

Water and Sewer
 3071 SW 38 Avenue
 Douglas Building
 Miami Fl 33146

MIAMI-DADE COUNTY, FLORIDA
REQUEST FOR PRICE QUOTATION (RPQ)
 Contract No: MCC 7360 Plan
 RPQ No: P16140

INVITATION TO BID

A RPQ has been issued for the work identified below. If you are interested in submitting a bid for this project, please submit your bid via Electronic Bidding, attention to Mike Hernandez at no later than 6/12/2026 at 10:00 AM. If you have any questions, contact Miguel Hernandez at 7865528803.

This RPQ is issued under the terms and conditions of the Miscellaneous Construction Contracts (MCC) Program MCC 7360 Plan.

RPQ DETAILED BREAKDOWN

Bid Due Date:	6/12/2026	Time Due:	10:00 AM	Submitted Via:	Electronic Bidding		
Estimated Value:	\$1,807,580 (excluding Contingencies and Dedicated Allowances)						
Project Name:	UPGRADE SEWAGE PUMP STATION No. 0382						
Project Location:	17060 NW 84 Court, Miami, FL 33015						
License Requirements:	Primary:	General Building Contractor; Underground Utility / Excavation; General Engineering; Pipe Lines; Pipelines Engineering Contractor					
	Sub:	Electrical Contractor					
Scope of Work:	<p>(Contractor must obtain and submit all permits prior to performing any work).</p> <p>1.00 SCOPE</p> <p>A. The project consists of furnishing all materials (except those listed in Section 4.00 "Materials and Equipment Furnished by The Department"), labor, equipment, tools and other facilities and services necessary for proper execution, testing, and completion of the work required to Upgrade Sewage Pump Station No. 0382 and place the upgraded pump station at its new approved location.</p> <p>This includes, but is not limited to, site preparation, demolition work, installation of new structures, installation of mechanical and electrical equipment, and restoration of impacted areas. Site preparation may require clearing and grubbing prior to demolition and construction work.</p> <p>The Contractor shall provide uninterrupted by-pass pumping capabilities and by-pass for electrical service for the existing pump station flows and power during all construction time and until the new pump station is completely operational; the bypass system shall have a flow and head capacity equal to or greater than the proposed pumps; tested and accepted by the Owner and regulatory agencies (see by-pass requirements on Section 8.00 "Measurement and Payment"). The Contractor shall also be required to design, obtain approval, implement, and maintain a Maintenance of Traffic Plan (MOT) during construction activities, as required. Additionally, the Contractor shall comply with the best management practices for stormwater pollution prevention, including control of erosion and sedimentation during construction activities, such as installing silt traps in all stormwater drainage inlets close to the project site.</p> <p>Demolition work includes, but is not limited to: removal and proper disposition of all internal components on the existing wet well and dry well, including but not limited to pumps, piping, valves, fittings and ladders; removal of existing pump station control panels and other electrical equipment, including but not limited to the meter base, disconnect devices, pullout and junction boxes, and all related conduits and wiring, including the buried feed line (Note: All salvageable equipment and materials shall be given back to the Department. The remote terminal unit - SCADA/RTU - shall be removed and provided back to WASD); removal/demolition of wet well chimney and abandon existing wet well; removal/demolition of dry well chimney and abandon existing dry well; demolition of concrete steps outside dry well; and filling of the remaining pits with suitable fill; cap and filling with flowable fill of approximately 1,295 linear feet of existing 4-inch ACP (asbestos cement pipe) force main, from the</p>						

existing valve vault up to receiving manhole MH I-30; rehabilitation of existing manhole (MH I-30) as shown on plans; cap and fill with flowable fill 128 linear feet of existing 8-inch sanitary sewer, and 126 linear feet of water main service line; removal of approximately 67 linear feet of existing 8-inch sanitary sewer; removal of existing pump station appurtenances, backflow preventer and air vent; removal of approximately 137 linear feet of chain link fence and gate, removal of grass, and all other items deemed necessary to be removed to leave the property ready to be restore. The Contractor shall modify the flow pattern in the existing manhole. Coordinate with Miami-Dade Water and Sewer Department (MDWASD) for the salvage of any other material and/or equipment in addition to the mentioned above.

