NOTICE

THE FOLLOWING SUMMARY INFORMATION IS PROVIDED AS A COURTESY; IT SHOULD NOT BE TREATED AS LEGAL ADVICE AND IT SHOULD NOT BE RELIED UPON. LEGAL CONSULTATION MAY BE WARRANTED IF AN APPEAL OR OTHER LEGAL CHALLENGE IS BEING CONTEMPLATED.

Decisions of the Community Zoning Appeals Board (CZAB) may be subject to appeal or other challenge. For example, depending upon the nature of the requests and applications addressed by the CZAB, a CZAB decision may be directly appealable to the Board of County Commissioners (BCC) or may be subject to challenge in Circuit Court. Challenges asserted in Circuit Court, where available, must ordinarily be filed within 30 days of the transmittal of the pertinent CZAB resolution to the Clerk of the BCC. Appeals to the BCC, where available, must be filed with the Zoning Hearing Section of the Department of Planning and Zoning (DPZ) within 14 days after the DPZ has posted a short, concise statement (such as that furnished above for the listed items) that sets forth the action that was taken by the CZAB. (The DPZ's posting will be made on a bulletin board located in the office of the DPZ.) All other applicable requirements imposed by rule, ordinance, or other law must also be observed when filing or otherwise pursuing any challenge to a CZAB decision.

Further information regarding options and methods for challenging a CZAB decision may be obtained from sources that include, but are not limited to, the following: Sections 33-312, 33-313, 33-314, 33-316, and 33-317 of the Code of Metropolitan Dade County, Florida; the Florida Rules of Appellate Procedure; and the Municode website (www.municode.com). Miami-Dade County does not provide legal advice regarding potential avenues and methods for appealing or otherwise challenging CZAB decisions; however, a licensed attorney may be able to provide assistance and legal advice regarding any potential challenge or appeal.

ITEM NO.: A

A. INTRODUCTION:

o **SUMMARY OF REQUESTS:**

This application will allow the use of an existing addition to an existing single-family residence setback closer to the interior side (north) property line and to the rear (west) property line than permitted by the Zoning Code.

o **REQUESTS:**

Applicant is requesting to permit an existing addition to a single-family residence setback 6.32' (7.5' required) from the interior side (north) property line and setback 20' (25' required) from the rear (west) property line.

Plans are on file and may be examined in the Department of Planning and Zoning entitled "Legalization of Addition" as prepared by Fernando Gomez-Pina, P.E., dated stamped received 3/22/10 consisting of 2 sheets. Plans may be modified at public hearing.

o **LOCATION:**

14416 NE 3 Court, Miami-Dade County, Florida

o **SIZE:** 23,459 sq. ft.

B. ZONING HEARINGS HISTORY: None

C. COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP) OBJECTIVES, POLICIES AND INTERPRETATIVE TEXT:

*The Adopted 2015 and 2025 Land Use Plan designates the subject property as being within the Urban Development Boundary for **Low Density Residential**. The residential densities allowed in this category shall range from a minimum of 2.5 to a maximum of 6.0 units per gross acre. This density category is generally characterized by single family housing, e.g., single-family detached, cluster, zero lot line and townhouses. It could include low-rise apartments with extensive surrounding open space or a mixture of housing types provided that the maximum gross density is not exceeded.*

D. NEIGHBORHOOD CHARACTERISTICS:

ZONING

LAND USE PLAN DESIGNATION

Subject Property:

RU-1; Single Family Residence

Low-Density Residential, 2.5 to 6 du

Surrounding Properties:

NORTH: RU-1; Single Family Residence

Low-Density Residential, 2.5 to 6 du

SOUTH: RU-1; Single Family Residence

Low-Density Residential, 2.5 to 6 du

EAST: RU-1; Single Family Residence

Low-Density Residential, 2.5 to 6 du

WEST: RU-1; Single Family Residence

Low-Density Residential, 2.5 to 6 du

E. PERTINENT ZONING REQUIREMENTS/STANDARDS:

Section 33-311(A)(4)(b) Non-Use Variances From Other Than Airport Regulations. Upon appeal or direct application in specific cases, the Board shall hear and grant applications for non-use variances from the terms of the zoning and subdivision regulations and may grant a non-use variance upon a showing by the applicant that the non-use variance maintains the basic intent and purpose of the zoning, subdivision and other land use regulations, which is to protect the general welfare of the public, particularly as it affects the stability and appearance of the community and provided that the non-use variance will be otherwise compatible with the surrounding land uses and would not be detrimental to the community. No showing of unnecessary hardship to the land is required.

F. NEIGHBORHOOD SERVICES PROVIDER COMMENTS:

DERM	No objection*
Public Works	No objection
Parks	No comment
MDT	No comment
Fire Rescue	No objection
Police	No comment
Schools	No objection

*Subject to conditions indicated in their memorandum.

G. PLANNING AND ZONING ANALYSIS:

This item was deferred to June 30, 2011 due to a lack of quorum. The subject parcel is an interior lot with an existing single family residence thereon, located at 14416 NE 3 Court. Single family residences characterize the surrounding area where the subject property lies. The Land Use Plan (LUP) map of the Comprehensive Development Master Plan (CDMP) designates this site as **Low Density Residential** use. This designation permits a density range of a minimum of 2.5 to a maximum of 6 dwelling units per gross acre. The approval of this application will

allow the continued use of an existing game/study room and bathroom addition and the legalization of an existing one-car garage to a single-family residence setback closer to the interior side (north) property line and setback closer to the rear (west) property line than that permitted by the Zoning Code. The approval of the requests sought in the application will not add additional dwelling units to the site beyond what is allowed by the Land Use Map of the CDMP. Therefore, the approval of this application is **consistent** with the density threshold of the LUP map of the CDMP.

When this application is analyzed under the Non-Use Variance (NUV) Standard, Section 33-311(A)(4)(b), staff is of the opinion that the approval of this application would not affect the stability and appearance of the community, will not result in an obvious departure from the aesthetic character of the surrounding area and would be **compatible** with the surrounding area. Staff opines that the existing 1.18' encroachment of the one-car garage portion of the existing single-family residence is probably due to an inadvertent construction error when the residence was originally built. However, in order to mitigate said encroachment into the interior side (north) setback area, staff recommends that the applicant provides buffering in the form of a 6' high hedge, wood fence or wall along the interior side (north) property line. Additionally, staff recommends that in order to mitigate the negative visual impact of the 5' encroachment of the existing game/study room and bathroom addition into the required 25' rear setback area from the neighboring property to the west, that the applicant also provides said 6' high hedge, wood fence or wall along the rear (west) property line.

Further, due to the configuration of the floor plan of the existing residence, staff opines that it could easily be converted into a multi-family residential use by future owners, which would be contrary to the intent of the RU-1 zoning regulations. Specifically the game/study room and bathroom addition, which is connected to the existing one-car garage by way of a narrow hallway, could easily be converted into a separate residential unit. Therefore, staff recommends as a condition of the approval, that the applicants submit a Declaration of Use restricting the subject property to a single-family residence. In addition, staff also recommends as a condition, that the required building permits be obtained from the Building Department for the existing game/study room and bathroom addition. As such, staff recommends approval with conditions of this application.

