MESSAGE FROM THE MAYOR

December 14, 2012

Dear Fellow Residents of Miami-Dade County:

The FY 2012-13 budget continues to fulfill the promises I made to you during the past two years. This is a responsible budget that reduces the tax rate and property tax revenues while maintaining the current level of services and avoiding employee layoffs.

The FY 2012-13 Adopted Budget:

- Reduces tax rates by 2% to offset the growth in property values for 2012, which combined with the 12% reduction in last year's budget will save taxpayers more than \$405 million over two years
- Utilizes \$5.8 million less in property tax revenue than FY 2011-12
- Includes \$43 million in savings from efficiencies brought about by reducing the number of County departments to 25 from 42, for a total of nearly \$80 million in savings over two years
- Eliminates the additional 4% contribution to group health insurance imposed on employees last fiscal year, but still includes approximately \$158 million in employee concession savings
- Minimizes the use of one-time revenues, improves operational efficiency, funds infrastructure investments, and provides resources to support projects to promote, attract, and retain businesses in Miami-Dade County

Last year was just the beginning. We have made tremendous strides in fulfilling the promises made to our community. However, there is much more to be done.

Over the next four years we will continue to work hard to restore economic prosperity to our community; provide essential services, in particular to those most in need – the elderly and children; and do all we can to make Miami-Dade County a great place for our families now and in the future. I look forward to working with the Board of County Commissioners and leading our team of dedicated County employees to achieve these goals.

Sincerely,

Carlos A. Gimenez
Mayor

EXECUTIVE SUMMARY

This document presents to the Board of County Commissioners the FY 2012-13 Adopted Budget and Multi-Year Capital Plan. This budget is a continuation of the FY 2011-12 Adopted Budget. The FY 2012-13 Adopted Budget maintains the same levels of service and avoids further employee layoffs utilizing reduced property tax revenues, allowing for a lower tax rate. The organization has been streamlined to provide more efficient and effective government services. The number of County departments under the Mayor's purview was reduced from 42 in FY 2010-11 to the current 25. This consolidation allowed for the reduction of 578 positions saving the entire County budget over \$80 million over two fiscal years and more than \$43 million just in FY 2012-13. In the tax-supported budget alone, more than \$25 million was saved over two years. These savings, combined with improvements in the value of the property tax roll and performance of other revenues, has allowed for the millage rates to be reduced. Services are continued and priority efforts to support economic development and the creation and retention of jobs in our region are funded. As the following chart shows, the price of government is the lowest it has been in the last 20 years.

This document also illustrates the relationship between the annual budget, Strategic Plan, and departmental Business Plans. Perhaps most importantly, the FY 2012-13 Adopted Budget sets forth specific objectives for the upcoming fiscal year and anticipated one-year results, as well as a five-year financial forecast. This document consists of three volumes. This first volume includes summary information, a facsimile of the budget ordinance, a five-year financial forecast, and information about Miami-Dade County, our governmental structure, and the budget development process. Volume 2 contains detailed narratives about the operating budget for each department

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

including associated performance information. Volume 3 includes the schedules for the funded and unfunded capital projects.

In developing the FY 2012-13 Adopted Budget, essential services such as childcare, services for the elderly, and public safety continue to be prioritized, as these functions are important for a thriving community. We made sure that our ability to provide important services, such as water, sewer, waste collection and road maintenance is maintained. A focus on sustainable initiatives was woven through all of our services and activities. We also endeavored to ensure resources are available to address critical capital needs, particularly for our water and sewer system.

The FY 2012-13 Adopted Budget is balanced at \$5.946 billion, \$4.312 billion of which comprises the operating budget and \$1.634 billion of which comprises funding for capital projects. The operating budget is 3.76 percent lower than the FY 2011-12 Adopted Budget of \$4.473 billion. The tax supported budgets, the Countywide General Fund, Unincorporated Municipal Services Area (UMSA) General Fund, Library System, and Fire Rescue District budgets, total \$1.793 billion, or 41.6 percent of the total operating budget. Unfunded operating requests from the departments total \$71 million. Unmet needs have been reassessed as a result of the comprehensive reorganization of County departments and a focus on traditional local government services.

The FY 2012-13 Adopted Capital Budget is \$1.634 billion, a significant reduction from the FY 2011-12 Adopted Capital Budget of \$1.703 billion. The reduction is due in large part to the completion of major projects in the current fiscal year such as the Miami International Airport North Terminal project and the AirportLink and changes to the Public Health Trust capital plan. The FY 2012-13 Adopted Multi-Year Capital Plan totals \$24.613 billion. The Adopted Capital Budget includes funding for the Building Better Communities Bond Program at a millage rate of 0.285.

The following chart illustrates the combined millage rates since FY 2000-01.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Countywide, Fire Rescue District, Library, and UMSA Operating Millages and Voted Debt Millages

The Adopted Budget is balanced utilizing millage rates that total 9.552. This is 0.1885 mills less than the FY 2011-12 adopted total millage rate of 9.7405. The aggregate millage rate is 1.5 percent lower than the FY 2011-12 adopted millage rate and 3.06 percent higher than the state-defined rollback rate.

The FY 2012-13 Adopted Budget eliminated 728 positions, with a net change of 595 fewer positions than the FY 2011-12 Adopted Budget. The following table summarizes budget and positions changes by department.

The FY 2011-12 Adopted Budget was balanced based on the FY 2009-10 millage rates and concessions from the employees. The FY 2012-13 utilizes those same savings and the improvements in the property tax roll and revenues to further reduce the millage rates. General Fund reserves remain at 5.76 percent of the general fund operations, well within best practices standards. By the end of FY 2012-13, the Emergency Contingency Reserve is anticipated to have a balance of \$52.392 million, as shown in the chart on the following page.

WHERE ARE WE? WHO ARE WE?

Miami-Dade County, formerly known as Dade County, was created on January 18, 1836 under the Territorial Act of the United States. It was named for Major Francis L. Dade, a soldier killed in 1835 in the Second Seminole War. Subsequent to the creation of Miami-Dade County, Florida became the twenty-seventh state of the United States of America on March 3, 1845.

Miami-Dade County, Florida is the most populous county in the southeastern United States and the seventh largest in the nation by population. Miami-Dade County is often referred to as the "Gateway to Latin America and the Caribbean." The County's population as April, 2012 was 2,541,928. The population density within the urban area is approximately 6,000 people per square mile. Based on the most recent census data, nearly 77 percent of the total population is White, 19 percent is Black or African American, and 4 percent is of some other race or combination of races. The largest ethnic group in the County is Hispanic or Latino, representing 65 percent of the population.

Approximately 52 percent of the people living in Miami-Dade County in 2011 were foreign-born. Among people, at least five years old living in Miami-Dade County in 2010, 73 percent spoke a language other than English at home. Of those speaking a language other than English at home, 88 percent spoke Spanish and 12 percent spoke some other language. The 2012 Area Median Income (AMI) for a four-person household as determined by the United States Department of Housing and Urban Development is \$52,600. As reported by the American Community Survey, in 2011 over 17.3 percent of the families in Miami-Dade lived below the poverty line.

Approximately 424 square miles (excludes bay and coastal water) of the County are within the urbanized area, while the total county land area currently covers a total of 2,420 square miles (1,921 square miles of land and 499 square miles of water) and is bound by Biscayne Bay and the Atlantic Ocean to the east, Everglades National Park to the west, the Florida Keys to the south, and Broward County to the north. Miami-Dade County is the only metropolitan area in the United States that borders two national parks: Biscayne National Park and Everglades National Park.

The Greater Miami area is the center for international commerce in the southeastern United States and its proximity to the Caribbean, Mexico, and Central and South America makes it a natural center of trade to and from North America and beyond to Europe and Asia. In addition, the international background of many of its residents is an essential labor force characteristic for multi-national companies which must operate across language and cultural differences.

For most of Miami-Dade County's history, the local economy has been based on tourism. In 2011, more than 13 million overnight visitors came to Greater Miami, infusing the local economy with \$20 billion in direct spending, such as hotel rooms, restaurants, shopping, transportation, and attractions. The hospitality industry employs more than 100,000 residents and generated nearly \$140 million in tourist-related taxes and more than \$600 million in sales tax which supports local service provision in South Florida.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

While tourism continues to be the principal industry, the city's economy has become more diversified. Sectors throughout the economy, including construction, wholesale trade, retail trade, information technology and telecommunications, leisure and hospitality, and financial services, continue strong growth that has driven our metropolitan area to consistently lead the State of Florida in growth. In addition, multiple sectors of the Miami-Dade economy are driven by international trade by local companies. Export and import volume through the Miami Customs District continues to expand, and a variety of our target industries has benefited from this growth. Our close proximity to Latin America and the Caribbean make us the center of international trade with those areas.

This year business leaders came together as the One Community One Goal Initiative to receive input about our region's economic future and strategy from more than 5,000 participants through surveys, focus Groups, personal visits and community events. This initiative culminated in a four-report series that provides Miami-Dade County with a blueprint for sustained economic development across a broad spectrum of industries and organizations. The One Community One Goal Steering Committee, comprised of business and community leaders, will facilitate the implementation of the plan with close collaboration among the private sector, the public sector, community organizations and academia, and raise money a \$15 million five-year global economic development marketing campaign. The One Community One Goal final report identifies themes that intersect all strategic recommendations and provide a unifying thread across a complex set of initiatives designed to support economic growth in Miami-Dade County. These themes include: a single shared vision, the importance of cooperation across industries and sectors, alignment around a single set of target industries, education as the foundation for growth, and the value of economic diversification. The report offers detailed strategic recommendations for seven target industries and niche sectors that represent long-term global growth potential.

Miami-Dade County endeavors to support economic development in our region by providing resources to support infrastructure and to make our community livable and sustainable.

OUR STRUCTURE

This chapter discusses our governmental structure, our organizational structure, and our financial structure. Each plays a role in long-term planning and the annual allocation of resources.

GOVERNMENTAL STRUCTURE

Two-Tier Federation

The County has operated since 1957 under a unique metropolitan system of government known as a "two-tier federation." This was made possible when Florida voters approved a constitutional amendment in 1956 that allowed the people of the County to enact a home rule charter. At that time, the electors of Miami-Dade County were granted the power to revise and amend the Charter from time to time by countywide vote. The most recent amendment was in November 2010. The Miami-Dade County Charter may be viewed at:

<http://www.miamidade.gov/CharterReview/library/10-11-02-charter.pdf>

The County has home rule powers, subject only to the limitations of the Constitution and general laws of the State. The County has, in effect, a regional government with certain powers effective throughout the entire county, including 34 municipalities located within the county, and a municipal government for the unincorporated area of the county. Unlike a consolidated city-county, where the city and county governments merge into a single entity, these two entities remain separate. Instead there are two "tiers," or levels, of government: city and county. The County can take over particular activities of a city's operations if the services fall below minimum standards set by the Board of County Commissioners (BCC) of Miami-Dade County or with the consent of the governing body of a particular city. The County can also dissolve a city with fewer than 20 electors.

Of the county's total population, approximately 1,114,408 or 43.84 percent live in the unincorporated area, the majority of which is heavily urbanized. For residents living in the Unincorporated Municipal Service Area (UMSA), the County fills the role of both tiers of government. All residents pay a property tax to support regional services, such as transportation, jails, and regional parks. Residents within UMSA pay a property tax for municipal-type services provided by the County such as local police patrol, local parks, and local roads. Residents of municipalities do not pay UMSA tax, but rather pay a property tax to the municipality in which they reside.

