DRAFT

GENERAL TERMS AND CONDITIONS:

All Miami-Dade County's general terms and conditions applicable to procurement contracts are posted online. Bidders that receive an award from Miami-Dade County through the competitive procurement process must anticipate the inclusion of these requirements in the resultant Contract. These general terms and conditions are considered non-negotiable and include important instructions and requirements that affect all Bids. By submitting a Bid for a Miami-Dade County solicitation, a Bidder attests to its understanding of these general terms and conditions.

General terms and conditions pertaining to this Solicitation and resultant Contract may be viewed online at the Strategic Procurement Department's webpage by clicking on the below link:
general-terms-and-conditions-r26-2.pdf

NOTICE TO ALL BIDDERS:

Bids are to be submitted electronically through a secure mailbox via the Integrated Financial Resources Management System (INFORMS) (https://supplier.miamidade.gov) until the date and time indicated in the INFORMS Solicitation End Date published in INFORMS. It is the sole responsibility of the Bidder to ensure that its Bid is in INFORMS before the Solicitation deadline. There is no cost to the Bidder to submit a Bid for a Miami-Dade County Solicitation via INFORMS. Electronic submissions may require the uploading of electronic attachments. The submission of attachments containing embedded documents or proprietary file extensions is prohibited. All documents should be attached as separate files.

This a draft solicitation for a future competitive contract Miami-Dade County anticipates entering into.
Solicitation is subject to change without notice.
This is not an advertisement.

For information concerning this Solicitation, use the question/answer feature provided within the Solicitation by INFORMS at https://supplier.miamidade.gov. Questions of a material nature must be received prior to the date and time of the INFORMS Solicitation Question & Answer End Date published in INFORMS. Material changes, if any, to the Solicitation will be made only by written addendum. (See Mandatory Online Forms and Addendum Acknowledgement section of INFORMS site).

Bidders must allow sufficient time to complete online forms and upload all Bid documents. All information and documents must be fully entered, uploaded, acknowledged ("Confirm") and recorded into INFORMS before the date and time of the INFORMS Solicitation End Date, or the system will **stop** the process and the submission will be considered late and will not be accepted.

No part of a Bid can be submitted via hardcopy, email, or fax.

If you submit your bid and subsequently an Addendum is issued, failure to submit the bid again by clicking on the "Submit Bid" button, after acknowledging Addenda or editing your bid in INFORMS will result in your bid not being received by the County.

Suppliers/Vendors are encouraged to access the links below to assist with submission of responses to the Solicitation.

SECTION 2
ADDITIONAL/SPECIAL TERMS AND CONDITIONS

2.1 PURPOSE
The purpose of this Solicitation is to establish Contract(s) for the purchase of locating and marking services for underground utilities, in conjunction with the County's needs. This Solicitation is requesting bids from qualified firms capable of accurately locating underground facilities for County Departments in and around excavation areas to ensure the protection of existing infrastructure. The Awarded Bidder(s) shall clearly identify, mark, and protect located facilities, as required. These facilities may include, but are not limited to, asbestos cement pipe, polyvinyl chloride (PVC) pipe, pre-cast concrete pipe (PCCP), copper tubing, polybutylene tubing, high-density polyethylene pipe, and ductile iron pipe.

2.2 TERM
This Contract shall commence on the first calendar day of the month succeeding approval of the Contract by the Board of County Commissioners, or designee, unless otherwise stipulated in writing by the County. The Contract shall expire on the last day of the sixtieth (60th) month.

2.3 METHOD OF AWARD
Award of the Contract(s) will be made to the lowest priced responsive and responsible Bidder(s) per group. To be considered for award of a group, the Bidder must offer a price for all items within a given group. Items that will be provided to the County at no cost must show a zero (0) in the price line. The County will determine the Bidder for award of each group by totaling the extended pricing for all items within the group. If a Bidder fails to submit an offer for all line items within the group, its offer for the group may be deemed non-responsive.
Groups being solicited:

- Group 1: Department of Transportation and Public Works (DTPW)
- Group 2: Communications, Information and Technology Department (CITD)

This a draft solicitation for a future competitive contract Miami-Dade County anticipates entering into.
Solicitation is subject to change without notice.
This is not an advertisement.

- Group 3: Water and Sewer Department (WASD)

2.4 BIDDER REQUIREMENTS

In addition to the requirements detailed in Section 1-General Terms and Conditions, Paragraph 1.2-Instructions to Bidders, the Bidder shall meet the following requirements to be considered for award:

2.4.1 Bidder or Bidder's Subcontractor shall be regularly engaged in the business of providing locating and marking services for underground utilities, including water and sewer facilities (Group 3) to government agencies. To demonstrate compliance with this requirement, Bidder or Bidder's Subcontractor shall provide two (2) ***different*** references from agencies or municipalities to whom the Bidder or Bidder's Subcontractor has provided or is currently providing location of underground utilities as described throughout this Solicitation. In lieu of the references from the Bidder or Bidder's Subcontractor, the County will consider the references from Bidder's key personnel in accordance with Resolution No. 1122-21. The references should include the customer's company name, and the contact person's name, title, address, telephone number, and e-mail address, who can verify that the Bidder/key personnel/Subcontractor has successfully provided the services being offered to the County. These references shall ascertain to the County's satisfaction that the Bidder/key personnel/Subcontractor has sufficient expertise in the industry, including water and sewer (Group 3) and its firm is properly equipped to perform the required services.

2.4.2 Bidder shall designate at least one company representative who is knowledgeable in the services being offered to the County, and who shall be available to the County from Monday through Friday from 8:00 a.m. through 5:00 p.m. to address and expedite matters relating to a resulting Contract(s). To demonstrate compliance with this requirement, the Bidder shall attest to the representative's knowledge and availability and provide the representative's name, title, telephone number, and email address.

The Bidder shall provide all the information, documents and/or attachments listed above to be considered for award. All information, documents, and/or attachments listed above are due with the Bid by the Solicitation's end time and date. The County may, at its sole discretion and in its best interest, allow the Bidder to complete, supplement or supply the required information, documents and/or attachments during the bid evaluation period. Failure to provide all the required information, documents and/or attachments with the Bid or as requested by the County during the Bid evaluation period, may result in the Bidder being declared non-responsive or non-responsible.

During the bid evaluation period, the County's Strategic Procurement Department (SPD) will review the submitted information, documents and/or attachments submitted by the Bidder. SPD may request additional information from the Bidder and/or obtain additional information from available sources as necessary, to fully evaluate the Bidder's submittal and to determine whether the Bidder meets the stipulated requirements and has the ability to perform under any resulting Contract(s). The County shall be the sole judge of a Bidder's compliance with all requirements and whether the Bidder has the ability to perform under the resulting Contract(s). Failure to meet the stipulated requirements or demonstrate the ability to perform under the resulting Contract(s), as determined by the County, may result in the Bidder being declared non-responsible.