Staff opines that approval of this application is consistent with the CDMP and compatible with the surrounding area. As such, staff recommends approval with conditions of this application under Section 33-311(A)(4)(b) (NUV).

I. RECOMMENDATION:

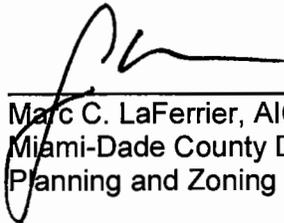

Approval with conditions.

J. CONDITIONS:

1. That a site plan be submitted to and meet with the approval of the Director of the Department of Planning and Zoning upon the submittal of an application for a building permit and/or Certificate of Completion; said plan to include, but not be limited to, location of structure or structures, exits and entrances, drainage, walls, fences, landscaping, etc.

2. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "Legalization of Addition" as prepared by Fernando Gomez-Pina, P.E., dated stamped received 3/22/10 consisting of 2 sheets.
3. That the use be established and maintained in accordance with the approved plan.
4. That the applicant obtain a building permit for the existing game/study room and bathroom addition from the Building Department within 90 days after the expiration of the appeal period.
5. That buffering be provided along the interior side (north) and the rear (west) property lines, either in the form of a hedge at a minimum height of 3' at time of planting to be maintained at a maximum height of 6' or a 6' high wall or wood fence. Said buffering shall be installed prior to final zoning inspection for the proposed addition.
6. That the applicants submit a Declaration of Use Agreement restricting the use of the subject property only to a single family residence prior to the issuance of a building permit for said game/study room and bathroom addition.

DATE TYPED: 03/25/11
DATE REVISED: 04/26/11, 05/27/11
DATE FINALIZED: 05/27/11
MCL:GR:NN: NC:TA

For 

Marc C. LaFerrier, AICP, Director
Miami-Dade County Department of
Planning and Zoning *NAN*

Date: March 30, 2010
To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From: Jose Gonzalez, P.E., Assistant Director
Environmental Resources Management

Subject: C-08 #Z2008000075-1st Revision
Manuel and Fabia Lima
14416 N.E. 3 Court
Request to Permit an Addition that Exceeds Setback Requirements
(RU-1) (0.51 Acres)
19-52-42

The Department of Environmental Resources Management (DERM) has reviewed the subject application and has determined that it meets the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida (the Code). Accordingly, DERM may approve the application, and the same may be scheduled for public hearing.

DERM has no pertinent comments regarding this application since the request does not entail any environmental concern.

Concurrency Review Summary

DERM has conducted a concurrency review for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute DERM's written approval, as required by the Code.

If you have any questions concerning the comments, or wish to discuss this matter further, please contact Christine Velazquez, at (305) 372-6764.

PUBLIC WORKS DEPARTMENT COMMENTS

Applicant's Names: MANUEL A LIMA AND FABIA A LIMA

This Department has no objections to this application.

This land requires platting in accordance with Chapter 28 of the Miami-Dade County Code. Any road dedications and improvements required will be accomplished thru the recording of a plat.

This application does not generate any new additional daily peak hour trips, therefore no vehicle trips have been assigned. This application meets the traffic concurrency criteria set for an Initial Development Order.

Raul A Pino, P.L.S.

RECOMMENDATION TO COMMUNITY COUNCIL No. 8**

APPLICANT: Habitat for Humanity of Greater Miami, Inc.

PH: Z11-003 (11-5-CZ8-2)

SECTION: 15-53-41

DATE: June 30, 2011

COMMISSION DISTRICT: 2

ITEM NO.: B

A. INTRODUCTION:

o **SUMMARY OF REQUESTS:**

This application will allow the construction of a single-family residence on a parcel of land with less frontage and lot area than that required by the Zoning Code and to allow said single-family residence with a reduced rear setback and with a proposed lot coverage which exceeds that permitted by the Zoning Code.

o **REQUESTS:**

- (1) Applicant is requesting to permit a parcel of land with a lot frontage of 50' (75' required) and a lot area of 3,500 sq. ft. (7,500 sq. ft. required).
- (2) Applicant is requesting to permit a proposed single-family residence to setback 12'10" (25' required) from the rear (west) property line.
- (3) Applicant is requesting to permit a single-family residence with lot coverage of 36.6% (35% maximum permitted).

Plans are on file and may be examined in the Department of Planning and Zoning entitled "Habitat for Humanity," as prepared by Thomas & Calzadilla, Sheet A1 dated stamped received 1/19/2011 consisting of two sheets. Plans may be modified at public hearing.

o **LOCATION:**

Lying west of N.W. 19 Court; approximately 240' west of N.W. 62 Street, Miami-Dade County, Florida.

o **SIZE:** 50' x 70'

B. ZONING HEARINGS HISTORY: None

C. COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP) OBJECTIVES, POLICIES AND INTERPRETATIVE TEXT:

1. *The Adopted 2015 and 2025 Land Use Plan designates the subject property as being within the Urban Development Boundary for **Low-Medium Density Residential** use. This category allows a range in density from a minimum of 6.0 to a maximum of 13 dwelling units per gross acre. The types of housing typically found in areas designated low-medium density include single-family homes, townhouses and low-rise apartments.*

Zero-lot-line single-family developments in this category shall not exceed a density of 7.0 dwelling units per gross acre.

2. Policy LU-1C

Miami-Dade County shall give priority to infill development on vacant sites in currently urbanized areas, and redevelopment of substandard or underdeveloped environmentally suitable urban areas contiguous to existing urban development where all necessary urban services and facilities are projected to have capacity to accommodate additional demand.

3. Objective LU-12

Miami-Dade County shall take specific measures to promote infill development that are located in the Urban Infill Area (UIA) as defined in Policy TC-1B or in a built-up area with urban services that is situated in a Community Development Block Grant (CDBG)-eligible area, a Targeted Urban Area identified in the Urban Economic Revitalization Plan for Targeted Urban Areas, an Enterprise Zone established pursuant to state law or in the designated Empowerment Zone established pursuant to federal law.

G. PLANNING AND ZONING ANALYSIS:

This item was deferred to June 30, 2011 due to a lack of quorum. The subject parcel is an interior lot, which lies west of N.W. 19 Court and approximately 240' north of N.W. 62 Street. Single-family residences and vacant lots characterize the surrounding area where the subject property lies. The Land Use Plan (LUP) map of the Comprehensive Development Master Plan (CDMP) designates this site as **Low-Medium Density Residential** use. This designation permits a density range of a minimum of 6 to a maximum of 13 dwelling units per gross acre, yielding a maximum density permitted of 1 dwelling unit on the 3,500 sq. ft. subject site. The approval of this application will allow the construction of a proposed single-family residence on a substandard size lot setback closer to the rear (west) property line with a greater lot coverage than that permitted by the Zoning Code. The subject property lies within the Urban Infill Area (UIA) and **Policy LU-1C** of the CDMP indicates that *Miami-Dade County should give priority to infill development on vacant sites in currently urbanized areas, and redevelopment of substandard or underdeveloped environmentally suitable urban areas contiguous to existing urban development where all necessary urban services and facilities are projected to have capacity to accommodate additional demand.* Additionally, the subject property is located in a Community Development Block Grant (CDBG)-eligible area and **Objective LU-12** of the CDMP indicates that Miami-Dade County should take specific measures to promote infill development that is situated in a CDBG-eligible area. Therefore, the requests are **consistent** with the UIA policy and CDBG objective of the interpretative text of the CDMP as well as with the density threshold of the LUP map of the CDMP.