The Contractor shall furnish and install new equipment and materials such as: new wet well with top slab and aluminum watertight hatch, new valve vault with top slab and aluminum watertight hatch; new duplex 15 HP submersible pumps and related equipment as specified on plans, all piping, valves, fittings and appurtenances for new pump station discharge and EPO connection; new 8-inch ductile iron pipe (DIP) discharge piping force main (approximately 123 LF total), and connecting to the existing 8-inch force main on site; new manhole, 66 linear feet of 8-inch gravity sewer influent line; new sump pump and its discharge piping at the valve vault; new concrete platform for electrical controls and facilities; new concrete slab for backflow preventer; 28 linear feet of 1-inch HDPE water service line, 10 linear feet of .-inch type K cooper water service line, including hose bibb with backflow preventer and protective cage; new control panel, electrical service, electric meter, main disconnect, motor connection box and SCADA antenna, including mounting structures; new electrical conduits and wiring for power, controls and grounding, including grounding rods and test wells. Contractor will install new remote terminal unit (RTU) with new enclosure. Contractor shall coordinate with FPL the power connection.

The Contractor shall furnish and install sod, concrete sidewalk, asphalt pavement, and all other areas and surfaces impacted during construction (as required) to maintain the site in equal or better condition as the existing. This includes the full restoration of disturbed areas and the furnishing and installation of landscape elements, such as Bahia sod, Beach Creeper (*Ernodea Littoralis*), Sabal Palmetto, and Simpson's Stopper, as shown in the plans. All work under this scope will be compensated as an aggregate sum, in accordance with the cost breakdown approved by the Engineer. In addition, the Contractor shall provide start up and testing of the new facilities, and other appurtenant and miscellaneous items, services, and work for a complete, satisfactory, and functional installation. This may include dewatering and disposal of product water as needed..

B. Pumping Station 0382 is located at 17060 NW 84 Court, Miami, FL 33015.

C. The Department reserves the right to issue the Notice to Proceed (NTP) to the Contractor at any time after the Award Letter has been issued.

D. It is the intent of the MDWASD to obtain a complete functional, satisfactory, and legally operable installation under this project, and any items of labor, equipment or materials which may be reasonably assumed as necessary to accomplish this end shall be supplied whether or not they are

specifically shown on the Plans or stated herein.

E. The Contractor is also alerted that various "Standards" are used herein for reference and criteria, and that he should obtain copies for his general use and protection. Abbreviated titles are used throughout these Specifications and although most of them are widely known, their complete

titles are given below in order to avoid any misunderstanding.

o AASHTO American Association of State Highway and Transportation Officials

o ACI American Concrete Institute

o AISI American Iron and Steel Institute

o ANSI American National Standards Institute, Inc.

o ASTM American Society for Testing and Materials

- o AWWA American Water Works Association
- o DERM Department of Environmental Resources Management
- o EPA (US) Environmental Protection Agency
- o FAC Florida Administrative Code
- o FBC Florida Building Code
- o FDEP Florida Department of Environmental Protection
- o FDOT Florida Department of Transportation
- o FPL Florida Power and Light Company
- o HI Hydraulic Institute
- o IEEE Institute of Electrical and Electronics Engineers
- o ISO International Organization for Standardization
- o MDCPW Miami-Dade County Public Works Department
- o MDWASD Miami-Dade County Water and Sewer Department (herein Department)
- o MSS Manufacturers Standardization Society
- o NEC National Electrical Code
- o NEMA National Electrical Manufacturer's Association
- o NFPA National Fire Protection Association
- o OSHA Occupational Safety and Health Administration
- o RER Regulatory and Economic Resources Department
- o UFC Uniform Fire Code
- o UL Underwriters Laboratories

F. The above list shall not be considered complete, as there are other "Standards" used; however, in most cases complete titles have been given.

G. Wherever "Standards" are indicated herein for reference, the referenced portion shall have the same force and effect as if it were included, herein, in its entirety, latest revision if the date of publication is not shown.

H. The Specifications included in these Contract Documents establish the minimum performance and quality requirements for materials and equipment with the minimum standards for quality of the

workmanship and appearance. Generally, there has been no attempt to separate the Specification

sections into groups for the work of separate subcontractors, or for work to be performed by the various trades. Should there be any question as to the interpretation of any particular Specification

section or part of Specification section, such question should be directed to the Department prior to

the submittal of a proposal for the work under this Contract.

I. Any part of the work which is not mentioned in the Specifications but is shown on the Plans, or any part not shown on the Plans but described in the Specifications, or any part not shown on the

Plans nor described in the Specifications, but which is necessary or normally required as a part of such work, or is necessary or required to make each installation satisfactorily and legally operable,

shall be performed by the Contractor as incidental work without extra cost to MDWASD, as if fully described in the Specifications and shown on the Plans, and the expense thereof shall be included

in the applicable unit prices or lump sum bid for the work.