During the term of any resulting Contract(s), the Awarded Bidder(s) has an obligation to advise the County of any changes, intended or otherwise, to the evidence given in compliance with the requirements in this Solicitation. Failure to comply with this obligation may constitute a breach of contract and may result in termination in accordance with Section 1, General Terms and Conditions, Paragraph 1.26, Termination for Default.

2.5 DEFICIENCIES, DAMAGE, AND CORRECTIVE ACTIONS

All locating and marking shall meet quality standards and adhere to the definition of reasonable accuracy as defined in the Contract(s). Markings that fall outside acceptable tolerance levels shall be considered deficient work and subject to corrective action requirements.

The Awarded Bidder(s) shall promptly correct all apparent and latent deficiencies, defects, or any work that fails to conform to the contract documents, regardless of project completion status. All corrections shall be made within forty-eight (48) business hours (excluding weekends and holidays) after such rejected defects, deficiencies, or non-conformances are verbally reported to the Awarded Bidder(s) by the County's project administrator, who may

confirm all such verbal reports in writing. The Awarded Bidder(s) shall bear all costs associated with correcting such rejected work and shall not be paid for remarking a ticket due to having incorrectly marked it initially.

If the Awarded Bidder(s) fails to correct the work, the County may, at its discretion, notify the Awarded Bidder(s) in writing that contractual default provisions may be imposed if the corrections are not completed to the satisfaction of the County within forty-eight (48) business hours (excluding weekends and holidays) of receipt of the notice. Should the Awarded Bidder(s) fail to correct the work specified in the notice, the County shall place the Awarded Bidder(s) in default, obtain the services of another Awarded Bidder(s) to correct the deficiencies, and charge the responsible Awarded Bidder(s) penalties either through a deduction from the final payment owed or through invoicing. Failure to honor such invoice or credit memo may result in termination of the contract for default.
Any public or private, property damaged as a result of the Awarded Bidder(s)' performance of the services under this Contract shall be repaired or replaced by the Awarded Bidder(s), at its sole expense, to the County's satisfaction prior to final acceptance of the work. The Awarded Bidder(s) shall be responsible for damages resulting from its negligent acts, omissions, or failure to accurately locate and mark underground utilities as required under this Contract, including damages caused by third parties that are attributable to incorrect utility locating or marking by the Awarded Bidder(s). The Awarded Bidder(s) shall not be responsible for damages caused solely by the actions, negligence, or misconduct of the County, its contractors, or other third parties where such damages are unrelated to the Awarded Bidder(s)' performance or utility locating services.
In the event of a dispute regarding the cause of any damage, the County may perform or arrange for the necessary repairs to protect public safety and maintain operations. Following such repairs, the County shall determine responsibility based on the facts and circumstances, and the party determined to be responsible shall reimburse the County for all reasonable repair and restoration costs incurred.
If damage results from the Awarded Bidder(s)' failure to locate facilities with reasonable accuracy, the Awarded Bidder(s) shall be responsible for the cost of the damage and all associated resulting damages. The Awarded Bidder(s) shall also be responsible for any damage caused by an error, omission, neglect, or any willful, wanton, reckless, or intentional acts on its part or on the part of its agents, officers, directors, employees, or others acting on behalf of or through the Awarded Bidder(s). All costs associated with such damage, including repairs, restoration, and associated impacts, shall be borne solely by the Awarded Bidder(s). Awarded Bidder(s) shall not attempt to self-repair any damages.

The Awarded Bidder(s) agrees to make its personnel available to the County for litigation concerning damage to County's facilities. The County and the Awarded Bidder(s) shall each designate a representative to communicate regarding all damage claims.

2.6 PRICES

The Bidders' price shall be inclusive of all costs. Additional charges of any kind will not be accepted. Prices shall remain fixed and firm for the entirety of the Contract term, except that the Awarded Bidder may offer lower prices, or the County may negotiate lower pricing with the Awarded Bidder(s) based on market research data and other factors that influence price, such as downward movement of applicable price indexes.

2.7 INSURANCE

The insurance requirements listed under Section 1, General Terms and Conditions, Paragraph 1.22 (A), are hereby replaced in their entirety with the following:

A. The Awarded Bidder(s) shall furnish to the Vendor Outreach & Support Services Section, 111 NW 1st Street, Suite 1300, Miami, Florida 33128, Certificate(s) of Insurance which indicate that insurance coverage has been obtained and meets the requirements as outlined below:
1. Worker's Compensation as required by Florida Statute 440.

2. Commercial General Liability for $1,000,000 each occurrence $2,000,000 aggregate including Products/completed operations and Personal & Adv injury. **Miami-Dade County must be included as additional insured for any and all work**
3. Automobile Liability Insurance covering all owned, non-owned and hired vehicles in an amount not less than $1,000,000 combined single limit.
4. Professional Liability for $1,000,000 each occurrence $2,000,000 aggregate covering claims arising out of the rendering or failure to render professional services or provision of products

2.6 COMPLIANCE WITH GOVERNMENT STANDARDS

In addition to the provisions of Section 1, General Terms and Conditions, Paragraph 1.14, Federal, State and Local Requirements Compliance, the following provisions shall apply to all Services performed under the Contract(s):

2.6.1 Federal Standards

The Awarded Bidder(s) shall comply with all applicable federal laws, regulations, standards, and requirements governing the performance of the Services, including applicable requirements of the Occupational Safety and Health Administration (OSHA). The Awarded Bidder(s) shall take all necessary precautions for the protection of its employees, County personnel, the public, and public and private property while performing the Services. The Awarded Bidder(s) shall be responsible for providing its employees with all required training, Personal Protective Equipment (PPE), tools, equipment, and safety devices necessary to safely perform underground utility locating and marking services. When Services are performed within or adjacent to roadways or rights-of-way, the Awarded Bidder(s) shall comply with all applicable federal, state, and local traffic-control and work-zone safety requirements. Any fines, penalties, citations, or costs imposed upon the Awarded Bidder(s) resulting from its failure to comply with applicable requirements shall be the sole responsibility of the Awarded Bidder(s).

