NOTICE OF ACCEPTANCE (NOA)

Metal Productions Inc.
5501 SW 163 Avenue
Southwest Ranches, FL. 33331

SCOPE:

This NOA is being issued under the applicable rules and regulations governing the use of construction materials. The documentation submitted has been reviewed and accepted by Miami-Dade County RER - Product Control Section to be used in Miami-Dade County and other areas, where allowed by the Authority Having Jurisdiction (AHJ).

This NOA shall not be valid after the expiration date stated below. The Miami-Dade County Product Control Section (In Miami-Dade County) and/or the AHJ (in areas other than Miami-Dade County) reserve the right to have this product or material tested for quality assurance purposes. If this product or material fails to perform in the accepted manner, the manufacturer will incur the expense of such testing and the AHJ may immediately revoke, modify, or suspend the use of such product or material within their jurisdiction. RER reserves the right to revoke this acceptance if it is determined by Miami-Dade County Product Control Section that this product or material fails to meet the requirements of the applicable building code.

This product is approved as described herein and has been designed to comply with the Florida Building Code including the High Velocity Hurricane Zone of the Florida Building Code.

DESCRIPTION: 1-3/4in. Snaplock Steel Panel over Steel B-Deck

LABELING: Each unit shall bear a permanent label with the manufacturer's name or logo, city, state and following statement: "Miami-Dade County Product Control Approved", unless otherwise noted herein.

RENEWAL of this NOA shall be considered after a renewal application has been filed and there has been no change in the applicable building code negatively affecting the performance of this product.

TERMINATION of this NOA will occur after the expiration date or if there has been a revision or change in the materials, use, and/or manufacture of the product or process. Misuse of this NOA as an endorsement of any product, for sales, advertising or any other purposes shall automatically terminate this NOA. Failure to comply with any section of this NOA shall be cause for termination and removal of NOA.

ADVERTISEMENT: The NOA number preceded by the words Miami-Dade County, Florida, and followed by the expiration date may be displayed in advertising literature. If any portion of the NOA is displayed, then it shall be done in its entirety.

INSPECTION: A copy of this entire NOA shall be provided to the user by the manufacturer or its distributors and shall be available for inspection at the job site at the request of the Building Official.

This NOA consists of pages 1 through 5.

The submitted documentation was reviewed by Rafael Macedo.

APPROVED ASSEMBLIES:

System: 1-3/4" Snaplock Steel Panel x 18" Wide Steel Panel

Deck Type: Steel, Insulated

Deck Description: Metal roof deck 22 ga. B Deck. Minimum 33ksi

Slope Range: 2": 12" or greater

Maximum Uplift Pressure: See Table A Below

Deck Attachment: Minimum 22 gage steel deck shall be secured 6" o.c. to structural supports spaced a 5' o.c. with one (1) #12 x 1-1/4" Hex Washer Head self drilling screws fastened at the bottom of each flute (6" o.c.). Deck sidelaps shall be fastened 6" o.c. with #12 x 1-1/4" Hex Head self drilling screws.

Insulation: Minimum 3/4" thick and Maximum 4" thick of an approved rigid board insulation with current NOA having a minimum 20psi compressive strength fastened with approved #14 pancake head screws long enough to penetrate the steel deck through 3" diameter insulation plates. Fastening density shall be in compliance with applicable Building Code and Roofing Application Standard RAS 117.

Coverboard: A single layer of 1/2" DensDeck Roof Board was applied over the insulation fastened with approved #14 pancake head screws long enough to penetrate the steel deck through 3" diameter insulation plates.

Underlayment: One layer of any approved self-adhering membrane having a current NOA.

Fire Barrier: Any approved fire barrier having a current NOA. Refer to a current fire directory listing for fire ratings of this roofing system assembly as well as the location of the fire barrier within the assembly. See Limitation # 1.

Valleys: Valley construction shall be in compliance with Roofing Application Standard RAS 133 and with the current published installation instructions and details in Metal Alliance Inc's Installation Manual.

Metal Panels and Accessories: Install the "1-3/4" Snaplock Steel Panel x 18" Wide Steel Panel" including flashing penetrations, valleys, end laps and accessories in compliance Metal Alliance Inc's current, published installation instructions and in compliance with the minimum requirements detailed in Roofing Application Standard RAS 133.

Panels shall be installed along the male rib with Clips secured with #15 pan head self-tapping screws (2 per clip); the screws shall be of sufficient length to penetrate through the deck a minimum of 1/2". The female rib of panel is snapped over the male rib of panel. Panel clips shall be spaced a maximum distance listed below in **Table A**.

TABLE A MAXIMUM DESIGN PRESSURES		
Roof Areas	Field	Perimeter and Corner ¹
Maximum Design Pressures	-131.00 psf.	-161.00 psf.
Maximum Clip Spacing	17" o.c.	10" o.c.
1. Extrapolation shall not be allowed		

NOA-No.: 26-0402.07
Expiration Date: 06/25/31
Approval Date: 06/25/26

LIMITATIONS

1. Fire classification is not part of this acceptance; refer to a current Approved Roofing Materials Directory for fire ratings of this product.
2. The maximum designed pressure listed herein shall be applicable to all roof pressure zones (i.e., field, perimeters, and corners). Neither rational analysis, nor extrapolation shall be permitted for enhanced fastening at enhanced pressure zones (i.e., perimeters, extended corners and corners).
3. Panels may be rolls formed in continuous lengths from eave to ridge. Maximum lengths shall be as described in Roofing Application Standard RAS 133.
4. All panels shall be permanently labeled with the manufacturer's name and/or logo, city, state, and the following statement: "Miami-Dade County Product Control Approved" **or** with the Miami-Dade County Product Control Seal as seen below. All clips shall be permanently labeled with the manufacturer's name and/or logo, and/or model.

5. All products listed herein shall have a quality assurance audit in accordance with the Florida Building Code and Rule **61G20-3** of the Florida Administrative Code.
6. Panels may be shop or jobsite roll formed with machine model #(s) **SSH4900224** from Metal Alliance Coil Association, Inc.