When request #1, is analyzed under the Non-Use Variance (NUV) Standard, Section 33-311(A)(4)(b) staff is of the opinion that the proposed single-family residence on this substandard 3,500 sq. ft. lot is **compatible** with the development on the surrounding area which has been developed with single-family residences on similar substandard lots. Staff notes, pursuant to Resolution #CZAB8-7-05, the property located approximately 50' north of the subject property was granted a similar non-use variance of lot frontage and area requirements allowing the construction of a single-family residence on a parcel of land with a similar lot frontage of 50', and a similar lot area of 3,500 sq. ft. In addition, as previously mentioned staff notes that the subject property is located in an area designated for **Low Medium Density** which permits a density range of a minimum of 6 to a maximum of 13 dwelling units per gross acre, which yields a maximum density of 1 dwelling unit on the 3,500 sq. ft. subject site. As such, staff recommends approval of request #1.

When requests #2 and #3 are analyzed under the Non-Use Variance (NUV) Standard, Section 33-311(A)(4)(b), staff is of the opinion that the approval of the requests would not affect the

stability and appearance of the community and would be **compatible** with the surrounding area. The approval of the requests will not result in an obvious departure from the aesthetic character of the surrounding area. Staff notes that the property immediately to the southeast of the subject site, lying north of N.W. 62 Terrace and approximately 250' east of N.W. 19 Avenue, was granted among other things the approval to permit a single-family residence setback 21.6' from the rear property line and with a lot coverage of 35.1%, pursuant to Resolution No. CZAB8-40-08. Overall, staff is supportive of this application subject to conditions and notes that the proposal would be **consistent** with the intent of Policy LU-1C and Objective LU-12 of the CDMP which is to give priority to infill development on vacant sites in currently urbanized areas, and redevelopment of substandard or underdeveloped environmentally suitable urban areas contiguous to existing urban development and to promote infill development that is situated in a CDBG-eligible area. Staff further notes that infill development will also help to avoid the premature depletion of lands outside the Urban Development Boundary (UDB). **As such, staff recommends approval with conditions of requests #2 and #3 under Section 33-311(A)(4)(b) (NUV).**

I. RECOMMENDATION:

Approval with conditions.

J. CONDITIONS:

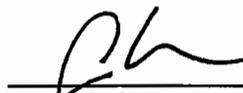

1. That a site plan be submitted to and meet with the approval of the Director of the Department of Planning & Zoning upon the submittal of an application for a building permit and/or Certificate of Use; said plan must include among other things but not be limited to, location of structure or structures, exits and entrances, drainage, walls, fences, landscaping, etc.
2. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "Habitat for Humanity," as prepared by Thomas & Calzadilla, Sheet A1 dated stamped received 1/19/2011 consisting of two sheets, except as may be specified by any zoning resolution applicable to the subject property, any future additions on the property which conform to Zoning Code requirements will not require further public hearing action.
3. That the use be established and maintained in accordance with the approved plan.

DATE TYPED: 03/28/11

DATE REVISED: 05/27/11

DATE FINALIZED: 05/27/11

MCL:GR:NN:CH:TA

For 

Marc C. LaFerrier, AICP, Director
Miami-Dade County Department of
Planning and Zoning *NEW*

Memorandum

Date: February 10, 2011
To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From: Jose Gonzalez, P.E., Assistant Director
Environmental Resources Management

Subject: C-08 #Z2011000003
Habitat for Humanity of Greater Miami, Inc.
6239 N.W. 19th Court
To Permit a Single-Family Residence with Less Setbacks than Required
from Property Lines and to Permit a Greater Lot Coverage than Permitted
(RU-2) (0.08 Acres)
15-53-41

The Department of Environmental Resources Management (DERM) has reviewed the subject application and has determined that it meets the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida (the Code). Accordingly, DERM may approve the application, and the same may be scheduled for public hearing.

Potable Water Service and Wastewater Disposal

Public water and public sanitary sewers can be made available to the subject property. Therefore, connection of the proposed development to the public water supply system and sanitary sewer system shall be required in accordance with Code requirements.

Existing public water and sewer facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required by DERM for this proposed development order.

Notwithstanding the foregoing, and in light of the fact that the County's sanitary sewer system has limited sewer collection, transmission, and treatment capacity, no new sewer service connections can be permitted, unless there is adequate capacity to handle the additional flows that this project would generate. Consequently, final development orders for this site may not be granted if adequate capacity in the system is not available at the point in time when the project will be contributing sewage to the system. Lack of adequate capacity in the system may require the approval of alternate means of sewage disposal. Use of an alternate means of sewage disposal may only be granted in accordance with Code requirements, and shall be an interim measure, with connection to the public sanitary sewer system required upon availability of adequate collection/transmission and treatment capacity.

Stormwater Management

Site grading and development plans shall comply with the requirements of Section 11C of the Code, as well as with all State and Federal Criteria, and shall not cause flooding of adjacent properties.

Any proposed development shall comply with County and Federal flood criteria requirements. The proposed development order, if approved, will not result in a reduction in the LOS standards for flood protection set forth in the CDMP subject to compliance with the conditions required by DERM for this proposed development order.

Wetlands

The subject property does not contain wetlands as defined by Section 24-5 of the Code; therefore, a DERM Class IV Wetland Permit will not be required.

The applicant is advised that permits from the Army Corps of Engineers (305-526-7181), the Florida Department of Environmental Protection (561-681-6600) and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Tree Preservation

The subject property contains tree resources. Section 24-49 of the Code provides for the preservation and protection of tree resources. A Miami-Dade County Tree Removal Permit is required prior to the removal or relocation of any tree that is subject to the Tree Preservation and Protection provisions of the Code. Said permit shall meet the requirements of Sections 24-49.2 and 24-49.4 of the Code.

The applicant is required to comply with the above tree permitting requirements. DERM's approval of the subject application is contingent upon inclusion of said tree permitting requirements in the resolution approving this application. The applicant is advised to contact DERM staff for additional information regarding permitting procedures and requirements prior to site development.

Enforcement History

DERM has found no open or closed enforcement record for the subject property.

Concurrency Review Summary

DERM has conducted a concurrency review for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute DERM's written approval, as required by the Code.

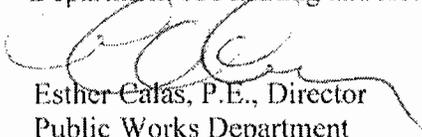

If you have any questions concerning the comments, or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

Memorandum

Date: November 26, 2008

To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From:  Esther Calas, P.E., Director
Public Works Department

Subject: Zoning Hearing Improvements

In order to enhance the efficiency of the zoning review process for public hearings, your Department requested that Public Works Department (PWD) provide standard "bypass" comments for some residential applications. These applications will be limited to single family residences, townhouses and duplexes, where the applicant seeks zoning hearing relief for a customary residential use, on previously platted lots. The following applications for public hearings could "bypass" the PWD review:

- Applications requesting setback variances
- Applications requesting variance on lot frontage
- Applications requesting variance on lot area
- Applications requesting greater lot coverage than permitted by Code
- Applications requesting additions to an existing structure

Pursuant to Sec. 33-24 of the Miami-Dade County Code, for those applications where a structure encroaches onto an easement, the applicant must secure from the easement owner a written statement that the proposed use will not interfere with owner's reasonable use of the easement.