2.6.2 State of Florida Underground Facility Damage Prevention Requirements

The Awarded Bidder(s) shall comply with the Underground Facility Damage Prevention and Safety Act, Chapter 556, Florida Statutes, as amended; all applicable requirements, procedures, standards, and guidelines of Sunshine State One-Call of Florida, Inc. (Sunshine 811), including the current Sunshine 811 Damage Prevention Guide and Positive Response System requirements; and the applicable Common Ground Alliance (CGA) Best Practices for underground utility locating, marking, and damage prevention. The Awarded Bidder(s) shall perform all locating and marking activities within the timeframes established by applicable law and the Contract(s) and shall accurately identify and mark County underground facilities within the excavation area identified on the applicable locate request. The Awarded Bidder(s) shall utilize the appropriate Sunshine 811 Positive Response codes and shall maintain all records necessary to document the timely and accurate completion of each assigned locate request. The Awarded Bidder(s) shall remain responsible for monitoring and complying with changes to applicable laws, regulations, Sunshine 811 requirements, the Sunshine 811 Damage Prevention Guide, CGA Best Practices, and other applicable industry standards throughout the term of the Contract(s). Changes to such requirements shall not relieve the Awarded Bidder(s) of its obligation to continuously provide the Services in accordance with the Contract(s).

2.6.3 Miami-Dade County Requirements

The Awarded Bidder(s) shall comply with all applicable provisions of the Code of Miami-Dade County and all applicable County departmental standards, policies, procedures, permits, and requirements governing the Services performed under the Contract(s). This includes compliance with the Miami-Dade County Environmental Protection Ordinance as stated in Chapter 24 of the Miami-Dade County Code, as amended. This ordinance is made a part of this Solicitation by reference and may be obtained on the following link: Miami-Dade County Environmental Protection Ordinance, or if necessary, by contacting the Department of Environmental Resources Management (DERM), 701 NW 1 Court, Suite 400, Miami, Florida 33136, Telephone (305) 372-6789.

When Services are performed within County-owned or maintained roadways, rights-of-way, facilities, or other property, the Awarded Bidder(s) shall comply with all applicable requirements established by the County department having

jurisdiction over the location where the Services are performed. The Awarded Bidder(s) shall coordinate with the applicable County Project Manager or authorized representative regarding any department-specific access, security, traffic-control, safety, operational, or other requirements applicable to the performance of the Services..

2.6.4 Personnel and Equipment

The Awarded Bidder(s) shall provide sufficient qualified and properly trained personnel to perform the Services in accordance with the Contract(s) and all applicable federal, state, and local requirements. Personnel shall utilize all required Personal Protective Equipment (PPE) and comply with applicable safety and traffic-control requirements while performing the Services. The Awarded Bidder(s) shall furnish all supervision, labor, personnel, vehicles, communication devices, locating equipment, tools, materials, supplies, and other equipment necessary for satisfactory performance of the Contract(s). All equipment shall be properly maintained, calibrated, and suitable for the type of underground facility being located. Locating equipment and technologies shall include, as applicable, electromagnetic locating devices, conductive and inductive locating equipment, passive and active locating systems, measuring devices, Ground Penetrating Radar (GPR), and other industry-standard equipment or technologies necessary to accurately locate metallic and non-metallic underground facilities. All equipment shall be maintained in safe and serviceable condition and operated in accordance with applicable manufacturer requirements and federal, state, and local laws, regulations, and safety requirements. Equipment, materials, workmanship, and performance shall be subject to inspection and approval by the County's Project Manager or authorized representative.

2.7 ADDITIONAL GROUP(S)/DEPARTMENT(S) MAY BE ADDED OR DELETED

The County reserves the right to add or delete group(s) and/or County department(s), with applicable requirements, during the term of the Contract(s). At the County's sole discretion, additional group(s) and/or department(s) may be added following a separate solicitation conducted under full and open competition, or through another procurement method authorized by applicable law and County procurement requirements. Any additional group and/or department shall include, as applicable, the scope of services, technical requirements, Bidder requirements, pricing structure, estimated quantities, and method of award applicable to that group or department. Any group(s) and/or department(s) added to or deleted from the Contract(s) shall be formalized through a Contract Modification originated and published by SPD and executed by the applicable Awarded Bidder(s), as required.

2.8 INVOICES

In addition to the invoice requirements set forth in Section 1, General Terms and Conditions, Paragraph 1.36, Invoices, the following requirements shall apply:

The Awarded Bidder(s) may bill the County periodically, but not more than once per month, unless otherwise authorized by the applicable County department, within thirty (30) calendar days after the service has been rendered, upon invoices certified by the Awarded Bidder(s) pursuant to Section 4, Submittal Requirements, Pricing. All invoices shall be taken from the books of account kept by the Awarded Bidder(s). To be eligible for payment, the Awarded Bidder(s) shall submit a fully documented invoice that clearly identifies, at a minimum, the appropriate applicable Group, County department, Contract number, Release Purchase Order number, and the Services performed during the applicable billing period. Each invoice shall include sufficient supporting documentation to substantiate the Services performed and amounts invoiced, including, as applicable, Sunshine 811 ticket numbers, ticket classifications, dates of Service, quantities, applicable Contract unit prices, and any other documentation required by the applicable County department. Errors and omissions in invoices or supporting documentation may delay authorization of payments.

Invoices and associated back-up documentation shall be submitted electronically (preferred) or in hard copy format by the Awarded Bidder(s) to the County as follows:

- Groups 1 and 2 – DTPW and CITD
  - Electronic submission (preferred) by email to: invsubp@miamidade.gov; or.

- Hard copy format mailed directly to the Accounts Payable & Receipts Section:

Accounts Payable & Receipts Section
Stephen P. Clark Center
111 NW 1st Street, 26th Floor
Miami, FL 33128-2241

- Group 3 – WASD
  - Electronic submission (preferred) to invsubpwasd@miamidade.gov; or.
  - Hard copy format mailed directly to the Accounts Payable Unit:

Miami-Dade Water and Sewer Department
Accounts Payable Unit
3071 SW 38 Avenue
Miami, FL 33146

For electronic submissions, the Awarded Bidder(s) shall submit a maximum of five (5) invoices per email submission. Each invoice shall be submitted in PDF format with a minimum resolution of 300 DPI.

The County may, at any time, designate a different invoice submission address, electronic submission location, and/or contact person by providing written notice to the Awarded Bidder(s).

