the height of the depicted landscape hedge to a minimum of three (3) feet in height at time of planting in lieu of the masonry wall along the north (rear) property line and provide additional plant material if the Director of the Department of Regulatory and Economic Resources determines that additional material is needed to adequately buffer the parking area of the subject property from the abutting residential property to the north. Staff opines that the applicant's landscape proposal in lieu of the required 5' high masonry wall is **compatible**. Further, in staff's opinion, the proposed additional landscaping will mitigate any visual and noise impacts on the abutting property to the north. Therefore, staff recommends that in lieu of the required wall the applicant provide the proposed landscaping. **As such, staff recommends approval with conditions under Section 33-311(A)(4)(b), Non-Use Variance (NUV) Standards.**

ACCESS, CIRCULATION AND PARKING:

The submitted site plan depicts an existing office building with only one (1) ingress/egress point along NW 183 Street (Miami Gardens Drive). There are 247 parking spaces for the proposed private school and existing office uses.

NEIGHBORHOOD SERVICES PROVIDER COMMENTS: See attached.

OTHER: N/A

RECOMMENDATION: Approval with conditions of requests #1 - #4, and #6; denial without prejudice of request #5, unless withdrawn by the applicant.

CONDITIONS FOR APPROVAL: (for requests #1 - #4 and #6 only)

1. That a site plan be submitted to and meet with the approval of the Director of the Department of Regulatory and Economic Resources upon the submittal of an application for a building permit and/or Certificate of Use; said plan must include among other things but not be limited to, location of structure or structures, exits and entrances, drainage, walls, fences, landscaping, signs, etc.
2. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled, "Miami Gardens Commons" as prepared by Gutierrez & Lorenzo Architects, dated stamped received, 03/21/2012 consisting of 6 sheets, except as herein modified to show: i) a vehicular driveway connection to the existing access route across the eastern property line; ii) an increase in the height of the depicted landscape hedge to a minimum of three (3) feet in height at time of planting in lieu of the masonry wall along the north (rear) property line, together with additional plant material if the Director of the Department of Regulatory and Economic Resources determines that such material is necessary to provide sufficient opacity to buffer the adjoining property from illumination from headlights; and iii) removal of depicted additional tenant signs to show one sign per tenant.
3. That the use be established and maintained in accordance with the approved plan.

4. That at the time of Certificate of Use issuance and each subsequent renewal, the owner shall submit to the Department of Regulatory and Economic Resources a letter from the administrator of the school detailing the number of students that are currently enrolled in said facility.
5. That the enrollment of the private school be limited to 907 students.

COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP) OBJECTIVES, POLICIES AND INTERPRETATIVE TEXT

<p>Business and Office</p>	<p><i>The Adopted 2015 and 2025 Land Use Plan designates the subject property, being within the Urban Development Boundary for Business and Office. This category accommodates the full range of sales and service activities. Included are retail, wholesale, personal and professional services, call centers, commercial and professional offices, hotels, motels, hospitals, medical buildings, nursing homes (also allowed in the institutional category), entertainment and cultural facilities, amusements and commercial recreation establishments such as private commercial marinas. Also allowed are telecommunication facilities (earth stations for satellite communication carriers, satellite terminal stations, communications telemetry facilities and satellite tracking stations). These uses may occur in self-contained centers, high-rise structures, campus parks, municipal central business districts or strips along highways. In reviewing zoning requests or site plans, the specific intensity and range of uses, and dimensions, configuration and design considered to be appropriate will depend on locational factors, particularly compatibility with both adjacent and adjoining uses, and availability of highway capacity, ease of access and availability of other public services and facilities. Uses should be limited when necessary to protect both adjacent and adjoining residential use from such impacts as noise or traffic, and in most wellfield protection areas uses are prohibited that involved the use, handling, storage, generation or disposal of hazardous material or waste, and may have limitations as to the maximum buildable area, as defined in Chapter 24 of the County Code. When the land development regulations are amended pursuant to Land Use Element Policies LU-9P and LU-9Q, live-work and work-live developments shall be permitted on land designated as Business and Office, as transitional uses between commercial and residential areas.</i></p> <p><i>Residential uses, and mixing of residential use with commercial, office and hotels are also permitted in Business and Office areas provided that the scale and intensity, including height and floor area ratio of the residential or mixed use development, is not out of character with that of adjacent or adjoining development and zoning, and it does not detrimentally impact, and it provides a sensitive well designed transition to any adjacent or adjoining residentially developed or designated areas of different development intensity. Where these conditions are met residential development may be authorized to occur in the Business and Office category at a density up to one density category higher than the LUP-designated density of the adjacent or adjoining residentially designated area on the same side of the abutting principal roadway, or up to the density of any such existing residential development, or zoning if the adjacent or adjoining land is undeveloped, whichever is higher. If there is no adjacent or adjoining residential use existing, zoned or designated on the same side of the roadway, the maximum allowable residential density will be that which exists or which this plan allows across the roadway. Where there is no residential use, zoning or designation on either side of the roadway, the intensity of residential development, including height, bulk and floor area ratio shall be no greater than that which would be permitted for an exclusively commercial use of the site. Where SURs or TDRs are transferred to Business-designated parcels which are zoned or to be used for residential development, or when a residential project utilizes the inclusionary zoning program the allowances of the Residential communities section may be used within the limits provided in this paragraph.</i></p>

District Boundary Change from IU-C to BU-2 and to Waive the
Required 5' High Masonry Wall where a Business Lot Abuts a
Residentially Zoned Property from the Rear Property Line
(IU-C) (2.95 Acres)
12-52-40

The subject application has been reviewed for compliance with the requirements of Chapter 24 of the Miami-Dade County Code (the Code) and meets the minimum requirements of the Code. Accordingly, the application may be scheduled for public hearing.

