

Job Aid 1: BPREP Process

This case will test allow you to test BPREP process in BAT to ensure that it is working properly.

The steps included in this process are:

- The correct rounding of HCP (to the nearest thousandth) and Operating (to the nearest hundredth) accounts/sub-objects.
- The correct aggregation of any Budget Only accounts/sub-objects.
- The correct aggregation of any attrition/furlough/COLA accounts/sub-objects.
- The correct aggregation of any approved enhancements/reductions.

3.

At the **BPREP Adjustment Form**, locate the BPREP column (on the right) and check that all accounts have been aggregated to the correct account. Ensure that all personnel cost accounts have been rounded to the nearest thousandth and that other operating sub-objects have been rounded to the neared hundredth under the BPREP column. All accounts, including HCP accounts usually locked under the Develop Future/Current Year forms, will now be available for editing.

GL Accounts:Fund Balance (FAMIS)	(978,838)	(979,000)

Note: The BPREP process, which is run by the BAT administrators, will aggregate all HCP budget accounts to their natural FAMIS sub-object codes (e.g. attrition will roll up to its natural sub-object code). The BPREP process will also roll up all approved enhancement and reduction requests.

If your department budgeted dollars in any Budget Only sub-objects (e.g. Salaries Only (00199)), the BPREP process will not aggregate these values. It is the department's responsibility to manually aggregate these values in the BPREP column.

The **BAT BPREP Appropriations Report** can assist you in calculating the correct amounts to enter into the BPREP column.

Job Aid 2: Running the BAT BPREP Appropriations Report

This section will show the user how to run the BAT BPREP Appropriations Report. This report will assist the user in populating the **BPREP Adjustment Form** detailed in Case 1.

Job Aid 3: Excluding Intersections from the Budget Load

This case will test allow you to exclude intersections that you do not want loaded into the final budget.

The steps included in this process are:

- Selecting and running the Create Exclusion List rule.
- Validating that an excluded entity has been added to the BPREP Exclusion Summary form.

When this departme	When this form is rendered, you will see a listing of all the excluded intersections for your department