SECTION 3
SCOPE OF WORK/TECHNICAL SPECIFICATIONS

1. SCOPE OF WORK

The Awarded Bidder(s) shall provide underground utility locating and marking services for Miami-Dade County departments to support excavation, construction, maintenance, repair, emergency response, and other operational activities. Services shall include, but are not limited to, receiving and responding to assigned locate requests, identifying the presence and approximate horizontal location of underground facilities, marking such facilities in the field, providing positive responses through Sunshine State One-Call of Florida, Inc. (Sunshine 811), and performing related services in accordance with Chapter 556, Florida Statutes, Sunshine 811 requirements, applicable industry standards, and all other applicable federal, state, and local laws, rules, regulations, and County requirements. Underground facilities to be located may include, but are not limited to, water transmission and distribution mains, water service lines, sewer transmission mains, force mains, gravity sewer lines, sewer laterals, communication conduits and cables, handholes, maintenance holes, communication vaults, traffic-related infrastructure, and other underground facilities owned, operated, or maintained by the applicable County department. The Solicitation is divided into three groups to fulfill the County's underground utility locating and marking requirements:

- Group 1: Department of Transportation and Public Works (DTPW) – Underground utility locating and marking services for DTPW-owned, operated, or maintained underground facilities, including applicable transportation, traffic, communication, and related infrastructure.
- Group 2: Communications, Information and Technology Department (CITD) – Underground utility locating and marking services for CITD-owned, operated, or maintained communication conduits, cables, fiber-optic facilities, handholes, communication vaults, and related underground communication infrastructure.
- Group 3: Water and Sewer Department (WASD) – Underground utility locating and marking services for WASD-owned, operated, or maintained water and sewer infrastructure, including water mains, service lines, sewer mains, force mains, gravity sewer lines, laterals, and related underground facilities.

The Awarded Bidder(s) shall provide the Services described herein in a competent and professional manner, satisfactory to the County, in accordance with applicable industry standards, all requirements specified herein, and the terms and conditions of the Contract(s). Awarded Bidder(s) shall furnish all supervision, labor, personnel, vehicles, locating equipment, tools, materials, supplies, communication devices, transportation, and other resources necessary

to perform the Services for the group(s) awarded. Services shall be performed on an as-needed basis at locations throughout Miami-Dade County and at other locations where County-owned or maintained underground facilities may be present, as applicable. The County does not guarantee any minimum quantity of locate requests, tickets, locations, or expenditures under any group. Actual service requirements may vary throughout the Contract term based on excavation activity, construction and maintenance projects, emergency conditions, operational requirements, ticket volume, and other County needs.

2. **DEFINITIONS OF TECHNICAL TERMS**.

a. "**Excavator**" means any person or entity that performs excavation activities, directly or through others, including the design of such excavation activities, and that requests the location of the County's underground utilities.

b. "**Identified but Untraceable Underground Utility**" means an underground utility whose existence is known, but whose exact location cannot be determined or marked with reasonable accuracy.

c. "**Marking**" means the placement of flags, stakes, paint stripes, or other clearly identifiable materials at intervals of every ten (10) feet, and at each point where the underground utility deviates from a straight line, in accordance with the current marking standards established by Sunshine State One-Call of Florida, Inc. (Sunshine 811) Damage Prevention Guide and the Common Ground Alliance (CGA) Best Practices Guide, to identify the field location of underground utilities with reasonable accuracy.

d. "**Mobilization Work**" means all preparatory activities required to begin work on the project, including the movement and setup of personnel, equipment, supplies, and other necessary resources to the project site.

e. "**Reasonable Accuracy**" means locating an underground utility within twenty-four (24) inches of the outside edges on both sides of the utility or underground plant.

f. "**Request to Locate**" means a locate ticket that covers all utility locating work within a maximum distance of five hundred (500) feet. This distance is limited to a single street and includes the area from the street centerline to the right-of-way line on both sides of the street, as well as all intersections and up to fifty (50) feet in either direction of each intersection, including both sides of the street.

g. "**Standard Workdays**" means the regular work schedule is Monday through Friday, excluding weekends and County holidays, from 7:30 a.m. to 4:30 p.m., with a one-hour lunch break.

h. **'Sunshine State One-Call of Florida, Inc. (Sunshine 811) (SSOCOF) (Call-Sunshine)"** to mean A service through which an entity can notify utility companies of proposed Excavation and request field marking of Underground Utilities, hereafter referred to as Call-Sunshine. This contract will have three (3) groups:

i. **"Work in Progress"** to mean a request to locate tickets for immediate response, received during normal work hours.

3. **SERVICES TO BE PROVIDED**

3.3.1 General Requirements – Applicable to all Groups

The Awarded Bidder(s) shall perform all services under the Contract(s) as an independent contractor and not as an agent, employee, or representative of Miami-Dade County. The Awarded Bidder(s) shall furnish all supervision, labor, personnel, materials, tools, equipment, supplies, vehicles, communication devices, and transportation necessary to perform underground utility locating and marking services for the group(s) awarded. The Awarded Bidder(s) shall maintain sufficient staffing levels, equipment, transportation resources, and operational capacity throughout the term of the Contract(s) to meet fluctuating ticket volumes, emergency conditions, priority response requirements, workload demands, and all applicable response times.

This a draft solicitation for a future competitive contract Miami-Dade County anticipates entering into.
Solicitation is subject to change without notice.
This is not an advertisement.

All Services shall be performed in accordance with Section 2, Paragraph 2.6, Compliance with Government Standards, and all applicable federal, state, and local laws, regulations, codes, standards, and County departmental requirements. These include:

1. Florida Underground Facility Damage Prevention and Safety Act, Chapter 556, Florida Statutes.
2. Sunshine State One-Call of Florida, Inc. (Sunshine 811/SSOCOF) requirements and Damage Prevention Guide
   Common Ground Alliance (CGA) Best Practices
3. Applicable Miami-Dade County departmental standards, policies, and procedures.

Failure to comply with these requirements shall constitute non-compliant performance under the Contract(s).

A. Assignment, Screening, and Response to Locate Requests

Each user department reserves the right to identify and designate locations where underground utility locating services are required. All excavation notices and locate requests received through Sunshine 811 (SSOCOF) may be reviewed and screened by the applicable County department to determine whether a field locate is required. The County reserves the right to issue or assign only those locate requests deemed necessary based on operational needs, including, but not limited to, ticket volume, emergency conditions, workload distribution, priority response requirements, construction and maintenance activities, and backlog reduction efforts. Unless a different response time is specifically established for a particular group, ticket type, or emergency request, the Awarded Bidder(s) shall respond to all assigned locate requests within two (2) full business days, excluding weekends and County-observed holidays, or within such other timeframe required by Chapter 556, Florida Statutes, Sunshine 811, or the Contract(s).