Please contact Mr. Raul Pino, P.L.S., Chief, Land Development Division, at (305) 375-2112, if you have any questions.

cc: Antonio Cotarelo, P.E., Assistant Director
Public Works Department

Raul Pino, P.L.S., Chief
Land Development Division

A. INTRODUCTION:

o **SUMMARY OF REQUESTS:**

Approval of this application will allow the applicant to construct a single-family residence with a reduced rear setback and with a proposed lot coverage which exceeds that permitted by the Zoning Code.

o **REQUESTS:**

(1) Applicant is requesting to permit a single-family residence setback 12' 10" (25' required) from the rear (north) property line.

(2) Applicant is requesting to permit a single-family residence with a lot coverage of 36.6% (35% permitted).

Plans are on file and may be examined in the Department of Planning and Zoning entitled "Habitat for Humanity," as prepared by Thomas & Calzadilla, dated stamped received 1/19/2011, consisting of 3 sheets. Plans may be modified at public hearing.

o **LOCATION:**

Lying north of N.W. 73 Street, approximately 176' west of N.W. 14 Avenue, Miami-Dade County, Florida.

o **SIZE:** 50' x 70'

B. ZONING HEARINGS HISTORY: In July 2007, the subject property was approved to allow a parcel with less frontage and area than allowed by the zoning regulations, pursuant to Resolution #Z-19-07.

C. COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP) OBJECTIVES, POLICIES AND INTERPRETATIVE TEXT:

1. *The Adopted 2015 and 2025 Land Use Plan designates the subject property as being within the Urban Development Boundary for **Low-Medium Density Residential** use. This category allows a range in density from a minimum of 6.0 to a maximum of 13 dwelling units per gross acre. The types of housing typically found in areas designated low-medium density include single-family homes, townhouses and low-rise apartments. Zero-lot-line single-family developments in this category shall not exceed a density of 7.0 dwelling units per gross acre.*

2. Policy LU-1C

Miami-Dade County shall give priority to infill development on vacant sites in currently urbanized areas, and redevelopment of substandard or underdeveloped environmentally suitable urban areas contiguous to existing urban development where all necessary urban services and facilities are projected to have capacity to accommodate additional demand.

3. Objective LU-12

Miami-Dade County shall take specific measures to promote infill development that are located in the Urban Infill Area (UIA) as defined in Policy TC-1B or in a built-up area with urban services that is situated in a Community Development Block Grant (CDBG)-eligible area, a Targeted Urban Area identified in the Urban Economic Revitalization Plan for Targeted Urban Areas, an Enterprise Zone established pursuant to state law or in the designated Empowerment Zone established pursuant to federal law.

Public Works	No objection
Parks	No comment
MDT	No comment
Fire Rescue	No objection
Police	No comment
Schools	No objection

*Subject to conditions indicated in their memorandum.

G. PLANNING AND ZONING ANALYSIS:

This item was deferred to June 30, 2011 due to a lack of quorum. The subject parcel is an interior lot, which lies north of N.W. 73 Street, approximately 176' west of N.W. 14 Avenue. Single-family residences and vacant lots characterize the surrounding area where the subject property lies. The Land Use Plan (LUP) map of the Comprehensive Development Master Plan (CDMP) designates this site as **Low-Medium Density Residential** use. This designation permits a density range of a minimum of 6 to a maximum of 13 dwelling units per gross acre, yielding a maximum density permitted of 1 dwelling unit on the 3,500 sq. ft. subject site. The subject property lies within the Urban Infill Area (UIA) and **Policy LU-1C** of the CDMP indicates that *Miami-Dade County should give priority to infill development on vacant sites in currently urbanized areas, and redevelopment of substandard or underdeveloped environmentally suitable urban areas contiguous to existing urban development where all necessary urban services and facilities are projected to have capacity to accommodate additional demand.* Additionally, the subject property is located in a Community Development Block Grant (CDBG)-eligible area and **Objective LU-12** of the CDMP indicates that *Miami-Dade County should take specific measures to promote infill development that is situated in a CDBG-eligible area.* Therefore, the requests are **consistent** with the UIA policy and CDBG objective of the interpretative text of the CDMP as well as with the density threshold of the LUP map of the CDMP.

When requests #1 and #2 are analyzed under the Non-Use Variance (NUV) Standard, Section 33-311(A)(4)(b), staff is of the opinion that the approval of these requests would not affect the stability and appearance of the community and would be **compatible** with the surrounding area. The approval of requests #1 and #2, will not result in an obvious departure from the aesthetic character of the surrounding area. Staff notes that two (2) properties located to the northwest of the subject property on NW 74 Street, were approved for similar requests in 2009. For example, in October 2009, the property located at 1460 NW 74 Street was approved pursuant to Resolution #CZAB8-20-09, to permit a single-family residence setback 15' 10" from the rear (north) property line, where 25' is required and to permit a lot coverage of 35.1%, where a maximum of 35% is permitted by the Zoning Code. Staff also notes that the abutting property located to the west of the latter mentioned property, at 1470 NW 74 Street, was approved for identical variances of setbacks and lot coverage pursuant to Resolution #CZAB8-21-09, in November 2009. Overall, staff is supportive of this application subject to conditions, and notes that the proposal would be **consistent** with the intent of Policy LU-1C and Objective LU-12 of the CDMP which is to give priority to infill development on vacant sites in currently urbanized areas, and redevelopment of substandard or underdeveloped environmentally suitable urban areas contiguous to existing urban development and to promote infill development that is situated in a CDBG-eligible area. Staff further notes that infill development

will also help to avoid the premature depletion of lands outside the Urban Development Boundary (UDB). **As such, staff recommends approval with conditions of requests #1 and #2 under Section 33-311(A)(4)(b) (NUV).**

H. RECOMMENDATION:

Approval with conditions.

I. CONDITIONS:

1. That a site plan be submitted to and meet with the approval of the Director of the Department of Planning & Zoning upon the submittal of an application for a building permit and/or Certificate of Use; said plan must include among other things but not be limited to, location of structure or structures, exits and entrances, drainage, walls, fences, landscaping, etc.
2. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "Habitat for Humanity," as prepared by Thomas & Calzadilla, dated stamped received 1/19/2011, consisting of 3 sheets. Except as may be specified by any zoning resolution applicable to the subject property, any future additions on the property which conform to Zoning Code requirements will not require further public hearing action.
3. That the use be established and maintained in accordance with the approved plan.