Potable Water Service and Wastewater Disposal

Public water and public sanitary sewers can be made available to the subject property. Therefore, connection of the proposed development to the public water supply system and sanitary sewer system shall be required in accordance with Code requirements.

Existing public water and sewer facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required for this proposed development order.

Notwithstanding the foregoing, and in light of the fact that the County's sanitary sewer system has limited sewer collection, transmission, and treatment capacity, no new sewer service connections can be permitted, unless there is adequate capacity to handle the additional flows that this project would generate. Consequently, final development orders for this site may not be granted if adequate capacity in the system is not available at the point in time when the project will be contributing sewage to the system. Lack of adequate capacity in the system may require the approval of alternate means of sewage disposal. Use of an alternate means of sewage disposal may only be granted in accordance with Code requirements, and shall be an interim measure, with connection to the public sanitary sewer system required upon availability of adequate collection/transmission and treatment capacity.

Stormwater Management

The proposed District Boundary Zone change from IU-C to BU-2 will not affect the existing stormwater management system. However, any change to the existing stormwater management system will require a modification to the previously approved SFWMD ERP 13-02936-P-02.

Wetlands

Although the subject property is not located within a designated wetland basin, it does contain jurisdictional wetlands as defined by Section 24-5 of the Code. However, a Class IV Wetland Permit FW02-112 was issued for this property for the clearing and filling of 2.48 acres of jurisdictional wetlands for commercial purposes. The permit expired on June 26, 2009.

Therefore, the Department has no objection to the scheduling of this zoning application provided that no impacts occur beyond what was permitted on this site. Any additional work in jurisdictional wetlands will require a new Class IV Wetland Permit.

The applicant is advised that permits from the Army Corps of Engineers (305-526-7181), the Florida Department of Environmental Protection (561-681-6600) and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Operating Permits

Section 24-18 of the Code authorizes the Department to require operating permits from facilities that could be a source of pollution. The applicant is advised that due to the nature of some land uses permitted under the proposed zoning classification, operating permits may be required. Furthermore, approval for best management practices to control any potential discharge and spillage of pollutants associated with some land uses permitted in the requested zoning district may be required. The Permitting Section of Pollution Regulation and Enforcement Division may be contacted at (305) 372-6600 for further information concerning operating requirements.

Tree Preservation

The subject property contains tree resources. Section 24-49 of the Code provides for the preservation and protection of tree resources. A Miami-Dade County Tree Removal Permit is required prior to the removal or relocation of any tree that is subject to the Tree Preservation and Protection provisions of Section 24 of the Code. Said permit shall meet the requirements of Sections 24-49.2 and 24-49.4 of the Code.

The applicant is required to comply with the above tree permitting requirements. This Department's approval of the subject application is contingent upon inclusion of said tree permitting requirements in the resolution approving this application.

The applicant is advised to contact the Tree Permitting Program at (305)-372-6600, voice option #2, for additional information regarding permitting procedures and requirements prior to site development.

Enforcement History

There are no open or closed enforcement records for violations of Chapter 24 of the Code for the subject property.

Concurrency Review Summary

A concurrency review has been conducted for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

C-05 #Z2011000077

Miami Gardens Commons, LLC

Page 3

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute written approval as required by Chapter 24 of the Code.

If you have any questions concerning the comments or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

PUBLIC WORKS AND WASTE MANAGEMENT DEPARTMENT

DIC REVIEW #11-077

Miami Gardens Commons, LLC

Application: *Miami Gardens Commons, LLC* is requesting a district boundary change from Industrial District, conditional (IU-C) to Special Business District (BU-2) to allow for the site to accommodate an ITT Technical Institute. The applicant also requests non-use variances to waive requirements to build a wall at the rear of the property line; develop an outdoor recreation/ play area; address "auto stacking" or the dropping off and picking up of children that do not drive or use public transportation; and address a standardized classroom size.

Size: The subject property is approximately 2.958 acres.

Location: The subject property is located at 5901 Miami Gardens Drive, in Miami-Dade County, Florida.