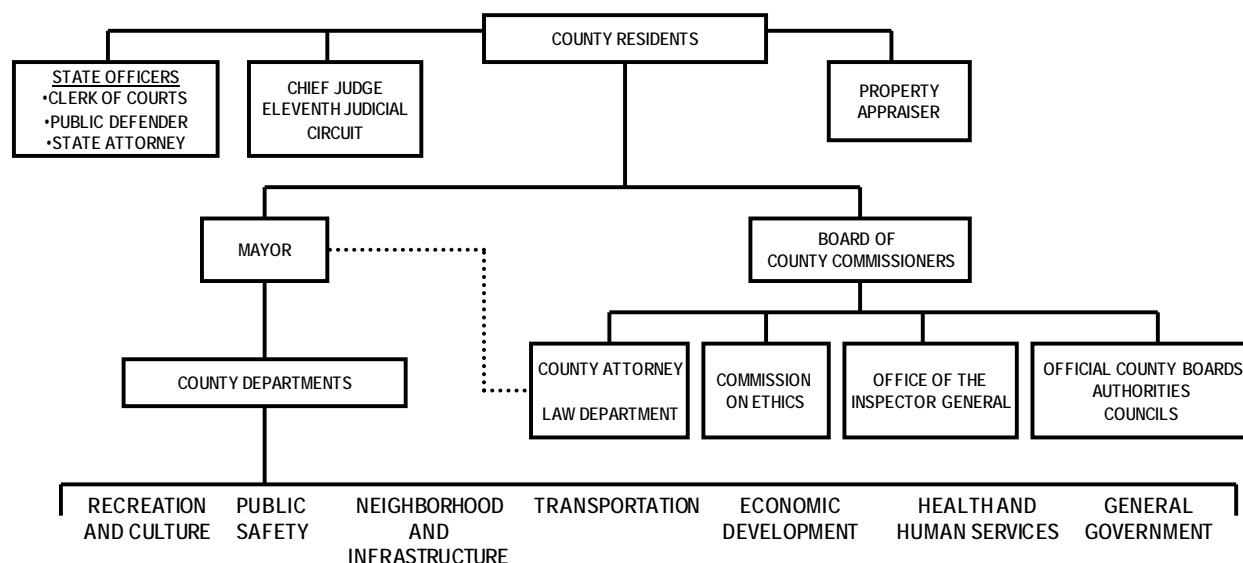

Governance

On January 23, 2007, the Miami-Dade County Charter was amended to create a Strong Mayor form of government, with further charter amendments approved on November 2, 2010. The Mayor is elected countywide to serve a four-year term and is limited to two terms in office. The Mayor, who is not a member of the BCC, serves as the elected head of County government. In this role, the Mayor is responsible for the management of all administrative departments and for carrying out policies adopted by the Commission. The Mayor has, within ten days of final adoption by the Board of County Commissioners (BCC), veto authority over any legislative, quasi-judicial, zoning, and master plan or land use decision of the BCC, including the budget or any particular component, and the right to appoint all department directors unless disapproved by a two-thirds majority of those Commissioners then in office at the next regularly scheduled meeting.

The BCC is the legislative body, consisting of 13 members elected from single-member districts. Members are elected to serve two consecutive four-year terms and elections of the membership are staggered. The full BCC

chooses a Chairperson, who presides over the BCC, as well as appoints the members of its legislative committees. The BCC has a wide array of powers to enact legislation, establish service standards, and regulate businesses operating within the County. It also has the power to override the Mayor's veto with a two-thirds vote.

Florida's Constitution provides for five elected officials to oversee executive and administrative functions for each county: Sheriff, Supervisor of Elections, Tax Collector, Property Appraiser, and Clerk. Through the Home Rule Charter, the first three of these offices were reorganized and became subordinate County Departments. The most visible distinction between Miami-Dade and other Florida counties is the title of its law enforcement agency. It is the only county in Florida that does not have an elected sheriff, or an agency titled "Sheriff's Office." Instead, the equivalent agency is known as the Miami-Dade Police Department and its chief executive is known as the Director of the Miami-Dade Police Department. The Property Appraiser is elected to a four-year term, with no term limits. The Clerk of the Board is a separate, duly elected constitutional officer as mandated by Article V, Section 16 of the Constitution of the State of Florida. The Clerk is elected to a four-year term by the electorate of Miami-Dade County. In this capacity, the Clerk serves as the Clerk of the Board of County Commissioners, County Recorder, County Auditor, custodian of all County funds, and custodian of all records filed with the Court.

ORGANIZATIONAL STRUCTURE

On page eight of this book, a more detailed Table of Organization is displayed illustrating the reporting relationships for the various entities of the County, including all of the various departments and entities included in the County's Adopted Budget.

Miami-Dade County departments and entities are divided into policy formation, six strategic service delivery areas, and general government functions.

FINANCIAL STRUCTURE

The following details the Miami-Dade County Fund Structure, describing the various funds and providing information regarding appropriations, or spending authority, within those funds. A fund is a set of self-balancing accounts that are segregated for the purpose of carrying on specific activities or attaining certain objectives, as required by special regulations, restrictions, or limitations. Miami-Dade County's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Only governmental funds and proprietary funds are appropriated as part of the annual budget. The budget ordinance that is presented to the BCC in September for the two public budget hearings follows this fund structure.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Governmental Funds

Governmental funds account for most of the County's basic services. Taxes, intergovernmental revenues, charges for services, and proceeds from bond sales principally support the activities reported in these funds. There are nine enterprise funds reported in the County's annual financial report that are considered proprietary funds.

The General Fund is the County's primary operating fund. It is used to account for the financial resources of the general government, except those required to be accounted for in another fund. Within the general fund, the operating budget separates Countywide expenditures (for regional services) from UMSA expenditures (for municipal services). That separation ensures that residents pay only for the services they receive. Some services are easy to differentiate: health care, mass transit, correctional facilities operations and support, and elections, for example are all countywide services. Many departments, including Miami-Dade Police, Parks, Recreation and Open Spaces, Public Works and Waste Management, and Regulatory and Economic Resources, however, provide both regional and municipal services and their general fund subsidies are allocated between the countywide revenues and UMSA revenues as appropriate. Each department's allocation is reviewed annually.

Police services provided in the unincorporated area are similar to police services provided by municipal police departments. These services include uniform police patrols, general investigative services, school crossing guard program services, and community-based crime prevention programs. Criminal and other specialized investigative activities primarily serve the unincorporated area, but also provide support to municipalities on an as needed basis. Those costs are allocated between the Countywide and UMSA budgets based on relative workloads during the previous fiscal year. Countywide police functions are generally the sheriff's functions and include the crime laboratory, court services, civil process, warrants, public corruption investigations, and portions of the communications and records bureaus. The expenditures of overall support functions such as the director's office, the legal and professional compliance bureaus, and information technology are allocated in accordance with the overall department-wide allocation between Countywide and UMSA budgets. Non-reimbursed costs of police presence supporting municipal police departments at events of countywide significance are also considered countywide functions. The allocation of the police budget is 30 percent to the Countywide budget and 70 percent to the UMSA budget for FY 2012-13.

The Parks, Recreation and Open Spaces Department expenditures are divided similarly. Community and neighborhood parks, and community pools provide local services to the residents of the surrounding neighborhoods, and roadside maintenance and landscaping are supported by the UMSA budget. Countywide park facilities and programs serve all county residents and include regional parks such as Amelia Earhart, Ives Estates, Tamiami, and Tropical parks, metropolitan parks, Zoo Miami, cultural facilities, natural areas, and

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

beaches. Administrative support and construction (planning, design, development, and maintenance) costs are allocated between the Countywide and UMSA budgets on the basis of the relative costs of direct services. Some countywide park facilities such as marinas and tennis centers generate revenues to support their operations and require little if any property tax support. As a result of this year's review of the cost allocation method and service reductions, countywide support in this fiscal year is 68 percent compared to 71 percent in FY 2011-12.

General Fund support to planning and administration functions within the Regulatory and Economic Resources Department is allocated based on proportions of workload that relates to the unincorporated area as compared to the overall county. Because most planning activities such as charrettes, development reviews, preparation of special planning studies, and support of community councils are local in nature, the costs are allocated to the unincorporated area budget. Costs associated with the review of Developments of Regional Impact, areawide economic forecasting and census related activities, however, are included in the countywide budget because of their countywide significance. In FY 2012-13, UMSA General Fund support of the planning function in the Regulatory and Economic Resources Department will be 9 percent compared to 12 percent in the previous year.

The Public Works and Waste Management Department's unincorporated area budget provides funding for local right-of-way maintenance activities which include minor debris removal, pothole patching, paving, resurfacing, and sidewalk repair. Countywide public works responsibilities such as traffic signalization and signage, traffic engineering design, mosquito control, arterial road maintenance, and bridge operations are funded from Countywide funds. Several direct services are both Countywide and UMSA funded. These include right-of-way surveying and land acquisition, and highway engineering. As in the case of the Parks, Recreation and Open Spaces Department, some public works services, such as causeways and special taxing districts, are self-supporting and require no property tax support. Administrative costs are allocated on the basis of the relative costs of direct services. Of the total recommended General Fund support, countywide support next fiscal year will be 80 percent compared to 75 percent in the previous year.

The cost of the County's central administration, which supports operating departments, is apportioned based on the ratio of countywide versus unincorporated area operating costs across the entire general fund. This allocation for FY 2012-13 is 74 percent to the Countywide budget and 26 percent to the UMSA budget, as compared to 75 percent and 25 percent respectively in FY 2011-12. In some cases, specific functions within a particular central administrative department are funded from either the countywide or unincorporated area budget depending on the population served while other functions may be funded differently. For example, the Information Technology Department has administrative functions funded by Countywide and UMSA general fund however other services provided are funded through internal service charges such as telephone and radio services.

Revenue allocation is more clearly defined and usually based on statutory guidelines. Counties are authorized to collect certain revenues, as are municipalities. In accordance with state law and the Home Rule Charter, the unincorporated area realizes revenues comparable to those received by municipalities in Miami-Dade County. More detail on revenue allocations is provided.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

There are three other governmental funds included in the budget:

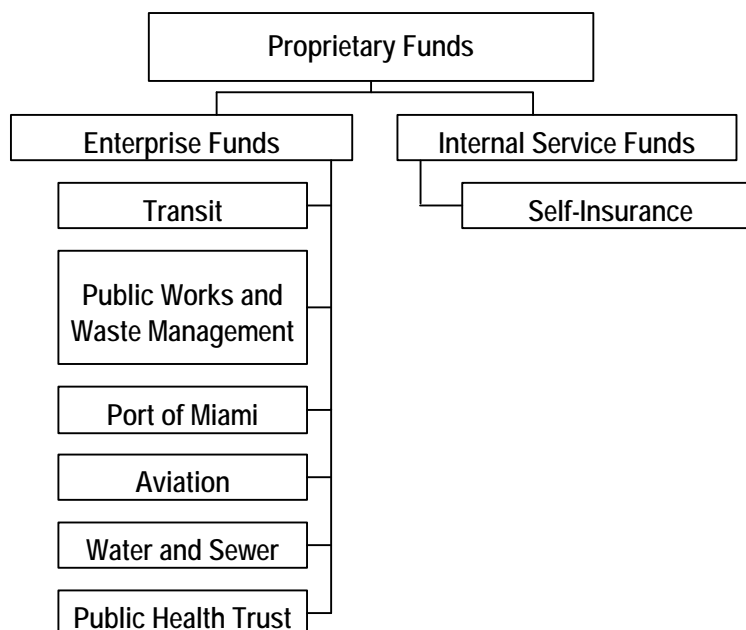

Special Revenue Funds: Special revenue funds are used to account for revenues from specific sources that are restricted by law or policy to finance specific activities.

Debt Service Funds: Debt service funds are used to account for the accumulation of resources for and the payment of principal and interest on long-term obligations.

Capital Project Funds: Capital project funds are used to account for financial resources used for the acquisition and/or construction of major capital facilities and infrastructure.

Proprietary Funds

Proprietary funds are those funds where the County charges a user fee in order to recover costs. The County's proprietary funds include enterprise funds and an internal service fund.

Enterprise funds are used to finance and account for the acquisition, operation, and maintenance of facilities and services that are intended to be entirely or predominantly self-supporting through the collection of charges from external customers. The following major enterprise funds are included in the County's financial statements:

Miami-Dade Transit Agency: Operates the County's mass transit rail system, bus system, metro-mover system, and paratransit services.

Miami-Dade Public Works and Waste Management Department: Provides solid waste collection and recycling services to the unincorporated area of Miami-Dade County and some municipalities. Also, provides solid waste disposal services to 18 municipalities and operates a variety of facilities, including landfills, transfer stations, and neighborhood trash and recycling centers.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Port of Miami: Operates the Dante B. Fascell Port of Miami-Dade County.

Miami-Dade Aviation Department: Operates and develops the activities of the Miami International Airport, three other general aviation airports, and one training airport.

Miami-Dade Water and Sewer Department: Maintains and operates the County's water distribution system and wastewater collection and treatment system.

Public Health Trust/Jackson Health System (PHT): The PHT was created by a County ordinance in 1973 to provide for an independent governing body responsible for the operation, governance, and maintenance of certain designated health facilities. These facilities include Jackson Memorial Hospital, a teaching hospital operating in association with the University of Miami School of Medicine, Jackson North Medical Center, Jackson South Community Hospital, and several primary care centers and clinics throughout Miami-Dade County.

There are four additional enterprise funds: the Rickenbacker Causeway (within the Public Works and Waste Management Department), the Vizcaya Museum and Gardens, the Miami Art Museum, and the Section 8 Allocation and Mixed Income Properties funds.

Internal service funds are used to report any activity that provides goods and services to other funds, departments, or agencies of the County, on a reimbursement basis. The County has one internal service fund, the Self-Insurance Fund, which accounts for the County's insurance programs covering property, automobile, general liability and workers' compensation. It is also used for medical, dental, life, and disability insurance accounts for County employees. A large portion of the group medical insurance program is self-insured.

