Mr. Walters,

As requested, attached please find CBE response as requested. Please note the survey is written very narrowly. In addition to recommending that the time period (only past 10 years) be expanded, as we all know that there has been very little construction in the past few years, I would recommend expanding the building TYPE as well. There are several building types that are very similar, particularly medical uses and/or substance abuse centers.

Thanks,
Alex

Vivian,

Thanks for including ELA in this request for qualifications.

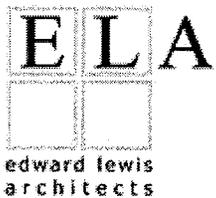

We have been involved with alterations and remodeling of Women's Shelter.

I am a firm believer that this project should be done from a Feminine Perspective and that one of our Local Lady Architects should be the architect and engineer for this project.

Thanks again for this invitation and we look forwards to working with you in the near future.

Regards
Ed

Good afternoon Vivian,

As requested, attached please find our executed Verification of Availability form for the above-mentioned project. Although we have completed similar projects, unfortunately, we have not completed a Domestic Violence Center within the past 10 years.

Thanks,

Daphne I. Gurri, AIA, LEED AP