DATE INSPECTED: 04/14/11

For 

Marc C. LaFerrier, AICP, Director
Miami-Dade County Department of
Planning and Zoning *MM*

Memorandum

Date: February 10, 2011
To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From: Jose Gonzalez, P.E., Assistant Director
Environmental Resources Management 

Subject: C-08 #Z2011000009
Habitat for Humanity of Greater Miami, Inc.
1437 N.W. 73rd Street
To Permit a Single-Family Residence with Less Setback than Required
from Property Lines and to Permit a greater Lot Coverage than Permitted
(RU-1) (0.08 Acres)
11-53-41

The Department of Environmental Resources Management (DERM) has reviewed the subject application and has determined that it meets the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida (the Code). Accordingly, DERM may approve the application, and the same may be scheduled for public hearing.

Potable Water Service and Wastewater Disposal

Public water and public sanitary sewers can be made available to the subject property. Therefore, connection of the proposed development to the public water supply system and sanitary sewer system shall be required in accordance with Code requirements.

Existing public water and sewer facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required by DERM for this proposed development order.

Notwithstanding the foregoing, and in light of the fact that the County's sanitary sewer system has limited sewer collection, transmission, and treatment capacity, no new sewer service connections can be permitted, unless there is adequate capacity to handle the additional flows that this project would generate. Consequently, final development orders for this site may not be granted if adequate capacity in the system is not available at the point in time when the project will be contributing sewage to the system. Lack of adequate capacity in the system may require the approval of alternate means of sewage disposal. Use of an alternate means of sewage disposal may only be granted in accordance with Code requirements, and shall be an interim measure, with connection to the public sanitary sewer system required upon availability of adequate collection/transmission and treatment capacity.

Stormwater Management

Site grading and development plans shall comply with the requirements of Section 11C of the Code, as well as with all State and Federal Criteria, and shall not cause flooding of adjacent properties.

Any proposed development shall comply with County and Federal flood criteria requirements. The proposed development order, if approved, will not result in a reduction in the Level of Service standards for flood protection set forth in the CDMP subject to compliance with the conditions required by DERM for this proposed development order.

Wetlands

The subject property does not contain wetlands as defined by Section 24-5 of the Code; therefore, a DERM Class IV Wetland Permit will not be required.

The applicant is advised that permits from the Army Corps of Engineers (305-526-7181), the Florida Department of Environmental Protection (561-681-6600) and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Tree Preservation

The subject property contains tree resources. Section 24-49 of the Code provides for the preservation and protection of tree resources. A Miami-Dade County Tree Removal Permit is required prior to the removal or relocation of any tree that is subject to the Tree Preservation and Protection provisions of the Code. Said permit shall meet the requirements of Sections 24-49.2 and 24-49.4 of the Code.

The applicant is required to comply with the above tree permitting requirements. DERM's approval of the subject application is contingent upon inclusion of said tree permitting requirements in the resolution approving this application.

The applicant is advised to contact DERM staff for additional information regarding permitting procedures and requirements prior to site development.

Enforcement History

DERM has found no open or closed enforcement records for the subject property.

Concurrency Review Summary

DERM has conducted a concurrency review for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute DERM's written approval, as required by the Code.

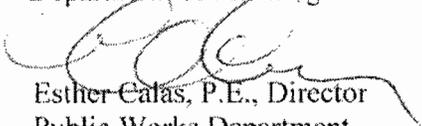

If you have any questions concerning the comments, or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

Memorandum

Date: November 26, 2008

To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From: 
Esther Calas, P.E., Director
Public Works Department

Subject: Zoning Hearing Improvements

In order to enhance the efficiency of the zoning review process for public hearings, your Department requested that Public Works Department (PWD) provide standard "bypass" comments for some residential applications. These applications will be limited to single family residences, townhouses and duplexes, where the applicant seeks zoning hearing relief for a customary residential use, on previously platted lots. The following applications for public hearings could "bypass" the PWD review:

- Applications requesting setback variances
- Applications requesting variance on lot frontage
- Applications requesting variance on lot area
- Applications requesting greater lot coverage than permitted by Code
- Applications requesting additions to an existing structure

Pursuant to Sec. 33-24 of the Miami-Dade County Code, for those applications where a structure encroaches onto an easement, the applicant must secure from the easement owner a written statement that the proposed use will not interfere with owner's reasonable use of the easement.

Please contact Mr. Raul Pino, P.L.S., Chief, Land Development Division, at (305) 375-2112, if you have any questions.

cc: Antonio Cotarelo, P.E., Assistant Director
Public Works Department

Raul Pino, P.L.S., Chief
Land Development Division

SECTION: 13-52-41

DATE: June 30, 2011

COMMISSION DISTRICT: 3

ITEM NO.: 1

=====

A. INTRODUCTION

o **SUMMARY OF REQUEST:**

This application will allow the applicant to submit a site plan which indicates the expansion of a previously approved religious facility by adding a new chapel and converting the existing chapel into a social hall.

o **REQUEST:**

- (1) MODIFICATION of Condition #4 of Resolution No. 4-ZAB-296-83, last modified by plans approved pursuant to Resolution 5-ZAB-288-95, both passed and adopted by Zoning Appeals Board, reading as follows:

FROM: "4. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "St. Simeon Orthodox Church," as prepared by Wilson R. Hernandez, P.A. Architects & Associates, dated 11-10-94, except as herein modified to include a 6' high wood fence on the North and East property lines and to exclude the house of worship."

TO: "4. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "New Chapel Addition St. Simeon " The Mirrh Flowing" Serbian Orthodox Church" as prepared by Joseph S. Dobos, dated stamped received 02/22/11, consisting of 3 sheets."

The purpose of request #1 is to allow the applicant to submit a new site plan showing a proposed chapel and the conversion of the existing chapel into a social hall for the previously approved religious facility.

The aforementioned plans are on file and may be examined in the Department of Planning and Zoning. Plans may be modified at public hearing.

o **LOCATION:**

175 NW 154 Street, Miami-Dade County, Florida.

o **SIZE:** 1.5 Acres

B. ZONING HEARINGS HISTORY:

In 1983, pursuant to Resolution #4-ZAB-296-83, the Zoning Appeals Board granted non-use variances of lot frontage, area and parking requirements allowing the continued use of church on the subject property. In 1988, pursuant to Resolution #4-ZAB-23-88, the Zoning Appeals Board granted a modification of a previously approved plan along with some non-use variances of building height and parking requirements. In 1995, pursuant to Resolution #5-ZAB-288-95, the Zoning Appeals Board granted a modification of a previously approved plan along with a special exception to expand the religious facility onto adjacent property and some non-use variances of parking regulations and lot area requirements.

C. COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP):

1. **Office/Residential.** *Uses allowed in this category include both professional and clerical offices, hotels, motels and residential uses. Office developments may range from small scale professional office to large-scale office parks. A specific objective in designing developments to occur in this category is that the development should be compatible with any existing, or zoned, or Plan-designated adjoining or adjacent residential uses. The maximum scale and intensity including height and floor area ratio of office, hotel and motel development in areas designated Office/Residential shall be based on such factors as site size, availability of services, accessibility, and the proximity and scale of adjoining or adjacent residential uses (Land Use Element, Page I-36).*
2. **Existing lawful residential and non-residential uses and zoning are not specifically depicted on the LUP map.** *They are however reflected in the average Plan Density depicted. All such lawful uses and zoning are deemed to be consistent with this Plan as provided in the section of this CDMP titled "Concepts and Limitations of the Land Use Plan Map." The limitation referenced in this paragraph pertain to existing zoning and uses. All approval of new zoning must be consistent with the provisions of the specific category in which the subject parcel exists, including the provisions for density averaging and definition of gross density.*
3. **Policy LU-4A.** *When evaluating compatibility among proximate land uses, the County shall consider such factors as noise, lighting, shadows, glare, vibration, odor, runoff, access, traffic, parking, height, bulk, scale of architectural elements, landscaping, hours of operation, buffering, and safety, as applicable.*

D. NEIGHBORHOOD CHARACTERISTICS:

ZONING

LAND USE PLAN DESIGNATION

SUBJECT PROPERTY:

RU-3M, religious facility

Office Residential

SURROUNDING PROPERTY:

<u>NORTH:</u>	RU-3M; apartment building	Office Residential
<u>SOUTH:</u>	RU-3M; educational facility	Office Residential
<u>EAST:</u>	RU-1; single-family residence	Low Density Residential 2.5 to 6 dua
<u>WEST:</u>	RU-3M; vacant	Office Residential

F. PERTINENT ZONING REQUIREMENTS/STANDARDS:

33-311(A)(7) Generalized Modification Standards. *The Board shall hear applications to modify or eliminate any condition or part thereof which has been imposed by any final decision adopted by resolution, and to modify or eliminate any provisions of restrictive covenants, or parts thereof, accepted at public hearing, except as otherwise provided in Section 33-314(C)(3); provided, that the appropriate board finds after public hearing (a) that the modification or elimination, in the opinion of the Community Zoning Appeals Board, would not generate excessive noise or traffic, tend to create a fire or other equally or greater dangerous hazard, or provoke excessive overcrowding of people, or would not tend to provoke a nuisance, or would not be incompatible with the area concerned, when considering the necessity and reasonableness of the modification or elimination in relation to the present and future development of the area concerned, or (b) (i) that the resolution that contains the condition approved a school use that was permitted only as a special exception, (ii) that subsequent law permits that use as of right without the requirement of approval after public hearing, and (iii) that the requested modification or elimination would not result in development exceeding the standards provided for schools authorized as a matter of right without the requirement of approval after public hearing.*

DERM	No objection
Public Works	No objection
Parks	No objection
MDTA	No objection
Fire Rescue	No objection
Police	No objection
Schools	No comment

H. PLANNING AND ZONING ANALYSIS:

The subject property is a 1.5-acre site zoned RU-3M, Minimum Apartment House, and is currently improved with a religious facility located at 175 NW 154 Street. The LUP map designates this property for **Office/Residential** use. Staff is of the opinion that the submitted site plan which indicates the expansion of an existing religious facility would be **consistent** with the Land Use Plan (LUP) of the CDMP and **compatible** with the surrounding area.

When this application is analyzed under Section 33-311(A)(7), the Generalized Modification Standards, staff opines that this application would not create a negative impact to the surrounding area. Staff notes that the location of the new chapel would not have a negative aural impact to the neighboring properties because the proposed chapel exceeds the spacing requirements as it applies to buildings of public assemblage required by the Zoning code. In addition, staff notes that the proposed chapel is well spaced from the interior side (east) property line and closer to NE 2nd Avenue, which is a major roadway. In addition, staff notes that the existing parking area would not be disturbed except for a small portion where the proposed new chapel will be constructed. As such, staff opines that said expansion would not create a negative impact to the surrounding area, such as additional noise, lighting, glare, access, traffic and parking. In addition, staff notes that the proposed chapel has been designed to match the same architectural elements as the existing building which is currently the church which will be converted into the social hall. As such, staff opines that the proposed expansion would be **compatible** with the area.

The plans submitted by the applicant, depict a proposed 4,352 sq. ft. chapel to be constructed to the south of the existing 9,306 sq. ft. building which is currently the church which will be converted into the social hall. The plans show that the proposed 4,352 sq. ft. chapel will be connected to the existing 9,306 sq. ft. building by an existing canopy, which provides shelter from the elements to those persons attending the religious services provided by this facility. Staff notes, that there will be sufficient parking for the proposed expansion and adequate buffering along the interior side (east) property line where the subject property abuts a single family residence, which is in the form of an existing 6' high wall and a 4.2' wide greenbelt with palm trees and a hedge. In addition, staff notes that the subject property fronts on a major street, NW 2nd Avenue, and that the proposed expansion maintains the existing use on the subject site which staff opines is transitional between the existing RU-3M district lying to the north, south and west of the subject property. **Therefore, staff recommends approval subject to a condition of this application under Section 33-311(A)(7).**

I. **RECOMMENDATION:**

Approval with a condition.

J. **CONDITION:**

That all the conditions of Resolution #4-ZAB-296-83 and #5-ZAB-288-95 remain in full force and effect except as herein modified.

Planning and Zoning *NDW*

Memorandum

Date: March 1, 2011

To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From: Jose Gonzalez, P.E., Assistant Director
Environmental Resources Management

A handwritten signature in black ink, appearing to read "Jose Gonzalez". The signature is written in a cursive, flowing style.

Subject: C-08 #Z201000081-1st Revision
St. Simeon Serbian Orthodox Church
175 N.W. 154th Street
Modification to Previously Approved Plans to a Prior Resolution
(RU-3M) (1.5 Acres)
13-52-41

The Department of Environmental Resources Management (DERM) has reviewed the subject application and has determined that it meets the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida (the Code). Accordingly, DERM may approve the application, and the same may be scheduled for public hearing.

Potable Water Service and Wastewater Disposal

Public water and public sanitary sewers can be made available to the subject property. Therefore, connection of the proposed development to the public water supply system and sanitary sewer system shall be required in accordance with Code requirements.

Existing public water and sewer facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required by DERM for this proposed development order.

Notwithstanding the foregoing, and in light of the fact that the County's sanitary sewer system has limited sewer collection, transmission, and treatment capacity, no new sewer service connections can be permitted, unless there is adequate capacity to handle the additional flows that this project would generate. Consequently, final development orders for this site may not be granted if adequate capacity in the system is not available at the point in time when the project will be contributing sewage to the system. Lack of adequate capacity in the system may require the approval of alternate means of sewage disposal. Use of an alternate means of sewage disposal may only be granted in accordance with Code requirements, and shall be an interim measure, with connection to the public sanitary sewer system required upon availability of adequate collection/transmission and treatment capacity.

Stormwater Management

All stormwater shall be retained on site utilizing properly designed seepage or infiltration drainage system. Drainage plans shall provide for full on-site retention of the stormwater runoff generated by a 5-year / 1-day storm event.

Site grading and development plans shall comply with the requirements of Section 11C of the Code, as well as with all State and Federal Criteria, and shall not cause flooding of adjacent properties.

Wetlands

The subject properties do not contain wetlands as defined by Section 24-5 of the Code; therefore, a DERM Class IV Wetland Permit will not be required.

The applicant is advised that permits from the Army Corps of Engineers (305-526-7181), the Florida Department of Environmental Protection (561-681-6600) and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Tree Preservation

The subject properties contain tree resources. Section 24-49 of the Code provides for the preservation and protection of tree resources. A Miami-Dade County Tree Removal Permit is required prior to the removal or relocation of any tree that is subject to the Tree Preservation and Protection provisions of the Code. Said permit shall meet the requirements of Sections 24-49.2 and 24-49.4 of the Code.

