RESPONSE LETTER NO. 3 TO REQUEST FOR INFORMATION

Project Title: **Improvements to SW 87 Avenue Bridge Over Canal C-100**
Project No.: **20220010**

Email received from Mr. Nicholas F. Souchon, P.E., Condotte America, Inc.; on June 10, 2022, at 10:42 AM (Email Attached).

QUESTION: 4) Please provide drawing showing temporary support if it needs to support the 48" water main at sta. 24+37.5. Underneath excavation is needed to cross 24" pipe between manhole, S-16 and manhole, S-17. Please advise.

RESPONSE: 4) Please Refer to the General Requirements on the Solicitation Documents, section 1.05 Legal Requirements and Responsibility to The Public, subsection "L" Preservation of Property, article 6, sub article 3, item d.

QUESTION: 6) Please show on the plans where is located the concrete sidewalk (6" thick)? Under pay item notes, says "522-1 includes the cost of pedestrian ramps."

RESPONSE: 6) Refer to FDOT Standard Drawings 522-01, Note 1 and 522-03, Note 7 and legend. The FDOT standard drawings indicate that the pedestrian ramps and driveways are to use 6-inch-thick concrete.

QUESTION: 8) Is going to be a public information officer for this job? After a field visit, some houses shown signs opposing to this bridge.

RESPONSE: 8) Contractor will not be responsible of the project public information. If a public information officer is required, it will be provided by DTPW.

Email received from Mr. YASSIR EL-KHAMLICHI, MCMC- US.; on June 16, 2022, at 3:08 PM (Email Attached).

QUESTION: 6) Is there any indication of any contaminated water or soils for this project?

RESPONSE: 6) DTPW does not have any information specific to the project regarding contamination. In the event the contractor encounters contaminated materials, contractor to follow Article 1.06, K,10 of the General Requirements, (Division 1).

Email received from Mr. Nicholas F. Souchon, P.E., Condotte America, Inc.; on June 23, 2022, at 10:42 AM (Email Attached).

QUESTION: 1) The structural plans indicate that the FL Slab Beams are 18" depth but Item No. 450-8-24 on the bid form shows Depth of 15". Please confirm the correct dimensions.

RESPONSE: 1) The FL Slab Beams shall be 18" depth. The change is reflected under Revised Bid Form for Addendum No. 3.

QUESTION: 2) The Beam Data Table on Sheet 68 of 81 provides 60'-0" for Dimension L as the length of the FL Slab Beams. This dimension appears to be incorrect. Please confirm the correct length of the slab beams.

RESPONSE: 2) The correct length of the slab beams is 66 ft. Changes are reflected under Revised Sheets for Addendum No. 3

QUESTION: 3) The bid items for Bridge Deck Grooving and Bridge Deck Planning do not match. Please confirm.

RESPONSE: 3) The bridge deck grooving shall only be used in the vehicle travel area. Not included in bike lanes. Pay item 400-9-1 for Bridge Deck Planning has been deleted. Please refer to the Revised Sheets and Bid Form for Addendum No. 3.

QUESTION: 4) The section view C-C on Sheet 66 of 81 and the bar list on Sheet 77 of 81 depicts reinforcement for an 18" diameter auger cast pile instead of 24" diameter. Please confirm the correct diameter of the Auger cast piles and provide corrected Section C-C and bar list as required.

RESPONSE: 4) Auger Cast Pile (ACP) shall be 24" diameter. Please refer to the Revised Sheets for Addendum No. 3.

Email received from Mr. Ariel Rodilla, EBSARY Foundation Co.; on June 15, 2022, at 11:19 AM (Email Attached).

QUESTION: 1) According to our guardrail provider: (Pay Item No. 536-1-1 Guardrail – Roadway) These plans do not call out specific end treatments or connections. Can you please clarify?

RESPONSE: 1) Cost of Guardrail Bridge Connections and End Treatments to be included in costs of item 536-1-1. The parapet connections shall be Approach Transition Connection to Rigid Barrier – Low Speed, TL-2. The trailing ends shall be End Treatment -Transition Anchorage w/ Rounded End Unit. The approaches along SW 87th Ave shall be End Treatment Approach Terminal Parallel. All items of work to furnish and install a complete guardrail system are to be included under pay item 536-1-1, as specified under the Construction Specifications, under Article 536, G.

Email received from Mr. Steve McNamara, ANZAC CONTRACTORS, INC.; on June 24, 2022, at 2:14 PM (Email Attached).

QUESTION: 1) Could you please address the following: In reference to the steel reinforcement – The section view and reinforcement bar list depict reinforcement for an 18” auger cast pile instead of a 24” auger cast pile as per the pile data table.

RESPONSE: 1) ACP shall be 24” diameter. Please refer to the Revised Sheets for Addendum No. 3.

QUESTION: 2) The section view depicts a #9 center bar per pile – quantity of 9P01 bars should be 22, consistent with the number of piles per plan; however, the reinforcement bar list denotes a quantity of 26.