Fiduciary Funds

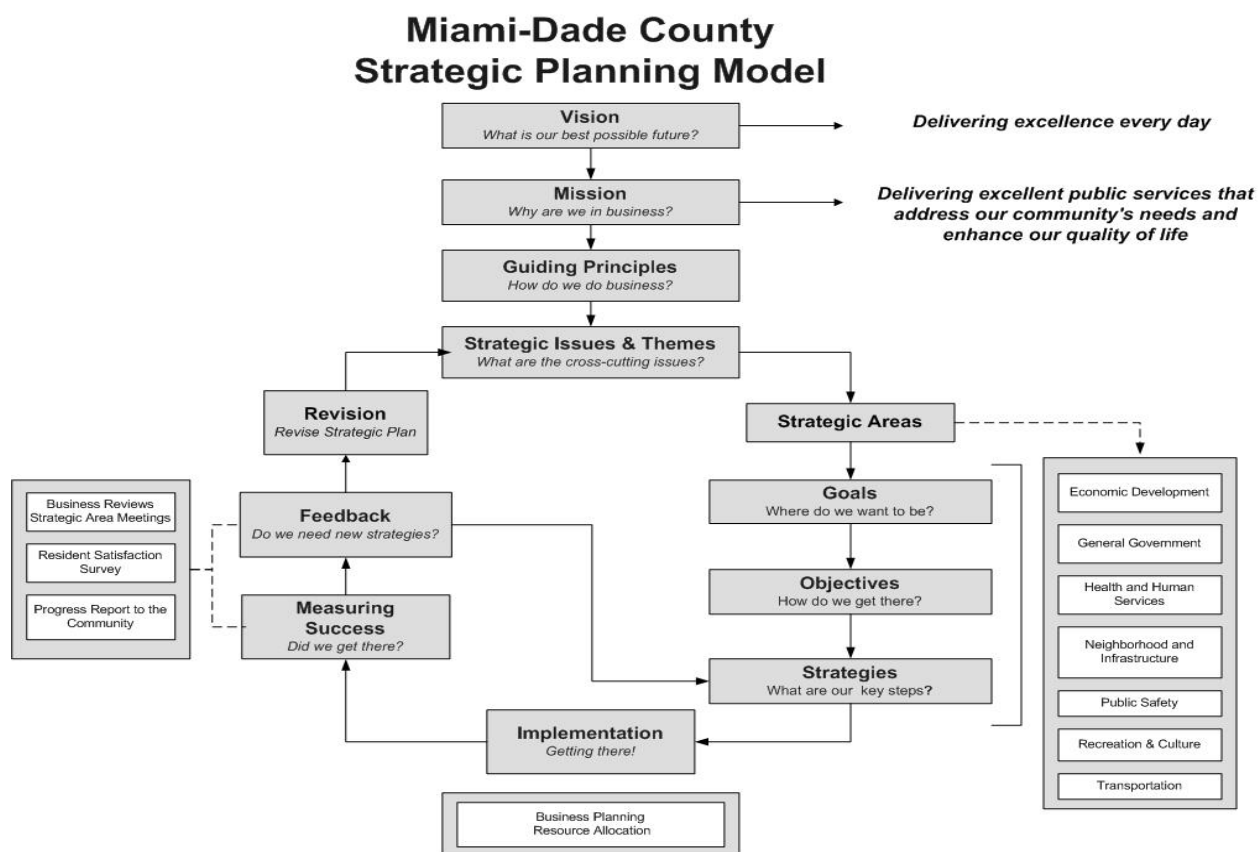

Fiduciary funds are used to report assets held in a trustee or agency capacity for others. The County currently has funds held in an agency capacity by the Clerk of the Circuit and County Court and the Tax Collector, as well as other funds placed in escrow pending distributions. These funds cannot be used to support the County's own programs, and therefore, are not required to be appropriated as part of the annual budget.

Clerk of Circuit and County Courts Agency Fund: Accounts for funds received, maintained and distributed by the Clerk of the Circuit and County Courts in his capacity as custodian to the State and County judicial systems.

Tax Collector Agency Fund: Accounts for the collection and distribution of ad valorem taxes and personal property taxes to the appropriate taxing districts. Also accounts for the collection of motor vehicle registration fees and sales of other State of Florida licenses, the proceeds of which are remitted to the State.

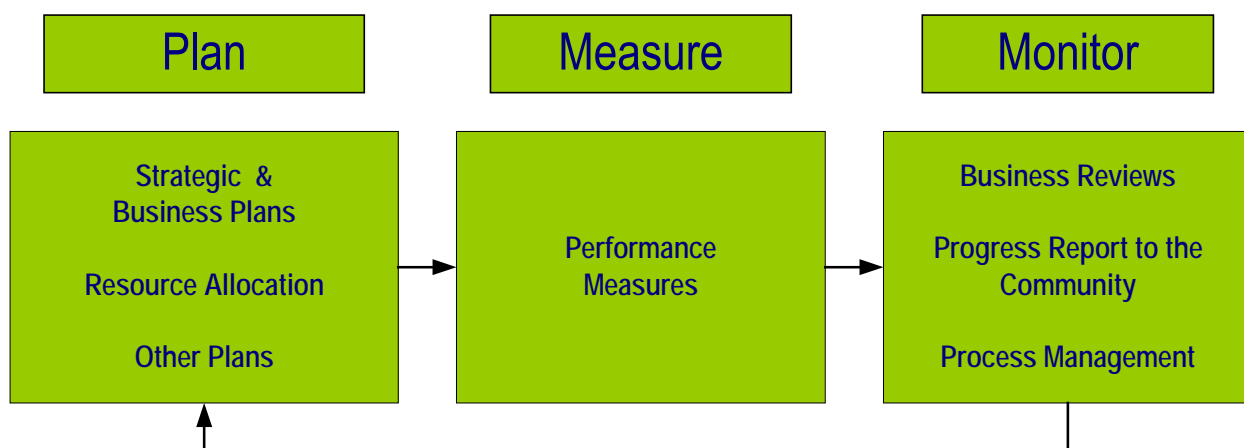

Pension Trust Fund: Accounts for assets held by Northern Trust Bank for the benefit of employees of the Public Health Trust who participate in the Public Health Trust Defined Benefit Retirement Plan.

Other Agency Funds: Accounts for various funds placed in escrow pending timed distributions.

Plan, Measure, Monitor

To communicate this management approach and to enhance its understanding among all our employees, the Governing for Results framework is often expressed in terms of “Plan, Measure, Monitor.” To summarize, strategic planning, business planning, and resource allocation all fall under “Plan.” The measurement of activities and performance falls under “Measure.” Managerial accountability, monitoring, and review all fall under “Monitor.” This framework helps our Board of County Commissioners, Mayor and our senior management team lead the implementation of a results-oriented government culture. It allows employees throughout our organization to better understand our mission, embrace our guiding principles, and appreciate their individual role in achieving the goals of the county, as defined in the strategic plan.

PLAN

Strategic Plan

As part of the FY 2011-12 Adopted Budget, the refreshed strategic plan was approved. Since the original strategic plan's adoption, Miami-Dade County has experienced many economic, demographic, and environmental changes. Ensuring that the goals of the plan remain aligned with community needs is vital to guiding the policy decisions, resource allocation, and efforts of the County. These refreshed goals and objectives have been used to describe the results intended for this Adopted Budget. The Strategic Plan may be viewed at <http://www.miamidade.gov/managementandbudget/strategic-plan.asp>

Business Plans

On an annual basis, departments refine their operational initiatives and align them to objectives in the strategic plan through the preparation of their business plans. The first part of these two-year plans is a document that outlines in narrative format the department's objectives, how these support objectives in the strategic plan, which programs and initiatives will be used to accomplish the objectives, what environmental factors might impact the success of these programs and initiatives, and what resources or assistance the departments might need from support departments (i.e. technology, human resources, finance, facilities, fleet, etc.). The second part of the business plan is generated from the County's enterprise-wide performance management system. While the narrative emphasizes the desired objectives and needs of the department, the report identifies the measures used to determine performance of both

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

programs and initiatives, and displays both targets to be achieved and actual historical results. These business plans help launch the resource allocation process by presenting the department's expectations for service delivery in the next fiscal year. You may view these business plans at

<http://www.miamidade.gov/managementandbudget/business-plans-new.asp>

Annual Budget

The budget represents the annual appropriations necessary to achieve the results anticipated through the departmental business plans in support of the Strategic Plan. This document is approved by the Board of County Commissioners and serves as the annual implementation plan for the County. To see this year's budget, along with those of the previous years, please go to <http://www.miamidade.gov/budget>.

MEASURE

The County has adopted several standard tools including balanced scorecards, performance measures, an enterprise-wide automated performance management software system, and regular business reviews and strategic area management meetings. These tools help departments accomplish the goals in the strategic plan, measure success, and manage their operations.

Miami-Dade's balanced scorecard approach to management organizes department objectives into four categories: Customer, Financial, Internal, and Learning and Growth. These perspectives, as they are often called, are then organized vertically, with the Customer perspective at the top and the Learning and Growth of employees forming the foundation.

- Customer: What are we trying to achieve for our customers (i.e. residents, elected officials, internal and external stakeholders)?
- Financial: How well are we meeting our fiscal responsibilities, attracting new revenues, and efficiently using our existing monetary resources?
- Internal: How well are we managing our internal business processes? Are they completed in a timely and accurate manner?
- Learning and Growth: What is the state of our workforce's technical skills, management skills, and morale?

Objectives and related measures organized in this fashion help diagnose issues with a department's approach to meeting customer needs. For example, if Learning and Growth, Internal, and Financial objectives are being met, but Customer objectives are not, there may be a flaw in the department's strategy. In other circumstances, Customer objectives might be achieved, but a critical internal objective is failing. Over the long run this could impact the achievement of key customer-oriented goals, or other County outcomes and objectives. The balanced scorecard methodology provides departments with a useful tool to manage, and the County with a common language and format to monitor success and improvement efforts.

Measuring progress toward achieving these department objectives and tracking resources requires a structured approach. The County encourages an understanding and use of the following four types of measures:

- Input: these measures normally track resources used by a department (e.g. funding, staff, equipment, etc.) or demand for department services (e.g. 911 emergency calls, part 1 crimes, applications for public housing, etc)

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

- **Output:** these measures (also referred to as workload measures) indicate the amount of work performed on the part of the department (e.g. applications processed, contracts reviewed, tons of garbage collected, and potholes filled).
- **Efficiency:** these measures are normally a comparison between outputs and inputs including time (e.g. garbage tons collected per crew, or cycle times such as personnel hours per crime solved, length of time to purchase specific products or services, etc.), and are often the cost of providing a unit of service (e.g. cost per household, houses built per \$100,000, etc).
- **Outcome:** these measures focus on program results, effectiveness and service quality, assessing the impact of agency actions on customers, whether individual clients or whole communities. (e.g. incidents of fire-related deaths although another measure such as response time could also be considered an outcome measure, the crime rate, percentage of residents rating service as good or excellent, percentage of streets that are clean and well-maintained, number of homeless).

This suite of measures shows how measures can relate to each other and taken together can outline the success of an individual program. For example, by allocating new grant funding (Input) to a department receiving applications for mortgage assistance (Input), having the department process those applications (Output) within 30 calendar days (Efficiency), the department hopes to increase the number of low-income home owners (Outcome), by at least 2.5 homeowners per \$100,000 investment (Efficiency).

The department's balanced scorecards, which include objectives, their respective measures, and initiatives, all reside on the County's enterprise-wide performance management software system. This comprehensive tool is critical to the success of Results-Oriented Governing, given the size and complexity of the County. It allows County employees to work with the system from any County computer and plays a central role in reporting performance and holding regular strategic management meetings.

MONITOR

What would be the use of having a strategic plan, business plans, balanced scorecards, or performance measures, if no one is using the information to make good management decisions? For this reason, the County instituted a schedule of meetings designed to review performance against strategic goals and department objectives, encourage continuous improvement, and support managerial accountability. County departments meet at least once per month to review their scorecards, highlight successes, address shortcomings, and decide how and when to correct shortcomings and improve performance. These meetings form the backbone of the County's monitoring of strategic performance. Information discussed at these meetings and contained in departmental scorecards is used by the Office of the Mayor to provide executive leadership.

The monitoring process also includes public reporting of performance. After each fiscal quarter, the County publishes every department's scorecard on the Internet, as well as a quarterly budget report. At the completion of every fiscal year, the County also compiles performance information in its "Progress Report to the Community." These reports can be viewed at <http://www.miamidade.gov/managementandbudget/progress-report.asp>.

The sum total of these efforts, strategic planning, business planning, measurement, and monitoring, feeds our budget. With a firm understanding of available resources, ongoing performance, and the community's goals, it is much easier to implement a performance-based budget. The information gathered throughout the County's strategic framework is used to inform the recommendations of the Mayor to the Board of County Commissioners, giving the BCC the best available data to make policy decisions about which strategies should be funded, and at what level.

THE BUDGET PROCESS AND PROPERTY TAXES

The Budget is the annual appropriations necessary to achieve the results anticipated through the departmental business plans in support of the Strategic Plan. This section is especially useful for readers who aren't familiar with how a budget is developed, the rules that govern the process, and the kind of information that is contained in a budget. There is also information regarding how property taxes are determined and assessed.

WHAT IS A BUDGET?

