SUBJECT: Review of PTP Surtax Revenue; Addendum 1

In discussions of subject audit report with the Board of County Commissioner's Transit, Infrastructure and Roads Committee on December 9, 2009, clarification was requested in regards to the closure statement in the last sentence of the first paragraph of the cover memo. Please be aware that the statement that "this audit is considered closed" pertains only to the scope and objectives of this audit. Closure does not imply consideration or satisfaction of any issues other than as specifically addressed in the audit.

Please insert this addendum inside the front cover of our previously distributed "Review of PTP Surtax Revenue" audit report, dated December 3, 2009, and let me know if you need further information.

We thank the Chairperson and Members of the Transit, Infrastructure and Roads Committee for their consideration and acceptance of our report.

I. Objectives and Scope

As part of the FY 2008-09 Audit Work Plan approved by the Miami-Dade County Board of County Commissioners (BCC), the Office of the Commission Auditor (OCA) conducted a Review of People's Transportation Plan (PTP) Surtax Revenue (Surtax). OCA examined whether the PTP Surtax proceeds that were collected for the six years ended September 30, 2008 were expended according to criteria provided by ordinances and resolutions that enacted or amended the PTP (PTP legislation).

The objectives of the audit were to:

1. Ascertain the amount of Surtax collected and the allocations made to Miami-Dade Transit (MDT), the Public Works Department (PWD), the Office of the Citizens' Independent Transportation Trust (OCITT), and the municipalities for the six years ended September 30, 2008.
2. Ascertain that the amounts of Surtax expenditures were made in accordance with the PTP legislation.
3. Determine the status of PTP accomplishments and achievements.

II. Methodology

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

External auditors have issued their reports on their consideration of Miami-Dade County (County) and MDT internal control over financial reporting, and on their tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of those reports was to describe the scope of the external auditors testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. We have relied on the work of these other auditors when planning and performing our audit.

Other auditors, the Audit and Management Services Department of Miami-Dade County (AMS), have issued their reports on their consideration of whether the municipalities expended their share of Surtax funds in accordance with Ordinance No. 02-116 and the Interlocal Agreements. AMS has performed audits on a number of the municipalities at the request of the OCITT, and we have relied upon the work of these other auditors in regards to these matters.

Our audit involved examining, on a test basis, evidence supporting the PTP Surtax revenues, allocations and expenditures, and was designed to evaluate whether the PTP Surtax funds were expended according to criteria provided by the PTP legislation. Our audit procedures included

reviewing all PTP legislation, interviewing staff, and examining reports and supporting documents from the OCITT, the MDT, and the PWD.

OCA examined in detail the following PTP related reports including, on a test basis, the supporting documentation, for the six years ended September 30, 2008:

- OCITT's Charter County Transit System Surtax Collection Report,
- OCITT's Cash Analysis of Charter County Transit Surtax Report,
- OCITT's Surtax Transfers – MDT and PWD schedule,
- OCITT's Municipal Surtax Transfers schedule,
- MDT's PTP Sources and Uses schedule, and
- PWD's PTP Projects Cash Flow schedule.

To satisfy ourselves of the accuracy and validity of the reports, OCA reconciled these reports with each other; reconciled them to the County's Financial Accounting Management Information System (FAMIS) accounting records; and reconciled those reports related to MDT with the MDT Audited Financial Statements. We also performed procedures to determine whether the Surtax expenditures presented in these reports were authorized by the PTP legislation.

III. Background

The PTP is the group of transportation and transit projects set forth in Exhibit 1 of Ordinance No. 02-116 subject to amendments that became collectively known as the PTP. The PTP was enacted by the adoption of Ordinance No. 02-116 on July 9, 2002 and the subsequent approval by the voters on November 5, 2002.

The PTP Surtax is the funding source created pursuant to Ordinance No. 02-116, which levied a one half of one percent Charter County Transit System Surtax and defined how the Surtax was to be spent for the transportation and transit projects set forth in Exhibit 1 to Ordinance No. 02-116, subject to amendments.