In response to each assigned request, the Awarded Bidder(s) shall determine whether the County has underground facilities within the excavation area and notify the excavator when the area is clear of applicable County facilities. Additionally, the Awarded Bidder(s) shall accurately identify and mark the location of underground utilities within the excavation area, enter the appropriate response into the Sunshine 811 Positive Response System utilizing the applicable response codes established in the current Sunshine 811 Damage Prevention Guide, and complete all documentation required by the County and Sunshine 811. All utility markings shall be clear, accurate, and readily visible to excavators, heavy equipment operators, County personnel, and other field personnel to ensure the safe identification of underground facilities within the excavation area. The Awarded Bidder(s) shall exercise due care in protecting existing underground infrastructure and shall perform all locate services using properly maintained equipment and qualified personnel.

If the Awarded Bidder(s) is unable to complete the locate and marking activities by the statutory response deadline, the Awarded Bidder(s) shall immediately notify the County Project Manager or authorized representative electronically, including by email or other approved communication method. Such notification shall identify the affected ticket, explain the reason for the delay, describe the actions being taken to resolve the issue, and provide the anticipated completion timeframe. Notification to the County shall not, by itself, relieve the Awarded Bidder(s) of any obligation imposed by applicable law, Sunshine 811 requirements, or the Contract(s).

B. Utility Locating Requirements

A utility "locate" shall include all locating and marking activities performed at any worksite as defined under Chapter 556, Florida Statutes, including all related intersections, service connections, and associated underground facilities located within the excavation area identified on the Sunshine 811 ticket, or other County-authorized locate request. The underground facilities covered under the Contract(s) may include, but are not limited to:

1. Water transmission and distribution mains
2. Water service lines
3. Sewer transmission mains
4. Force mains
5. Gravity sewer lines
6. Sewer laterals
7. Communication conduits and cables

8. Handholes
9. Maintenance holes
10. Communication vaults and related infrastructure

The Awarded Bidder(s) shall utilize industry-standard locating equipment and technologies appropriate for the type of underground utility being located, including but not limited to electromagnetic locating devices, conductive and inductive locating equipment, passive and active communication utility locating systems, measuring and surveying devices, Ground Penetrating Radar (GPR), and other industry-accepted locating technologies necessary to identify metallic and non-metallic underground facilities. All locating equipment shall be properly maintained, calibrated, and operated by qualified personnel.

All utility locates shall be classified as either:

1. Traceable Facilities: Underground facilities capable of being identified through conventional conductive, inductive, locating methods, electromagnetic, or other standard locating methods; or
2. Non-Traceable Facilities: Underground facilities that cannot be reliably located using conventional locating methods due to facility composition, absence of tracer wire, deterioration, record limitations, field conditions, or other circumstances.

For non-traceable facilities, the Awarded Bidder(s) shall utilize appropriate advanced locating methods, which may include GPR, available as-built drawings, utility maps, field measurements, and County utility records, and other accepted industry practices and professional judgment to determine the most accurate utility location possible. Where markings are based on as-built information, sufficient documentation must exist to reasonably approximate the facility location. If adequate information is unavailable, the Awarded Bidder(s) shall document the limitations and notify the County Project Manager. If the Awarded Bidder(s) is unable to determine a facility location with Reasonable Accuracy, the Awarded Bidder(s) shall document the condition and promptly notify the applicable County Project Manager or authorized representative. The Awarded Bidder(s) shall not represent an uncertain or unsupported facility location as an accurately completed locate.

The Awarded Bidder(s) shall be responsible for obtaining all necessary access to underground facilities and properties required to perform locate services. When access is restricted, unavailable, or requires coordination with the County, property owner, tenant, or other party, the Awarded Bidder(s) shall immediately notify the applicable County representative. If access to a property cannot be obtained after three (3) documented attempts, the Awarded Bidder(s) shall maintain the Sunshine 811 Positive Response status as “3A No Access” until access is granted or further direction is provided by the County.

The Awarded Bidder(s) shall ensure that all field personnel are equipped with functional cellular telephones, paging devices, or equivalent communication equipment to maintain continuous communication while performing services away from their assigned vehicles or offices.

All facility markings shall clearly identify the route and approximate centerline of the underground utility and shall include pipe size or facility identification where applicable. Markings shall identify County-owned facilities using the designation “MDC” when required by the user department.

Markings shall be made using stakes, flags, paint, or other suitable marking materials compatible with the surface conditions and environment of the work site. Markings shall be clearly visible to excavators, heavy equipment operators, and field personnel, in compliance with applicable Sunshine 811 and industry marking standards.

Where paint markings are required, markings shall consist of stripes no less than twelve inches (12") in length and two inches (2") in width, placed at intervals not exceeding ten feet (10') and at all changes in direction, intersections, or deviations from a straight alignment. Clearly identifiable flags shall also be used where necessary, particularly in areas where paint markings may be removed, obscured, or subject to heavy traffic.

All markings shall be applied in a professional manner that minimizes aesthetic impact and avoids unnecessary defacement of pavement, curbs, decorative surfaces, landscaping, or architectural features. Chalk-based or temporary marking paint shall be used on concrete, paved surfaces, and downtown areas whenever practicable to facilitate rapid fading or easy removal.

All utility location markings shall maintain reasonable accuracy and shall be accurate within two feet (2') of the nearest outside dimension of the underground facility. Any marking exceeding this tolerance shall be considered a location error and shall constitute unacceptable performance under the Contract(s).

3.3.2 Group 1 – Department of Transportation and Public Works (DTPW)

For Group 1, the Awarded Bidder shall provide locating and marking services for underground facilities owned, operated, or maintained by DTPW within the areas identified on Sunshine 811 tickets or other locate requests authorized by DTPW. Services shall include locating applicable DTPW underground infrastructure, which may include, but is not limited to, transportation-related communication facilities, conduits, cables, traffic signal infrastructure, streetlight-related underground facilities, fiber-optic facilities, communication facilities, power facilities and other underground infrastructure under DTPW's responsibility. The Awarded Bidder shall respond to all DTPW-assigned Sunshine 811 tickets and perform the Services in accordance with the General Requirements of Paragraph 3.3.1 and all applicable DTPW standards, procedures, and instructions.

DTPW reserves the right to review, screen, prioritize, and assign locate requests based on operational requirements, construction and maintenance activities, emergencies, ticket volumes, and other departmental needs. The Awarded Bidder shall coordinate with DTPW whenever access to traffic-control cabinets, secured facilities, restricted areas, or other DTPW-controlled infrastructure is necessary to complete a locate. All Services required under Group 1 shall be included within the applicable Group 1 pricing established in Section 4.