RESPONSE: 2) The total should be 23 including the test pile. Please refer to the Revised Sheets for Addendum No. 3.

QUESTION: 3) Also Can you please provide the steel reinforcement for the 24” auger cast pile?

RESPONSE: 3) Provided, please refer to the Revised Sheets for Addendum No. 3.

Email received from Mr. Nicholas F. Souchon, P.E., Condotte America, Inc.; on June 28, 2022, at 4:50 PM (Email Attached).

QUESTION: 1) To install the 24” French Drain between S14 and S17 drainage structures is necessary to remove partial driveway from two houses. Please provide detail plan to repair them, and in which bid item should the cost be allocated.

RESPONSE: 1) Restoration cost is to be included the costs of French Drains. The driveway restoration shall match the type of the existing driveway. See Plans General Note Numbers 17, 49, 51, and 52 and also Construction Specifications, Section 443, French Drains, G Basis of Payment, Article 2.

END OF REQUEST FOR INFORMATION No. 3

Sincerely,

A handwritten signature in blue ink, appearing to read "A. Muñoz".

EMAIL RECEIVED FROM EXTERNAL SOURCE

Good Morning Katherine,

Condotte America, LLC wants to post the first request for information- 001 in reference above subject job:

- 1) Please provide final drawings showing new relocation of aerial power lines (FPL poles) and guywire from Sta. 16+00 to Sta. 22+00.
- 2) Please advise when, and how long will take the FPL power lines relocation work.
- 3) Please provide additional information for existing underground watermain 48": years on service, pipe material.
- 4) Please provide drawing showing temporary support if it needs to support the 48" water main at sta. 24+37.5. Underneath excavation is needed to cross 24" pipe between manhole, S-16 and manhole, S-17. Please advise.
- 5) Please provide allowed work hours, and days of the week for construction.
- 6) Please show on the plans where is located the concrete sidewalk (6" thick)? Under pay item notes, says "522-1 includes the cost of pedestrian ramps."
- 7) Please advise if there are additional test for the auger-cast-pile foundation such as: Lateral Load Test, Static Load Test, and Proof Load Test. If the tests are needed, how many, and where is allocated the cost.
- 8) Is going to be a public information officer for this job? After a field visit, some houses shown signs opposing to this bridge.
- 9) The job advertisement indicates the anticipated start date September 12th, 2022. For how long the County can hold the execution of the contract. Our understanding is up to six months. Please advise.

Any question, please don hesitate to contact me.

Respectfully,

Nicholas F. Souchon, P.E.

Subject: Project Number 20220010 - Improvements to SW 87 Avenue Bridge Over Canal C-100

EMAIL RECEIVED FROM EXTERNAL SOURCE

Good Afternoon, Katherine,

We have some RFI's for the above referenced project:

- 1- Please confirm that all utilities relocation are scheduled to be done prior to NTP.
- 2- Please confirm that User Access Program Fee (2% of total price) is required for this project.
- 3- Please confirm that Inspector General Fee (0.25% of total price) is not required for this project.
- 4- Please confirm that an Engineer's Field Office is Mandatory for this project.
- 5- Please confirm that all permit fees are reimbursable by the Department?
- 6- **Is there any indication of any contaminated water or soils for this project?**
- 7- The plans call for Guardrail Bridge Connections and End Treatments, but no bid items were provided for this work. Please address.
- 8- Note on Roadway Plan Sheet 5 of 81 calls for including the cost of Type II Skimmer under bid item 425-1-319A. This bid item does not exist, please address.
- 9- Note on Roadway Plan Sheet 5 of 81 calls for including the cost of Metal Pipe Encasement under Drainage Structures bid items 425-1 to 425-2. Please indicate where this encasement applies.

Thank you,

YASSIR EL-KHAMLICHI

EMAIL RECEIVED FROM EXTERNAL SOURCE

Good Afternoon Katherine,

My name is Nicholas Souchon, I work for Condotte America, LLC; and we are one of the bidder for above subject job.

I sent RFI-001 on June 10th regarding above subject bid. However, I don't see these questions respond under Respond Letter No. 1.

Please see Condotte's RFI 002 below:

Sent 6/23/2022 (RFI-002)

- 10) The structural plans indicate that the FL Slab Beams are 18" depth but Item No. 450-8-24 on the bid form shows Depth of 15". Please confirm the correct dimensions.
- 11) The Beam Data Table on Sheet 68 of 81 provides 60'-0" for Dimension L as the length of the FL Slab Beams. This dimension appears to be incorrect. Please confirm the correct length of the slab beams.
- 12) The bid items for Bridge Deck Grooving and Bridge Deck Planning do not match. Please confirm.
- 13) The section view C-C on Sheet 66 of 81 and the bar list on Sheet 77 of 81 depicts reinforcement for an 18" diameter auger cast pile instead of 24" diameter. Please confirm the correct diameter of the Auger cast piles and provide corrected Section C-C and bar list as required.

Please confirm receiving this email.

Respectfully,

Nicholas F. Souchon, P.E.