An annual budget is a financial, operating, and capital plan for the coming fiscal year. It provides an outline of service levels provided to the citizen and public capital investments in the community, to be used by both our customers and us. Miami-Dade County's budget document is a tool that serves five purposes:

- **Prioritization:** County resources that address needs identified by the Mayor, the Board of County Commissioners (BCC), and the County's strategic plan are prioritized through this process.
- **Information:** The budget document is the primary way for the County to explain to the public what it intends to do with the taxes and fees it collects. Through the budget document, the public can see how and where tax dollars and other revenues raised by the County will be spent.
- **Planning:** The budget process is an annual plan for management of the County to coordinate and schedule programs and services to address the County's priorities.
- **Evaluation:** The budget is used to help determine how well services are provided and how successful the County is in meeting the community's needs.
- **Accountability:** The budget is a tool for legally authorizing public expenditures and to account for and control the use of public resources.

The annual budget is determined for a fiscal year, which is the twelve-month cycle that comprises the jurisdiction's reporting period. The State of Florida and certain federal programs have different fiscal years than the County. The County's fiscal year starts on October 1 and ends September 30 of the following year. This Adopted Budget is for the period October 1, 2012 to September 30, 2013 and is shown as either 'FY 2012-13' or 'FY 12-13.'

PROPERTY TAXES

Taxing Jurisdictions

The County budgets for four separate taxing jurisdictions: Countywide, the Unincorporated Municipal Service Area (UMSA), the Fire Rescue District, and the Library System. Each taxing jurisdiction is responsible for different types of services. The Countywide jurisdiction provides regional services such as public health and social services, transportation, regional parks and county roads, support for the court system, and the regional sheriff services and jails. The UMSA jurisdiction provides the municipal services for the residents of the county who don't live in municipalities. These services include local police patrol, local parks and roads, planning, and code enforcement. The Fire Rescue District provides fire rescue service for the entire county except for the cities of Hialeah, Miami, Miami Beach, Key Biscayne, and Coral

Gables. The Library System jurisdiction includes all municipalities and UMSA except for Bal Harbour, Bay Harbor Islands, Hialeah, Miami Shores, North Miami, North Miami Beach, and Surfside.

The table below shows the value of the property tax roll for each of the County's four taxing jurisdictions.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Millage Rates

The millage rate is the tax rate that is applied to property values to generate the revenue needed to pay for services adopted in the budget. A mill is a rate of tax equal to \$1 for each \$1,000 of assessed taxable property value. If a piece of property has a taxable value of \$100,000 and the millage rate is 1, the property owner would pay \$100 in taxes.

The County has four separate operating millage rates for each of the taxing jurisdictions governed by the BCC. Three of the jurisdictions that provide regional services (countywide, fire rescue, and library) are subject to the state-imposed County (area-wide) 10 mill cap. The fourth is the UMSA millage, which is subject to its own state-imposed 10 mill cap.

In the Adopted Budget, the total millage rate is 7.3256 mills for the three taxing jurisdictions considered countywide; therefore, we have 2.6744 mills in capacity, which could generate approximately \$484 million of additional revenue to fund Countywide services. We also have the potential of 8.0717 mills in capacity for the Unincorporated Municipal Service Area (UMSA) services, which could generate approximately \$417 million of additional revenue.

FY 2012-13 will be the 18th consecutive year that the area-wide total millage is below the state defined 10-mill cap. In addition, the County has millage rates for voter-approved debt service, which are not subject to the 10 mill cap. Debt service millage rates are not included in the calculation of total millages for operating purposes. The revenue raised from the debt service millage pays outstanding debt for voter-approved general or special obligation bonds, such as the Building Better Communities General Obligation Bond Program. The County has debt service millages for voter approved countywide debt and for Fire Rescue District debt.

The total of all Adopted operating and voted debt millage rates for FY 2012-13 is 9.552. The following table shows the millage rates for FY 2011-12 and FY 2012-13.

<p>(1) "Rolled-back millage" is the State defined rate which allows no increase in property tax revenue except for that from new construction. Starting in FY 2008-09 the proportionate roll value of dedicated increment districts and the associated prior year payments are subtracted prior to computing the "rolled-back millage." This rate ignores the impact of inflation on government and market valuation changes on taxable real and personal property.</p> <p>(2) "Aggregate millage" is the State defined weighted sum of the non-voted millages. Each millage is weighted by the proportion of its respective certified tax roll to the certified countywide roll (the Fire District millage is weighted by 58.3 percent, the Library District millage by 91.2 percent, and the UMSA millage by 28.5 percent).</p> <p>(3) Rolled-back millage and aggregate millage calculations do not apply to voted debt millages.</p>					

Overall, the Adopted operating millage rates are two percent below the FY 2011-12 combined millage rate and 3.06 percent above the state defined aggregate rolled-back rate. Although the millage rate is above the state defined aggregate rolled-back rate, because of the deflation of property tax values and the impact of the actions of the value adjustment board, the budgeted ad valorem revenue for all four taxing jurisdictions for FY 2012-13 is \$5.826 million lower than FY 2011-12. The chart below shows the actual and budgeted property tax revenues for the Countywide and UMSA General Fund since FY 2009-10 including the FY 2012-13 Adopted Budget.

Setting the Millage Rates

Each year, the Adopted Budget is developed with millage rates necessary to fund the property tax-supported portion of the budget. At its last meeting in July, the BCC considers the millage rates that will be used for the tax notices that will be mailed to all property owners in August. The tax notices also referred to

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

as TRIM notices; TRIM stands for Truth In Millage. The tax rates that are on the notices property owners receive in August represent the ceiling of the rates that can be approved by the BCC at the September budget hearings, unless additional notices are sent to all property tax payers. Because re-noticing all taxpayers is difficult and expensive, the tax rates included in the TRIM notices are considered the ceiling.

Several years ago, the State Legislature approved legislation intended to provide tax relief to the citizens of Florida. In addition to requirements to lower the tax rates themselves for one fiscal year, it instituted new definition and voting requirements that apply to governing boards when setting millage rates. Already established was the state defined *rolled-back millage rate* which is the millage rate that, when applied to the tax roll for the new year, excluding the value of new construction and any dedicated tax increment values, would allow the taxing authority to raise the same amount of property tax revenue for the new budget as it estimates to receive in the current year. Over the past few years, current year tax projections have been below even the budgeted levy due to Value Adjustment Board changes.

Section 200.065 of State Statutes outlines the *rolled-back millage rate*, known as the “no tax increase” rate because it allows the entity to generate the same property tax revenue from year to year, adjusted only by any new properties that may have been placed on the property tax roll. Because it does not take into account value adjustments for properties already on the property tax roll, the *rolled-back rate* does not take into account growth in the County. Another state-defined measure, the *aggregate rolled-back millage rate*, is the sum of the rolled-back millage rates for each of the taxing jurisdictions, in the case of Miami-Dade County we have four, weighted by the proportion of its respective roll to the countywide tax roll. The table below shows the calculation of the *rolled-back rates* for FY 2012-13. The *rolled-back rate* would generate \$46 million less in ad valorem revenue than the amount included in the Adopted Budget

1. In accordance with State law, property tax revenue is budgeted at 95 percent of the levy.
2. All tax roll values are current estimates as of tax rolls of July 1, 2012.
3. Tax Increment Financing (TIF) payments are contributions made by the County to Community Redevelopment Areas; these payments apply to the Countywide and Unincorporated portions of the levy.
4. A Community Redevelopment Area (CRA) is a geographic area created by Board action to revitalize areas designated as slum and blight through a finding of necessity that

The State has defined the highest millage rate that may be levied with a simple majority vote of the governing body known as the *maximum millage rate*. This rate is the *rolled-back rate*, adjusted for the growth in per capital personal income in Florida. Beginning in FY 2009-10, the *maximum millage rate* is

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

based on the *rolled-back rate* (the rate that generates the same property tax revenue) assuming the *maximum millage rate* had been adopted for the prior year and then adjusted for growth in per capita Florida personal income, whether or not the *maximum millage rate* had been adopted in the prior year. In other words, if the millage rate that was adopted was higher than the calculated *maximum millage rate*, that rate is the cap. If a millage rate below the *maximum millage rate* is adopted, an adjustment is made to credit the revenue that was lost because a rate below the *maximum millage rate* was adopted. The formulas used to calculate the various millage rates are defined by the Florida Department of Revenue.

The BCC may adopt a rate that is higher than the state defined *maximum millage rate*. State law provides that a millage rate of up to 110 percent of the calculated *maximum millage rate* may be adopted if approved by a two-thirds vote of the governing body of the county, municipality, or independent district. A millage rate higher than 110 percent may be adopted by three-fourths vote if the governing body has nine or more members (Miami-Dade County has 13 Commissioners) or if approved by a referendum of the voters. The penalty for violating these standards is the loss of state revenue from the local government half-cent sales tax for a period of twelve months.

The millage rates utilized for the Adopted Budget are below the *maximum millage rate* and above the *rolled-back rate*.

Additional Property Tax Legislation

The State Constitution allows an exemption of up to \$50,000 for homesteaded properties and \$25,000 tangible personal property (TPP) for business equipment. In addition, in November 2012, State of Florida voters approved a referendum that amended the State Constitution (Amendment 11), which provides a local option to allow an additional exemption for Senior citizens, who meet income and ownership criteria, equal to the assessed value of the property with a just value less than \$250,000.

Calculation of Property Taxes

There are four factors for calculating the amount of property tax levied on property:

1. The market value of the property (determined by the Property Appraiser's Office)
2. Adjustments for Amendment 10 (homesteaded properties) and Amendment 1 (non-homesteaded properties) of the Florida Constitution, which limits the growth in assessed value of residential properties with a homestead exemption to the lesser of the growth in the Consumer Price Index (CPI) or three percent (for FY 2012-13 such growth was the full three percent) and ten percent for non-homesteaded properties, respectively; and
3. The amount of value that is not subject to taxes (e.g., the \$50,000 homestead exemption, the additional homestead exemption for senior citizens who meet income and ownership criteria as described above, the \$25,000 exemption for personal property); and
4. The millage rate, established according to state law restrictions.

According to state law, the County Property Appraiser determines the market value of each property in Miami-Dade County as of January 1 each year. Then Amendment 10 and 1 adjustments are applied to calculate the assessed value. Finally, appropriate exemptions are applied to reach the taxable value. The taxable value is then multiplied by the millage rates set by the BCC and by other taxing authorities in September to determine the amount of property taxes that must be paid for the property when the bill (also called the tax notice) is mailed in November by the Tax Collector.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

While Miami-Dade is responsible under state law to collect all taxes imposed within geographic Miami-Dade County, the County government itself levies only certain taxes on the tax notice. Table 1.1 shows the millage rates and taxes that a residential property located in unincorporated Miami-Dade with an assessed value of \$200,000 with a \$50,000 homestead exemption (HEX) and a taxable value after the HEX of \$150,000 paid in FY 2012-13. These rates include debt service as well as operating millages.

In Miami-Dade County for FY 2012-13 the average taxable value of a home in UMSA with the Amendment 10 (Save Our Homes) growth cap is \$200,000. After taking into account the homestead exemption, the taxable value is approximately \$150,000. Using the example of Table 1-1, of the \$2,777 of tax collected, \$706 or 25.4 percent is used for countywide services, \$682 for UMSA, Fire Rescue, and Library services (city-type services), and \$45 for Countywide and Fire Rescue Debt Service. Overall, the County levies 51.6 percent of the property taxes.

For residents of municipalities, all of the rates would apply, except the individual municipal millage rate would be used in place of the UMSA rate. Also, some municipalities are not in the Fire Rescue District or Library System and their resident pay for those services through the municipal millage rates.

BUDGET AND FINANCIAL POLICIES

Miami-Dade County follows the financial policies required by the Miami-Dade County Home Rule Amendment and Charter, Florida Statutes Chapters 129 (County Annual Budget) and 200 (Determination of Millage), and the Generally Accepted Accounting Principles (GAAP) for state and local governments as set forth by the Governmental Accounting Standards Board (GASB). Both the Adopted Budget (found at <http://www.miamidade.gov/budget/>) and the Comprehensive Annual Financial Report (CAFR) (found at <http://www.miamidade.gov/finance/financial-reports.asp>) provide our County's financial plans and statements following these policies.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

GAAP and GASB

The General Fund, Fire Rescue District, Library District, and debt service funds are prepared on a modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they are both measurable and available or collectible within the current period to pay for expenditures or liabilities of the current period. Expenditures are recorded when a liability is incurred. Debt service payments, as well as expenditures related to claims and judgments, are recorded only when payment is due. Encumbrances (transactions that reserve funding for expected purchases) lapse at year-end and are re-appropriated as part of the subsequent year's budget in a reserve for encumbrances. The notes section of the CAFR (<http://www.miamidade.gov/finance/library/CAFR/2011/CAFR2011-complete.pdf>) describes the County's policies for assets, liabilities, and net assets or fund balances (CAFR, page seven).