The applicant is required to comply with the above tree permitting requirements. DERM's approval of the subject application is contingent upon inclusion of said tree permitting requirements in the resolution approving this application.

The applicant is advised to contact DERM staff for additional information regarding permitting procedures and requirements prior to site development.

Enforcement History

DERM has reviewed their records and has found one open enforcement record for the subject property.

The following is a summary of the enforcement case:

Folio# 3022180021340
St. Simeon Serbian Orthodox Church (PSO-582)

On March 10, 2008, DERM issued a Warning Notice to the subject facility for the past due submittal of the elapsed time (ET) meter readings for the pump station as required by the DERM permit (PSO-582) for the site. A Notice Of Violation (NOV) was subsequently issued on 11/10/08 for failure to submit the completed ET meter readings. Further enforcement action is currently pending by DERM for this site for the continuing violation.

Concurrency Review Summary

DERM has conducted a concurrency review for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute DERM's written approval, as required by the Code.

If you have any questions concerning the comments, or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

PUBLIC WORKS DEPARTMENT COMMENTS

Applicant's Names: ST. SIMEON SERBIAN ORTHODOX CHURCH

This Department has no objections to this application.

Additional improvements may be required at time of permitting.

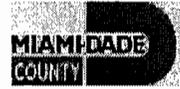

This application does not generate any new additional daily peak hour trips, therefore no vehicle trips have been assigned. This meets the traffic concurrency criteria set for an Initial Development Order.

Raul A Pino, P.L.S.

28-FEB-11

Memorandum

Date: 10-MAR-11
To: Marc LaFerrier, Director
 Department of Planning and Zoning
From: Herminio Lorenzo, Fire Chief
 Miami-Dade Fire Rescue Department
Subject: Z2010000081

Fire Prevention Unit:

This memo supersedes MDFR memorandum dated July 20, 2010.
 APPROVAL
 No objection to site plan date stamped February 22, 2011.

Service Impact/Demand:

Development for the above Z2010000081
 located at 175 N.W. 154 STREET, MIAMI-DADE COUNTY, FLORIDA.
 in Police Grid 0331 is proposed as the following:

<u>N/A</u>	dwelling units	<u>N/A</u>	square feet
<u>residential</u>		<u>industrial</u>	
<u>N/A</u>	square feet	<u>2,613</u>	square feet
<u>Office</u>		<u>institutional</u>	
<u>N/A</u>	square feet	<u>N/A</u>	square feet
<u>Retail</u>		<u>nursing home/hospitals</u>	

Based on this development information, estimated service impact is: 1.76 alarms-annually.
 The estimated average travel time is: 6:12 minutes

Existing services

The Fire station responding to an alarm in the proposed development will be:
 Station 32 - Uleta - 358 NE 168 Street
 Rescue, ALS Engine.

Planned Service Expansions:

The following stations/units are planned in the vicinity of this development:
 None.

Fire Planning Additional Comments

Current service impact calculated based on site plan date stamped February 22, 2011.

For information regarding the aforementioned comments, please contact the Miami-Dade Fire Rescue Department
 Planning Section at 786-331-4540.

ITEM NO.: 2

A. INTRODUCTION:

- o **SUMMARY OF REQUESTS:** The applicant seeks to permit an existing family room addition to the duplex residence encroaching into the rear (north) setback area and to permit a 0.4% increase in the lot coverage for said residence.

- o **REQUESTS:**
 - (1) Applicant is requesting to permit an existing addition to a duplex residence setback varying from 7.26' to 7.35' (25' required) from the rear (north) property line.

 - (2) Applicant is requesting to permit a lot coverage of 30.4% (30% maximum permitted).

Plans are on file and may be examined in the Department of Planning and Zoning entitled "Zoning Plans For Setback," as prepared by Properties Solution Service, LLC, dated stamped received December 22, 2010. Plans may be modified at public hearing.

C. COMPREHENSIVE DEVELOPMENT MASTER PLAN (CDMP) OBJECTIVES, POLICIES AND INTERPRETATIVE TEXT:

1. *The Adopted 2015 and 2025 Land Use Plan designates the subject property as being within the Urban Development Boundary for **Low Density Residential**. The residential densities allowed in this category shall range from a minimum of 2.5 to a maximum of 6.0 units per gross acre. This density category is generally characterized by single family housing, e.g., single-family detached, cluster, zero lot line and townhouses. It could include low-rise apartments with extensive surrounding open space or a mixture of housing types provided that the maximum gross density is not exceeded.*

2. *Existing lawful residential and non-residential uses and zoning are not specifically depicted on the LUP map. They are however reflected in the average Plan Density depicted. All such lawful uses and zoning are deemed to be consistent with this Plan as provided in the section of this CDMP titled "Concepts and Limitations of the Land Use Plan Map." The limitations referenced in this paragraph pertain to existing zoning and uses. All approval of new zoning must be consistent with the provisions of the*

specific category in which the subject parcel exists, including the provisions for density averaging and definition of gross density.

Low Density Residential, 2.5 to 6 dua

E. PERTINENT ZONING REQUIREMENTS/STANDARDS:

Section 33-311(A)(4)(b) Non-Use Variances from other than airport regulations.
*Upon appeal or direct application in specific cases, the Board shall hear and grant applications for **non-use variances** from the terms of the zoning and subdivision regulations and may grant a non-use variance upon a showing by the applicant that the non-use variance maintains the basic intent and purpose of the zoning, subdivision and other land use regulations, which is to protect the general welfare of the public, particularly as it affects the stability and appearance of the community and provided that the non-use variance will be otherwise compatible with the surrounding land uses and would not be detrimental to the community. No showing of unnecessary hardship to the land is required.*

G. PLANNING AND ZONING ANALYSIS:

The subject property is a duplex residence that is located at 507 NW 101 Street in an area characterized by duplex and single-family residences. The subject property is designated for **Low Density Residential** use on the Land Use Plan (LUP) map of the Comprehensive Development Master Plan (CDMP). This category allows a range in

density from a minimum of 2.5 to a maximum of 6 dwelling units per gross acre. The subject parcel is currently zoned RU-2, Two-family Residential District. However, the interpretative text of the CDMP states that *all such lawful uses and zoning are deemed to be consistent with this Plan as provided in the section of this CDMP titled "Concepts and Limitations of the Land Use Plan Map."* The limitations referenced in this paragraph pertain to existing zoning and uses. The approval of the request sought in the application will not add additional dwelling units to the site beyond what is allowed by the interpretative text and the LUP map of the CDMP. Therefore, the request is **consistent** with the interpretative text and the LUP map of the CDMP.

When the requests #1 and #2 are analyzed under Section 33-311(A)(4)(b), the Non-Use Variance (NUV) Standard, staff is of the opinion that the approval of these requests would be **incompatible** with the surrounding area and would affect the stability and appearance of the community. Staff opines that approval of the applicant's request of a 7.26' to 7.35' setback for the existing storage room addition into the rear (north) setback area, where 25' is required is excessive and would set a precedent for overly intensive requests of variances to the setback requirements in this area. However, in staff's opinion, if the storage room addition is removed, the existing residence would setback 17.6' from the rear (north) property line, of which staff would be supportive and in staff's opinion, would be similar another approval in the area. Staff's research indicates that a property located at 326 NW 102 Street, was approved to allow the residence setback 15.65' from the rear (south) property line in 1998 pursuant to Administrative Variance #V1998000148. As such, a modified approval of this request to remove the storage room addition from the plans would then allow the existing residence to setback 17.86' from the rear (north) property line would have a minimal negative visual impact on the abutting residence located to the north and would be **compatible** with the surrounding area.

