BOARD DISCUSSION

Can a Master Plumber do generator exhaust piping? Can a Master Plumber do fuel oil system piping?

The Board reviewed the scope of work of a Master Plumber in Contractors' Chapter 10 of the Code of Miami-Dade County as well as that of the Florida State Statute and it was clear that the generator exhaust piping and fuel oil system piping is within the scope of a Master Plumber. The plumbing Board member informed the department that the City of Miami was not allowing the issuance of a permit to a master plumber in referenced areas. The Board asked the department to communicate with the City of Miami, Building Department, permitting section on this.

ELECTRICAL APPEARANCES

LISANDRO DIAZ (MASTER ELECTRICIAN)

Wished to appear before the Board to discuss testing procedures regarding test retakes on a partial examination when in the interim there has been a change in examination service provider. Mr. Diaz took his Master Electrician examination on March 5, 2005 with PSI and passed the Business and Law part of the examination but failed the Technical portion. The testing procedures that have been in place allow an examinee to retake only the portion he failed within one year. However, Mr. Diaz and others are faced with the dilemma that there is now a different examination company from the time that they originally sat for their exam. Therefore, a ruling is needed as to retakes on a partial examination when another vendor is providing the service so that the appropriate directives can be given to the current examining company. This **appearance** was **withdrawn** as it was **administratively resolved**.

FERNANDO LOZA (UNLICENSED CONTRACTOR)

Scheduled to appear before the Board as a result of a letter received by his Attorney, Pelayo Duran, asking for reinstatement of a Master Electrician license which was administratively revoked by the Building Code Compliance Office. Mr. Loza claims to have a Master Electrician contractor license # 04E000743 under the business name of FL ADVANTAGE SERVICES INC. The license was revoked as a result of an audit conducted to determine illegally obtained licenses. Mr. Loza appeared along with his Attorney Pelayo Duran and Attorney Roderick Hannah. Assistant County Attorney, Evan Grob, briefed the Board stating this is one of the contractors staff made a decision on and administratively voided the license as the license was never validly issued by the Board. Mr. Loza through his Attorney, Mr. Duran, has written the county contesting staff's action. Staff treated the Attorney's letter as a request for an appearance before this Board today for an informal hearing. The Board heard from Mr. Loza's Attorneys on this. They stated they were a little confused as Chapter 10, Section 10.15, refers to first establishing probable cause finding and then proper notice to their client. And, further, that the notice to their client of Cease and Desist, after an interview conducted by law enforcement officers similar to an ambush, was highly inappropriate. The Chairman, Nester Bustamante, advised counsel that the issue of "like an ambush" would have to be taken up with the law enforcement agency. The Assistant County Attorney informed counsels that probable cause has been established and his client, Fernando Loza, will receive proper notification of the charges in the near future at which time an evidentiary hearing may take place. After much discussion and deliberation, wherein staff referenced a license verification letter dated November 26, 2004, claiming to be fraudulent, Mr. Grob asked letter be submitted as Exhibit "A" for the record and it was without opposition. The counsels for the respondent had an issue with the burden of proof of holding a valid license falling on their client. However, they stated they were not prepared to pursue this any further at this time and asked for a re-scheduling to the next meeting of the Board. In the meantime, respondent's counsel, Mr. Duran, stated based on the shifting of the burden of proof they will request any and all public records used by staff in their determination

BOARD INFORMATIONN - ILLEGAL LICENSES

Michael Goolsby, Chief Code Compliance Division, provided the Board with an update regarding the illegally issued licenses. Mr. Goolsby stated we have completed the initial investigation stage of this process. Once the police executed the search warrants on July 27, 2006, the following day the department initiated the revocation holds on the fraudulently obtained license. The list of individuals who illegally obtained contractor licenses is now at 268. The total number of permits as a result of is pending. The municipalities have been notified with this final list of names to provide us by a September 27, 2006 deadline, all permit information against these names and license numbers identified so that we may begin the next phase of preparing the charging documents. The Building Department for the unincorporated area has already provided a list slightly over 3,000 permits. Additionally, we have devised, in conjunction with the State Attorney's Office, a one page contractor complaint intake affidavit which will also be used by them to pursue criminal prosecution on their side of the issue. Mr. Goolsby informed the Board that the Building Code Compliance Office has written a resolution for submission to the Board of County Commissioners. This resolution is intended to establish a Recovery Trust Fund. The Recovery Trust Fund will be used as a repository for any of the administrative fees, fines or restitution generated from the actions of the Board on those individuals holding a fraudulent license. That money will be used to go back to the affected property owners in order to ensure that they are made whole regarding any damages that they may have suffered as a direct result of the use of these illegal contractors. The Building Code Compliance Office is also committed to use their own funds if the Recovery Trust Fund is exhausted.

The Assistant County Attorney, Evan Grob, went on to explain the recommended procedures for handling these cases against the contractors holding an illegally obtained license. Mr. Grob stated these procedures were adopted by the <u>full</u> Board (Construction Trades Qualifying Board – Division A and Division B) at their meeting on August 31, 2006 and outlined in the minutes thereof.

YORK ELECTRIC/JORGE LORENZO TORRES

YORK AIR CONDITIONING/JORGE LORENZO TORRES

At the 11/28/06 Plea Session wherein referenced contractors were scheduled to appear – YORK ELECTRIC was a "No Show" – Default entered. Recording Secretary informed Board perhaps an oversight because had received, via legal representation, a written plea of "Not Guilty" for YORK AIR CONDITIONING. Staff, Daniel Vuelta, recommended entering a "Not Guilty" plea for YORK ELECTRIC as well and accepted by the Board changing the Default to a "Not Guilty" plea. This date, Recording Secretary further informed Board correction on assumption after research stating YORK ELECTRIC does not have legal representation. Mr. Vuelta advised the Board that this is a father and son situation. Mr. Vuelta stated father has legitimate electrical license but, nevertheless, intends to go after father's company. He had entered a "Not Guilty" plea on father's behalf because Jorge Lorenzo Torres, SR has verbalized same after being charged. After hearing these facts, the Board let the "Not Guilty" plea stand rather than change it to a Default.
