How long have you been a customer of the company? 10 years

What types of services has the company provided to you? Hand tools and consumables

What do you feel is the most positive aspect of the company? Response time for quotes

Do you feel this company demonstrates sufficient experience and expertise in the welding industry?

I buy all my welding equipment from Praxair. I do buy grinding discs and used to buy grinders until I found a reliable supplier on the Island, so now I don't have freight to pay. Possible to buy soap stone, pencil grinders, but not consumables for our welding machines, these are all Lincoln and as I say I use Praxair for those. It's more for things like WD40, tape measures, caution tape, glue's, padlocks, hose clamps, drill bits, drills, duct tape etc, screwdrivers, chisels and general hand tools.

When problems occur, does the company respond in a timely manner? Yes

How accessible are the company's personnel who direct, supervise and/or perform work?

Very accessible

Do you receive value for the price you pay when contracting with this company? Why?

Yes, we have a system where we order items daily, the Company collates that material and ships once a week to save on administration costs and freight.

Would you use this company again? Yes

Would you recommend this company? Yes
