**Protect your Investment!**

Protect your investment and savings by having the Department of Planning and Zoning inspect your home or duplex to ensure that the property you are buying, selling or refinancing is in compliance with today’s zoning requirements and regulations.

**the SELLER:**

Ease your potential buyer’s mind by offering a complete “Zoning Inspector’s Report” which will add even more value to your property by demonstrating that you have complied with all the necessary zoning requirements. Should your property be in total compliance, this report will add more appeal to your property since it will lift a heavy burden from the buyer making a purchase that much more enticing. And, if by chance there isn’t total compliance, don’t despair. You will still have an opportunity to seek alternatives to correct any problems, negotiate these with the buyer and be better prepared to make any decisions necessary.

**the BUYER:**

If you are the buyer, this service is a “win-win” situation for you. The “Zoning Inspector’s Report” will provide you the assurances you need that the property you are about to purchase is in total compliance with the many zoning requirements that any property within Miami-Dade County must comply with. And, if by chance it does not, you have many options including seeking alternative means to correct them in the future.

**the REAL ESTATE PROFESSIONAL:**

Whether you are a real estate agent, practice real estate law or are in a profession that revolves itself around real estate dealings, this zoning inspection report will benefit you. You will be able to provide vital information to your clients and help them maximize and protect their investments. By having our staff do the work, you’ll free up valuable time to better serve your clients elsewhere.

**Our Service Doesn’t End!**

Once the report is given to you, our service doesn’t stop. Staff will sit down with you and go over the report and answer any questions or concerns.

If any violations on the property are found, our staff will review each one with you and offer guidance and possible solutions in order to help you remedy the problem.

The Department of Planning and Zoning’s Pre-Purchase Inspection Service is not intended to be an enforcement tool, rather a tool that will ultimately save you time and money.