The budgets for the Proprietary and Internal Service Funds are prepared on the economic resource measurement focus and the full accrual basis of accounting. These funds include Aviation, Port of Miami, Water and Sewer, Public Health Trust, Transit, Public Works and Waste Management, Vizcaya Museum and Gardens, Mixed Income Properties, Section 8 Allocation Properties and the Self-Insurance Fund. Under the full accrual basis, revenues are recorded when earned and expenses are recorded when liability is incurred, regardless of the timing of related cash flows. The differences between the modified-accrual and accrual basis of accounting include budgeting the full amount of capital expenditures rather than depreciating expense over time, and budgeting the principal payments of outstanding debt, as well as the recognition of the issuance of debt since it does increase the government's current financial resources. The fund balance is defined as the excess of assets over the liabilities in any given fund.

Home Rule Amendment and Charter

<http://www.miamidade.gov/charterreview/charter.asp>

The Charter is the constitution for Miami-Dade County and governs all activity, including financial and budgetary policies.

Article 5, Section 5.03 (A) of the Charter states that the Finance Department shall be headed by a Finance Director appointed by the Mayor and the Clerk of the Circuit and County Courts. The Finance Director has charge of the financial affairs of the County. While not delineated in the Charter, currently the Budget Director, who serves as the Director of the Office of Management and Budget, is the designated Budget Officer. At the end of each fiscal year an audit is performed by an independent certified public accountant designated by the BCC of the accounts and finances of the County for the fiscal year just completed.

State and County policy dictates that contracts for public improvements and purchases of supplies, materials, and services (other than professional) be issued based on a competitive solicitation process. This process includes formal sealed bids when the transaction involves more than the minimum amount established by the BCC by ordinance. The resulting contract must be approved by the BCC. The BCC may, with a written recommendation of the Mayor, and a two-thirds vote of the members present, waive competitive bidding if it is in the best interest of the county. If a conflict of interest exists with the Mayor, the recommendations for award is promulgated by the Board of County Commission Chairperson.

Any County official or employee of the County who has a special financial interest, direct or indirect, in any action by the BCC is obligated to disclose the interest and cannot vote upon or otherwise participate in the

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

transaction. Willful violation of this Section constitutes malfeasance in office, will lead to forfeiture of office or position, and renders the transaction voidable by the BCC.

The Citizens' Bill of Rights of the Miami-Dade County Home Rule Amendment and Charter states that in addition to any budget required by state statute, the Mayor prepares a budget showing the cost of each program for each budget year. Prior to the County Commission's first public hearing on the Proposed Budget required by state law, the Mayor makes public a budget summary setting forth the proposed cost of each individual program and reflecting all major adopted increases and decreases in funds and personnel for each program, the purposes for those adjustments, the estimated millage cost of each program and the amount of any contingency and carryover funds for each program.

Article 2, Section 2.02 (G) states that the Mayor prepares and delivers a budgetary address annually to the people of the county in March to set forth the Mayor's funding priorities for the County. Between June 1 and July 15, the Mayor releases a Proposed Budget containing a complete financial plan, including capital and operating budgets, for the next fiscal year. The budget is presented to the Commission before the BCC adopts tentative millage rates for the next fiscal year. The BCC must hold two public budget hearings scheduled within the constraints outlined in state law.

The annual budget establishes the appropriations, or the approved expenditure levels, for the fiscal year and expenditures above the adopted levels cannot be incurred. There are some kinds of funds – working capital, revolving, pension, or trust funds – that may be accessed without approved expenditure authority. The BCC, by ordinance, may transfer any unencumbered appropriation balance, or any portion thereof, from one department, fund, or agency to another, subject to the provisions of ordinance. Any portion of the earnings or balance in any fund, other than sinking funds for obligations not yet retired, may be transferred to the general funds of the County by the BCC. The adopted budget may be amended at any time during the year, by BCC action. Re-appropriations within a fund without increasing the total fund may be approved by motion or resolution. Increasing the total appropriations for a fund requires an ordinance, with two readings and a public hearing.

State Law

<http://www.leg.state.fl.us/statutes/>

Chapter 129.025, Florida Statutes allows for the designation of a county budget officer that may carry out the duties set forth in this chapter. Chapter 129.01(2) (a), Florida Statutes establishes that the budget will be prepared, summarized, and approved by the BCC of each county, (b) and that it will be balanced. That is, the estimated revenues, including balances brought forward, equals the total of the appropriations and reserves. The budget must conform to the uniform classification of accounts prescribed by the appropriate state agency. Revenues must be budgeted at 95 percent of all receipts reasonably to be anticipated from all sources, including taxes to be levied. Chapter 129.01(2) (c) (1), Florida Statutes provides that a reserve for contingencies may be provided in a sum not to exceed ten percent of the total budget.

Chapter 129.06(1), Florida Statutes requires that adopted budgets regulate the expenditures of the county and each special district included within the county budget and the itemized estimates of expenditures are fixed appropriations and cannot be amended, altered, or exceeded except by action of the governing body. Chapter 129.06(2), Florida Statutes allows that the BCC at any time within a fiscal year may amend a budget for that year and may, within the first 60 days of a fiscal year, amend the budget for the prior fiscal year. The amendments can be made by motion or resolution when expenditure appropriations in any fund

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

are decreased and other appropriations in the same correspondingly increased provided that the total of the appropriation in the fund may not be changed. Otherwise, the amendment will require an ordinance of the BCC for its authorization. Chapter 129.07, Florida Statutes states that it is unlawful for the BCC to expend or contract for the expenditure in any fiscal year more than the amount appropriated in each fund's budget.

Chapter 200.011, Florida Statutes states that the BCC determines the amount to be raised for all county purposes, except for county school purposes, and the millage rates to be levied for each fund respectively. The BCC also determines the rates for use by the county, including special taxing district, board, agency, or other taxing unit within the county for which the BCC is required by law to levy taxes.

Chapter 200.065, Florida Statutes establishes a rolled-back millage rate, a maximum millage rate, and voting requirements for taxing jurisdictions, requiring an extraordinary vote of the local governing body to exceed the maximum millage rate for taxing purposes (as described previously).

Chapter 200.071, Florida Statutes mandates that no ad valorem tax millage shall be levied against real property and tangible personal property by counties in excess of 10 mills, except for voted levies. Any county which, through a municipal service taxing unit, provides services or facilities of the kind or type commonly provided by municipalities, may levy, in addition to the millage rates otherwise provided in this section, an ad valorem tax millage not in excess of 10 mills against real property and tangible personal property within each such municipal service taxing unit to pay for such services or facilities provided with the funds obtained through such levy within such municipal service taxing unit.

Miami-Dade County Legislation and Code

Miami-Dade County Resolution R-31-09 established the current investment policy for Miami-Dade County which states in summary that the County's investment strategy is an adherence to buy and hold thereby eliminating the potential for risky trading.

(<http://www.miamidade.gov/govaction/legistarfiles/MinMatters/Y2008/083625min.pdf>)

Article CXVIII.5 of the Miami-Dade County Code is entitled "Governing for Results" and codifies our results-oriented governing management concepts. Section 2-1795 lays out policies for the allocation of resources and requires the Mayor or his/her designee include them in his annual Budget Address which takes place during the month of March of each year. It also requires the submission of a five-year financial forecast (http://www.miamidade.gov/csd/county_code.asp). Miami-Dade County Ordinance 07-45 amending Section 2-1795 of the Code revised the standardization of the resource allocation and reserve procedures for the preparation and adoption of the County's annual budget requiring budget format to provide clear basis for which to hold management accountable for operating within the Adopted Budget. In addition, the ordinance places restrictions on the re-appropriation of line items within funds. <http://www.miamidade.gov/govaction/legistarfiles/MinMatters/Y2007/070515min.pdf>

Section 2-1795 of the Code establishes procedures to be followed by the Commission Auditor in the preparation and adoption of the County's Annual Budget. The Commission Auditor is to perform in-depth review of the proposed budget of the Board of County Commissioners and all departments and divisions that report directly to the Board, including the County Attorney's Office, the Office of the Inspector General, the Commission on Ethics and Public Trust, the Office of Commission Auditor, and the Intergovernmental Affairs Division under the Board of County Commissioners' fund. The analysis should include a review of any changes to the budget proposed by the Mayor made as a result of the budget prepared and

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

recommended by the Mayor, and the Mayor's written response thereto, presented to the Commission in accordance with the second sentence of Section 5.03(B) of the Home Rule Charter. In addition, the Commission Auditor shall review and analyze any mid-year and year-end budget amendments proposed by the Mayor or his/her designee giving; and issue any final recommended written changes to the Mayor's Proposed Budget and present to the County Commission prior to its consideration of such proposed budget amendments. (<http://www.miamidade.gov/govaction/legistarfiles/MinMatters/Y2010/101254min.pdf>)

THE BUDGET DEVELOPMENT PROCESS

Pursuant to Article 5 of the Miami-Dade County Charter, the Mayor is required to prepare a Proposed Budget between June 1 and July 15. The Mayor or his/her designee is then required to present the budget to the BCC before the BCC adopts the Adopted millage rates, which usually occurs at the last BCC meeting in July.

Although submission of the Proposed Budget occurred on July 12 this year, budget development actually is a year-round process. As the fiscal year begins, departmental staff updates their business plans. In December and January, staff completes initial projections and estimates of revenues for the current and ensuing fiscal years. In February, County departments submit their budget submission requests to the Office of Management and Budget (OMB). Those requests are linked to the priorities in the departmental business plans. Departmental Budget Presentations are held with the departments and OMB to discuss service priorities and to begin the process to match them with available resources. These meetings are publicly noticed, to encourage residents and elected officials and their staffs to participate. The work requires numerous meetings among County staff to discuss and evaluate proposed service levels and funding. In March, the Mayor delivers a budget address putting forth his funding priorities. Throughout the budget development process, administrative staff interacts with Commission staff and the staff of the Commission Auditor to share revenue and expenditure information. Pursuant to the County Charter and Code, the Proposed Budget must be submitted to the Board of County Commissioners by July 15.

It is important to note that there are certain budget-related deadlines established by state statute. By July 1, the Property Appraiser certifies the Preliminary Final Property Tax Rolls. In July, the BCC considers the recommended millage rates to be used to calculate the estimated taxes published in the "Notice of Proposed Property Taxes" (also referred to as "Truth in Millage" or "TRIM" notices) sent to each property owner in August. That determination is a significant point in the budget development schedule since the millage rates included on the TRIM notices represent a ceiling for property taxes for the ensuing fiscal year. If the BCC chooses to increase the millage rate beyond that which was advertised, all taxpayers must be re-noticed.

In accordance with Ordinance 11-45, public meetings are required to be held throughout the County in August to discuss proposed new or increased rates for fees and taxes. As required by state law, two public budget hearings are held in September prior to the adoption of the budget. At the conclusion of the second public hearing, the BCC makes final budget decisions, establishes tax rates, and adopts the budget ordinances for the ensuing fiscal year which begins on October 1. During the course of the fiscal year these budgets may be amended through supplemental budget appropriations approved by the BCC, which usually take place during mid-year and at year-end.

THE FY 2012-13 ADOPTED BUDGET

Miami-Dade County's operating budget is actually a combination of budgets relating to distinct services, including regional area-wide services provided countywide, local services in the unincorporated area, referred to as the UMSA, library services provided by the Miami-Dade County Public Library System (Library System), and fire rescue services provided within the Miami-Dade Fire Rescue Service District, as well as numerous proprietary operations and special assessment district functions. Each is separated to ensure that public revenues are used only for their authorized purposes and that residents pay only for those services available to them. Various types of revenues support Miami-Dade County's operations: taxes on property, sales, motor fuel, and utility bills; fees and service charges; federal and state grants; and others. Many of these revenues are restricted in their use, which complicates the process of balancing the budget.

The FY 2012-13 Adopted Budget is balanced at \$5.946 billion, of which \$4.312 billion represents the direct operating budget and \$1.634 billion is funding for capital projects. The operating budget is 3.76 percent lower than the FY 2011-12 Adopted Budget of \$4.473 billion. The tax supported budgets, the Countywide General Fund, Unincorporated Municipal Services Area (UMSA) General Fund, Library System, and Fire Rescue Service District budgets, total \$1.793 billion, or 41.6 percent of the total operating budget. Unfunded needs in the operating budget total \$71 million.

Revenues

The most significant source of discretionary revenue to local governments in Florida is property tax revenue. The estimated countywide tax roll change (from the 2011 preliminary roll) for FY 2012-13 is an increase of 1.98 percent. In accordance with Amendment 10 to the State Constitution, the increase in property assessments for 2011 homestead residential properties was set at three percent. Despite the property tax roll increase, ad valorem revenue is budgeted at \$5.826 million less than the FY 2011-12 Adopted Budget. Non-ad valorem revenues are projected to increase for FY 2012-13 as the weak economy begins to rebound.

