Comments:	On May 28, 2024, the Governor signed into law House Bill (“HB”) 705. Prior to the adoption of HB 705, section 255.0992 of the Florida Statutes generally prohibited Miami-Dade County (the “County”), from requiring a contractor, subcontractor, or supplier to pay or provide a predetermined amount of wages or benefits to its employees or recruit or hire employees from a designated or restricted source in construction projects paid for with any state-appropriated funds. Additionally, under the same statute, the County could not apply small business measures or limit bidding among Small Business Enterprise-Construction (“SBE-Con”) firms for construction projects paid for with any state funds. However, for contracts funded solely with County funds, prior to the adoption of HB 705, section 255.0992 did not limit the application of the County’s SBE-Con program, responsible wages, or workforce requirements. HB 705 revised the definition of the term “public works project” in Section 255.0992, Florida Statutes to include activities paid for with local County funds, making the various prohibitions found in section 255.0992 applicable to County funded construction contracts. HB 705 impacts construction projects that are in various phases of the procurement process whether pending advertisement or bid submittal, and in some cases pending contract award with bids having been received. Thus, considering the passing of HB 705, effective July 1, 2024, the following prohibitions exist: • The County’s Responsible Wages & Benefits, Community Workforce, Residence First Training and Employment, and Employ Miami-Dade Program requirements will not be applied to the County’s capital construction projects, including design-build projects, awarded after July 1, 2024. • The County’s SBE-Con requirements cannot be applied on any capital construction projects, including design-build projects, if initial bids or proposals are received on or after July 1, 2024. SMALL BUSINESS ENTERPRISE-CONSTRUCTION PROGRAM REQUIREMENTS: In accordance with Sections 2.25 and 2.33 (E) of CICC 7360-0/08 this Project is considered a single trade or primarily single trade project. Primary Trade related work shall not be subcontracted. If ancillary (trade) work is required to complete this Project you may contract with a subcontractor with approval from the contracting Department. Location of Work: The location(s) of the Work to be performed under the terms of this Contract are along Miami-Dade County. The actual location(s) of work shall be identified in the Work Order(s) issued subsequent to the Award of the Contract. The combined total cost for all work authorized by the Work Order(s) shall not exceed the Contract Award amount. Contractor Certification Requirements: A. Certificate of Competency Requirement: 1. At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active: a. Certificate of Competency from the County’s Construction Trades Qualifying Board as a Specialty Engineering Contractor, commensurate to the requirements of the Scope of Work, in one or more engineering crafts to include, paving engineering contractor, painting and waterproofing, painting or parking strip painting. The specialty contractor shall subcontract with a qualified contractor any work which is incidental to the specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified. 2. Pursuant to Section 255.20, F.S. and in lieu of the above, the County may consider a bid from a Bidder that is a duly licensed Contractor in good standing that has been prequalified and considered eligible by the Florida Department of Transportation (FDOT) under Section 337.14, F.S. and Chapter 14-2, Florida Administrative Code, to perform the work described in the Contract Documents. Contractors seeking consideration under this Paragraph shall submit along with the Bid Documents for review and consideration, current copy(ies) of their FDOT Certificate(s) of Qualification, Certification of Work Underway, and Status of Contract(s) On Hand. Acceptable FDOT prequalification(s) necessary to perform the Work specified in the Contract Documents include the Pavement Marking Work Class. B. Experience Requirement: 1. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project’s Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the Public Right-of-Way is similar in detail to the Project’s Scope of Work described in these Solicitation Documents. Demonstrate the experience requirement by: a. Providing a detailed description of at least three (3) projects similar in detail to the Project’s

Scope of Work described in these Solicitation Documents and in which the Bidder's identified personnel is currently engaged or has completed within the past five years. Contractors seeking consideration under this Paragraph shall submit along with the Bid Documents for review and consideration, current copy(ies) of their FDOT Certificate(s) of Qualification in the Pavement Marking Work Class, Certification of Work Underway, and Status of Contract(s) On Hand.