J. Testing

1. Testing procedures shall be submitted to the Engineer as Shop Drawings and will be subject to review and approval. The Department reserves the right to require test procedure and equipment changes and revisions to the extent considered appropriate by the Engineer whose decision shall be final. The Contractor is advised that all testing shall be carried out in accordance with the best practices of the trade, best

management practices (bmp) and as recommended in writing by the engineering/technical/test staff of the manufacturer of the equipment and he should plan and price his test work accordingly. In no case will test recommendations of a manufacturer's sales or management groups be considered sufficient. All necessary temporary power sources, load banks, test materials, test instrumentation, qualified test personnel including manufacturer's representatives, fuels and lubricants shall be provided by the Contractor and shall be as approved by the Engineer and, if not approved, the Contractor shall change the item(s) to the satisfaction of the Engineer.

Where required by the Engineer, testing shall be carried out utilizing Contractorsupplied power sources and load banks prior to any connection with FPL. The

Contractor shall include in his prices bid all costs for testing and no extra compensation will be allowed.

2. Factory testing of equipment is in all cases required and test data from these tests shall be provided to the Engineer prior to shipment. The Department will decide when

to send its personnel or representatives to the factory for witness testing of equipment. Travel expenses for Department personnel or representatives are paid for by the Department. Repeat tests due to unsuccessful tests will be borne by the Contractor. To establish a base line, the Bidder will assume that any piece of equipment with an invoice cost to the Contractor of one hundred thousand dollars (\$100,000) or more will require witnessed testing. The MDWASD will in the Specifications try in all cases to note which items will require testing.

3. On site testing shall conform to the protocol approved by the Engineer and shall include testing and calibration prior to energizing of individual sections followed by testing and calibration as a whole system or group of systems. The Contractor shall supply all material, equipment, power, time, and fully qualified specialist personnel to perform all system integration work as necessary to provide systems that talk to one another and correctly react to one another, including systems that must communicate with, and react to existing systems, and systems being or to be installed by others. It is an absolute requirement that upon completion, all systems installed in the Work be able to correctly communicate and react to one another and to systems in existence, being or to be installed, external to the Work. Final testing and calibration will be performed with the equipment energized and will only take place when the Engineer is satisfied with the results of earlier tests. Full written reports of tests and results shall be furnished by the Contractor to the MDWASD. All costs for this testing, calibration, system integration and reporting, including the costs for factory and specialist personnel required during testing, calibration and system integration, shall be included in the prices bid and no extra compensation will be allowed. Any delays or costs occasioned by test procedures or results not being satisfactory to the Engineer shall rest solely with the Contractor and no extra time or compensation will be allowed. All on site testing shall be witnessed by MDWASD, and the Contractor shall make timely arrangements and fully coordinate tests with the Engineer.

4. After installation is completed, the Contractor shall provide records of non- destructive electrical insulation tests performed by a certified institution approved by the Engineer, witnessed by MDWASD personnel and attesting that the dielectric condition of the equipment and wiring is acceptable.

Comments:

Pursuant to Section 2-8.10 of the Code of Miami-Dade County, this Contract is subject to a user access fee under the County's User Access Program (UAP) in the amount of two percent (2%). All construction services provided under this contract are subject to the 2% UAP. This fee applies to all Contract usage whether by County Departments or by any other governmental, quasi-governmental or not-for-profit entity. From every payment made to the Contractor under this contract (including the payment of retainage), the County will deduct the two percent (2%) UAP fee provided in the ordinance and the Contractor will accept such reduced amount as full compensation for any and all deliverables under the contract. The County shall retain the 2% UAP for use by the County to help defray the cost of its procurement program. Contractor participation in this pay request reduction portion of the UAP is mandatory.

Provided, however, UAP shall not be applicable for total contract values, inclusive of contingency and allowance accounts, of less than five hundred thousand dollars (\$500,000.00).

1.01 MINIMUM REQUIREMENTS OF THE BIDDER

A. License Requirements

1. At the time of Bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the Bidder must hold a valid, current, and active:

a. Certificate of Competency from the County's Construction Trades Qualifying Board as a General Engineering Contractor or as a Pipeline Engineering Contractor. The Pipeline Engineering Contractor shall subcontract with a qualified contractor any work which is incidental to the pipeline specialty but is specified in the aforementioned Code as being the work of other than that of the Engineering Specialty for which certified;

or

b. Certification, as a General Contractor or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Florida Statutes Chapter 489.115.

