**PART #3: SPECIAL CONDITIONS****With the exception of quotes for orders using Federal Funds**

All request for quotes issued under this pool must comply with the following:

1. All spot market quotes **must** be issued only to the **local vendors** (as defined in the Section 2-8.5 of the Miami-Dade County Code) prequalified under the pool. Following the close of the quotation, award shall be made to the lowest responsive, responsible local vendor which responds to the quotation.

Note: If following the close of the solicitation there are no responses received, due diligence must be conducted to determine the reasons of non-participation by the local vendors as well as to ensure there were no barriers to competition in the quotation. Once due diligence is completed and documented, if there were no barriers to competition, then proceed to step 2. If barriers are identified, the quotation should be revised to remove any barriers and reissued as stated in step 1 above.

2. Departments must revise and reissue the spot market quotation and send out to all vendors prequalified under the pool. Following the close of the quotation, award shall be recommended to the lowest responsive, responsible vendor which responds to the quotation. The award recommendation to a non-local vendor shall be forwarded to the County Mayor's Office for approval. The recommendation must include the rationale for recommending a non-local vendor. For example, the local vendor cannot provide the required products/services.