3.3.3 Group 2 – Communications, Information and Technology Department (CITD)

For Group 2, the Awarded Bidder shall provide locating and marking services for underground communication infrastructure owned, operated, or maintained by CITD within the areas identified on Sunshine 811 tickets or other locate requests authorized by CITD. Services shall include locating applicable CITD underground infrastructure, which may include, but is not limited to, fiber-optic cables, copper communication cables, underground communication conduits and duct banks, handholes, maintenance holes, communication vaults, tracer wires and related locating components; and other underground communication infrastructure under CITD's responsibility. CITD will identify the site where a locate is required. CITD reserves the right to screen all location requests and issue only those excavation notices as determined necessary. CITD will receive and screen the work location requests sent from Sunshine 811(SSOCOF) and determine if there is a need for actual field locate. The Awarded Bidder shall respond to assigned CITD Sunshine 811 tickets and perform the Services in accordance with the General Requirements of Paragraph 3.3.1 within the applicable response timeframe, and all applicable CITD standards, procedures, and instructions.

Standard CITD requests may include applicable Sunshine 811 ticket classifications identified by CITD, including Tickets B, C, and D, or successor ticket classifications established by Sunshine 811. Additionally, the Awarded Bidder shall maintain sufficient personnel, equipment, communications capability, and transportation resources to respond to CITD emergency locate requests after normal business hours. For an authorized CITD emergency request, the Awarded Bidder shall respond within four (4) hours after notification, unless a shorter response period is required by applicable law or specifically directed by the County due to an emergency condition. The Awarded Bidder shall coordinate all emergency services with the authorized CITD representative and document them in accordance with the Contract. The Awarded Bidder shall safeguard all CITD maps, drawings, GIS information, network diagrams, facility records, access information, security information, and other County-provided data. Such information shall be used solely for performance of the Contract and shall not be disclosed or made available to any unauthorized person or entity. All Services required under Group 2 shall be included within the applicable Group 2 pricing established in Section 4.

3.3.4 Group 3 – Water and Sewer Department (WASD)

For Group 3, the Awarded Bidder shall provide locating and marking services for underground water and sewer facilities owned, operated, or maintained by WASD. Services shall include locating applicable WASD underground infrastructure, which may include, but is not limited to, water transmission mains, water distribution mains, water service lines, sewer transmission mains, force mains, gravity sewer lines, sewer laterals, and related WASD underground infrastructure. Water service lines shall be defined as services connected to a water main and extending to the water meter, right-of-way limit, or easement boundary. Sewer laterals shall be defined as service connections

extending from a gravity sewer main to the cleanout, right-of-way limit, or easement boundary. A single Sunshine 811 locate ticket may involve either water utilities or sewer utilities, as indicated in Section 4.

The Services under Group 3 shall include the identification, tracing, and marking of underground water and sewer utilities in response to excavation notices and locate requests. Ticket classifications may include, but are not limited to, the following:

1. Traceable Tickets: Tickets involving underground water or sewer facilities that can be located using conventional conductive, inductive, electromagnetic, or other standard locating equipment and methods. The Awarded Bidder shall locate and mark such facilities in accordance with Paragraph 3.3.1 and the applicable WASD requirements.
2. Non-Traceable Tickets with Available As-Built Information: Tickets involving underground water or sewer facilities that cannot be electronically traced but for which as-built drawings, utility records, maps, or related documentation are available. These may include, but are not limited to, asbestos cement pipe, Polyvinyl chloride (PVC) pipe, service lines and laterals, and other non-conductive underground facilities. Utility locations for these tickets may require field measurements, record interpretation, and surface marking based on available documentation. The Awarded Bidder shall review available WASD records and utilize field measurements, known reference points, as-built information, and appropriate locating technologies to determine and mark the facility location with Reasonable Accuracy.
3. Non-Traceable Tickets without Available As-Built Information: Tickets involving underground water or sewer facilities that cannot be electronically traced and for which no reliable as-built information or utility records are available. These tickets may require the use of Ground Penetrating Radar (GPR) or other advanced locating technologies to determine the approximate location of underground facilities. The Awarded Bidder shall utilize appropriate advanced locating technologies, including GPR where necessary, together with field investigation, available records, and accepted industry practices to determine the facility location to the greatest practicable degree of accuracy. If the Awarded Bidder cannot establish the location with Reasonable Accuracy, the Awarded Bidder shall document the condition and immediately notify WASD for further direction.
4. Billable tickets shall include all completed Traceable Tickets, Non-Traceable Tickets with available as-built information, and Non-Traceable Tickets requiring GPR or similar subsurface detection methods, as authorized by the County, as indicated in Section 4.

All WASD water and sewer facilities shall be marked along the approximate centerline of the facility and shall include facility or pipe size when such information is available. The Awarded Bidder shall also comply with applicable utility-color requirements and all Sunshine 811 marking standards. WASD markings shall meet the Reasonable Accuracy requirements established by the Contract. Any facility marking outside the allowable tolerance shall constitute a location error and deficient performance.

The Awarded Bidder shall perform all utility markings in a manner that minimizes damage or defacement to paved, concrete, decorative, or architecturally treated surfaces. Chalk-based or other readily removable marking materials shall be used on concrete and paved areas, including downtown locations, where appropriate. Permanent or difficult-to-remove paint shall not be applied to decorative pavers, color-coordinated pavement, curbing, brick surfaces, or other special architectural treatments unless otherwise authorized by WASD. All markings shall be made using materials and methods appropriate for the surface and, to the extent practicable, shall facilitate natural dissipation or removal.

The Awarded Bidder shall safeguard all WASD maps, as-built drawings, GIS information, system records, and other documentation made available for purposes of performing the Services. The Awarded Bidder shall notify WASD of discrepancies, omissions, or apparent conflicts identified between County records and field conditions.

When authorized by WASD, the Awarded Bidder shall perform re-marking, maintenance of existing markings, stakes, or flags, or other related locating services necessary to support ongoing excavation activities. The Awarded Bidder

shall not perform separately compensable additional work without prior authorization from WASD. Compensation, when applicable, shall be in accordance with the prices established under the Contract for Group 3.

When as-built drawings, maps, records, or other facility information are used in connection with locating underground facilities, the Awarded Bidder shall review and utilize such information in conjunction with appropriate locating methods and field conditions. As-built information shall not be relied upon as the sole basis for marking a facility when the information is insufficient, inconsistent, or cannot reasonably support the facility location. When available information is insufficient to determine or verify the location of an underground facility, the Awarded Bidder shall document the limitation and promptly notify WASD in accordance with the applicable ticket and notification requirements.

3.4 TICKET TYPES (GROUPS 1 AND 2)

Ticket classifications Groups 1 and 2 shall be defined as indicated below. For Group 3 (WASD), the ticket classifications and pricing categories identified in Paragraph 3.3 and Section 4 shall apply.