B. Experience

1. In addition to the license requirements in Section 1.01, A above, the Bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of roadway / horizontal projects of similar scope and scale involving public right-of-way construction / installation / repair / replacement of main water distribution systems and/or main sanitary sewer collection systems, and maintenance of vehicular traffic, supported by references for three (3) projects completed within the past five (5) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided.

a. Experience constructing sanitary sewage pump stations.

b. Confined space experience

2. The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project's Scope of Work. This experience shall include work in successfully completed projects performed by the identified personnel whose bulk of work performed in the public right-of-way is similar in detail to the Project's Scope of Work described in these Solicitation Documents. Demonstrate the experience requirement by:

a. Providing a detailed description of at least three (3) projects similar in detail to the Project's Scope of Work described in these Solicitation Documents and in which the Bidder's identified personnel is currently engaged or has completed SPECIFICATIONS –UPGRADE SEWAGE PUMPING STATION NO. 0382

ER# S050105 / PCTS# 16140 Page 9

within the past five (5) years. List and describe the aforementioned projects and state whether the work was performed for the County, other government clients, or private entities.

For each project listed, the pipe installation shall have been completed and accepted by the project owner prior to the bid submittal date.

The description must identify for each project:

1) The identified personnel and their assigned role and responsibilities for the listed project

2) The client name and address including a contact person and phone number for reference

3) Description of work

4) Total dollar value of the contract

5) Contract duration

6) Statement or notation of whether Bidder's referenced personnel is/was employed by the prime contractor or subcontractor, and

7) For completed projects, provide letters of certification of final acceptance or similar project closure documentation issued by the client and available Contractor's performance evaluations.

3. The County reserves the right to request additional information and/or contact listed persons pertaining to bidder's experience.

RFI Cutoff Thursday, May 28, 2026

EOR Response to All RFIs Due Thursday, June 4, 2026

Final Addendum Published Friday, June 5, 2026

PRA section recommends a 1.0 % (rounded value) SBE-G&S goal in the following recommended services/commodities:

- NIGP 79050 Sodding
- NIGP 98852 Landscaping (covers installing plants and foliage)

DISCLOSURE:

- Contractor shall indemnify and hold harmless the County and its officers, employees, agents and instrumentalities from any and all liability, losses or damages, including attorneys' fees and costs of defense, which the County or its officers, employees, agents or instrumentalities may incur as a result of claims, demands, suits, causes of actions or proceedings of any kind or nature arising out of, relating to or resulting from the performance of this Agreement by the Contractor or its employees, agents, servants, partners principals or subcontractors. Contractor shall pay all claims and losses in connection therewith and shall investigate and defend all claims, suits or actions of any kind or nature in the name of the County, where applicable, including appellate proceedings, and shall pay all costs, judgments, and attorney's fees which may issue thereon. Contractor expressly understands and agrees that any insurance protection required by this Agreement or otherwise provided by the Contractor shall in no way limit the responsibility to indemnify, keep and save harmless and defend the County or its officers, employees, agents and instrumentalities as herein provided.

The Contractor shall furnish to **Water and Sewer, 3071 SW 38 Avenue, Douglas Building, Miami FL 33146**, Certificate(s) of Insurance which indicate that insurance coverage has been obtained which meets the requirements as outlined below:

- A.** Worker's Compensation Insurance for all employees of the Contractor as required by Florida Statute 440.
 - a. If applicable should include coverage required under the U.S. Longshoremen and Harbor Workers' Act (USL&H) and/or Jones Act for any activities on or about navigable water.
- B.** Commercial General Liability in an amount not less than \$1,000,000 per occurrence, and \$2,000,000 in the aggregate. Miami-Dade County must be shown as an additional insured with respect to this coverage.
- C.** Automobile Liability Insurance covering all owned, non-owned and hired vehicles used in connection with the work, in an amount not less than \$1,000,000 combined single limit per occurrence for bodily injury and property damage.

*Under no circumstances are Contractors permitted on the Aviation Department, Aircraft Operating Airside (A.O.A) at Miami International Airport without increasing automobile coverage to \$5 million. Only vehicles owned or leased by a company will be authorized. \$1 million limit applies at all other airports.

VERIFICATION OF EMPLOYMENT ELIGIBILITY (E-VERIFY):

By entering the Contract, the Awarded Bidder becomes obligated to comply with the provisions of Section 448.095, Florida Statute, titled "Verification of Employment Eligibility." This includes but is not limited to utilization of the U.S. Department of Homeland Security's E-Verify System to verify the employment eligibility of all newly hired employees by the Awarded Bidder effective, January 1, 2021, and requiring all Subcontractors to provide an affidavit attesting that the Subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. Failure to comply may lead to termination of this Awarded Bidder, or if a Subcontractor knowingly violates the statute, the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Circuit Court no later than twenty (20) calendar days after the date of termination. If this Contract is terminated for a violation of the statute by the Awarded Bidder, the Awarded Bidder may not be awarded a public contract for a period of one year after the date of termination, and the Awarded Bidder may be liable for any additional costs incurred by the County resulting from the termination of the Contract. Public and private employers must enroll in the E-Verify System (<http://www.uscis.gov/e-verify>) and retain the I-9 Forms for inspection.