Proprietary agencies are supported entirely from fees and charges generated by their operations (as in the case of Aviation); by a special property tax (i.e. Miami-Dade Fire Rescue Service District and Library System); a special assessment (e.g. solid waste collection services in Public Works and Waste Management); or by proprietary revenue, including grants, which augment a General Fund subsidy (e.g. Parks, Recreation and Open Spaces). Certain proprietary revenues also support functions in multiple departments, such as storm water utility revenues, tourist tax revenues, and local option gas taxes (as described in Appendix J and K). Proprietary operations, such as the Aviation department and the Port of Miami, will grow to the extent that their activity and operating revenues permit. The residential solid waste collection fee is held flat at \$439 per year and solid waste disposal fees are adjusted by the consumer price index. Water and wastewater fees for operations are also held flat. The landing fee for Miami International Airport was decreased to \$1.75 from \$1.92. A small number of other miscellaneous rate adjustments are included in the budget, such as terminal, concourse and rental fees.

The proprietary departments pay an administrative reimbursement payment to the general fund. The administrative reimbursement payment is calculated by determining the percentage of the entire general fund represented by the internal support functions that serve the whole County and all departments. This percentage is then applied to the budget of the proprietary functions. This rate has been adjusted to 2.42 percent from 2.35 percent last year and then an additional contribution from proprietary funds was budgeted to support General Fund reserves. The payment from the Aviation Department is calculated utilizing a

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

unique basis determined in concert with the Federal Aviation Administration. Consistent with past practices, administrative reimbursement revenue has been allocated between the countywide and unincorporated area budgets in the same proportion as the administrative expenses they support: 74 percent Countywide and 26 percent UMSA.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Expenditures

The FY 2012-13 Adopted Budget is a continuation of the FY 2011-12 Adopted Budget. With an overarching goal of supporting economic development and attracting and retaining jobs, this Adopted Budget funds critical services to make the community livable and sustainable. In addition to returning the revenue resulting from the growth in the property tax roll to the taxpayers in the form of a millage rate reduction, we were able to fund a reserve should the Board choose to return a portion of the concessions from our employees needed to balance last year's budget.

Public Safety

Public safety functions are the core service for every local government. In FY 2011-12, the Police department reduced specialized functions and eliminated vacant positions, without impacting the number of patrol officers on the street. In FY 2012-13, we will be holding two basic law enforcement classes to begin to strengthen our number of officers. Expenses continue to be adjusted in Corrections and Rehabilitation to reflect the current lower facility population. The general population of women inmates will be moved to the Turner Guilford Knight facility to allow for reduced operating cost at the Women's Detention Center. Additional sworn positions will be converted to civilian positions. No suppression or rescue units will be eliminated in the Fire Department and a recruit class will be held as needed. No further reductions are identified for the Juvenile Services Department beyond positions for which grant funding has been eliminated. The Medical Examiner will hire eight additional positions to address weaknesses that would impact accreditation. We will continue to work through the fiscal year with the State Attorney, Public Defender, Clerk of Courts, and Chief Judge to make sure that our court system responsibilities are addressed within the limited revenues we have available.

Economic Development

The Department of Regulatory and Economic Resources was created by combining key elements of departments that were previously involved with economic development and business and environmental regulation. The new department is focused on making Miami-Dade County a place where people want to do business, from the small Mom and Pop business to the international conglomerate.

Neighborhoods and Infrastructure

The spending in this area continues at a scaled back level, but we still ensure mission critical services are provided and safety is not compromised. Traffic and street sign replacement and NEAT team efforts remain at current year levels, but median maintenance cycles and roadside maintenance cycles were increased by three and two cycles, respectively. Residential fees for garbage and trash collection and water and sewer services are not increased. Infrastructure projects – particularly those in Water and Sewer addressing the anticipated consent decree from the Federal Environmental Protection Agency – are funded.

Recreation and Culture

Library services remain the same, as well as funding for County majors and cultural grants. Parks, Recreation and Open Spaces Department resources are held steady. Funding for operational support to Miami Science Museum, Miami Art Museum, HistoryMiami, and Vizcaya Museum and Gardens is increased to FY 2006-07 levels.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Social and Human Services

County support for services provided to the elderly remains at current year levels. Again adjustments to administration and overhead in the social services area allowed for expenditure reductions without impacts to direct service for County funded programs. Services for children are also a priority and maintaining the current levels of Head Start services by delegating all slots allows for considerable cost savings without reducing either the number of children serviced or the days of service children are provided.

Funding for most community-based organizations (CBOs) remains at FY 2011-12 levels with continuation funding provided to currently contracted CBOs.

The maintenance of effort payment to the Public Health Trust will be \$133.127 million for FY 2012-13, \$120.764 million from the millage calculation and \$12.363 million as a percentage of the non-ad valorem revenue in the general fund.

Transportation

Implementation of efficiencies makes it possible to again reduce positions at both the Port of Miami and in the Aviation Department. Regional transportation services continue to be provided at current service levels, including the new AirportLink service, funded by an increase in the maintenance of effort for Transit of \$5.484 million (total MOE is \$162.191 million).

General Government and Policy Formulation

This organization continues to contract. The number of positions identified for elimination between FY 2011-12 and FY 2012-13, including the reorganization, is the highest reduction in the history of the County. Further analysis has been and will continue to be done to reorganize our functions and bring about not only direct savings but improved delivery of service.

General Government and Policy Formulation funding is continued at levels to support current services. The funding for the Board of County Commissioners district budgets is held flat, while funding for the overall offices of the Board and funding for the County Attorney's Office has been budgeted to support the current level of staffing, adjusted only for changes in personnel costs. The Office of the Mayor's budget has been further reduced by seven percent. The Office of the Inspector General will continue to hold vacant two positions and the Commission on Ethics reduced its position count by one.

The Elections Department budget is funded to provide resources to support the November Presidential Election. Funding is allocated to support facility and asset needs in Internal Services, information technology resources in the Information Technology Department, and the 311 Answer Center at current levels of service.

The Budget maintains our reserves, particularly the Countywide Emergency Contingency Reserves as noted before. Budgeted reserves as a portion of the General Fund budget remain at 5.76 percent. The utility payment provided by the Water and Sewer funds to the General Fund, made in FY 2011-12 does not recur. That revenue is available to WASD to support capital needs and loan repayments will start in FY 2013-14.

FY 2012-13 ADOPTED CAPITAL BUDGET AND MULTI-YEAR CAPITAL PLAN

The Capital Budget and Multi-Year Plan (also known as the Capital Improvement Plan) is prepared pursuant to state growth management legislation and the Miami-Dade County Code and is prepared along with the operating budget. It is used as the basis for updating the Capital Improvement Element of the

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Comprehensive Development Master Plan, the Five-Year Transportation Improvement Plan, and the other major County capital planning documents.

The Capital Budget and Multi-Year Plan outlines revenues and expenditures for current and new capital projects necessary to maintain, improve, and expand public facilities and infrastructure to support County operations and meet the service demands of residents and visitors to Miami-Dade County. The Capital Budget has projects in each of the County's Strategic Areas: Public Safety, Transportation, Recreation and Culture, Neighborhoods and Infrastructure, Health and Human Services, Economic Development, and General Government. Beginning with the Building Better Communities General Obligation Bond Program (BBC-GOB), this year we are more closely tying the capital budget with the County's strategic plan by linking expenditures to strategic goals and objectives. The chart below shows expenditures in the BBC-GOB program for FY 2012-13 by strategic goal.

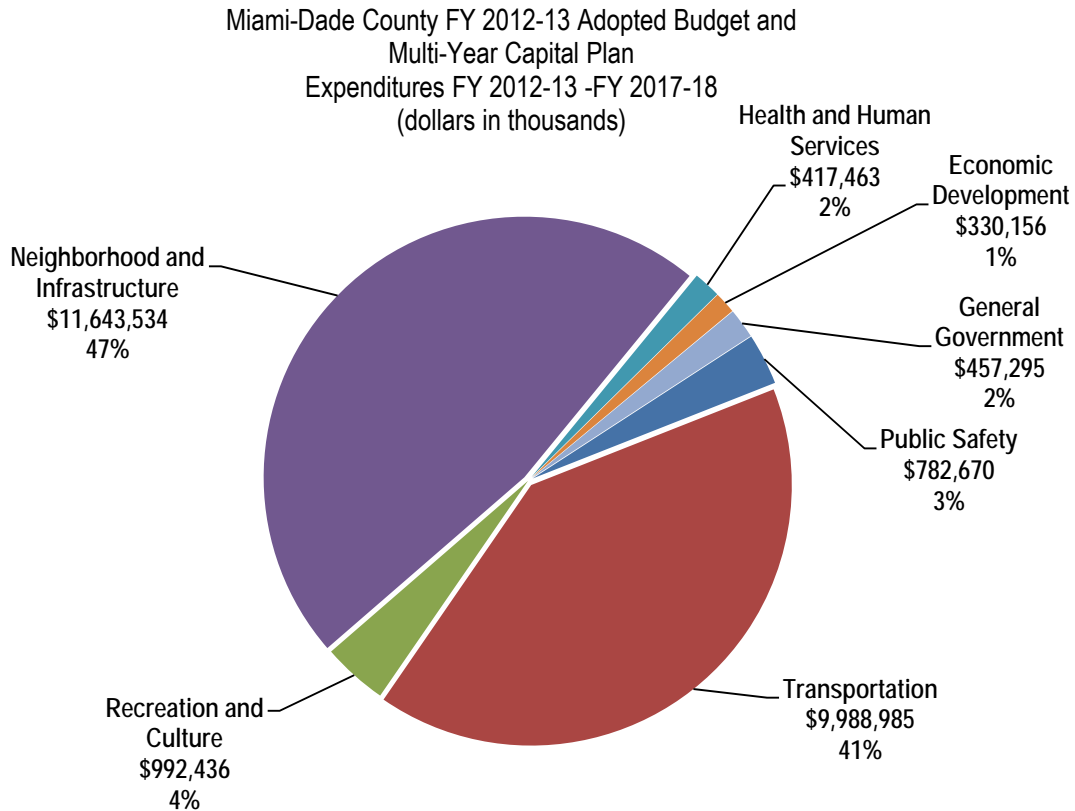

Strategic Goals

ED2: Expanded domestic and international travel and tourism
 ED5: Revitalized communities
 GG5: Goods, services and assets that support County operations

The County's Adopted Multi-Year Capital Improvement Plan totals \$24.612 billion and includes 667 capital projects across all strategic areas. The graph below details the annual programmed expenditure. The funding sources for the Adopted Capital Improvement Plan include 4.62 percent from federal grants, 3.29 percent from the state grants, 54.51 percent from revenue bonds or special obligation bonds, 9.98 percent from general obligation bonds, 4.28 percent from County proprietary operations, 1.04 percent from impact fees, 22.29 percent from other County sources and other non-County sources.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

The FY 2012-13 Adopted Capital Budget, the first programmed year of the Adopted Multi-Year Plan, totals \$1.634 billion, which is approximately 4.05 percent lower than the FY 2011-12 Adopted Budget of \$1.703 billion, primarily because certain major capital projects were completed this past year or are nearing completion this year. The Adopted Capital Budget was developed with the intent to fund projects that support economic development, livability and sustainability of our community.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

A number of major capital projects are continued in the FY 2012-13 Adopted Budget. Construction costs for the Children's Courthouse (\$57.31 million) and the Mental Health Facility (\$3.336 million) are funded, along with the required narrow banding work to be done to meet federal requirements for our radio system (\$5.88 million). Final funding needed to complete the North Terminal Development at Miami International Airport (\$87.635 million) is included, as is funding for MIA support facility improvements (\$59.888 million). Both the Deep Dredge (\$129.056 million) and the Port Tunnel (\$55 million in future years) are in the budget. More than \$130 million is included for transportation-related road projects, along with final funding of the AirportLink and revenues to support replacement of the rail cars and installation of a test track for Metrorail. Significant funding for the Miami Art Museum (\$30 million) and the Miami Science Museum (\$45 million) is budgeted, and more than \$38 million for parks projects. Funding to begin renovation or replacement of the Culmer/Overtown and Wynwood/Allapattah neighborhood service centers (\$1 million) and nearly \$42 million of funding for affordable housing projects is included. Jackson Health System is planning \$68 million worth of capital expenditures and we will begin the implementation of a full Enterprise Resource Planning system. More than \$235 million of projects for the Water and Sewer Department are planned for the current year, out of a \$11 billion system-wide capital plan. Funding to proceed with renovation of the interior and exterior of the Miami-Dade County Courthouse is included.

The FY 2012-13 Adopted Capital Outlay Reserve (COR) fund includes \$56.82 million of programmed expenditures. Revenue appropriations to fund the COR include a transfer from the Countywide General Fund of \$4.613 million, with the balance of the COR funded from \$37.845 million of various proprietary fund transfers and miscellaneous payments from other governments or leases and \$14.877 million of carryover from FY 2011-12. Of the recommended COR appropriation, \$36.846 million (65 percent) is programmed to fund principal and interest payments non-ad valorem general fund backed debt for capital projects across all strategic areas.