The PTP fund is a special fund created by Ordinance No. 02-116 which provided that Surtax proceeds collected would be deposited in a special fund set aside from other County funds.

The Citizens' Independent Transportation Trust (CITT) was created by the adoption of Ordinance No. 02-117 on July 9, 2002, and the subsequent approval by the voters on November 5, 2002. Ordinance No. 02-117 created the CITT with certain powers over the use and expenditure of proceeds of the PTP Surtax.

The Office of the Citizens' Independent Transportation Trust (OCITT) provides staff support for the CITT and coordinates public outreach efforts to inform the community regarding the improvements that have been implemented using Surtax funds. The OCITT is charged with exercising control and monitoring of the expenditure of the Surtax.

After Ordinance No. 02-116 was adopted on July 9, 2002, one (1) ordinance and twenty-one (21) resolutions related to the PTP were adopted by through March 3, 2009. Of these:

- Ordinance No. 05-148 and twelve (12) resolutions related to MDT;
- Seven (7) resolutions related to PWD;
- One (1) resolution related to the, then existent, Office of Public Transportation Management (OPTM)¹; and
- One (1) resolution related to the, then existent, Communications Department (COM).

In addition to direct funding by Surtax collections, funding sources acquired as a result of the PTP included the following.

- Resolution R-846-04 approved a \$100,000,000 Sunshine State Loan for the purpose of paying or reimbursing the cost of purchasing certain capital assets for MDT.
- Resolution R-252-06 provided for the issuance of not to exceed \$200,000,000 aggregate principal amount of Miami-Dade County, Florida Transit System Sales Surtax Revenue Bonds, Series 2006 (the “Series 2006 Bonds”).
- Resolution R-319-08 provided for the issuance of not to exceed \$300,000,000 aggregate principal amount of Miami-Dade County, Florida Transit System Sales Surtax Revenue Bonds, Series 2008 (the “Series 2008 Bonds”).

Attachment 1 provides a more detailed summary of PTP legislation.

IV. Summary Results

Objective 1. Ascertain the amount of Surtax collected and the allocations.

- Surtax collections, interest earned, Sunshine Loan, and revenue bonds on accrual basis through September 30, 2008 were \$1,492,222,338.
- Funds allocated and transferred to departments and municipalities on accrual basis through September 30, 2008 were \$1,431,889,360.

Section V, Detailed Results, and the attachments to this report provide additional detail.

Objective 2. Ascertain that the amounts of Surtax expenditures were made in accordance with the PTP legislation.

- We concluded that Surtax proceeds collected for the six years ended September 30, 2008 and the related funding sources acquired as a result of the PTP were expended in accordance with PTP legislation. The bar chart in Figure 1, on the next page, illustrates Surtax expenditures through September 30, 2008 by department and by PTP legislation.

¹ The Office of Public Transportation Management (OPTM) was formed in 2002 to help implement the PTP and build a safe and functional mass transit system for Miami-Dade County. OPTM was subsequently merged into MDT in 2005.