1. **Ticket A:** No mobilization is required to complete the locate request.
2. **Ticket B:** Mobilization is required to perform the locate services.
3. **Ticket C:** Work in progress or emergency response rates apply. This classification is limited to immediate response requests initiated by gas, electric, telephone, or water utilities.
4. **Ticket D:** Re-marking request for a previously completed locate (Ticket B or C). This applies when an excavator requests that markings be re-established within fifteen (15) working days of the original locate.
5. **UNIFORM COLOR CODE**

All utility markings shall be performed in strict accordance with the American Public Works Association–Utility Location and Coordination Council (APWA–ULCC) Uniform Color Code and marking standards. The Awarded Bidder(s) shall ensure that all field markings comply with the prescribed color designations, symbols, abbreviations, and identification practices established under the APWA–ULCC guidelines.
Markings shall be applied in a consistent and uniform manner to clearly distinguish the type of underground utility present, promote safe excavation practices, and ensure immediate recognition by excavators and field personnel. The Awarded Bidder(s) shall remain responsible for maintaining compliance with the most current APWA–ULCC standards throughout the term of the Contract(s), including any updates or revisions issued during the term of the Contract(s).

1. **White:** Proposed Excavation
2. **Pink:** Temporary Survey Markings
3. **Red:** Electric Power Lines, Cables, Conduit and Lightning Cables
4. **Yellow:** Gas, Oil, Steam, Petroleum or Gaseous Materials
5. **Orange:** Communication, Alarm or Signal Lines, Cables or Conduit
6. **Blue:** Potable Water
7. **Purple:** Reclaimed Water, Irrigation and Slurry Lines
8. **Green:** Sewer Drain Lines

Awarded Bidder(s) shall use stakes, flags, paint, or other materials suitable for the surface where the markings will be done. Markings applied must clearly identify the route of the utility.

3.6 RECORD KEEPING

The Awarded Bidder(s) shall maintain complete, accurate, and organized records sufficient to support all invoices, reporting, operational, and audit requirements under the Contract(s) for a minimum period of six (6) years following the completion of services or final payment, whichever occurs later. The Awarded Bidder(s) shall maintain secure electronic and/or physical storage systems capable of preserving all records related to locate requests, field activities, utility markings, response times, billing documentation, and related communications. The County shall have the right, upon reasonable notice, to access, review, inspect, and audit such records and storage systems during the term of the Agreement and throughout the required retention period.
At a minimum, the Awarded Bidder(s) shall retain the following information for each locate request received:

1. Sunshine 811 ticket number

2. Date and time the locate request was received
3. Date and time the locate request was assigned
4. Location and address of the excavation site
5. Name of the requesting excavator or contractor
6. Type of locate request or ticket classification
7. Description of utilities located and marked
8. Methods and equipment used to perform the locate
9. Copies of field notes, sketches, measurements, maps, photographs, or supporting documentation
10. Positive Response System status updates and response codes submitted
11. Date and time the locate was completed
12. Name or identification of the field technician performing the work
13. Documentation of any delays, clearance notices, no-conflict notices, or exceptions
14. Records supporting invoice amounts and billable ticket classifications
15. Any related correspondence, notifications, complaints, or damage reports associated with the locate request
16. Records identifying all requests for re-marking and the disposition of each request
17. Photographs and/or videos documenting the marked areas, as applicable

All records shall be maintained in a manner that allows for timely retrieval and production upon request by the County. The Awarded Bidder(s) shall make all records and data required under the Contract(s) available to the County, in a County-specified format, for viewing and/or download at no additional cost to the County.

7. **AWARDED BIDDER(S)' DUTIES AND RESPONSIBILITIES**

1. The Awarded Bidder(s) shall maintain and deploy sufficient qualified personnel, along with all required office and field equipment, transportation, and supplies, to ensure the timely and complete execution of all assigned locate tickets from initial receipt through final entry of the required Positive Response.
2. All locate requests shall be fully completed in their entirety; partial completion of tickets or incomplete responses shall not be permitted.
3. All locate requests assigned by the County shall be completed by the Awarded Bidder(s). The Awarded Bidder(s) shall not reject, reassign, or return any ticket without prior written approval from the Project Manager. The Awarded Bidder(s) is responsible for maintaining adequate staffing, equipment, and operational capacity to meet service demands under varying workload conditions, including periods of high-ticket volume and backlog.
4. The Awarded Bidder(s) shall maintain access to email and/or approved ticket management software to ensure continuous, 24-hour daily receipt of all Location Requests transmitted by Call-Sunshine.
5. The Awarded Bidder(s) shall retain and securely safeguard all County-provided location maps, records, and related information. Such materials shall be used solely for the performance of services under the Contract(s) and shall not be disclosed, shared, or made accessible to any individual or entity without prior written approval from the County.
6. The County may provide the Awarded Bidder(s) with electronic access to its system location data, which shall be treated as confidential and handled in accordance with County requirements.
7. The Awarded Bidder(s) shall notify the Excavator when identifiable County's utilities are present but cannot be precisely located in the field. In such cases, the Awarded Bidder(s) shall clearly inform the Excavator that the available location information may not meet the standard of reasonable accuracy.
8. The Awarded Bidder(s) shall promptly notify the County of any discrepancies, inconsistencies, or omissions identified in records or other information provided by the County, to the extent such issues are reasonably detectable by the Awarded Bidder(s) during the performance of services.
9. The Awarded Bidder(s) may be required to provide additional services, including the maintenance of utility marks and stakes, when specifically requested by the County. No such additional work shall be performed without prior written approval from the Project Manager. When authorized, all additional services shall be compensated in accordance with the unit prices submitted in the Awarded Bidder(s)' bid form.

10. If requested by the County, the Awarded Bidder(s) shall provide testimonial or administrative support in matters deemed necessary by the County. Such services shall be provided at no additional cost to the County and will not be eligible for separate reimbursement.

3.8 ADDITIONAL RELATED SERVICES

During the term of the Contract (s), the County may require additional services/items that are related to, and within the general scope of, the underground utility locating and marking Services provided under the Contract(s), but are not specifically identified or priced in this Solicitation. Under these circumstances, a County representative may obtain a price quote from the Awarded Bidder(s). Should a different item be quoted than listed on the request for price quotation, the Awarded Bidder(s) shall provide the documentation as listed in Paragraph 2.4 of this Solicitation, and any supporting documentation as required by the County. The County reserves the right to award these services/items to an Awarded Bidder based on the price quoted, to negotiate a price with an Awarded Bidder for the additional Services, or to acquire the additional Services through a separate Solicitation. All additions of Services/items authorized by the County shall be formalized by a Contract Modification, originated, and published by SPD. The County also reserves the right to delete services when they are no longer needed.