For presentation purposes in the FY 2012-13 Adopted Budget and Multi-Year Capital Plan, for ongoing or recurring yearly projects, prior year revenues that were expended are not shown in most cases to avoid artificially inflating the overall capital plan by showing cumulative expenditures that have already occurred.

There are 232 projects unfunded capital projects, estimated to cost a total of \$8.208 billion as compared to \$15.551 billion in FY 2011-12, a 47 percent decrease. The decrease reflects fully funding the Water and Sewer system infrastructure plan in the multi-year capital plan, utilizing future revenue bonds. The following chart illustrates the unfunded capital budget by strategic area.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

General Obligation Bond (GOB) Programs

General obligation bonds are general obligations of the County and are payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the County (excluding exempt property as required by Florida law). The full faith, credit, and taxing power of the County is irrevocably pledged to the prompt payment of both principal of and interest on the Bonds as they become due and payable. Pursuant to the Florida Constitution, there is no limit on the amount of ad valorem taxes a county may levy for the payment of general obligation bonds. Although titled as a Special Obligation Bond Program, this same rule of law applies to the voted debt for the Fire District Bonds, but only for taxable real and tangible personal property within the Fire Rescue District.

The FY 2012-13 Adopted countywide voted debt millage for general obligation bonds remains constant at 0.285 mills. In order to more efficiently manage project cash flow requirements and to optimize the County's capacity to do more projects, a commercial paper-type program has been approved by the Board for implementation in FY 2012-13. The FY 2012-13 Adopted Fire Rescue District voted debt service millage, which funds principal and interest payments for the 2002 Fire District Special Obligation Bond Program is 0.0131 mills.

Planned Financings

The Adopted Capital Budget includes capital financings that are planned during FY 2012-13. The financial markets are very unpredictable so final amounts for these will be determined when the authorizing legislation is presented to the Board of County Commissioners for approval:

- General Obligation Bonds Building Better Communities Program Commercial Paper Program (Winter 2012)
- Capital Asset Acquisition bonds for the Port of Miami in a programmed amount of approximately \$250 million to fund certain departmental capital projects (Spring 2012)
- Refunding of Aviation, Fire, and Special Obligation Bonds (Spring 2012)
- Water and Sewer, Solid Waste, and Juvenile Courthouse Revenue bonds (Summer of 2013)

FIVE-YEAR FINANCIAL OUTLOOK

The development of the annual budget provides us the opportunity to look at future revenue and expenditure trends. Decisions regarding service expansion or reduction not only need to align with the Strategic Plan, but also with what can be reasonably expected in terms of future resources. We have developed financial forecasts for all four County taxing jurisdictions, as well as for certain proprietary operations such as Aviation, Seaport, Waste Management operations, Water and Sewer, and Transit which support the economy and the sustainability of our community.

In developing the forecast, we utilize a set of assumptions which allow us to make reasonable projections and conclusions. However, these assumptions can be affected at any given time by external forces such legislative actions, changes in the economy, and to a great extent, by local policy decisions. We use this document as one of our planning tools and revise it twice each year.

For our tax-supported functions we develop our financial outlook utilizing incremental/inflationary methodology using current year service levels as the baseline for projections, making adjustments for defined service expansions or reductions. We use the Strategic Plan to help us plan for County services beyond those currently provided.

Property Tax-Supported Budgets

Tax relief initiatives approved by the State Legislature in 2007 and constitutional amendments approved by the voters on January 29, 2008, compounded with the unprecedented 2009 and 2010 losses in taxable value across the county have lead to budget gaps of nearly \$2 billion over the last six years. Although the property tax roll is forecasted to increase 3.5 percent in FY 2013-14, the fiscal outlooks for the four property tax-supported budgets under the purview of the BCC have been and will continue to be significantly challenged. The FY 2012-13 Adopted Budget includes savings in health related expenditures, the targeted use of tourist taxes for a number of eligible County activities, and savings from reorganizational adjustments. This financial forecast assumes that some of these budgetary adjustments are one-time in nature and adjustments are made to take this into account in future years.

Final property tax roll growth for calendar years 2004, 2005, 2006, and 2007 showed extraordinary increases of 13.4 percent, 18.7 percent, 21.4 percent and 15.4 percent, respectively. The final property tax roll for 2008 was 0.09 percent higher, and final tax roll losses for 2009 and 2010 were minus 9.5 and 13.4 percent, respectively. For 2011, the final property tax roll experienced a loss 2.76 percent of its value. These are unprecedented losses when compared to the historical performance of the County Property Tax Roll over the past 30 years. The FY 2012-13 property tax roll experienced an increase of 1.98 percent and for the purpose of this financial outlook, the property tax roll is assumed to grow 3.5 percent each year thereafter. The millage rates used to develop the revenue forecast for the property tax supported budgets assume that the FY 2012-13 adopted millage rates are held flat for FY 2013-14 and thereafter.

The General Fund carryover balance for year-end FY 2011-12 is estimated at \$80.7 million. The Countywide General Fund Emergency Contingency Reserve balance for FY 2011-12 is estimated at \$52 million, and is expected to grow by earned interest through the end of FY 2012-13. The Fire District Emergency Contingency Reserve was fully appropriated to support operations in FY 2010-11. As part of this financial outlook, appropriate expenditure allocations have been made to replenish the Countywide Emergency Contingency Reserve to the FY 2008-09 levels in the next several years. The Library System sets aside an operating reserve every year equivalent to five percent of its operating expenditures.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

In addition to trying to address service needs for the community, economic trends and federal and state legislation may have a significant impact on the overall County budget. Legislation such as potential increases in Medicaid costs, continuing increases in the County's contribution to the State's retirement fund, and policies that increase inmate jail population, can affect the budget tremendously. It is expected that the legislature may increase Florida Retirement System rate contributions in the next few years, as a result of actuarial updates and the losses experienced by its investments in the market, unless further plan modifications and/or employee contributions are adopted. Increase costs of health care coverage and other unanticipated events may also have an impact. Future incorporations and annexations by existing municipalities could also impact the County budget.

Our practice is to be extraordinarily conservative with our revenue and expenditure projections. That coupled with the conditions described above create substantial fiscal challenges within the scope of this financial outlook for our tax-supported budgets. Specifically, it is assumed that all concessions negotiated into the current bargaining agreements are returned and the employee contribution for group health is eliminated. Countywide operations are forecasted to generate operational funding gaps throughout this five-year outlook. Such is the case for the Fire Rescue District and the Library system. The UMSA budget is less dependent on property tax revenue and as such benefits from the growth in other revenues such as sales tax, utility taxes, communication tax, etc., which have shown robust performance in the last year. However, UMSA is constantly being impacted by increasing law enforcement costs which represent approximately 75 percent of its operating budget and as a result is forecasted to generate marginal surpluses in four of the next five years. The Fire Rescue District and the Library System have curtailed any future service expansions due to revenue limitations.

Strategies to address the funding gaps include new service provision opportunities and the implementation of new recurring revenues and/or the aggressive implementation of operational adjustments and efficiencies, within the goals and objectives dictated by the County's Strategic Plan. All of the County's jurisdictions are already benefiting from the long-term labor concessions that include employees' contributions of five percent of their salary toward health insurance costs. These strategies, however, will not systematically address all unmet needs identified by our departments, which total \$81 million and are detailed in each department's narrative in Volume 2.

Assumptions

Millage Rates

Operating millage rates for all four taxing jurisdictions are kept at the FY 2012-13 millage levels.

Tax Roll Growth

For planning purposes, the property tax roll is assumed to increase 3.5 percent in FY 2013-14 and thereafter.

Inflation

<u>Fiscal Year</u>	<u>Inflation Adjustment</u>
2014	1.30%
2015	1.60%
2016	2.00%
2017	2.20%

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Incorporations and Annexations

No new incorporations or significant annexations are assumed for the next five years.

Service Levels

As part of the forecast exercise, it is assumed that proposed levels of service for FY 2012-13 are maintained for the next five years except for additional facilities programmed to come online such as the Mental Health Facility programmed to start operations in FY 2014-15.

Transit Growth

General Fund support to the Miami-Dade Transit Department in FY 2013-14 is increased by \$45 million to offset increased debt service obligations that will limit the ability to utilize surtax funds to support operations.

New Facilities

This year the Fire Rescue District will commence construction of the Coconut Palm, Miami Lakes West, and Palmetto Bay stations and begin the expansion of the North Miami Beach station. All units to be assigned to these new stations are currently in service at other stations or at temporary locations. Due to funding limitations, the Library System has pushed out the Doral, Killian, and Hialeah Gardens branch projects to future years.

One-Time Revenues

FY 2012-13 Adopted Budget includes approximately \$42 million of one-time revenue consisting of a combination of tourist taxes and Capital Outlay Reserve uncommitted carryover.

Salary Expense

Based in the assumptions included in the Adopted Budget, through FY 2013-14, the following labor concessions have been incorporated into this document: elimination of the cost of living adjustments which became effective July 2011 and the freezing of premium and flex benefits. Premium and flex benefits are incorporated back into the budget in FY 2014-15, as is the elimination of furlough days.

Health Insurance Costs

Health Insurance costs are expected to increase eight percent in FY 2013-14 and thereafter. The employee contribution for group health insurance is decreased to five percent in FY 2012-13 and eliminated as of January 2014 and thereafter.

Emergency Contingency Reserve

This five year plan includes the appropriate allocations to bring the Countywide Emergency Contingency Reserve back to the FY 2008-09 levels by FY 2014-15. In FY 2010-11, the Fire Rescue District used the balance of its Emergency Contingency Reserve to help maintain the necessary level of service throughout the Fire Rescue District (\$17 million). The Library System continues to carry an operating reserve of approximately \$2.5 million.

REVENUE/EXPENDITURE RECONCILIATION

Based on the revenue and expenditure projections previously discussed in this document, a summary of the resulting net operating performances for each taxing jurisdiction is presented below. As funding gaps are addressed each year to balance the budget, as required by state law, there will be a significant positive effect on the following year's budgetary position.

As shown in the graphs below, Countywide, the Fire Rescue District, and the Library system will develop budgetary shortfalls throughout the scope of this five year financial outlook. UMSA is expected to experience an operational shortfall starting in FY 2016-17, benefiting from the performance of non-ad valorem revenues. These fiscal challenges do not include the numerous operational unfunded needs.

FIVE-YEAR FORECAST FOR MAJOR PROPRIETARY FUNCTIONS

In addition to forecasting the revenues and expenditures for the tax-supported portion of the County's operations, our five year outlook also focuses on the major proprietary functions that support Miami-Dade County's economy. Not only do these functions provide thousands of jobs in our community, they also support the infrastructure that makes our community livable and attracts and retains business. These functions are all supported by fees and charges to the users of the services provided – be they the airlines, cruise lines and cargo lines that use the Port of Miami, Miami International Airport and the general aviation airports, the people who ride our public transit system, or the residents and businesses that utilize our solid waste, water and wastewater facilities and services. The setting of our rates and fees must not stand in the way of economic development in our community, while ensuring the resources are available to support continued growth the development.

Job Development and Retention

Our Airports and Seaport are considered the primary economic engines for Miami-Dade County. Hundreds of thousands of jobs are dependent directly or indirectly upon the ports, through which tens of millions of passengers and hundreds of millions of tons of cargo flow annually. Economic studies have shown that the annual impact of the ports to the region's economy is estimated to exceed \$45 billion.

Miami-Dade Aviation Department (MDAD)

Miami International Airport (MIA) continues to expand service. It is projected that during FY 2012-13, 19.5 million enplaned passengers will transit through MIA, representing a slight decrease over FY 2011-12, when 19.7 million enplaned passengers moved through MIA. Domestic passenger traffic, which represents 52 percent of total passengers, is expected to increase by 1.9 percent, while international passenger traffic is expected to increase by 3.4 percent. The following chart shows actual enplaned passengers for the past two years and shows that through the scope of this five year plan, enplaned passenger counts are anticipated to increase by 8 percent.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

In addition to passenger transit, MIA is a major hub for cargo trans-shipment, both domestically and internationally. Freight tonnage totaled 2.031 million in FY 2011-12, which was an increase of 1.2 percent over the prior year. Cargo tonnage is expected to increase by 2 percent in FY 2012-13. The chart below shows the projected tonnage for the scope of this five year plan. International tonnage represents 87 percent of total tonnage (1.815 million tons) and domestic tonnage is projected at 257,000 tons.

MDAD operations, facilities, and expansion are supported by charges paid by the airlines and supplemented with grants and limited pay-as-you-go revenues. The capital improvement plan (CIP) for MIA and the four general aviation and training airports is structured to accommodate growth and improve efficiency of operations. Projects in the CIP program included renovation of the North and South Terminals to include state of the art baggage handling systems, two additional automated trains to transport passengers from the rental car facility to the terminal as well as transporting passengers within the North Terminal, and various landside and airside improvements. The CIP is funded by long-term debt and the authorized \$6.509 billion expansion of MIA will be completed by the end of FY 2014-15. Safety and security concerns drive operating and facility costs and reducing the cost of operations has mitigated the additional costs associated with federal security mandates. The following charts illustrate the projected cost per enplaned passenger at MIA and MDAD total revenues.