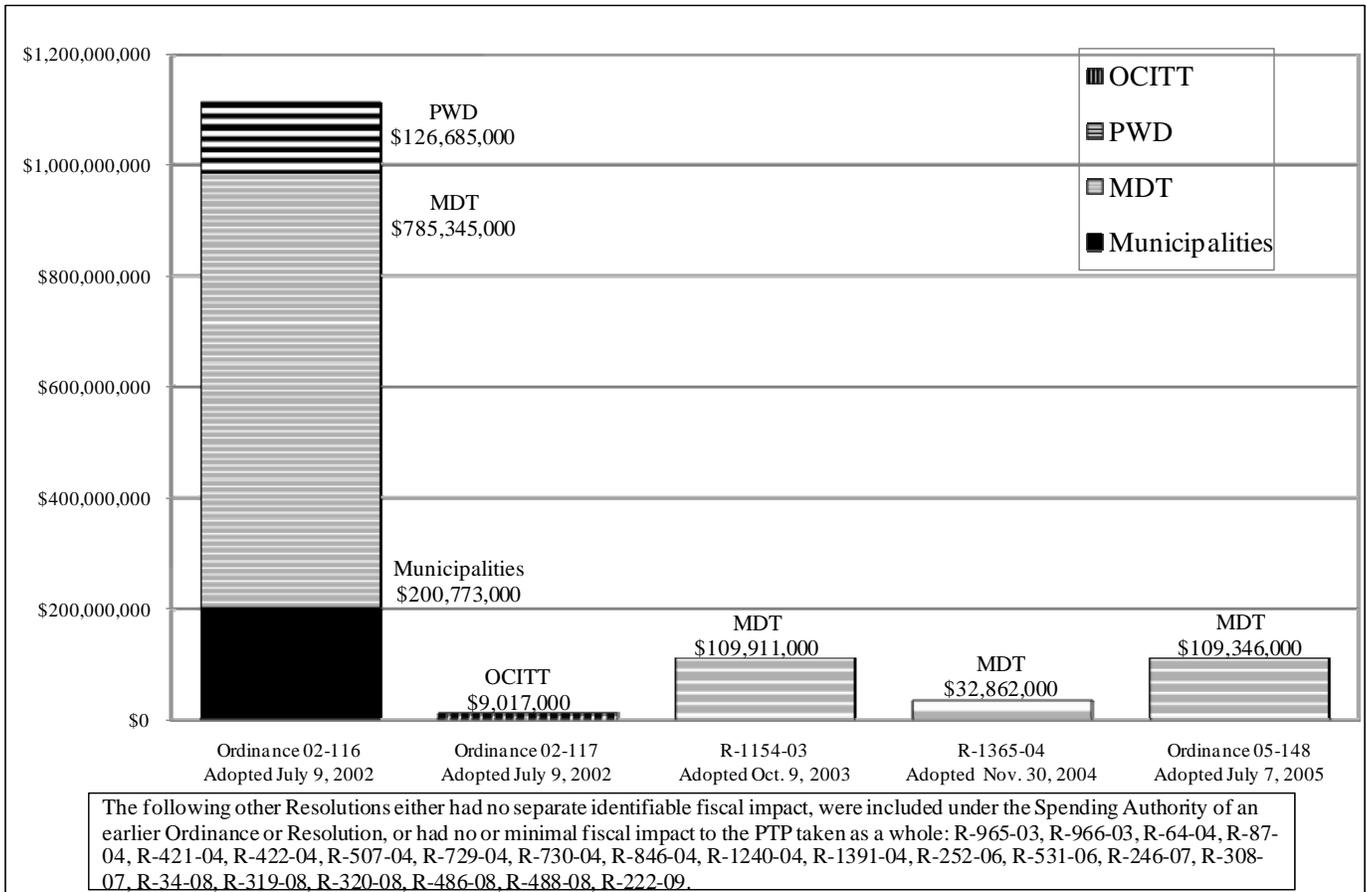

Fig. 1. People’s Transportation Plan Surtax Spending by Ordinance and Resolution - Amount Spent from the Legislation's Adoption Date through September 30, 2008

Objective 3. Determine the status of PTP accomplishments and achievements.

A core mission of the CITT is to “monitor, oversee, review, audit, and investigate implementation of the transportation and transit projects listed in any levy of the Surtax, and all other projects funded in whole or in part with surtax proceeds.”² We chose to rely upon, and did not independently audit, information on PTP accomplishments and achievements provided to us by the OCITT.

Other significant matters that came to our attention.

During our audit, we noted that MDT had a cash deficit every year, from FY 2000-01 through FY 2007-08, and incurred a series of advances and/or loans, including a loan from PTP funds totaling \$109.4 million as of September 30, 2008. Section VII and Attachment 7 provide additional information.

V. Detailed Results

We make reference to and draw comparisons between cash and accrual bases of accounting. Basis of accounting refers to when revenues, expenditures, expenses, and transfers—and the related assets and liabilities—are recognized in the accounts and reported in financial statements.