Analysis:

1. Solid Waste Disposal

The Miami-Dade County Solid Waste Management System consists of both County facilities and private facilities under contract as follows: three Class I landfills (two owned by Waste Management Inc., of Florida) a Class III landfill, a Resources Recovery Facility waste to energy plant and associated ash monofill, and three regional transfer facilities. The Public Works and Waste Management Department (PWWM) does not assess or adjust estimated capacity requirements based on the impacts of individual developments. Instead, the Department maintains sufficient disposal capacity to accommodate five years of waste flows committed to the system through long-term interlocal agreements or contracts with municipalities and private waste haulers and anticipated non-committed waste flows. The latest Concurrency Status Determination issued on September 12, 2011, which is valid for one year, shows sufficient disposal system capacity to exceed the County's adopted level of service (five years of capacity). This determination, which is on file with the Sustainability, Planning and Economic Enhancement Department (formerly the Department of Planning and Zoning) is contingent upon the continued ability of the County to obtain and renew disposal facility operating permits from the Florida Department of Environmental Protection, as needed.

2. Garbage and Trash Collection Services

The property as mentioned in the application falls within the PWWM solid waste collection service area. The placement of an ITT Technical Institute on the property will likely be considered development for a "commercial establishment". Chapter 15 of the Miami-Dade Code, entitled Solid Waste Management, requires the following of commercial developments located in unincorporated Miami-Dade County:

"every commercial and multi-family residential establishment shall utilize the solid waste collection services of either the proper governmental agency able to provide such services, or that of a licensed solid waste hauler authorized to perform such services by the Director of the Department." Therefore, the landlord or property owner is required to contact a private hauler to provide waste and recycling collection service. The collected material will subsequently be disposed of at PWWM facilities.

3. Recycling: Commercial Establishments

The following language from **Section 15-2.3a** requires commercial establishments "to provide for a recycling program, which shall be serviced by a permitted hauler or the appropriate governmental agency. The recycling program for commercial establishments must include a minimum of three (3) materials chosen from the following:

- | | |
|----------------------------------|--|
| 1) High grade office paper | 6) Steel (cans, scrap) |
| 2) Mixed paper | 7) other metals/scrap production materials |
| 3) Corrugated cardboard | 8) Plastics (PETE, HDPE-natural, HDPE-colored) |
| 4) Glass (flint, emerald, amber) | 9) Textiles |
| 5) Aluminum (cans, scrap) | 10) Wood |

Section 15-2.3 states the failure of a commercial establishment to provide a recycling program or a modified recycling program pursuant to Section 15-2.4 hereof shall constitute a violation of this section for which the property owner and the owner(s) and operator(s) of the commercial establishment shall be jointly and severally liable.

4. Waste Storage/Setout Considerations

Section 15-4 of the Code requires that plans for storage and collection of solid waste be adequate before a building permit may be issued. Site plans must address location, accessibility, number and adequacy of solid waste collection and storage facilities. The site plan legend must contain the following statement: "Facilities for the collection and storage of solid waste are shown in accordance with Section 15-4 of the Miami-Dade County Code."

5. Site Circulation Considerations

It is required that development associated with this project ensure that either of the following criteria be present in project design plans and circulation operations to minimize the reversing of waste vehicles and hence, provide for the safe circulation of service vehicles:

- a. Cul-de-sac with a minimum 49 foot turning radius (no "dead-ends").
- b. "T" shaped turnaround 60 feet long by 10 feet wide.
- c. Paved throughway of adequate width (minimum 15 feet).

In addition, any and all alleyways designed with utilities, including waste collection, provided at the rear of the property should be planned in accordance with standard street specifications with sufficient width and turning radii to permit large vehicle access. Additionally, there should be no "dead-end" alleyways developed. Also, a sufficient waste set-out zone should be preserved (between the edge of the pavement and any possible obstructions such as parked cars, fencing, etc.,) that would interrupt or preclude waste collection. **The PWWM has no objections to the proposed application.**

Planning and Research Division
Subject: Z2011000077: Miami Gardens Commons, LLC

Application Name: Miami Gardens Commons, LLC

Project Location: The site is located at 5901 Miami Gardens Dr., Miami-Dade County.

Proposed Development: The applicant is requesting a district boundary change from IU-C to BU-2. A non-use variance is requested to waive the requirement for a 5' high concrete masonry wall where the rear property line abuts residential property.

Impact and demand: The letter of intent specifies that the purpose of the district boundary change is for retail and office uses in an existing building. Therefore, it is assumed residential uses will not be included as a potential use. Because this application does not generate any residential population, the CDMP Open Space Spatial Standards do not apply and this Department has no objection to this application.

We have no comments concerning impact or demand on existing County parks, proposed or budgeted service expansion, nor do we perform a concurrency review.

If you need additional information or clarification on this matter, please contact John Bowers at (305) 755-5447.

The subject property has a three story office/retail building which is only occupied by three tenants all of which have been issued their Certificates of Use.

The landscape at the rear (north) property line of the subject property where the applicant is requesting the 5' high masonry wall to be waived as required where a business lot abuts a residentially zoned property is well maintained with green area with shrubs and trees. The abutting residential property has a chain link fence at the share rear property line of the subject property with a 6' well maintained ficus hedge with Queen palm trees.

No unauthorized uses were observed. Most of the vacant units will have to be built out to suit since the interior space is just a shell.
