**BACKGROUND**

This contract provides for purchase of energy efficient window/wall mount air conditioning units for several County departments. These units are labeled with Energy Efficient Ratings (EER) only. Energy efficient units use at least 10% less energy than conventional models. EER is measured on a scale from 1 through 13. All models being purchased have an EER rating ranging from 9 and 12. Window/wall mount or room air conditioners are labeled with EER ratings only. The Federal minimum efficiency rating varies by cooling capacity. The higher the EER rating, the more efficient the air conditioner unit.

The Water and Sewer Department uses these units to control climate in areas where electrical and electronic infrastructure equipment is located. The department operates over 1,000 sewer pumping station structures, 100 water drawing well sites and six treatment plants. All have multiple control rooms that are segregated from the main climate controlled areas and require dedicated air conditioning units.

The Miami-Dade Public Housing Agency manages approximately 9,000 public housing units with numerous types of window/wall mount air conditioning units.

MIAMI-DADE COUNTY

| | |
|---|---|
| **Date:** | October 28, 2009 |
| **To:** | Honorable Chairman Dennis C. Moss and Members, Board of County Commissioners |
| **From:** | George M. Burgess County Manager |
| **Subject:** | Rejection of all Bids Under Solicitation No. 9072-0/14: Cremation Services for Miami-Dade County |

**RECOMMENDATION**

It is recommended that the Board of County Commissioners approve the rejection of the sole bid received for cremation services.

| | |
|---|---|
| BID NUMBER: | 9072-0/14 |
| TITLE: | Cremation Services for Miami-Dade County |
| APPROVAL TO ADVERTISE: | May 27, 2009 |
| TERM: | Five years |
| CONTRACT AMOUNT: | $2,125,000 |
| PREVIOUS CONTRACT ALLOCATION: | $1,223,000 for 64 months |
| METHOD OF AWARD: | Lowest priced vendor on an item-by-item basis. |
| VENDOR(S) RECOMMENDED FOR AWARD: | None |
| VENDOR NOT RECOMMENDED FOR AWARD: | Allen & Shaw Cremations, Inc. |
| CONTRACT MEASURES: | The Small Business Enterprise Bid Preference was applied in accordance with the Ordinance. |
| LIVING WAGE: | The services being provided are not covered under the Living Wage Ordinance. |
| USER ACCESS PROGRAM: | The User Access Program provision was included in the solicitation. The 2% program discount will be collected on all purchases. |
| LOCAL PREFERENCE: | The Local Preference was applied in accordance with the Ordinance. |

| | |
|---|---|
| PERFORMANCE DATA: | There are no performance issues with this firm. |
| COMPLIANCE DATA: | There are no compliance issues with this firm. |
| CONTRACT MANAGERS: | Abelin Rodriguez, Department of Procurement Management |
| | Sergio Bonilla, Medical Examiner Department |

**REASON FOR REJECTION**

An Invitation to Bid was issued under full and open competition to replace the existing contract for cremation services. This contract requires the vendor to cremate remains that have been accepted into the County's Public Interment Program and the burial of remains in the County cemetery. State of Florida Statute 497.606 requires that cremations and interment be supervised by a licensed funeral director or licensed direct disposer who will be in charge of the cremation facility.

The incumbent provider of these services was the sole respondent to the solicitation. The price offered is higher than the current contract pricing and exceeds budgetary requirements. The Medical Examiner Department will revise its requirements to reduce the cost of services and increase competitive opportunities. Therefore, it is in the County's best interest to reject the sole bid received and re-solicit with revised specifications that meet the Medical Examiner's requirements.

ETSD and MDFR utilize this contract to support new telecommunication projects, additions, and changes or upgrades required to sustain the County's communication infrastructure. As new requests are identified, ETSD and MDFR staff issue a request for offers to pool vendors on a work order basis.

**REASON FOR CHANGE**

Authorization is requested for additional spending for the Miami-Dade Police Department (MDPD) to purchase ammunition for regular duty and training purposes. MDPD estimates annual ammunition expenditures in the amount of $1.2 million. All types of ammunition have become increasingly difficult to obtain due to market activity resulting from large quantities being purchased by the Federal government. Lead times on fulfillment of ammunition orders can be as long as four to six months.

In order to ensure continuity of sufficient supply of ammunition, additional orders will need to be placed before the end of the current contract term. MDPD's allocation on the contract was depleted during the first eight months of the contract. The additional allocation will allow the department to buy ammunition and other supplies required for annual qualifications, open shooting ranges, regular duty, and an estimated 224 training classes.

The additional funds being requested are required for implementation of security and infrastructure upgrades, and to maintain surveillance operation at various Miami-Dade Transit locations. The United States Department of Homeland Security (DHS) has identified areas requiring surveillance equipment reinforcement, and has awarded a grant with a specific timeframe for implementation.

MDT has identified future security and infrastructure upgrade projects for which grant funding will be requested from American Recovery and Reinvesting Act (ARRA), DHS and Florida Department of Law Enforcement (FDLE). The total amount required for these projects is $3 million. Grant funding for these future projects has not been secured but an allocation is requested so that projects can be implemented as soon as funds are made available.

**REASON FOR CHANGE**

Additional spending authority is being requested by the Seaport to obtain the required equipment and professional services from Federal APD, Inc. to further automate and expand the existing Parking and Revenue Control System (System) at the Port of Miami. This contract was initially accessed for the Seaport to implement the System in Parking Garage D. The increased allocation will be utilized to further expand the System to Parking Garage C and Surface Lot E. Expansion of the System involves the purchase of field parking peripheral equipment such as: fee computers, ticket splitters, gate pedestals/arms, pay-on-foot stations, fiber optics communications, and professional services to connect it to the Seaport's network. Additionally, software maintenance and support services will be provided upon expiration of the initial warranty.

This contract was accessed through the Port of New York and New Jersey and solicited under full and open competition through a Request for Proposals process. The resultant contract was awarded to Federal APD, Inc. the lowest priced, highest ranked vendor. The funding for this expansion project will be covered through special obligation bonds to improve revenue control and automate parking operations.