- Under cash basis accounting, revenues and transfers are not recognized until cash is received, and expenditures or expenses (as appropriate) and transfers out are recognized only when cash is disbursed.
- Under accrual basis accounting, most transactions are recognized when they occur, regardless of when cash is received or disbursed.³

A. PTP Sources and Transfers

PTP funds available and received from all sources included the amount of Surtax collections, the interest earned, and the debts acquired, duly recognized on accrual basis as of and for the six years ended September 30, 2008, and were as listed in Table 1.

Table 1

PTP Funds from all Sources on Accrual Basis through September 30, 2008

Surtax Collections	\$1,003,863,177
Interest Earned on Surtax Collections	16,713,161
Interest on Loan for Existing Services to MDT	4,506,000
Sunshine Loan on 2004 to MDT	97,140,000
Series 2006 Surtax Revenue Bonds to MDT and PWD	180,000,000
Series 2008 Surtax Revenue Bonds to MDT and PWD	<u>190,000,000</u>
Total PTP Sources	<u>\$1,492,222,338</u>

PTP funds allocated and transferred to the municipalities and the departments included the amount of Surtax transferred, and the debts acquired, duly recognized on accrual basis as of and for the six years ended September 30, 2008, and were as listed in Table 2.

B. Comparison between the PTP Fund Balance and Cash Balance

PTP fund balance on accrual basis = Total PTP Sources - Total PTP Transfers + Gross Amount of the MDT Loan for Existing Services and were as listed in Table 3 on the next page.

Table 3

PTP Fund Balance from all Sources on Accrual Basis through September 30, 2008

Total PTP Sources	\$1,492,222,338
Total PTP Transfers	(1,431,889,360)
Gross amount of the MDT Loan for Existing Services	<u>109,346,000</u>
PTP Fund Balance on Accrual Basis	<u>\$169,678,978</u>

PTP fund balance on accrual basis (the accrual balance of the entries and transactions that directly affected the PTP fund) consisted of the Surtax collections and interest earned minus the amounts of Surtax proceeds transferred to the municipalities and the departments, duly recognized on accrual basis as of and for the six years ended September 30, 2008.

PTP cash balance on cash basis (the cash balance of the entries and transactions that directly affected the PTP fund) consisted of the PTP Surtax collections and interest earned minus the amounts of Surtax proceeds transferred and loaned to the municipalities and the departments, actually received and transferred on a cash basis as of September 30, 2008.

The cash effect of the MDT Loan for Existing Services of \$109,346,000 as of September 30, 2008 is presented net of repayments of \$6,991,000 and interest of \$4,506,000.

The cash effect of the PTP Surtax transfers to MDT is presented net of a payable to MDT for the Golden Passport in the amount of \$6,660,117.

Table 4 below compares the accrual basis fund balance with the cash basis cash balance.

D. PWD PTP Sources and Uses

- Our examination concluded that PWD PTP expenditures for the six years ended September 30, 2008 were made in accordance with PTP legislation.

Total Amount of PWD PTP Expenditures		<u>\$126,685,000</u>

For the purposes of presenting the results of our audit, OCA included all PWD expenditures under the spending authority of Ordinance No. 02-116. Our examination concluded that other PWD related resolutions had either no separate identifiable fiscal impact, were already encompassed by Ordinance No. 02-116, or had no or minimal fiscal impact to the PTP taken as a whole. Attachment 6 identifies the specific ordinance and/or resolutions related to every PWD project. Figure 1, on page 4, illustrates fiscal impact of PTP legislation.

The PWD PTP sources on accrual basis for the six years ended September 30, 2008 were as listed in Table 9.

E. Surtax Proceeds Transferred to the Municipalities

Ordinance No. 02-116 provided that twenty percent of Surtax proceeds shall be distributed annually to those cities existing as of November 5, 2002 that meet certain conditions outlined in the ordinance.

Our examination concluded that the Surtax transferred to the municipalities for the six years ended September 30, 2008 were made in accordance with PTP legislation as duly amended by the BCC, except for those amounts which were recommended for recapture by AMS subject to the final determination of the OCITT.

