MEMO

TO: ALL BUILDING OFFICIALS IN MIAMI-DADE COUNTY

FROM:  **Jaime D. Gascon, P.E.**
Board and Code Administration Division

DATE: January 3, 2024

SUBJECT: FBC 8th Edition (2023) and Miami-Dade Notice of Acceptances (NOAs)

All NOA holders were informed last summer that new building permit applications submitted on or after December 31, 2023 are required to show compliance with the new code or risk being rejected by building departments. They were also informed of the process and options available to update their NOAs to reflect compliance with the FBC 8th Edition (2023).

If the NOA or the NOA Drawings indicate the edition of the code under which the limits of use were established, the NOA is only applicable to permit applications under that edition.

Please note that all roofing NOAs do not refer to a specific edition of the FBC. However, all roof tile permits must include a roof tile underlayment product approval that indicates the underlayment system's uplift value. The 30/90# hot mop system has prescriptive approval, and all other systems require a minimum 45 psf rating.

If you have any questions or if we can be of additional assistance, please contact the Product Control Section at 786-315-2590.

Thank You.