Additionally, staff opines that request #2 is germane to request #1 and that the modified approval of request #1 to allow a 17.86' setback where 25' is required would therefore eliminate the need for this request. The removal of the existing storage room addition would result in an approximately 3% reduction of the lot coverage for the residence thereby bringing the residence into conformity with the RU-2 zoning regulations. However, staff recommends as a condition for the modified approval of request #1 that the existing storage room be eliminated and that the applicant obtains permits for all the additions to the residence. **Therefore, staff recommends a modified approval of request #1 to allow the residence to setback 17.86' from the rear (north) property line, and denial without prejudice of request #2, under Section 33-311(A)(4)(b), the Non-Use Variance (NUV) Standard.**

Based on the aforementioned, staff opines that a modified approval of request #1 and the denial without prejudice of request #2, would be **compatible** with the area and **consistent** with the LUP map and the interpretative text of the CDMP.

H. **RECOMMENDATION:**

Modified approval of request #1 to remove the storage room addition from the plans; denial without prejudice of requests #2.

I. CONDITIONS:

1. That a site plan be submitted to and meet with the approval of the Director of the Department of Planning and Zoning upon the submittal of an application for a building permit and/or Certificate of Completion; said plan to include among other things but not be limited to, location of structure or structures, exits and entrances, drainage, walls, fences, landscaping, etc.
2. That in the approval of the plan, the same be substantially in accordance with that submitted for the hearing entitled "Zoning Plans For Setback," as prepared by Properties Solution Service, LLC, dated stamped received December 22, 2010, **except as herein amended to show the removal of the existing storage room addition.**
3. That the use be established and maintained in accordance with the approved plan.
4. That the applicant shall obtain a demolition permit for the storage room addition from the Building Department within 90 days after the appeal period deadline date and remove said addition based on staff's recommendation.
5. That the applicant shall obtain a building permit for the existing residence from the Building Department within 90 days after the appeal period deadline date.

NDN

Memorandum

Date: January 13, 2011
To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From: Jose Gonzalez, P.E., Assistant Director
Environmental Resources Management

Subject: C-08 #Z2010000193
Joshua Neptune
507 N.W. 101st Street
To Permit a Duplex Residence Setback Less than Required from
Property Lines
(RU-2) (0.21 Acres)
01-53-41

The Department of Environmental Resources Management (DERM) has reviewed the subject application and has determined that it meets the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida (the Code). Accordingly, DERM may approve the application, and the same may be scheduled for public hearing.

Potable Water Service

Public water can be made available to the subject property. Therefore, connection of the proposed development to the public water supply system shall be required in accordance with the Code requirements.

Existing public water facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required by DERM for this proposed development order.

Wastewater Disposal

Public sanitary sewers are not located within feasible distance for connection to the subject property. Consequently, any proposed development would have to be served by a septic tank and drainfield as a means for the disposal of domestic liquid waste.

The subject property does not meet the minimum allowable lot size requirements of Section 24-43.1(3) of the Code for a single-family residence or duplex served with a septic tank and public water. However, since the legal subdivision, creating by plat such tract of land, occurred prior to the effective date of the aforesaid Code Section, the subject property is grandfatherable and may be administratively approved by DERM. DERM does not object to the proposed use served by a septic tank and drainfield disposal system, provided that all the above criteria are met and connection is made to public water.

Wetlands

The subject property does not contain wetlands as defined by Section 24-5 of the Code; therefore, a DERM Class IV Wetland Permit will not be required.

The applicant is advised that permits from the Army Corps of Engineers (305-526-7181), the Florida Department of Environmental Protection (561-681-6600) and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Tree Preservation

According to the site plan submitted with this zoning application, the proposal to permit an existing duplex with setbacks less than required from property lines will not impact tree resources. Therefore, DERM has no objection to this zoning application, however, please be advised that a Miami-Dade County Tree Removal Permit is required prior to the removal or relocation of any tree that is subject to the Tree Preservation and Protection provisions of the Code.

Enforcement History

DERM has found no open or closed enforcement records for the subject property.

Concurrency Review Summary

DERM has conducted a concurrency review for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute DERM's written approval, as required by the Code.

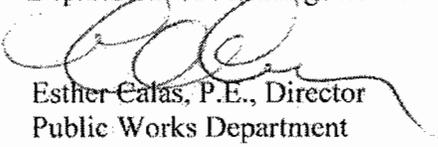

If you have any questions concerning the comments, or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

Memorandum

Date: November 26, 2008

To: Marc C. LaFerrier, AICP, Director
Department of Planning and Zoning

From:  Esther Calas, P.E., Director
Public Works Department

Subject: Zoning Hearing Improvements

In order to enhance the efficiency of the zoning review process for public hearings, your Department requested that Public Works Department (PWD) provide standard "bypass" comments for some residential applications. These applications will be limited to single family residences, townhouses and duplexes, where the applicant seeks zoning hearing relief for a customary residential use, on previously platted lots. The following applications for public hearings could "bypass" the PWD review:

- Applications requesting setback variances
- Applications requesting variance on lot frontage
- Applications requesting variance on lot area
- Applications requesting greater lot coverage than permitted by Code
- Applications requesting additions to an existing structure

Pursuant to Sec. 33-24 of the Miami-Dade County Code, for those applications where a structure encroaches onto an easement, the applicant must secure from the easement owner a written statement that the proposed use will not interfere with owner's reasonable use of the easement.

Please contact Mr. Raul Pino, P.L.S., Chief, Land Development Division, at (305) 375-2112, if you have any questions.

Memorandum

Date: 04-JAN-11
To: Marc LaFerrier, Director
Department of Planning and Zoning
From: Herminio Lorenzo, Fire Chief
Miami-Dade Fire Rescue Department
Subject: Z2010000193

Fire Prevention Unit:

Not applicable to MDFR site requirements.

Service Impact/Demand:

Development for the above Z2010000193
located at 507 NW 101 ST, MIAMI-DADE COUNTY, FLORIDA.
in Police Grid 0685 is proposed as the following:

<u>N/A</u> residential	dwelling units	<u>N/A</u> industrial	square feet
<u>N/A</u> Office	square feet	<u>N/A</u> institutional	square feet
<u>N/A</u> Retail	square feet	<u>N/A</u> nursing home/hospitals	square feet

Based on this development information, estimated service impact is: N/A alarms-annually.
The estimated average travel time is: 5:19 minutes

Existing services

The Fire station responding to an alarm in the proposed development will be:

Station 30 - Miami Shores - 9500 NE 2 Avenue
Rescue, ALS Engine

Planned Service Expansions:

The following stations/units are planned in the vicinity of this development:

None.

Fire Planning Additional Comments

Not applicable to service impact analysis.