PTP Surtax proceeds transferred to the municipalities on accrual basis for the six years ended September 30, 2008 were \$200,772,646.

Attachment 6 provides detailed amounts by fiscal year through September 30, 2008.

F. Work Performed by Other Auditors on the Municipalities' Expenditures

As of June 24, 2009, AMS had conducted audits of 15 municipalities at the request of the CITT. We have relied upon the work of these other auditors in regards to these matters.

VI. PTP Accomplishments and Achievements

Our descriptions include both comments provided by the OCITT and other observations. We chose to rely upon, and did not independently audit, information on PTP accomplishments and achievements provided to us by the OCITT.⁴

At our request, the OCITT provided the following comments on PTP accomplishments and achievements.

Since the passage of the Plan [PTP] there have been significant improvements to our public transportation system and roadways.

These include the addition of millions of miles of new bus routes, the purchase of over 262 new buses and the funding of 21 municipal shuttle bus systems throughout the County. Over 171,000 senior citizens and veterans ride public transportation for free under the Golden Passport and Patriot Passport Programs.

⁴ The CITT has certain powers over the use and expenditure of the proceeds of the Charter County Transit System Surtax, as outlined in Ordinance No. 02-117. A core mission of the CITT is to "monitor, oversee, review, audit, and investigate implementation of the transportation and transit projects listed in any levy of the Surtax, and all other projects funded in whole or in part with surtax proceeds. OCITT provides staff support for the CITT and coordinates public outreach efforts to inform the community regarding the improvements that have been implemented using Surtax funds. The OCITT is charged with exercising control and monitoring of the expenditure of the Surtax.

The first leg of the expansion of the Metrorail System broke ground on May 1, 2009. This \$526,000,000 project – the Miami Intermodal Center/Earlington Heights Connector [MIC/EH Connector] – will bring Metrorail to Miami International Airport [MIA]. A fleet of railcars and Metromover cars are being purchased.⁵

Over 390 miles of roadways have been improved. A new Advanced Traffic Management System that will ease traffic congestion throughout our community is currently being installed. Traffic circles have been constructed and school safety crossing zones have been constructed.

There is, however, much yet to be done. There has been great concern over the promises made and the ability to fund those projects. The Trust [CITT] shares these concerns. The Trust is also encouraged and applauds the candor, honesty and quality of the discussion occurring with Miami-Dade County and the community. Recent events and dialogue sponsored by Mayor Alvarez, Chairman Moss, Transportation Committee Chair Jordan and the entire County Commission and administration are all positive developments.

The OCITT also referred to the following other reports for additional information and from which we have extracted the below listed additional comments.

- The Transportation Trust Strategic Objectives, adopted by the CITT on March 24, 2009;
- The CITT’s Quarterly Report to the BCC for the period ending March 31, 2009; and
- The CITT’s Municipal Report dated March 2009.

MDT has increased the Metrobus fleet by 262 buses since the PTP was passed; the current Metrobus fleet is 967 buses, as follows:

<i>Metrobus fleet</i>	<i>Status</i>	<i>Total</i>
<i>40-foot buses</i>	<i>Active</i>	<i>759</i>
<i>45-foot over-the-road buses</i>	<i>Active</i>	<i>13</i>
<i>30-foot minibuses</i>	<i>Active</i>	<i>121</i>
<i>Total active buses</i>		<i>893</i>
<i>Inactive buses</i>	<i>Inactive status</i>	<i>56</i>
<i>Retired buses</i>	<i>Contingency fleet</i>	<i>18</i>
<i>Total buses</i>		<i>967</i>

MDT has hired 1,875 new employees since November 2002 to assist with implementing PTP projects.

Over 171,000 senior citizens and veterans ride public transportation for free under the Golden Passport and Patriot Passport Programs. Currently, there are 171,257 certified Golden Passport/Patriot Passport customer accounts.