3.9 OMISSION FROM THE SPECIFICATIONS

Any silence or omission in these specifications shall be interpreted to mean that only the best commercial practices shall prevail. All materials and workmanship shall be of the highest quality, and all requirements of this Solicitation shall be interpreted consistent with these standards.

SECTION 4
SUBMITTAL REQUIREMENTS

BIDDER: _____

_____

4.1 BIDDER REQUIREMENTS

	TO BE COMPLETED BY ALL BIDDERS
	Refer to Paragraph 2.3, Method of Award, and Paragraph 2.4, Bidder Requirements, to ensure that Bidder's responses and attachments comply with the Solicitation's requirements for each group.
Paragraph Reference	**Bidder Requirements**

This a draft solicitation for a future competitive contract Miami-Dade County anticipates entering into.
Solicitation is subject to change without notice.
This is not an advertisement.

2.4.1	Bidder or Bidder's Subcontractor shall be regularly engaged in the business of providing locating and marking services for underground utilities, including water and sewer facilities (Group 3) to government agencies and/or private businesses. To demonstrate compliance with this requirement, Bidder or Bidder's Subcontractor shall provide two (2) ***different*** references from agencies or municipalities to whom the Bidder or Bidder's Subcontractor has provided or is currently providing location of underground utilities as described throughout this Solicitation. In lieu of the references from the Bidder or Bidder's Subcontractor, the County will consider the references from Bidder's key personnel in accordance with Resolution No. 1122-21. The references should include the customer's company name, and the contact person's name, title, address, telephone number, and e-mail address, who can verify that the Bidder/key personnel/Subcontractor has successfully provided the services being offered to the County. These references shall ascertain to the County's satisfaction that the Bidder/key personnel/Subcontractor has sufficient expertise in the industry, including water and sewer (Group 3) and its firm is properly equipped to perform the required services. **Reference Company Name No. 1:** Is reference for the Bidder, **or** key personnel: If **key personnel**, then identify the name of the key personnel: and make sure that company key personnel worked for is listed above as "Reference Company 1." Contact's name: _____ Title: _____ Address: _____ Phone Number: _____ Email: _____ Type of services provided:_____ **Reference Company Name No. 2:** Is reference for the Bidder, **or** key personnel: If **key personnel**, then identify the name of the key personnel: and make sure that company key personnel worked for is listed above as "Reference Company 2." Contact's name: _____ Title: _____ Address: _____ Phone Number: _____ Email: _____ Type of services provided:_____
2.4.2	Bidder shall designate at least one company representative who is knowledgeable in the goods and services being offered to the County, and who shall be available to the County from Monday through Friday from 8:00 a.m. through 5:00 p.m. to address and expedite matters relating to a resulting Contract(s). To demonstrate compliance with this requirement, the Bidder shall attest to the representative's knowledge and availability and provide the representative's name, title, telephone number, and email address.

	Company Representative Name:_____ Title:_____Phone Number: _____ E-mail Address:_____ _____

4.2. PRICING

Bidder shall provide pricing in INFORMS (as indicated below) for providing locating and marking services for underground utilities, in conjunction with the County's needs, as indicated under Section 3, Scope of Work/Technical Specifications, in accordance with all applicable terms and conditions of this Solicitation. The Bidder's price shall be inclusive of all costs, including transportation, charges, supervision, labor, personnel, vehicles, locating equipment, tools, materials, supplies, communication devices, transportation, fees, and other resources necessary to perform the Services. Estimated quantities provided in INFORMS are for the five-year term of the Contract(s) and are provided for Bidders' guidance only. Refer to Section 1, Paragraph 1.9, Quantities.

Group 1 – Department of Transportation and Public Works (DTPW)

Line-Item	Estimated Quantity (5-years)	Unit of Measure	Description	Unit Price
1	TBD	Each	All-inclusive flat fee per ticket for location of all underground utilities for DTPW received from Sunshine 811 (SSOCOF), as described in Section 3, Scope of Work/Technical Specifications for Group 1.	**Pricing shall be submitted in INFORMS for each line item.**

Group 2 – Communications, Information Technology Department (CITD)

Line-Item	Estimated Quantity (5-years)	Unit of Measure	Description	Unit Price
2	6,000	Each	All-inclusive flat fee per ticket for location of underground communication utilities for CITD received from Sunshine 811 (SSOCOF), tickets B,C, and D, as described in Section 3, Scope of Work/Technical Specifications for Group 2.	**Pricing shall be submitted in INFORMS for each line item.**
3	240	Each	All-inclusive flat fee per ticket for location of underground communication utilities, required after hours, as described in Section 3, Scope of Work/Technical Specifications for Group 2. Awarded Bidder must respond within 4 hours of response time after notification.	

Group 3 – Water and Sewer Department (WASD)

Line-Item	Estimated Quantity (5-years)	Unit of Measure	Description	Unit Price
4	15,000	Each	All-inclusive flat fee per Sunshine 811 ticket for locating traceable underground water utilities for WASD, as described in Section 3, Scope of Work/Technical Specifications for Group 3.	**Pricing shall be submitted in**

This a draft solicitation for a future competitive contract Miami-Dade County anticipates entering into.
Solicitation is subject to change without notice.
This is not an advertisement.

5	15,000	Each	All-inclusive flat fee per Sunshine 811 ticket for locating traceable underground sewer utilities for WASD, as described in Section 3, Scope of Work/Technical Specifications for Group 3.	**INFORMS for each line item.**
6	12,000	Each	All-inclusive flat fee per Sunshine 811 ticket for locating non-traceable underground water utilities with available as-built information for WASD, as described in Section 3, Scope of Work/Technical Specifications for Group 3.	
7	3,000	Each	All-inclusive flat fee per Sunshine 811 ticket for locating non-traceable underground water utilities without available as-built information for WASD, as described in Section 3, Scope of Work/Technical Specifications for Group 3.	
8	12,000	Each	All-inclusive flat fee per Sunshine 811 ticket for locating non-traceable underground sewer utilities with available as-built information for WASD as described in Section 3, Scope of Work/Technical Specifications for Group 3.	
9	3,000	Each	All-inclusive flat fee per Sunshine 811 ticket for locating non-traceable underground sewer utilities without available as-built information for WASD, as described in Section 3, Scope of Work/Technical Specifications for Group 3.	

Note: The estimated quantity reflected above represents an anticipated term volume. Actual quantities may fluctuate from month to month based on operational needs, workload demands, and the number of locate requests received.

DRAFT