MDAD's operating and maintenance expenditures includes expenditures associated with MIA and the four general aviation and training airports. In addition to these costs, depreciation, debt service obligations, and improvement fund and maintenance accounts and a required operating reserve must be funded. The following charts illustrate operating and maintenance expenditures and debt service obligations.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

MDAD is recognized for its sound management and financial investment strategies. The Department's bonds are currently rated A2 by Moody's, A- by Standard & Poor's, and A by Fitch Ratings. Continued growth in traffic, both domestic and international, has supported operations and along with improved operations, allowed for lower than anticipated costs per enplaned passenger. While landing fee rate increases will be required to support the both the cost of expansion and ongoing support of the new facilities, MIA will remain competitive as compared to other airports and is expected to attract new airlines.

Port of Miami

The Dante B. Fascell Port of Miami (POM) embarked and disembarked 3.75 million passengers in FY 2011-12. Bookings are expected to increase by 4.6 million over the next five years. Also, the amount of cargo flowing through POM has increased, ending at 909,000 TEUs in FY 2011-12, remaining flat over the previous year. Multi-year agreements with both cruise and shipping lines will support operations and facility expansion and improvements over the next five years. The following charts illustrate cruise and cargo revenues for the period of this forecast.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Two significant projects are the largest part of the POM capital improvement plan: the Port Tunnel and the Deep Dredge. The Port Tunnel is anticipated to be completed in FY 2013-14 and will improve traffic flow into and out of POM. Additionally in FY 2014-15, the Deep Dredge project will be finalized to bring the south channel to a depth of 50 feet so that POM will be ready to accept the post-Panamax shipping lines. Other projects include enhancements to the container yards, acquisition of gantry cranes, improvements to rail connections, and upgrades to cruise

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

terminals. These two projects will have a significant impact on cruise and cargo growth that will be reflected in future iterations of the five-year plan.

For the past six years, the POM has been successful in attracting new cruise and cargo business, in spite of the competitive pressures from neighboring ports, federal and state security mandates and a downturn in the local and national economy. As part of its obligations to bondholders, the Department is required to maintain a two months operations and maintenance reserve, which is built into its operating budget. In the past three years, the Department has managed to increase tariff rates for dockage, wharfage and cranes as stipulated contractually while at the same time building a Reserve Maintenance fund to address deferred maintenance and improvements to its aging facilities.

Revenues include cruise, cargo, rentals, parking, carryover and other miscellaneous items like harbor fees and ground transportation. Expenditures include salary, fringe, other operating, and debt service but exclude required cash reserves for presentation purposes. The cash reserve (that is excluded from the graph above for presentation purposes) is equal to the two months operating and maintenance amounts that is required per bond convenient.

For the purposes of this Five-Year Financial Outlook, cruise line revenue forecast is based on anticipated cruise lines itineraries coupled with existing agreements through FY 2016-17. The outlook includes an annual 1.7 percent increase in passengers anticipated with a three percent tariff increase. Cargo throughput is projected to increase annually by three percent, and tariff rates are projected to increase by three percent through 2013-14. Cargo related revenues are projected to increase 14 percent in FY 2014-15 and rental revenues are projected to increase by 32 percent in FY 2015-16 as a result new contractual agreements that will be in place that reflect current market inflationary rates that will replace older contracts that used non-inflationary rates.

Associated expenditures, excluding mandated two months operating and maintenance cash reserves, assume a growth rate of 11 percent for salary and fringes in FY 2014 to account for the restoration of pay exceptions, and four

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

percent growth thereafter. Other operating expenditures are forecasted at three percent year over year and includes various increases in debt service payments as the Port continues to fund its capital program.

The Port of Miami is actively examining alternative revenue options, refinancing opportunities and expenditure adjustments that may significantly affect the data used to develop this five year plan. Currently under consideration are concessionaires, management agreements, and advertising opportunities.

Infrastructure

Miami-Dade County provides solid waste collection and disposal services, water and wastewater, and public transportation infrastructure including transit services, as well as roadway expansion and maintenance for virtually all residents, either directly or through wholesale agreements. The Public Works and Waste Management (PWWM) Department provides solid waste disposal, collections and recycling services, and supports roadway expansion and maintenance. The Water and Sewer Department provides water and wastewater services. The Miami-Dade Transit Department provides regional transit services on buses, heavy and light rail, and paratransit service. A well-maintained infrastructure is important to the livability of a community.

Solid Waste Collection and Disposal Operations

PWWM collects garbage and trash from approximately 323,000 residential customers in the Waste Collection Service Area (WCSA), which includes UMSA and nine municipalities. Twice-per-week automated garbage collection, twice-per-year trash and bulky waste collection, and access to 13 Trash and Recycling Centers is provided in the WCSA. The residential recycling collection program serves more than 348,600 households in WCSA and an additional 12 municipalities. PWWM is responsible for disposal of garbage and trash countywide and operates three regional transfer stations and four active disposal facilities, along with contracting to utilize private landfills as necessary to maintain landfill capacity.

Projections for collections and disposal activity assume minimal household growth and tons, which are slowly rebounding from a decline due to the economy downturn. Collections from the WCSA represent 43 percent of the total tons disposed, which is projected to be 1.542 million tons in FY 2012-13. This is a 2.0 percent increase from the FY 2011-12 actuals. In addition to collection and disposal operations, revenues generated by fees and charges are used to support the landfills, remediation and closure, ongoing monitoring, and equipment through both pay-as-you-go projects and issuance of debt.

The following table shows the combined results of the collections and disposal funds. For purposes of this analysis, it is assumed that the residential household collection fee will remain at \$439 annually and that disposal charges will be adjusted annually by the Consumer Price Index (CPI) South All Urban Consumers. For FY 2012-13, that index is adopted at 1.7 percent. Based on these assumptions, PWWM will be able to support system operations, meet its bond covenant of a 60-day operating reserve, and satisfy bond coverage requirements through the period of this forecast.

Water and Sewer

Water and Sewer services are provided throughout the County to more than 422,000 water and 339,000 wastewater retail customers and in 15 municipalities and wholesale customers. Consistent with last year's plan, retail rates are held flat for both FY 2011-12 and FY 2012-13, although adjustments will be necessary in the following years not only to support increased costs of operations and maintenance, but also to fund debt issuances necessary to complete capital projects for regulatory compliance, aging infrastructure, plant rehabilitation and day-to-day rehabilitation activities. Negotiations are currently underway with the United States Department of Environmental Protection to address concerns related to system infrastructure. The resulting consent decree will likely necessitate an adjustment to our capital plan and may require an adjustment to the rates projected here.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Water and Sewer Department's Multi-Year Capital Plan includes the testing and replacement as needed of all large diameter concrete water and sewer pipes; substantial overhauls of all the water and wastewater plants; reconstruction of nine seriously deteriorated sewage pump stations and capacity expansion of more than 60 pump stations to accommodate additional flows; installation of redundant water supply mains and storage tanks to ensure continuous delivery of water even when pipe failures occur; planning and design of extensive changes to the wastewater system required to satisfy the State mandate to eliminate use of the ocean outfalls for disposal of treated wastewater and the reuse of 60% of that water; and completion of water supply projects required in the State Water Use Permit to meet service demands in the future. The following table shows the cash flows for both the water and wastewater systems.

FY 2012-13 Adopted Budget and Multi-Year Capital Plan

Regional Transportation

Since the authorization of the People's Transportation Plan (PTP) half-cent surtax in November of 2002, progress has been made to improve Miami-Dade County's regional transportation system. To date, \$647 million of transit projects and \$312 million of roadway projects have been completed as part of the PTP. The "AirportLink" (Earlington Heights Connector), was put into service this past summer, connecting the Metrorail system to the Miami International Airport.

The 30-year proforma analysis for the PTP is updated annually, adjusted for actual revenue performance, debt issuances, changes in employee salaries and benefits due to collective bargaining, and other operating expenditure variations. The table below summarizes the revenue and expenditure projects for the next five year. Of note, in FY 2013-14, an extraordinary adjustment in maintenance of effort support will be required due to increased debt service requirements.

APPENDIX L - SUSTAINABLE INITIATIVES

The following is a sample of the sustainable initiatives we have highlighted in the Adopted Budget. Throughout the document, programs, projects and functions which support a more ecologically, economically, and socially sensitive approach toward resource use, are delineated with a tree symbol (🌳)

- In FY 2012-13, the Aviation Department will continue its annual recertification of fuel storage, environmental engineering, procurement, and maintenance as it relates to International Organization for Standardization (ISO) 14001 regulations; certification is required to ensure that management and environmental procedures meet the ISO standards and incorporate continued environmental improvement methodology, as well as to reduce MIAs environmental footprint
- In FY 2012-13, Public Works and Waste Management (PWWM) will continue Phase 2 of the development of a long-term Solid Waste Master Plan (\$1.5 million total cost) and continue operation of two Home Chemical Collection Centers open to all residents countywide (\$945,000)
- PWWM's FY 2012-13 Adopted Budget includes the continuation of the contract with Covanta Power Corporation to operate and maintain the County's Resources Recovery facility (\$85.217 million) including other supplemental contracts and staffing to support the Resources Recovery operation (\$923,087)
- PWWM's FY 2012-13 Adopted Budget includes the purchase of 29 additional hybrid garbage trucks (\$14.851 million) to generate fuel savings and emission reduction
- In FY 2012-13, the Water and Sewer Department (WASD) will continue a program to reduce energy consumption encompassing facilities lighting and controls, operational equipment energy consumption, the implementation of the Energy Star Power Plan and of an employee awareness program, which includes an energy conservation website, newsletter, and workshops
- The Community Action and Human Services Department's FY 2012-13 Adopted Budget includes a total of \$509,000 for the Weatherization Assistance Program, which enables low-income families to permanently reduce their energy bills by making their homes more energy efficient
- In FY 2012-13, the Regulatory and Economic Resources Department (RER) will manage the annual "Baynanza" beach and park clean up event and offer free trees to plant in the community through the Adopt-a-Tree Program funded by donations and operating funds (\$208,000)
- Water and Sewer 's FY 2012-13 Adopted Budget includes \$247,000 to support the Florida Yards and Neighborhoods Program and the Landscape Irrigation Water Conservation Project
- In collaboration with Information Technology Department (ITD) and the Mayor's Office, the Community Information and Outreach Department (CIAO) automated the United Way annual pledge process via eNet, the employee portal, thus creating convenience and time savings for United Way coordinators and County employees, and reducing paperwork substantially
- In FY 2011-12, a Countywide Utility Bill Management System (UBMS) was implemented; the system will enable the County to reduce energy costs through improved electronic utility bill processing servicing of over 4,500 County/FPL accounts, and will provide auditing, payment, benchmarking, advanced analytics, and automated reporting functionality
- In FY 2011-12, ITD and the Human Resources Division of the Internal Services Department continued to roll-out ePARs, a web-based application that eliminates the hard copy Payroll and Attendance Record (PAR) and reduces printing expenses and costs associated with PAR distribution, collection, data entry, and storage; as of September 2012, approximately 19,450 full-time employees were on ePARs; the feasibility of implementing ePARs for the Corrections and Rehabilitation Department and Miami-Dade Fire Rescue, either directly or via interface with existing time collection systems used by those departments will be determined during FY 2012-13

APPENDIX L - SUSTAINABLE INITIATIVES

- In FY 2011-12, ITD continued to replace stand-alone computer servers with lower cost, higher energy-efficiency virtual servers; as of September 2012, ITD had deployed 420 Intel virtual servers for an average annual power savings of \$386,000; deployment of these virtual servers in lieu of traditional servers has saved approximately \$2 million in hardware and software expenses to date; systematic review of the entire server infrastructure will continue into FY 2012-13
- ITD received \$1.279 million from Miami-Dade County's FY 2009-10 allocation of Energy Efficiency and Conservation Block Grant (EECBG) funds for the Pilot Desktop Virtualization Project, which replaces traditional desktop personal computers with 'thin clients' that consume 90 percent less electricity; the Department has purchased the necessary servers, licenses, storage, and virtual desktop devices; 1,879 virtual desktops have been deployed Countywide as of September 30, 2012, with deployment of additional devices ongoing through FY 2012-13
- ITD worked with the Regulatory and Economic Resources and Internal Services Departments on a project funded by the American Recovery and Reinvestment Act (ARRA), to integrate enterprise asset sustainability, improving the ability to monitor and reduce energy and greenhouse gas emissions in County facilities
- In FY 2012-13, the Internal Services Department's Print Shop will continue to maintain its "Green" certifications by the Forest Stewardship Council (FSC), the Program for the Endorsement of Forest Certification (PEFC), and the Sustainable Forestry Initiative (SFI); this was achieved by eliminating chemicals from the production process, changing to vegetable-based press inks and citrus-based cleaners, and achieving a Chain-of-Custody certification, verifying that paper products are procured from forests that are managed to insure sustainability