⁵ Resolutions R-486-08 & R-488-08

<i>Golden Passport and Patriot Passport Programs</i>	<i>Total</i>
<i>Golden Passport over 65 years of age</i>	<i>131,487</i>
<i>Golden Passport under 65 years of age</i>	<i>34,174</i>
<i>Patriot Passport customers</i>	<i>5,596</i>
<i>Total certified Golden Passport/Patriot Passport customer accounts</i>	<i>171,257</i>

PWD has completed sixteen (16) of the major roadway projects listed in the PTP with 10 more under construction; among the projects completed are the Miami Gardens Drive Connector from US-1 to William Lehman Causeway, new access to Country Walk, Grand Avenue in Coconut Grove which featured various roadway and drainage improvements from SW 37th Avenue to SW 32nd Avenue, SW 97th Avenue from SW 40th Street to SW 72nd Street, South Miami Avenue from 15th Road to 25th Road and NW 62nd Avenue, including widening of the road from two to four lanes between NW 105th Avenue and NW 138th Avenue.

PWD has completed the implementation of over 540 Neighborhood Improvement Projects that include the following: roadway resurfacing, ADA sidewalk accessibility, drainage, traffic signals, traffic calming, arterial street lighting, illuminated street-name signs, and school-flashing signals. These improvements have enhanced safety and mobility throughout Miami-Dade County and have improved the quality of life within our neighborhoods. The PWD is working closely with each of the County Commissioner's Offices to discuss implementation of the Neighborhood Improvement Projects.

A new Advanced Traffic Management System (ATMS) that will ease traffic congestion through our community is currently being installed. PWD continues to upgrade traffic signals and transfer them to the new ATMS system. As of March 31, 2009, 1511 (58%) of the County's 2602 Signalized Intersections are running ATMS software.

PWD has installed illuminated street name signs at 973 intersections throughout the County, inclusive of 53 intersections accomplished under the Pilot Program. PWD, with assistance from FDOT and several municipalities, is working to implement a County-wide program to install LED signs on major intersections over the next three years.

PWD is also replacing faded street signs throughout the County at a rate of about 70 intersections a week, with more than 25,000 replaced so far.

School safety crossing zones have been constructed. The half-penny Surtax is funding the installation of more than one hundred new flashing signals in school zones to let drivers know they have to slow down. The PTP is also funding the Safe Routes to School improvements in a cooperative effort by the PWD, Miami-Dade Public Schools and the FDOT to improve safe access for children to walk or bike to school.

Other observations:

Metromover service is free.

The MIC/EH Connector is a 2.4-mile extension of the Metrorail system from the existing Earlington Heights Station at NW 22nd Avenue and NW 41st Street to the MIC near Miami International Airport (MIA). The MIC/EH Connector, one of the Exhibit 1 Rapid Transit Improvements projects, is funded exclusively with local and state dollars. The transportation surtax is contributing \$426,000,000 of the \$526,000,000 total cost and the State of Florida is providing the remaining \$100,000,000. The MIC/EH Connector is scheduled to open for revenue service in 2012.

MDT added 4,125,000 miles of new bus routes for a total of 30,500,000 bus revenue miles as of June 2, 2009 as per Resolution R-676-09 over the 26,375,000 prior PTP bus miles, while eliminating less productive and duplicative bus service to improve the efficiency and effectiveness of the system.

Twenty percent (20%) of the annual Surtax proceeds are allocated to thirty-one municipalities eligible to receive PTP funds; each receives a pro rata share based on its population. While the specific accomplishments of the municipalities are too numerous to mention, the OCITT prepared a Municipal Transportation Program Report – March 2009, available from the OCITT, that covers the achievements of all the municipalities since the inception of the PTP.

VII. Other Significant Matters That Came To Our Attention

A significant matter that came to our attention as part of our audit, albeit outside the scope and objectives of this audit, concerns the recurring MDT Deficit and MDT's incurrence of a series of advances from the general fund and/or loans, including a loan from PTP funds totaling \$109.4 million as of September 30, 2008.

A review of MDT's Financial Report issued by external auditors and dated September 30, 2008 showed that the total Cash Deficit at September 30, 2008 was \$128.4 million.

