NOTICE OF ACCEPTANCE (NOA)

DAP Global, Inc.
1645 Manufacturers Drive
Fenton, MO 63026

SCOPE:

This NOA is being issued under the applicable rules and regulations governing the use of construction materials. The documentation submitted has been reviewed and accepted by Miami-Dade County RER - Product Control Section to be used in Miami-Dade County and other areas where allowed by the Authority Having Jurisdiction (AHJ).

This NOA shall not be valid after the expiration date stated below. The Miami-Dade County Product Control Section (in Miami-Dade County) and/or the AHJ (in areas other than Miami-Dade County) reserve the right to have this product or material tested for quality assurance purposes. If this product or material fails to perform in the accepted manner, the manufacturer will incur the expense of such testing and the AHJ may immediately revoke, modify, or suspend the use of such product or material within their jurisdiction. RER reserves the right to revoke this acceptance, if it is determined by Miami-Dade County Product Control Section that this product or material fails to meet the requirements of the applicable building code.

This product is approved as described herein, and has been designed to comply with the Florida Building Code including the High Velocity Hurricane Zone of the Florida Building Code.

DESCRIPTION: DAP StormBond® Roof Tile Adhesive

LABELING: Each unit shall bear a permanent label with the manufacturer's name or logo, city, state and following statement: "Miami-Dade County Product Control Approved", unless otherwise noted herein.

RENEWAL of this NOA shall be considered after a renewal application has been filed and there has been no change in the applicable building code negatively affecting the performance of this product.

TERMINATION of this NOA will occur after the expiration date or if there has been a revision or change in the materials, use, and/or manufacture of the product or process. Misuse of this NOA as an endorsement of any product, for sales, advertising or any other purposes shall automatically terminate this NOA. Failure to comply with any section of this NOA shall be cause for termination and removal of NOA.

ADVERTISEMENT: The NOA number preceded by the words Miami-Dade County, Florida, and followed by the expiration date may be displayed in advertising literature. If any portion of the NOA is displayed, then it shall be done in its entirety.

INSPECTION: A copy of this entire NOA shall be provided to the user by the manufacturer or its distributors and shall be available for inspection at the job site at the request of the Building Official.

This NOA renews NOA# 23-0327.12 and consists of pages 1 through 18.
The submitted documentation was reviewed by Rafael Macedo.

ROOFING COMPONENT APPROVAL:

Category: Roofing
Sub Category: Roof Tile adhesive
Materials: Polyurethane

SCOPE:

This approves **DAP StormBond® Roof Tile Adhesive** and **DAP StormBond® Roof Tile Adhesive Low GWP Adhesive** as manufactured by DAP Global, Inc. in Pacific, MO, as described in this Notice of Acceptance, designed to comply with the High Velocity Hurricane Zone of the Florida Building Code. For the locations where the pressure requirements, as determined by the applicable building code, do not exceed the design pressure values; as obtained by calculations in compliance with RAS 127, for use with approved flat, low, medium, and high profile roof tile systems using DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP Adhesive, and where the attachment calculations shall be done as a momentum based system.

PRODUCTS MANUFACTURED BY APPLICANT:

<u>Product</u>	<u>Dimensions</u>	<u>Test Specification</u>	<u>Product Description</u>
DAP StormBond® Roof Tile Adhesive – (Formerly Touch ‘n Seal StormBond Roof Tile Adhesive) Manufacturing Location #1	N/A	TAS 101	Single component Polyurethane foam roof tile adhesive. (HFC and HFO formulation)
DAP StormBond® Roof Tile Adhesive Low GWP – (Touch N’ Seal StormBond Low GWP Adhesive) Manufacturing Location #1	N/A	TAS 101	Single component Polyurethane foam roof tile adhesive.

PRODUCTS MANUFACTURED BY OTHERS:

Any Miami-Dade County Product Control Accepted Roof Tile Assembly having a current NOA which list uplift resistance values with the use of DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP Adhesive.

MANUFACTURING LOCATION:

1. Pacific, MO

NOA No.: 26-0514.07
Expiration Date: 07/21/31
Approval Date: 07/23/26

LIMITATIONS:

1. Fire classification is not part of this acceptance.
2. All approved products listed herein shall be labeled and shall bear the imprint or identifiable marking of the manufacturer's name or logo and following statement: "Miami-Dade County Product Control Approved" or the Miami-Dade County Product Control Seal as shown below.

3. DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP shall solely be used with flat, low, medium, and high tile profiles.
4. Minimum underlayment shall be in compliance with the Roofing Application Standard RAS 120.
5. Roof Tile manufactures acquiring acceptance for the use of DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP with their tile assemblies shall test in accordance with RAS 101 with section 10.4 as modified herein.

$$F' = \frac{\left(\frac{F}{2} \right) - W}{MS}$$

6. All products listed herein shall have a quality assurance audit in accordance with the Florida Building Code and Rule 61G20-3 of the Florida Administrative Code.

INSTALLATION:

1. DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP may used with any roof tile assembly having a current NOA that lists uplift resistance values with the use of DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP.
2. DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP shall be applied in compliance with the Component Application section and the corresponding Placement Details noted herein. The roof tile assembly's adhesive attachment with the use of DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP shall provide sufficient attachment resistance, expressed as a moment based system, to meet or exceed the moment resistance determined in compliance with Roofing Application Standards RAS 127. The adhesive attachment data is noted in the roof tile assembly NOA.
3. DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP and its components shall be installed in accordance with Roofing Application Standard RAS 120, and DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP Application Instructions.
4. Installation must be by a Factory Trained 'Qualified Applicator' approved and licensed by DAP Global, Inc.
5. Pressure treated wood filler block shall be required on all eave course of all tile profiles, except on two piece barrel tile.
6. Tiles must be adhered in freshly applied adhesive. Tile must be set within 4 minutes after DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP have been dispensed.
7. DAP StormBond® Roof Tile Adhesive and DAP StormBond® Roof Tile Adhesive Low GWP placement and minimum bead weight shall be in accordance with the 'Placement Details' herein. Each generic tile profile requires the specific placement noted herein.