- The portion of this deficit expected to be repaid within one year of September 30, 2008 was shown on MDT's Audited Financial Statements in Current Liabilities, and was netted in Due to Other Miami-Dade County Funds, in the amount of \$56.4 million.
- The remaining portion was reflected as a Long Term Advance from Miami-Dade County in the amount of \$72 million.
- These amounts do not include the Loans Payable to the CITT (MDT Loan for Existing Services), which had a net balance of \$102.4 million as of September 30, 2008.

Attachment 7 provides detailed amounts by fiscal year through September 30, 2008.

Footnotes:

1. Difference represents amount of Surtax duly recognized (accrued) before and collected subsequent to September 30, 2008. Total amount was received between October 2008 (13,279,390) and November 2008 (16,283,355).
2. The Interest on the MDT Loan for Existing Services is recognized as revenue affecting the PTP Fund Balance and as such increases PTP Fund Balance as of September 30, 2008. The net effect of the MDT Loan for Existing Services reduces the PTP Cash Balance by the difference between the Loan Amount (109,346,000), the Repayments (6,991,000) and the Interest (4,506,000) as of September 30, 2008. Neither the Loan amount nor the Repayments affect the PTP Fund Balance as of September 30, 2008.
3. Difference represents amount duly recognized (accrued) before and transferred to the Municipalities subsequent to September 30, 2008. Total amount had been transferred by December 2008 except for \$33,975 withheld remaining in the Restricted Cash Balance as of September 30, 2008.
4. Difference represents amount payable to MDT related to the Golden Passport as of September 30, 2008.
5. Difference represents amount payable to OCITT as of September 30, 2008.
6. Difference represents amount withheld from the Municipalities remaining in the Restricted Cash Balance as of September 30, 2008.

Subject: Review of PTP Surtax Revenue

I would like to thank you and your staff for conducting a thorough People's Transportation Plan (PTP) Surtax Revenue audit. The audit concluded that Miami-Dade Transit (MDT) expended their share of the Surtax funds in accordance with Ordinance No. 02-116. While there were no findings, significant matters were noted concerning the recurring MDT cash deficit and the PTP loan for existing services. MDT has been continuously addressing its long standing financial issues through operating efficiencies.

I also would like to highlight some of the department's most notable accomplishments. Since 2007, we have moved the needle on key PTP projects and the overall improvement of Metrobus, Metromover and Metrorail performance. Most notably, Metrobus on-time performance improved from 70 to 79.2 percent. This is largely attributable to an improvement in how we maintain our buses. The key measure for us is Mean Distance Between Failures (MDBF) – which essentially is defined by a 5 minute or more interruption in service to our customers. Since 2007, our MDBF on bus has gone from 2,956 miles to 3,951 miles, which represents a 75 percent improvement. Similar improvements have been achieved on rail and mover, improving from 4,897 miles to 6,359, and 38,599 to 45,475 MDBF respectively.

On May 1, 2009, MDT also celebrated the groundbreaking of its 2.4-mile Metrorail extensions to the Miami Intermodal Center, which is scheduled for completion in 2012. We are purchasing new Metromover and Metrorail cars to replace the original fleet, with 12 of the 29 Metromover cars already delivered and in operation. Finally, on October 1, 2009, MDT officially launched its EASY Card Automated Fare Collection System in a record-setting 15 months. We are proud to have successfully completed Florida's first transit smart card system, ushering in a new era of customer convenience.

Subject: FW: Responses to our PTP Review Final Draft

Thank you for the comments provided in the audit as the Public Works Department has worked diligently to deliver on the commitments of the People Transportation Plan (PTP). From the inception of the PTP, Public Works made bold decisions to reduce the use of consultants in order to utilize our professional staff to oversee the projects. In addition, internal controls were established and strictly enforced in the oversight and management of the PTP program. Through these efforts, the Public Works PTP projects are currently estimated to cost \$504 million, a 5.5% increase over the 2002 estimates. Considering that the estimates were developed over six years ago, it is with great pride to report that Public Works will complete the promised PTP Projects on schedule and on budget.
